UNIVERSITY

Abraham S. Fischler School of Education

Catalog and Student Handbook 2012 – 2013

The Abraham S. Fischler School of Education Catalog and Student Handbook is the governing document for all program-related information and FSE policies/procedures. Please become familiar with the policies and procedures listed within. Failure to read this publication does not excuse students from the rules and procedures contained in it. Students are also bound by the NSU Student Handbook and should be familiar with its contents. Personal factors, illness, and contradictory advice from any other source are not acceptable reasons for seeking exemption from the contents of these publications. If there is any conflict between the information contained on program Web sites and that contained in this document and/or its addenda, the information in this document and/or its addenda prevail.

Abraham S. Fischler School of Education

Catalog and Student Handbook 2012–2013

Date of Publication: July 1, 2012

Printed Catalog Volume: 500

The Abraham S. Fischler School of Education (FSE) *Catalog and Student Handbook* are presented in one document. Policies and programs set forth in this catalog and student handbook are effective from July 1, 2012, through June 30, 2013. Regulations and requirements, including fees, are necessarily subject to change without notice at anytime at the discretion of the Nova Southeastern University (NSU) administration. FSE reserves the right to change curriculum, course structure, calendar, graduation requirements, and costs during the life of this publication. Updates and addendums will be made available as appropriate. Students are also bound by the *NSU Student Handbook* and should be familiar with its contents.

Nondiscrimination Statement

Consistent with all federal and state laws, rules, regulations, and/or local ordinances (e.g., Title VII, Title VI, Title III, Title II, Rehab Act, ADA, and Title IX), it is the policy of Nova Southeastern University not to engage in any discrimination or harassment against any individuals because of race, color, religion or creed, sex, pregnancy status, national or ethnic origin, nondisqualifying disability, age, ancestry, marital status, sexual orientation, unfavorable discharge from the military, veteran status, or political beliefs or affiliations, and to comply with all federal and state nondiscrimination, equal opportunity, and affirmative action laws, orders, and regulations.

This nondiscrimination policy applies to admissions; enrollment; scholarships; loan programs; athletics; employment; and access to, participation in, and treatment in all university centers, programs, and activities. NSU admits students of any race, color, religion or creed, sex, pregnancy status, national or ethnic origin, nondisqualifying disability, age, ancestry, marital status, sexual orientation, unfavorable discharge from the military, veteran status, or political beliefs or affiliations, to all the rights, privileges, programs, and activities generally accorded or made available to students at NSU, and does not discriminate in the administration of its educational policies, admission policies, scholarship and loan programs, and athletic and other school-administered programs.

Accreditations and Approvals

Nova Southeastern University is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools (1866 Southern Lane, Decatur, GA 30033-4097: Telephone number 404-679-4501) to award associate's, bachelor's, master's, educational specialist, and doctoral degrees. Nova Southeastern University was first accredited by the Southern Association of Colleges and Schools (SACS) as Nova University in 1971.

The Fischler School of Education at Nova Southeastern University is accredited by the National Council for Accreditation of Teacher Education (NCATE), www.ncate.org. This accreditation covers initial teacher preparation programs and advanced educator preparation programs at all university locations and online. The accreditation does not include individual courses that the institution offers to P-12 educators for professional development, relicensure, or other purposes. The accreditation does cover initial teacher preparation programs and advanced educator preparation programs at all university locations and online. These initial (19) and advanced (38) programs include the following:

Initial

Bachelor

1. Elementary Education
2. Exceptional Student Education
3. Prekindergarten and Primary Education
4. Secondary Biology Education
5. Secondary English Education
6. Secondary Mathematics Education
7. Secondary Middle Grades General Science Education
8. Secondary Social Studies Education

Master – Initial and add-on preparation

9. Computer Science Education
10. Elementary Education
11. English Education
12. Exceptional Student Education
13. Mathematics Education
14. PreK-Primary Education
15. Preschool Education
16. Science Education
17. Secondary Education
18. Social Studies Education
19. Spanish Language Education

Advanced Teacher Programs

Master

1. Brain-based Teaching
2. Cognitive and Behavioral Disorders
3. Curriculum, Instruction, and Technology
4. Early Literacy and Reading Education
5. Educational Leadership
6. Educational Media
7. Educational Technology
8. Environmental Education
9. Gifted Education
10. Instructional Design and Diversity Education
11. Multicultural Early Intervention
12. Reading and English for Speakers of Other Languages
13. Reading Education
14. Speech Language and Communication Disorders
15. Teaching and Learning
16. Teaching and Learning
17. Teaching English to Speakers of Other Languages
18. Urban Education

Specialist

19. Brain-based Teaching
20. Computer Science Education
21. Curriculum and Teaching
22. Curriculum/Instruction Management and Administration
23. Early Literacy and Reading Education
24. Educational Leadership
25. Educational Media
26. Elementary Education
27. English Education
28. Gifted Education
29. Mathematics Education
30. Reading Education (Reading Specialist)
31. School Counseling
32. School Psychology
33. Science Education
34. Teaching English to Speakers of Other Languages
35. Technology Management and Administration

Doctoral

36. Educational Leadership (Building Level)
37. Educational Leadership (District Level)

In addition to accreditation by NCATE, specific programs at NSU have been recognized by their specialized professional associations (SPAs). These programs include the following:

- Association for Childhood Education International (ACEI) – M.S. in Elementary Education
- Educational Leadership Constituent Council (ELCC) – M.S., Ed.S., and Ed.D. in Educational Leadership
- National Association for the Education of Young Children (NAEYC) – B.S. and M.S. in PreK-Primary Education

The Master's Degree Program in Speech-Language Pathology, offered through the Abraham S. Fischler School of Education, is approved by the Florida and Nevada Departments of Education and accredited by the Council on Academic Accreditation in audiology and speech-language pathology of the American Speech-Language-Hearing Association (ASHA).

Nova Southeastern University's Graduate Teacher Education Program is licensed by the state of Florida, by the Arizona State Board for Private Postsecondary Education, and by the Nevada Commission on Postsecondary Education. Nevada's program of professional licensure is based upon experience, academic degree, and completion of specific coursework in subject areas. Nova Southeastern University has been granted Accreditation for the Multiple Subject Teacher Preparation Program by the California Committee on Accreditation, Commission on Teacher Credentialing, 1900 Capitol Avenue, Sacramento, CA 95814- 4213; (916) 322-6253.

State Disclosures

The following states require these disclosures:

Arizona

Nova Southeastern University is licensed to operate in Arizona by the Arizona State Board for Private Postsecondary Education.

Indiana

This institution is regulated by: The Indiana Commission on Proprietary Education, 302 West Washington Street, Room 201, Indianapolis, Indiana 46204. In-state toll-free number, 800-227-5695 or (317) 232-1320.

Nevada

Nova Southeastern University's Master of Science in Speech-Language and Communication Disorders program, Master of Science in Education program, and the Doctor of Education program are licensed by the Nevada Commission on Postsecondary Education. The Las Vegas site includes classrooms, technology labs, and administrative offices. All facilities conform to Clark County building, fire, and business license requirements.

Oregon

This school is a unit of a nonprofit corporation authorized by the State of Oregon to offer and confer the academic degree described herein, following a determination that state academic standards will be satisfied under OAR 583-030. Inquiries concerning the Standards or school compliance may be directed to the Office of Degree Authorization, 1500 Valley River Drive, Suite 100, Eugene, Oregon 97401.

South Carolina

Nova Southeastern University is licensed by the Commission on Higher Education, 1333 Main Street, Suite 200, Columbia, South Carolina 29201; 803-737-2260. Licensure indicates only that minimum standards have been met; it is not equivalent to, or synonymous with, accreditation by an accrediting agency recognized by the U.S. Department of Education.

Vermont

Credits earned at Nova Southeastern University are transferable at the discretion of the receiving school. Students who wish to transfer credit should contact the admissions office of the receiving school for information. In the event that a decrease in enrollment makes continuing a program academically nonviable, or if the program is forced to close for any other reason, provisions will be made for students to continue the program at another site without additional cost to the student. If it is not possible to provide a completion alternative, students will be given a full refund of tuition and fees.

Virginia

Nova Southeastern University is certified to operate by the State Council of Higher Education for Virginia, 101 N. 14th Street, James Monroe Building, Richmond Virginia, 23219; (804) 225-2600. The physical location of Nova Southeastern University's main campus is 3301 College Avenue, Fort Lauderdale, FL 33314. As of this printing, the Doctor of Education program is offered at the following locations in Virginia:

Marymount University

2807 North Glebe Road
Arlington, VA 22207

Norfolk State University

700 Park Avenue
Norfolk, VA 23504

Stratford Inn & Conference Center

2500 Riverside Drive
Danville, VA 24540

Roanoke Higher Educational Center

108 North Jefferson Street, Suite 208
Roanoke, VA 24016

Washington

Nova Southeastern University is authorized by the Washington Higher Education Coordinating Board (HECB) and meets the requirements and minimum educational standards established for degree-granting institutions under the Degree Authorization Act. This authorization is subject to periodic review, and authorizes Nova Southeastern University to offer the following program: Doctor of Education with specializations in: Educational Leadership; Health Care Education; Human Services Administration; Instructional Leadership; Instructional Technology and Distance Learning; Organizational Leadership; Special Education; and Speech-Language Pathology. None of these programs are intended to lead to teacher certification. Teachers are advised to contact their individual school districts to determine whether this program may qualify for salary advancement. Any person desiring information about the requirements of the Act or the applicability of those requirements to the institution may contact the HECB office at P.O. Box 43430, Olympia, WA 98505-3430.

Prospective Washington state students are advised to contact the Office of the Superintendent of Public Instruction at (360) 725-6320 or profed@k12.wa.us to determine whether this education program is approved for teacher certification or endorsements in Washington State. Additionally, teachers are advised to contact their individual school district as to whether this program may qualify for salary advancement.

Wisconsin

In Wisconsin, students may contact the Educational Approval Board (EAB) at (608) 266-1995 if complaints are not satisfactorily resolved with the institution.

All field-based clusters meet the same accreditation requirements as on-campus programs. In addition, all clusters outside Florida are licensed in the states in which they operate.

Meeting Facilities

Nova Southeastern University leases classroom facilities in accordance with local health, fire, and safety standards. All facilities are selected on the basis of their conduciveness to learning.

Professional Memberships

Nova Southeastern University holds memberships in the following organizations:

American Association for Higher Education (AAHE)
American Association of Colleges for Teacher Education (AACTE)
American Council on Education (ACE)
Association for Institutional Research (AIR)
Association of American Colleges and Universities (AAC&U)
Association of Independent Schools of Florida (AISF)
Association of Governing Boards of Universities and Colleges (AGB)
Coalition of Essential Schools (CES)
College Board
Commission for Independent Education
Conference of Southern Graduate Schools (CSGS)
Council of Graduate Schools (CGS)
Council of Independent Colleges (CIC)
Educational Records Bureau (ERB)
Florida Association of Collegiate Registrars and Admissions Officers (FACRAO)
Florida Council of Independent Schools (FCIS)
Foundation for Independent Higher Education (FIHE)
Hispanic Association of Colleges and Universities (HACU)
Independent Colleges and Universities of Florida (ICUF)
NAFSA: Association of International Educators
National Association of College and University Attorneys (NACUA)
National Association of College and University Business Officers (NACUBO)
National Association of Independent Colleges and Universities (NAICU)
National Association of Independent Schools (NAIS)
Society for College and University Planning (SCUP)
Southeast Florida Career Consortium of Private Universities (SFCC)
Southern Association of Colleges and Schools (SACS)
Southern Association of Colleges and University Business Officers (SACUBO)
University Continuing Education Association (UCES)

Highly Qualified Teachers

The No Child Left Behind Act (NCLB) requires that all candidates of core academic subjects be “Highly Qualified” (<http://www2.ed.gov/nclb/methods/teachers/stateplanfacts.html>). Local district and state requirements may differ on these requirements. In order to meet the requirements for your position, contact your district or state certification/licensure office for additional job requirements. For additional information on this requirement, review the following:

Florida

Consult information in the Narrative section of the most recent Florida Course Code Directory (e.g., <http://www.fldoe.org/articulation/CCD/files/CCDNarrative1213.doc> (pages 11-13).

Nevada

For additional Nevada requirements for “Highly Qualified Teachers,” review http://nde.doe.nv.gov/Accountability_NCLB.htm and Nevada DOE for HQT in ESE (http://nde.doe.nv.gov/SpecialEdResources/HQ_SpEd_TA.pdf).

Approved Programs in Teacher Education

Approved programs in teacher education are areas of study that are reviewed by state departments of education. During the review process, university faculty members participate in self-evaluations of content and program areas to meet state guidelines.

The NSU approved programs of study in teacher education, and respective professional competencies and standards, are as follows:

Specialization Areas	Level	NSU Program Location	Florida State Approved		Nevada State Approved	
			Initial	Add-On / Endorsement	Initial	Endorsement
Autism	M.S.	FSE		X		X
Biology Education (6-12)	B.S.	FSE	X

National Council of Accreditation for Teacher Education (NCATE) Program Approvals

The following programs have been reviewed during the initial NCATE unit review (October 2011) and/or through the NCATE SPA (Specialized Professional Association) review. This chart is intended as a guide to help students choose programs that need to be NCATE-approved in order to receive certification or licensure in their states. Before beginning any program, applicants should contact the specific state department of education for requirements and current information regarding teacher certification/licensure.

NA = There is no Specialized Professional Association for this specialization.

Specialization	NCATE Unit Review	Name of NCATE SPA Recognition
Bachelor of Science in Education		
Elementary Education (Florida with ESOL endorsement) (Nevada)	X	Association for Childhood Education International (ACEI)

NSU Mission Statement

The Mission of Nova Southeastern University, a private, not-for-profit institution, is to offer a diverse array of innovative academic programs that complement on-campus educational opportunities and resources with accessible distance learning programs to foster academic excellence, intellectual inquiry, leadership, research, and commitment to community through engagement of students and faculty members in a dynamic, life-long learning environment.

Vision 2020 Statement

By 2020, through excellence and innovations in teaching, research, service, and learning, Nova Southeastern University will be recognized by accrediting agencies, the academic community, and the general public, as a premier, private, not-for-profit university of quality and distinction that engages all students and produces alumni who serve with integrity in their lives, fields of study, and resulting careers.

President's Message

We are honored that you have selected Nova Southeastern University and the Abraham S. Fischler School of Education. Teaching is an honorable profession, a calling. Now more than ever, there is a need for great educators.

By choosing the Fischler School of Education, you share with us a commitment to excellence in teaching and human services. You'll find that our practical, reality-based curriculum allows us to prepare our graduates for a lifetime of learning and success.

As President of NSU, I welcome you to our family, whether you are a full-time student, a working professional joining us part-time, or an online student from another part of the world. We have students and alumni across our nation and in many countries around the world. Fischler graduates have a special bond, and you can look forward to joining a very select group.

As NSU's Vision states, we promise "to produce alumni who serve with integrity in their lives, fields of study and resulting careers." With the support of Nova Southeastern University, you will make a significant difference to your students, your community and, quite possibly, the world.

George L. Hanbury II, Ph.D.
President

FSE Mission Statement

The Abraham S. Fischler School of Education is dedicated to the enhancement and continuing support of teachers, administrators, trainers, and others working in related helping professions throughout the world. The school fulfills its commitment to the advancement of education by serving as a resource for practitioners, both novice and experienced, and by supporting them in their professional self-development.

Because of its commitment to the working professional, the Fischler School offers alternative delivery systems that are adaptable to practitioners' work schedules and locations. School programs anticipate and reflect the needs of practitioners to become more effective in their current positions, to fill emerging roles in education and related fields, and to be prepared to accept changing responsibilities within their own organizations.

Dean's Message

On behalf of the many members of the Abraham S. Fischler School of Education learning community, I offer you warm regards and a sincere pledge to provide you with quality instruction and outstanding service.

At Fischler, we are committed to the successful enhancement of your professional career. To that end, our school offers excellent instruction, cutting-edge technology, and supportive infrastructure to enhance your efforts. We maintain one of the largest library databases available online, and we employ a host of new initiatives designed to create new approaches to teaching and learning.

We consider our students to be very talented and we make every effort to engage them fully in the acquisition of new knowledge. As a result the vast majority of our students find the academic journey to be productive, rewarding, and insightful. We wish the same for you and welcome you to the journey of a lifetime.

H. Wells Singleton, Ph.D.
Dean

NSU Core Values

In support of its educational mission, Nova Southeastern University is committed to and values the following:

- Academic Excellence
- Student Centered
- Integrity
- Innovation
- Opportunity
- Scholarship/Research
- Diversity
- Community

FSE Compact between Faculty and Students

The Compact between Faculty and Students of the Abraham S. Fischler School of Education is a declaration of a continuous commitment to supporting a vibrant community for all educators and students. Respect is one of the fundamental principles that serve to anchor this community in mutual ways. It is also the driving force for growing and enriching a productive, engaging, and successful community of learners. The purpose of this Compact is to provide behavioral guidelines that will foster, clarify, and energize Fischler's commitment to its educational mission.

Commitments of Faculty

We pledge our utmost efforts to ensure that we will:

1. Promote students' intellectual and professional growth.
2. Respond to student inquiries in a timely manner.
3. Provide substantive feedback to posts and assignments in a timely manner.
4. Provide support to students and be willing to work with students when obstacles arise in their academic and/or personal lives.
5. Be receptive to student feedback.
6. Endeavor to make learning an engaging and interactive experience in all delivery models.

Commitments of Students

We pledge our utmost efforts to ensure that we will:

1. Take responsibility for being an active participant in the learning process.
2. Submit original and quality work in a timely manner.
3. Respond to faculty in a timely manner.
4. Exhibit professional behavior.
5. Be considerate of times when faculty may be less available.

General Admission Requirements

The following are general admission requirements that apply to all prospective Abraham S. Fischler School of Education (FSE) graduate students. Additional admission requirements for each program are outlined within each program's section in this catalog. For assistance with the admission process, please contact the Office of Student Services (toll-free at 800-986-3223, ext. 28500) or visit <http://www.nova.edu/gradadmissions>.

1. All prospective students must submit a completed application with a \$50.00 non-refundable fee. (A \$50.00 application fee is applicable for each application submitted to Nova Southeastern University.)
2. Final, official transcripts from **all** previously attended post-secondary institutions are required. Transcripts should be forwarded directly from the issuing institution in a sealed envelope in order to be considered an official transcript. Applicants with transcripts from institutions that generate electronic transcripts should provide this email address when submitting their transcript request: electronictranscript@nova.edu
 - Photocopies and facsimiles will not be accepted as final, official transcripts.
 - Admission decisions are based on degrees earned at regionally accredited institutions or an official approved equivalent such as an evaluation by one of the National Association of Credential Evaluation Services (NACES) approved agencies. The evaluation must include a course-by-course analysis and list all course subjects with United States semester credits and a GPA on a 4.0 scale. For more information, refer to the *Transcript Evaluation* section.
3. Applicants may be provisionally admitted based on a preliminary review of unofficial transcripts and/or program-specific admission requirements. However, full admission to any degree program requires the submission of all final, official documents required for admission within 90 calendar days from the official start date of the term.
 - Once provisional acceptance is granted, students who do not attain full-admittance within 90 calendar days from the official start date of the term, will not be permitted to continue his/her studies. Registration will be prohibited and other services may be suspended.
4. Upon acceptance, all students are required to complete an Enrollment Agreement (applies to students residing in Arizona, California, Indiana, Missouri, and Nevada only).

Admission Application Deadlines

Applications for admission are accepted on a rolling basis for all graduate programs throughout the calendar year. An Admissions Committee reviews applications for admission to the Master of Science in Speech-Language and Communication Disorders program. An Admissions Committee reviews applications for admission to the Doctoral Program in Speech-Language Pathology (SLP.D.). Enrollment in a cohort will occur one time per year.

All application documents and materials must be mailed to:

Nova Southeastern University
Enrollment Processing Services
Attn: Abraham S. Fischler School of Education
3301 College Avenue
P. O. Box 299000
Fort Lauderdale-Davie, Florida 33329-9905

Non-Native English Speakers

Applicants who have indicated a language other than English as their primary language on the application form will need to demonstrate English Language proficiency by one of the following methods below. Test results must be sent directly from the testing agency to the Admissions department (see above address). Proof of English language competency can also be in the form of successful completion of a degree at an approved United States institution of higher education.

- a. TOEFL score of 213 on the computerized test, 550 on the paper test format, or 79 on the Internet format
- b. IELTS score of 6.0
- c. College Level Freshman English course passed with a grade of C or higher in a freshman level English composition course at a U.S. regionally accredited institution
- d. GMAT score of 450
- e. GRE scores of 1000 (combined Verbal and Quantitative scales only) **for tests taken prior to August 1, 2011** or GRE scores of 300 (combined Verbal and Quantitative scales only) **for tests taken on or after August 1, 2011**

Transcript Evaluation

Applicants who do not hold baccalaureate or graduate degrees from institutions accredited by the Southern Association of Colleges and Schools (SACS) or another U.S. regional accrediting association must provide official documentation of degree equivalency for admission. This includes those who hold degrees from foreign institutions. The evaluation must include a course-by-course analysis and list all course subjects with United States semester credits and a GPA on a 4.0 scale by one of the NACES approved agencies.

Favorable evaluations will also be accepted by one of the evaluating agencies approved by the NACES. A current list of members can be viewed by visiting the NACES Web site at: <http://www.naces.org>

International Applicants

International applicants may be required to show verification of a student I-20 visa or permanent residency status. International candidates who intend to reside in the United States and who are required to obtain an I-20 must be full-time, degree-seeking students and must attend classes in the South Florida area or at any one of NSU's Student Educational Centers located in the State of Florida. For further information, contact the Office of International Students and Scholars at 800-541-6682, ext. 27240 or (954) 262-7240.

Concurrent Enrollment

FSE offers concurrent enrollment into additional graduate programs for recertification and/or professional development purposes. Current FSE students interested in concurrent enrollment must complete the appropriate admission application for the intended program of interest, along with the concurrent enrollment form. Students interested in concurrent enrollment must discuss the enrollment process with an Academic Advisor prior to registering for classes. Students interested in enrolling in another NSU school program (besides FSE) are not required to complete a concurrent enrollment form.

CAPP Degree Evaluation

The *Curriculum, Advising and Program Planning (CAPP)* Degree Evaluation system allows students to compare their completed coursework against the degree requirements published in this college catalog. This useful reference tool helps students track progress towards degree completion and is available through SharkLink, <https://sharklink.nova.edu/cp/home/displaylogin>, the university's interactive online portal. Please note that CAPP is not meant to replace an Academic Advisor or college catalog. The CAPP evaluation is a tool to help students track their progress. *CAPP Degree Evaluations* are not official transcripts. Students should consult their academic advisor/program office for detailed program requirements and course options. Final approval for the completion of graduation requirements is granted by the program office. For further information about CAPP Degree Evaluation, please visit the Registrar's Web site <http://www.nova.edu/capp>.

Change of Program of Study

Students who decide to change a concentration or specialization must contact an academic advisor. Transfer credit may not be applicable in all programs of study. Admissions requirements, degree requirements, tuition, and policies may differ based on the program criteria. Students should contact the Academic Advising Department to discuss the possible impact of the change prior to registering for courses outside the current program of study.

Course Audit

A student may be permitted to audit a course "not for credit" under the following conditions:

1. There is space available in the course,
2. The instructor has agreed to accept the individual student,
3. The student attends the course meetings, participates in the discussions, and does the assigned readings,
4. No papers, tests, or exams are required, and
5. The student is registered and has paid for the term in question.

No change in registration status, other than withdrawal, is permitted after the course begins. A student who completes auditing a course will be awarded a grade; however, the grade carries no credit; does not count towards graduation requirements, and does not become a part of the student's Cumulative Grade Point Average (CGPA). Audit grades do not count towards meeting graduation requirements, and no credit will be awarded.

Individuals interested in auditing a course, who are not currently enrolled in a Master of Science in Education (M.S.),

Educational Specialist (Ed.S.), Doctor of Education (Ed.D.), or Doctor of Philosophy (Ph.D.) program, must formally apply to the Abraham S. Fischler School of Education. Upon admission, students will be eligible to register for class.
Note: Courses that are audited are not eligible for financial aid.

Educator Certification/Licensure Requirements

The requirements for educator certification/licensure differ from state to state. Some states do not grant initial certification/licensure unless transcripts are endorsed as having met that state's approved program requirements.

In Florida, candidates graduating from a state-approved program and who have passed all portions of the Florida Teacher Certification Exam (FTCE), or the Florida Educational Leadership Exam, are eligible for a professional certificate or endorsement. Actual teacher certification or endorsement is awarded by the Florida Department of Education.

In Nevada, candidates graduating from a state-approved program and who have passed all portions of the Praxis II testing requirements, are eligible for licensure or endorsement. Actual teacher licensure or endorsement is awarded by the Nevada Department of Education.

A state department of education reserves the right to change requirements leading to certification/licensure at any time. Consequently, NSU reserves the right to change requirements in a state-approved program, with or without prior notice, to reflect new state mandates.

Nova Southeastern University programs may not meet a state's certification and/or licensure requirements. Before beginning any program, applicants should contact the specific state department of education for requirements and current information regarding teacher certification/licensure.

The addresses for the Florida and Nevada Departments of Education are as follows:

Florida Department of Education	Nevada Department of Education
Bureau of Educator Certification	Southern Nevada Office of Teacher Licensure
Turlington Building, Suite 201	9890 South Maryland Parkway
325 West Gaines Street	Suite 231, Room 234
Tallahassee, Florida 32399-0400	Las Vegas, Nevada 89183
http://www.fldoe.org/edcert	http://nvteachers.doe.nv.gov
Telephone Service:	Telephone Service:
U.S. Domestic: 800-445-6739	(702) 486-6458 (8:00 am-5:00 pm PST)
Outside U.S.: 850-245-5049	Fax: (702) 486-6450

Certification through Course-by-Course Analysis by the Florida Department of Education

Courses are offered for students who already possess a bachelor's degree in fields other than education and who need to obtain certification in specific content areas (see Programs of Study in this catalog). Certification-only students assume full risk in interpreting the letter of eligibility needs; therefore, NSU recommends that certification-only students discuss anticipated course offerings with the Teacher Certification Office of the Florida Department of Education, and/or the local school district certification office before registering for any courses.

Graduation

Degree Completion Requirements

In order to graduate from any program of study, students must complete all required prerequisites, program coursework, capstone experiences, and testing requirements for the given program of study. Students must submit a *Degree Application* for conferral. Each program has different requirements; it is the student's responsibility to complete all requirements outlined in the program of study that are in effect at the time of initial enrollment. Academic Advisors and Doctoral Enrollment Counselors are available to explain all degree completion requirements.

The dissertation in its final form must be submitted to the Applied Research Center (ARC) at least 30 days before the expected date of degree conferral.

Degree Conferral

Nova Southeastern University will recommend the candidate to the Board of Trustees for the degree *only* upon completion of all program requirements for the degree. Degrees are awarded at the end of the official term of the candidate's last term of enrollment. All financial obligations with the university must be cleared at the time of degree conferral.

For all students seeking a degree, a degree application must be filed with the university at least 30 days before the date anticipated for degree conferral. All degree requirements must be completed at least 30 days prior to the date of

expected degree conferral.

For doctoral students, submission of the copy of the completed dissertation to the Applied Research Center (ARC) *does not* constitute a degree application for the doctoral degree.

Diplomas

The diploma indicates the degree the student has earned (e.g., doctor of education) and the date of conferral; the diploma does not indicate major. The academic transcript (the official record of coursework at NSU), indicates the degree earned, major field of study concentration or minor (if any), date of degree conferral, and date of academic completion. After degrees have been conferred and all financial obligations to the university have been met, diplomas and transcripts are printed and sent to students by U.S. mail.

Commencement

The FSE undergraduate Commencement ceremony is held annually in May. The FSE graduate commencement ceremonies are held annually in June. Students are not required to attend commencement to have their degrees conferred.

Participation Eligibility for FSE's Commencement Ceremony: Master's Degree, Educational Specialist Degree, and Doctoral Degree

Students must satisfy all NSU and FSE requirements, including degree conferral, prior to June 1 of the same year. Please visit the University's Registrar Web site at <http://www.nova.edu/registrar/instructions.html> for further information on commencement and degree conferral.

Transfer of Credit

A maximum of nine semester hours of graduate credits will be considered if:

- The requirements for the student's specialization or certification area allow for transfer of credit.
- The credits were earned within the preceding five years from the first term of enrollment in the FSE program.
- The credits were earned at a regionally accredited graduate institution.
- The content of the courses requested for transfer is equivalent to the study area courses in the program.
- The courses were not used towards a prior degree.
- The grade earned for each course was a B or better. A grade of P (Pass) or CR (Credits) or other such grade cannot be accepted as equivalent to B unless it can be officially verified as such.
- An official transcript has been received by the FSE Office of Student Services to aid in the evaluation of the courses under consideration for transfer.
- A request for [Transfer of Credit](#) form has been completed by the student and mailed to the FSE Office of Student Services. Forms are available at all FSE sites, as part of the admissions application packet, or on the program's Web site at <http://www.schoolofed.nova.edu/ssso/>.
- An Academic Advisor has given written approval for the transfer of credit.

The student must provide the Office of Academic Affairs with a syllabus and catalog description of the courses for which transfer is sought. Faculty members evaluating transfer courses may require the student to provide further documentation and supporting materials such as class notes.

No transfer of credit will be allowed for the following:

- DSO 8000—Doctoral Student Orientation
- EDD 8000—Foundations of Graduate Studies in Education
- EDU 5000—Orientation to the Graduate Teacher Education Program
- Any transcribed certificate program
- Any course in the Master's of Arts in Teaching and Learning curriculum
- Any course in the Master's of Science in Brain-Based Teaching curriculum
- Any course in the Master's of Science in Medical Education curriculum
- Any course in the Master's of Science in Instructional Technology and Distance Education curriculum
- Core courses—CUR 526, CIT 502, EDU 708, NGTE 700 and NGTE 720
- Capstone—Administrative Internship, Applied Field Experience Selections, Applied Professional Experience, Arts Leadership Institute, Educational Applied Research Project, Field-Based Project, Supervised Reading Practicum,
- Supervised Teaching Internship or Supported Teaching Externship, and CIT 609 and CIT 610

Credits transferred in will decrease the overall total credits required for degree programs, but they will not be computed in the student's overall grade point average. Because state requirements for additional certification coverage may change, and passing scores on state certification examinations are required in many cases, it is mandatory that all students pursuing additional certification coverage consult an Academic Advisor concerning current state policies that may affect transfer of credit.

Credits earned at Nova Southeastern University are transferable only at the discretion of the receiving school. Students who wish to transfer credits from NSU should contact the admissions office of the receiving school for information.

Please refer to specific programs for additional transfer of credit information.

Tuition and Fees

FSE tuition rates are available online at <http://www.fischlerschool.nova.edu/current-students/academic-calendar>. University Student Services Fees must be paid in addition to tuition each term. The Student Services Fees will amount to \$300 per semester for students enrolled in two or more courses for a combined total of four or more credits, not to exceed \$750 per year. Students enrolled in a single course of three credit hours or less will pay \$150 per semester, not to exceed \$900 per year. Students taking quarterly programs will be adjusted to the same as those of semester students. The Student Services Fee will go towards the introduction of new programs and the enhancement of existing activities concerning health, safety, welfare and technology services available to NSU students.

Tuition and fees are subject to change without notice.

Students enrolled in cooperative/initiative programs may pay modified tuition rates and should speak to a program representative regarding tuition information. Per NSU policy bills are mailed to students about the middle of every month. Students will receive a bill which shows any activity on the account or any balance due to NSU. Students with credit balances (usually deposits for future terms), also receive bills.

Please Note: Students should not wait to receive a statement before paying their tuition and fees. Timing differences may result in late fees.

Following is a list of tuition rates effective July 1, 2012. Tuition rates are posted per credit hour. Students enrolled in Applied Dissertation Services pay per term.

Tuition and Fee Schedule

Master Degrees (per credit hour)		Doctorate Degrees (per credit hour)	
Brain-Based Teaching (M.S.)	\$450	Doctor of Education (Ed.D.) (including DEDL, DHEL, DOL, ITDE)	\$955
Master of Arts in Teaching and Learning (M.A.T.L.)	\$500	Doctor of Education in Child, Youth and Human Services	\$830
Master of Science in Education (M.S.)	\$730	Doctor of Speech-Language Pathology (SLP.D.)	\$960
Master of Science in Instructional Design and Diversity Education	\$730	Doctor of Philosophy (Ph.D.)	\$1200
Master of Science in Instructional Technology and Distance Education	\$730	Applied Dissertation Services per semester/term	\$2400
Master of Science in Leadership	\$600	Other Fees	
Master of Science in LSCA	\$475	Application Fee (non-refundable)	\$50
Master of Science in Medical Education	\$730	Degree Application Fee	\$100
Master of Science in Speech Language and Communication Disorders	\$995	Internship Fee	\$100
Educational Specialist Degree (per credit hour)		Lab Fee	\$200
Brain-Based Teaching (Ed.S.)	\$450	Late Registration Fee	\$100
Educational Specialist (Ed.S.)	\$730	Professional Seminar Fee (EDU 601/602)	\$365
		Accomplished Practices Seminar (EDU 600)	\$365
		Teacher Education Simulation (EDU 620)	\$365
		Registration Fee	\$30
		Student Services Fee (one course – 3 credit hours or less)	\$150
		Student Services Fee (one course – 4 credit hours or more/ two or more courses)	\$300
		Transcript Fee	\$10

**Abraham S. Fischler
School of Education**

Undergraduate Programs

Undergraduate Programs in Education

The Abraham S. Fischler School of Education (FSE) offer undergraduate programs in education through a cooperative agreement with NSU's Farquhar College of Arts and Sciences. Courses are delivered by both Farquhar and Fischler faculty.

FSE undergraduate programs include the following:

Associate of Arts (A.A.) with an emphasis in Early Childhood Education

Bachelor of Science (B.S.)

Majors

- Applied Professional Studies with a concentration in Teaching and Learning
- Education with a concentration in Child Development
- Education with a concentration in Elementary School Studies
- Education with a concentration in Exceptional Learning Styles
- Elementary Education/ESOL, Florida Approved Program
- Elementary Education, Nevada Approved Program
- Exceptional Student Education/ESOL, Florida Approved Program
- Exceptional Student Education, Nevada Approved Program
- Middle Grades English Education/ESOL Endorsement, Florida Approved Program
- Middle Grades General Science Education, Florida Approved Program
- Middle Grades Social Studies Education, Florida Approved Program
- Prekindergarten Primary Education/ESOL (Age 3 – Grade 3), Florida Approved Program
- Secondary Biology Education, Florida Approved Program
- Secondary English Education/ESOL Endorsement, Florida Approved Program
- Secondary Mathematics Education, Florida Approved Program
- Secondary Social Studies Education, Florida Approved Program

Minors

- Education
- Speech-Language and Communication Disorders

For undergraduate curriculum, course descriptions, policies and procedures, please access the current NSU Undergraduate Catalog at <http://www.undergrad.nova.edu/catalog/>.

Abraham S. Fischler
School of Education

Master's Programs

Master of Arts in Teaching and Learning (MATL)

(Major Code F750)

The Master of Arts in Teaching and Learning (MATL) degree has been developed by the Abraham S. Fischler School of Education (FSE) and Pearson Learning Solutions to meet the needs of classroom practitioners by linking theory to best practices in the classroom. Coursework is structured within the context of three essential areas that impact today's classroom teachers: instruction, curriculum, and professional development. Through interaction with faculty members who are committed to the collaborative and integrative investigation of problems in practice, students will experience a comprehensive study of current educational research and critical analysis of classroom teaching and learning. Graduates of the MATL program will earn a Master of Arts in Teaching and Learning. **The MATL program is not designed to lead to certification or licensure.**

Students are placed in cohort groupings during their first block (course) and complete five sequential 6-credit blocks with the same cohort for a total of 30 credits. Students typically complete the formal instructional portion of the program in 12 months of study; however, students are allowed up to 6 years in which to complete all degree and program requirements. Please refer to M.A., M.S., and Ed.S. Program Completion Timeline in the *Student Handbook* section of this catalog.

MATL education courses are conducted entirely online, allowing students to receive and submit coursework and interact with participants and professors via Internet access. Participants log in to the course management system to complete activities and assignments and interact with the professor and other students in the class. Campus attendance is not required. All registration, correspondence, and course participation are conducted online.

Important Notes: Prior to enrollment in a graduate course, all applicants must register for EDU 5000: Orientation to the Graduate Teacher Education Program, during their first session/term. No transfer credit is accepted into this program.

MATL Mission Statement

It is the mission of the MATL degree program to meet the needs of classroom practitioners by linking theory and best practices in the classroom using instruction, curriculum, and professional development with a special emphasis on comprehensive study of educational research and critical analysis of classroom teaching and learning.

Admission Requirements

Please see General Student Information in the catalog for admission requirements. The following are specific additional admission requirements for entry into the MATL program:

- a. An official transcript from a regionally accredited institution indicating a conferred bachelor's degree.
- b. Evidence of a minimum cumulative grade point average (CGPA) of a 2.5, GRE scores of 1000 (combined Verbal and Quantitative scales only) **for tests taken prior to August 1, 2011** or GRE scores of 300 (combined Verbal and Quantitative scales only) **for tests taken on or after August 1, 2011**, or the Miller's Analogies Test (MAT) with a raw score of 50. (The tests must have been taken within the past 5 years from the date of application.)
- c. Applicants who do not meet the minimum CGPA or GRE requirements may enroll in a maximum of six (6) credit hours and must earn a grade of B or higher in each course during the first term of enrollment for conditional admission. Students who do not earn a grade of B or higher in each course may be subject to dismissal from the program.
- d. Current employment as a practicing teacher, and
- e. Valid Teaching Certificate/License.

Students must maintain employment as practicing teachers while enrolled in this program. It is suggested that students complete their Action Research Project within 60 days after the completion of their last block. Students who are unable to complete all degree or program requirements within the time allotted will be dismissed from the program.

Program Framework

While the MATL program is not intended as actual preparation for National Board for Professional Teaching Standards (NBPTS) certification, the program is designed to address the five NBPTS core propositions of accomplished teaching.

These include the following:

- Teachers are committed to students and their learning.
- Teachers know the subjects they teach and how to teach those subjects to students.
- Teachers are responsible for managing and monitoring student learning.
- Teachers think systematically about their practice and learn from experience.

- Teachers are members of learning communities.

The MATL program seeks to address the core propositions of the NBPTS through the following:

1. Integration of problem-based inquiry learning in every instructional course.
2. Content-rich videos featuring leading experts and researchers in the field, authentic classroom sequences and demonstrations that translate theory into practice, and case study analysis coupled with discussion of key issues and dilemmas surrounding the case study.
3. Interaction with academic specialists and colleagues.
4. Integration of professional portfolios and action research.

Program Learning Outcomes

The MATL program aims to impart the following skills:

1. Develop the skills and expertise to apply theoretical concepts and practical strategies to facilitate an enhanced learning environment in the classroom.
2. Learn how to conduct and implement action research as an integral tool in classroom instruction to promote teacher effectiveness.
3. Learn how to create a framework for demonstrating professional growth and reflection.

Transfer of Credit

The MATL program does not accept any transfer credits. All credits toward the degree must be earned while enrolled in the MATL program. Please see Transfer of Credit in the *General Student Information* section of the catalog for further information.

Graduation Requirements

Please refer to the *General Student Information* section, and the *M.S. in Education Graduation Requirements* section of the catalog to find all degree completion requirements.

Additional graduation requirements for the MATL program:

- Complete an Action Research Project and
- Professional Portfolio

Capstone

MATL students are required to complete an action research project and a professional portfolio. Please see course descriptions and syllabi for additional information.

Programs of Study

The MATL program offers a Master of Arts in Teaching and Learning with a specialization in one of the following areas:

- a. Curriculum and Instruction
- b. Elementary Reading
- c. Elementary Math
- d. K-12 Technology Integration

The following are programs of study for each of the specialization areas. The programs of study do not necessarily reflect the recommended course sequence. Programs of study are subject to change.

Graduate Orientation

EDU 5000: Orientation to the Graduate Teacher Education Program (0 credit)

Curriculum and Instruction Specialization

(Concentration Code F905)

EDUC 610: Classroom and Instructional Management (6 credits)
 EDUC 630: Action Research in Practice – Curriculum and Instruction (6 credits)
 EDUC 640: Cognitive Curricula (6 credits)
 EDUC 650: Instructional Modes and Technology (6 credits)
 EDUC 620: Instruction and Assessment for Diverse Classrooms (6 credits)

Total Credits Required for Degree Completion 30

Elementary Reading Specialization

(Concentration Code F553)

EDUC 610: Classroom and Instructional Management (6 credits)
 EDUC 661: Action Research in Practice—Reading (6 credits)
 EDUC 660: Reading Foundations and Instructional Interventions (6 credits)
 EDUC 662: Language, Learning, and Technology Across the Curriculum (6 credits)
 EDUC 620: Instruction and Assessment for Diverse Classrooms (6 credits)

Total Credits Required for Degree Completion 30

Elementary Math Specialization

(Concentration Code F552)

- EDUC 610: Classroom and Instructional Management (6 credits)
- EDUC 671: Action Research in Practice – Mathematics (6 credits)
- EDUC 670: Teaching and Assessing Mathematics through Technology (6 credits)
- EDUC 672: Best Practices for Teaching Mathematics Across the Curriculum (6 credits)
- EDUC 620: Instruction and Assessment for Diverse Classrooms (6 credits)

Total Credits Required for Degree Completion 30

K-12 Technology Integration Specialization

(Concentration Code F554)

- EDUC 610: Classroom and Instructional Management (6 credits)
- EDUC 681: Action Research in Practice—Technology (6 credits)
- EDUC 680: Computer Applications and Technology Across the Curriculum (6 credits)
- EDUC 682: Orchestrating Your Classroom with Technology (6 credits)
- EDUC 620: Instruction and Assessment for Diverse Classrooms (6 credits)

Total Credits Required for Degree Completion 30

Master of Science in Education

The Master of Science (M.S.) in Education offers professional and aspiring teachers and administrators a challenging and rewarding educational experience. Through its numerous specialization and certification/licensure options, current educators may add new certification/licensure areas and endorsements to their existing teaching certificate/license, renew their current certification/licensure areas, and increase their levels of expertise within their chosen specializations. Students with bachelor's degrees in other fields can also find specialization and certification/licensure options to enter the teaching profession. The M.S. in Education focuses on growth in professional practice, application of current research and theory to each student's professional work, acquisition and enhancement of leadership capacities, and the achievement of career objectives. Technological advancement will continue to move program delivery forward, enabling students to obtain their degrees in new and exciting ways, and from virtually any location.

Many of the M.S. in Education courses at Nova Southeastern University are designed to prepare PreK-12 educators with the knowledge and skills that they need for today's schools. These specialization programs of study are based on the Florida Educator Accomplished Practices that are based on the InTASC (Interstate New Teacher Assessment and Support Consortium) Model Core Teaching Standards. Competence in each Florida Educator Accomplished Practices, at the preprofessional level, is evaluated through course activities, assignments, and portfolio artifacts.

The M.S. in Education offers students with a bachelor's and/or graduate degree various opportunities to meet their educational, career, and professional goals. All specializations within the major share a common instructional system and mission, but each is designed to meet different needs. The program's goals are to prepare educators to meet the challenges of the profession and to reinforce the importance of the role of an educator in rapidly changing political, economic, and social environments.

Important Note: All applicants must register for EDU 5000: Orientation to the Graduate Teacher Education Program during the first session/term. The orientation is a requirement for all students.

Conceptual Framework

In order to provide quality programs that prepare effective educators, Nova Southeastern University provides teacher education programs that are structured around a conceptual framework (SUNRISE) that includes the following elements and characteristics:

Standards-based instructional and leadership programs that link theory to practice with the
Use of data for evaluation, ethical decision-making, and intervention for the
Needs and accommodations for diverse students who provide
Reflective and ethical practice based on meaningful field and clinical experiences as part of
Innovative and convenient postsecondary delivery systems with a
Shared responsibility for quality education programs and professional advocacy with stakeholders with an
Emphasis on technology and best practices for dynamic learning environments

Choosing the Degree Plan that Meets Your Career Goals

Many options are described in this catalog. The following serves as a guide to help applicants select the correct plan to meet personal and professional career goals.

Initial Certification Plan (State-Approved Programs)

The Initial Certification Plans are designed for individuals with baccalaureate degrees, in fields other than education, who wish to earn teacher certification/licensure AND a graduate degree at the same time by completing a state-approved program. Many states require completion of a "state-approved program" before they grant a teaching certificate/license.

State-Approved Programs

The State-Approved Programs are designed for individuals who already possess a baccalaureate or graduate degree in education and who wish to obtain a graduate degree, or "add on" a subject area to an existing teaching certificate/license, or increase their level of expertise in their current fields. Many states require teachers to complete a "state-approved program" before they can earn a teaching certificate/license.

Endorsement (Certification Add-on)

The Endorsement (Certification Add-On) plan is designed for practicing educators who hold a current teaching certificate/license and wish to add a subject or endorsement area.

Degree Only

The “Degree Only” plan is designed for individuals with a baccalaureate degree who wish to pursue a graduate degree in education. This plan is designed for applicants who do not wish to become certified or endorsed in a teaching area. This “Degree Only” plan is not designed to lead to certification or endorsement. If a student in a “Degree Only” plan decides to seek certification while still enrolled in the program, s/he needs to speak with an advisor about changing the degree program before graduation. This change may require additional program and testing requirements. To qualify for an additional teaching area or endorsement, prospective students must contact the state department of education to find out about requirements.

Non-degree

The non-degree plan is designed for individuals seeking recertification, professional development or continuing education credit.

Important Note: Before choosing a degree program, applicants are strongly encouraged to contact their state department of education, teacher certification/licensure office for specific certification requirements for the state where they intend to teach.

Admission Requirements

Please refer to *General Admission Requirements* in the General Student Information section of this catalog for the admission requirements for all graduate students. The following are specific requirements for entry into the M. S. in Education program:

1. An official transcript from a regionally accredited institution indicating a conferred bachelor’s degree.
2. Evidence of a minimum cumulative grade point average (CGPA) of a 2.5, **or** GRE scores of 1000 (combined Verbal and Quantitative scales only) **for tests taken prior to August 1, 2011** or GRE scores of 300 (combined Verbal and Quantitative scales only) **for tests taken on or after August 1, 2011**, or the Miller’s Analogies Test (MAT) with a raw score of 50. (The tests must have been taken within the past 5 years from the date of application.)

Note: Applicants who do not meet the minimum CGPA or GRE/MAT requirements may enroll in a maximum of six (6) credit hours and must earn a grade of B or higher in each course during the first term of enrollment for conditional admission. Students who do not earn a grade of B or higher in each course may be subject to dismissal from the program.

Admission Requirements for Initial Certification, Initial Licensure, and Approved Program Applicants

1. The Florida Department of Education requires passing scores on the CLAST (passed before July 1, 2002), or GKT, or GRE scores of 1000 (combined Verbal and Quantitative scales only) **for tests taken prior to August 1, 2011** or GRE scores of 300 (combined Verbal and Quantitative scales only) **for tests taken on or after August 1, 2011**, or Praxis I as a requirement for admission to initial certification plans and state-approved teacher education programs.
2. The Nevada Department of Education requires passing scores on Praxis I or CBEST as a requirement for admission to initial certification plans and state-approved teacher education programs.

Note: Applicants who possess a professional certificate or license are exempt from the testing requirements for admission.

Program Learning Outcomes

The Master of Science in Education program imparts the following:

1. Competence in the Florida Educator Accomplished Practices/InTASC Core Teaching Standards at the preprofessional level
2. Demonstration of content area competencies and skills
3. Proficiency in using technology to access information
4. Proficiency in applying theoretical and practical knowledge obtained in coursework through field experiences
5. Reflection on professional practices at the preprofessional level

Transfer of Credit

A maximum of nine semester hours of graduate credits in teacher education will be considered. Please refer to *Transfer of Credit* in the General Student Information section of the catalog for further information.

No transfer of credit will be allowed for the following courses:

- EDU 5000—Orientation to the Graduate Teacher Education Program
- Core course—CUR 526
- Capstone—Administrative Internship, Applied Field Experience, Applied Professional Experience, Arts Leadership Institute, Educational Applied Research Project, Field-Based Project, Supervised Reading Practicum, Supervised Teaching Internship or Supported Teaching Externship

Teacher Education Simulation Requirement

Students may be required to complete a simulation demonstrating competence in the Educator Accomplished Practices. Students will become familiar with the Educator Accomplished Practices in EDU 600: Accomplished Practices Seminar and demonstrate competence in the Educator Accomplished Practices in EDU 620: Teacher Education Simulation.

Note: The Teacher Education Simulation Requirement does not apply to students in the Educational Leadership Specialization.

Clinical Experiences

Clinical experiences are required as part of the teacher preparation for preservice teachers in approved programs. Depending on the program specialization, additional practicum or field experiences may be required. These requirements are specified in the program outline that is prepared by the Academic Advisor. For information on program outlines, contact an Academic Advisor at 800-986-3223, ext. 21559 or link to the GTEP Program Web site at <http://www.fgse.nova.edu/gtep>.

For additional information on preservice clinical experiences, contact an Academic Advisor at 800-986-3223, ext. 21559, or link to <http://www.schoolofed.nova.edu/gtep/icp/index.html> (initial certification plan students), or <http://www.schoolofed.nova.edu/gtep/fldexpl> (applied professional experiences).

Internship/Externship

The internship for preservice teachers is a 12-week experience (12-week course, 12 weeks of student teaching) that requires interning in an area school. Students will be placed at a school site by the Internship Coordinator in collaboration with a school district coordinator. Preservice teachers will gradually assume full responsibility for teaching the class to which they are assigned. The EDU 688 (Internship)/EDU 689 (Externship) is offered each academic year in the fall and winter terms at all sites. For information on the internship or externship, contact an Academic Advisor at 800-986-3223, ext. 21559, or link to <http://www.schoolofed.nova.edu/gtep/icp/index.html> (Initial Certification Plan students). Internship applications must be submitted six months in advance. Internship criteria must be fully met. Please contact the Office of Placement Services through their Web site at <http://www.schoolofed.nova.edu/gtep/icp/edu688.htm>.

Students in teacher preparation programs should refer to the EDU 688 *Internship Syllabus and Handbook* or the EDU 689 *Externship Syllabus and Handbook* for a complete explanation of policies and procedures. All questions about the internship or externship should be directed to the Teacher Education Program's Office of Placement Services (954) 262-7905.

Testing Requirements

Testing requirements must be satisfied prior to the conferral of the student's degree. Students are responsible for submitting official passing test scores to the Office of Student Services prior to degree conferral and commencement participation. The information below is specific for states where approved programs are offered.

Florida

The Florida Department of Education requires passing scores on the CLAST (passed before July 1, 2002), or GKT, or GRE scores of 1000 (combined Verbal and Quantitative scales only) **for tests taken prior to August 1, 2011** or GRE scores of 300 (combined Verbal and Quantitative scales only) **for tests taken on or after August 1, 2011**, or Praxis I as a requirement for Initial Certification Plans and State-Approved specializations of the teacher education program.

The state-approved specializations in the Graduate Teacher Education Program include the following:

- Autism (endorsement)
- Computer Science Education
- Educational Leadership
- Educational Media
- Elementary Education/ESOL
- Exceptional Student Education/ESOL
- Gifted Education (endorsement)
- Mathematics Education
- English Education/ESOL (Middle and Secondary)
- Prekindergarten - Primary Education/ESOL
- Prekindergarten Disabilities (endorsement)
- Reading Education
- School Counseling (For information on this specialization, please contact the NSU Center for Psychological Studies.)
- School Psychology (For information on this specialization, please contact the NSU Center for Psychological Studies.)
- Science Education
- Social Studies Education (Middle and Secondary)
- Spanish Language Education
- Speech-Language and Communication Disorders (M.S.) (For information on this specialization, please refer to the *M.S. in Speech-Language and Communication Disorders* section of this catalog.)
- Teaching English to Speakers of Other Languages (endorsement)

Initial Certification Plan. Prior to the completion of the state-approved program, Florida preservice educators must pass the Professional Education (PED) Examination and the appropriate Subject Area Exam (SAE). Degrees will not be conferred until all testing requirements are fulfilled and the necessary level of skill mastery has been successfully documented through the portfolio review process. Completion of Initial Certification plans of study requires passing scores on all sections of the Florida Teacher Certification Exam (FTCE).

State-Approved Programs. Completion of a Florida-approved program requires the passing of all sections of the appropriate Subject Area Exam (SAE). Degrees will not be conferred until all testing requirements are fulfilled and the necessary level of skill mastery has been successfully documented through the portfolio review process. Completion of a state-approved program requires passing scores on all sections of the Florida Teacher Certification Exam (FTCE).

State-Approved Educational Leadership. Completion of the Florida-approved program in Educational Leadership requires the passing of all sections of the Florida Educational Leadership Examination (FELE).

Nevada

Initial licensure seeking students in Nevada are required to pass the Praxis I (Pre-Professional Skills Test, PPST) or CBEST (California Basic Educational Skills Test). In addition, depending upon the specialization and license desired, Nevada students are required to pass the Praxis II (Subject Assessments) of subject area skills. Students are advised to confer with an Academic Advisor or local site personnel about the appropriate subtests. Students are also advised to contact the Nevada Department of Education's Teacher Licensing Office (<http://nvteachers.doe.nv.gov/>) with other questions on licensure.

The state-approved specializations in the Graduate Teacher Education Program include the following:

- Autism (endorsement)
- Computer Science Education
- Educational Leadership
- Educational Media
- Elementary Education
- Exceptional Student Education
- Gifted Education
- Early Childhood (Prekindergarten/PK-3)
- Reading Education
- Secondary Education
- Spanish Language Education with Bilingual Endorsement
- Speech-Language and Communication Disorders
- Teaching English to Speakers of Other Languages (TESOL)

All Other States

Students seeking certification in states other than Florida or Nevada, and who are enrolled in a state-approved program in the Graduate Teacher Education Program, must pass their specific state's test requirements.

Graduation Requirements

Please refer to Graduation in the *General Student Information* section of this catalog to find degree completion requirements. Any specific program completion requirements can be located within the specialization, or contact an Academic Advisor for additional information.

To complete the M.S. in Education program a student must:

- Successfully complete EDU 5000: Graduate Teacher Education Program Orientation,
- complete all required coursework;
- students starting the program in Fall 2012 will take EDU 600: Accomplished Practices Seminar and EDU 620: Teacher Education Simulation;
- students who began the program prior to Fall 2012 and have completed EDU 601, have the following options:
 - Complete the portfolio by taking EDU 602, **OR**
 - Complete the Teacher Education Simulation in EDU 620;
- students who began the program prior to Fall 2012 and have not taken EDU 601, may opt to take either EDU 601/602 or EDU 600/620;
- attain an overall 3.0 GPA;
- complete a capstone project (e.g., Applied Professional Experience, Internship, Practicum);
- complete all state testing requirements specified for your program specialization (contact an Academic Advisor);
- submit a degree application form and payment of diploma fee; and
- fulfill all financial obligations to the university.

All students must submit a *Degree Application* <http://www.nova.edu/registrar/instructions.html>

Important Note: Once a degree is conferred, it cannot be retroactively changed to another degree plan for any reason. Before choosing a degree program, applicants are strongly encouraged to contact their state department of education, teacher certification/licensure office for specific certification requirements for the state where they intend to teach.

Program Completion Timeline

Master's and Educational Specialist degree students are allotted six years, from the initial term of enrollment, in which to complete all program/degree requirements. Students unable to complete all program/degree requirements within this six year timeframe will be subject to dismissal. For exceptions and further information on the Master's Program Completion Timeline policy please refer to the Student Handbook section of the catalog.

Master of Science Degree Specializations and Endorsements Listing

- Athletic Administration
 - Brain-Based Teaching
 - a. Learning and Teaching
 - b. Reading and Literacy
 - Charter School Education/Leadership
 - Cognitive and Behavioral Disabilities
 - Computer Science Education (Florida/Nevada Approved Program)
 - Curriculum, Instruction, and Technology
 - Early Childhood Special Education
 - Early Literacy Education
 - Educational Leadership (Florida/Nevada Approved Program)
 - Educational Media (Florida/Nevada Approved Program)
 - Educational Technology
 - Elementary Education (Nevada Approved Program)
 - Elementary Education/ESOL (Florida Approved Program)
 - English Education
 - English Education/ESOL (Middle and Secondary-Florida Approved Program)
 - Environmental Education
 - Exceptional Student Education (Florida/Nevada Approved Program)
 - Exceptional Student Education with ESOL Endorsement (Florida Approved Program)
 - Exceptional Student Education and Reading
 - Gifted Education (Nevada Approved Program)
 - Instructional Design and Diversity Education
 - Instructional Technology and Distance Education
 - Interdisciplinary Arts
 - Leadership
 - Management and Administration of Educational Programs
 - Mathematics (Florida Approved Program)
 - Medical Education
 - Multicultural Early Intervention
 - Early Childhood (Prekindergarten/PK-3) (Nevada Approved Program)
 - Prekindergarten - Primary Education/ESOL (Florida Approved Program)
 - Preschool Education (Florida Approved Program)
 - Reading Education (Florida/Nevada Approved Program)
 - Reading/Teaching English to Speakers of Other Languages (RESOL)
 - Science Education (Florida Approved Program)
 - Secondary Education (Nevada Approved Program)
 - Social Studies Education (Middle and Secondary-Florida Approved Program)
 - Spanish Language Education (Florida Approved Program)
 - Spanish Language Education with Bilingual Endorsement (Nevada Approved Program)
 - Speech-Language and Communication Disorders (Florida/Nevada Approved Program)
 - Teaching and Learning
 - Teaching English as a Foreign Language (TEFL)
 - Teaching English to Speakers of Other Languages (TESOL) (Nevada Approved Program and Noncertification Program)
 - Urban Education (Nevada Only)
- Endorsements:**
- Autism (Florida/Nevada Approved Endorsement)
 - Gifted Child Education (Florida Approved Endorsement)
 - Prekindergarten Disabilities (Florida Approved Endorsement)
 - Reading (Florida/Nevada Approved Endorsement)
 - Teaching English to Speakers of Other Languages (Florida Approved Endorsement)

Approved Programs Competencies and Standards

All course syllabi are keyed to state competencies and national standards. Depending upon the program specialization, these competencies and national standards include the following:

Nation-wide

Interstate New Teacher Assessment and Support Consortium (InTASC) Core Standards

Master of Science with a Major in Brain-Based Teaching Program (Major Code F558)

The Brain-Based Teaching program focuses on empowering classroom teachers with a practical framework and strategies for enhancing student achievement grounded in a synergy of education, mind, and brain research. Students will explore neuroplasticity, how learning changes the physical structure of the brain and methodologies for differentiating instruction in ways that help diverse learners fulfill their unique potential. A central focus is on learning and teaching the cognitive and metacognitive skills essential for career and college success in the 21st Century. Program objectives are aligned with state and national accomplished teaching standards. Graduates of the Brain-Based Teaching program will earn a Master of Science with a major in Brain-Based Teaching. **The Brain-Based Teaching program is not a certification/licensure program.**

Students typically complete the program in 12 months of study; however, students are allowed up to 6 years in which to complete all degree and program requirements. Please refer to M.A., M.S., and Ed.S. Program Completion Timeline in the *Student Handbook* section of this catalog.

Program Admission Requirements

The requirements for admission to the M.S. with a major in Brain-Based Teaching programs can be found in the General Student Information section of the catalog. The following are specific requirements for entry into the Master of Science in Education program:

1. An official transcript from a regionally accredited institution indicating a conferred bachelor's degree.
3. Evidence of a minimum cumulative grade point average (CGPA) of a 2.5 or GRE scores of 1000 (combined Verbal and Quantitative scales only) **for tests taken prior to August 1, 2011**, or GRE scores of 300 (combined Verbal and Quantitative scales only) **for tests taken on or after August 1, 2011**, or the Miller's Analogies Test (MAT) with a raw score of 50 (scaled score between 410-416). (The tests must have been taken within the past 5 years from the date of application.)
2. Applicants who do not meet the minimum CGPA or GRE requirements may enroll in a maximum of six (6) credit hours and must earn a grade of B or higher in each course during the first term of enrollment for conditional admission. Students who do not earn a grade of B or higher in each course may be subject to dismissal from the program.

Program Learning Outcomes

This program aims to impart the following:

1. Analyze and apply strategies based on current brain, cognition, and education research to increase student learning and achievement.
2. Assess the implications of research confirming that learning changes the physical structure of the brain.
3. Demonstrate a practical understanding of how positive emotional states enhance learning.
4. Apply and evaluate strategies to create meaning from curriculum to improve student learning.
5. Use and assess key strategies to improve how the brain pays attention, retains information and transfers information learned to new situations.
6. Develop effective strategies to assess student critical thinking skills, and make and implement plans to strengthen them.
7. Examine research and apply key findings to improve student achievement and family engagement to reach all students.
8. Using individual learner profiles, adapt instruction to reach students with a variety of learning strengths in the classroom
9. Investigate, apply and evaluate classroom management strategies proven to improve classroom climate and allow for more time-on-task.
10. Critically analyze and reflect on their teaching practice and learn from experience by implementing a Brain-Based Teaching strategy or skill within the classroom and using a formal action research process to assess how the strategy or skill helps to improve teaching and learning in the classroom.

Transfer of Credit

Transfer of credit is not accepted in the Master of Science with a major in Brain-Based Teaching program. Please see Transfer of Credit in the *General Student Information* section of the catalog for further information.

Graduation Requirements

Please refer to the *General Student Information* and *M.S. in Education* section of the catalog to find all degree completion requirements.

Additional graduation requirements for the Brain-Based Teaching program:

- Completion of the Teacher Leadership Institute: Action Research Project
- Program Portfolio

All students must submit a *Degree Application* <http://www.nova.edu/registrar/instructions.html>

Programs of Study

Learning and Teaching

(Concentration Code F580)

- EDU 5000: Orientation to the Graduate Teacher Education Program (0 credit)
- EDUB 610: BrainSMART Science, Structure, and Strategies (6 credits)
- EDUB 612: Thinking for Results: Applying the Science of Student Achievement (6 credits)
- EDUB 614: Differentiated Instruction: Respecting Brain-Based Learner Differences (6 credits)
- EDUB 617: Courageous Learners: Tools for Teaching Students at Risk (6 credits)
- EDUB 699: Teacher Leadership Institute: Action Research Project (6 credits)
- EDUB 619: Student Achievement and Classroom Management (6 credits)

Prekindergarten Disabilities Endorsement (Florida Approved Endorsement)				
Reading Endorsement (Florida Approved Endorsement)				
TESOL Endorsement (Florida Approved Endorsement)				

*Initial Licensure Nevada ** Add-on Endorsement Nevada

The following are sample programs of study for M.S. in Education specialization areas and endorsement areas; programs of study are also available on the FSE Web site (<http://www.fischlerschool.nova.edu>). The programs of study are subject to change, as state certification/licensure requirements change. Please consult an Academic Advisor for current curriculum information and program requirements for certification/licensure in Florida/Nevada. Program prerequisites are monitored through Student Services and may not be reflected in the following example Programs of Study.

Master of Science in Education Programs of Study

Specialization: Athletic Administration Noncertification Track (Major Code F899)

About the Specialization

The Athletic Administration specialization focuses on training educators to become athletic directors or sport managers. This specialization provides educators with leadership skills through practical application and broad knowledge of social, political, and economic forces at work in society that affect sports and athletics. Course content is research-based and aligns directly with the professional standards set forth by the Sport Management Program Review Council.

Program of Study

Core Education Courses (12 credits)

EDU 5000:	Orientation to the Graduate Teacher Education Program (0 credit)	ATH 530:	Marketing in Athletic Administration (3 credits)	
CUR 526:	Educational Research for Practitioners (3 credits)	ATH 540:	Economics and Finance in Athletic Administration (3 credits)	
EDL 510:	Ethical School Leadership (3 credits)	ATH 550:	Event Planning and Public Relations in Athletic Administration (3 credits)	
EDL 500:	Problem Solving and Visionary Leadership (3 credits)	ATH 560:	Field Experience Advising (1 credit)	
EDL 525:	Human Resources: Process and Staff Development (3 credits)	ATH 670:	Field Experience in Athletic Administration I (3 credits)	
Athletic Administration Specialization (24 credits)		and	ATH 675:	Field Experience in Athletic Administration II (3 credits)
ATH 500:	Leadership in Athletic Administration (3 credits)	Or	ATH 671:	Applied Research in Athletic Administration I (3 credits)
ATH 510:	Socio-Cultural and Ethical Foundations of Sport (3 credits)	and	ATH 676:	Applied Research in Athletic Administration II (3 credits)
ATH 520:	Essentials of Sports Law (3 credits)	Total Credits Required for Degree Completion 37		

Specialization: Charter School Education/Leadership Noncertification Track (Major Code F508)

About the Specialization

The Charter School Education/Leadership specialization focuses on administration, leadership, and teaching in charter schools. This specialization provides students with training in the overall educational industry, curriculum, assessment, managing and governing of a charter school, public relations, and various other topics of interest to the charter school stakeholder. Course content is research-based and infuses best practices in education.

Program of Study

EDU 5000:	Orientation to the Graduate Teacher Education Program (0 credit)	EDL 500:	Problem Solving and Visionary Leadership (3 credits)

CSED 591:	Assessment and Student Evaluations in Charter Schools (3 credits)	Total Credits Required for Degree Completion 36	

Specialization: Cognitive and Behavioral Disabilities Noncertification Track (Major Code F581)

About the Specialization

The Cognitive and Behavioral Disabilities specialization focuses on training educators to manage the complex and diverse learning styles of today's student population. This specialization provides educators with advanced training in three special education concentration areas—developmental disabilities, emotional and behavioral disorders, and learning disabilities—as well as a foundation in assessment, classroom management, law, curriculum and development, and other areas. Course content is research-based and aligns directly with the professional practice standards set forth by the Council for Exceptional Children (CEC).

Program of Study

Core Courses

EDU 5000:	Orientation to the Graduate Teacher Education Program (0 credit)
CUR 526:	Educational Research for Practitioners (3 credits)
EDU 600:	Accomplished Practices Seminar (0.5 credit)
CBD 502:	Assessment and Diagnosis of Exceptional Learners (3 credits)
CBD 508:	Methods and Strategies in Behavior Management (3 credits)
ESE 600:	Survey of Exceptionalities of Children and Youth (3 credits)
EDU 502:	Psychological Foundations in Education (3 credits)
EDU 620:	Teacher Education Simulation (0.5 credit)
ESE 699:	Applied Professional Experience in Exceptional Student Education (3 credits)

Areas of Specialization (12 credits)

Developmental Disabilities (DD) Specialization Area (Concentration Code F583)

CBD 513:	Methods for Teaching Students with DD (3 credits)
CBD 510:	Characteristics and Needs of Students with DD (3 credits)
CBD 516:	Teaching Mathematics to Exceptional Learners (3 credits)
CBD 517:	Teaching Reading to Exceptional Learners (3 credits)

Emotional and Behavioral Disorders (EBD)

Specialization Area (Concentration Code F582)

CBD 515:	Methods for Teaching Students with Emotional and Behavioral Disorders (3 credits)
CBD 512:	Characteristics and Needs of Students with Emotional and Behavioral Disorders (EBD) (3 credits)
CBD 517:	Teaching Reading to Exceptional Learners (3 credits)
CBD 516:	Teaching Mathematics to Exceptional Learners (3 credits)

Learning Disabilities (LD) Specialization Area (Concentration Code F926)

CBD 514:	Methods for Teaching Students with Learning Disabilities (3 credits)
CBD 511:	Characteristics and Needs of Students with Learning Disabilities (3 credits)
CBD 516:	Teaching Mathematics to Exceptional Learners (3 credits)
CBD 517:	Teaching Reading to Exceptional Learners (3 credits)

Electives – Select three courses (9 credits)

CBD 501:	Special Education Law (3 credits)
CBD 504:	Curriculum and Instruction Materials for Exceptional Learners (3 credits)
CBD 505:	Working with Families of Exceptional Learners (3 credits)
CBD 506:	Transition of Exceptional Learners (3 credits)
CBD 509:	Social Skills Training (3 credits)

Total Credits Required for Degree Completion 40

Specialization: Computer Science Education Noncertification Track (Major Code F541)

About the Specialization

The M.S. in Education with a specialization in Computer Science Education focuses on training educators in the area of computer instruction with an emphasis on programming. This specialization provides educators with the skills to create curriculum and instruct students in the areas of technology applications, programming, networking, and data structures. Course content is research-based and infuses best practices in education.

Program of Study

EDU 5000:	Orientation to the Graduate Teacher Education Program (0 credit)	CSE 517:	Web Applications for Computer Science Education (3 credits)
CSE 505:	Computing Applications for Teachers (3 credits)	CSE 530:	Introduction to Programming in C++ for Computer Science Educators (3 credits)
EDU 600:	Accomplished Practices Seminar (0.5 credit)	CSE 535:	Java for Computer Science Educators (3 credits)
CSE 501:	Computing Resources for Teachers (3 credits)	CSE 699:	Applied Professional Experience in Computer Science Education (3 credits)

CSE 525:	Introduction to Structured Programming for Computer Science Educators (3 credits)	EDU 620:	Teacher Education Simulation (0.5 credit)
CSE 515:	Methods of Teaching Computer Science K-12 (3 credits)		

Total Credits Required for Degree Completion 37

Specialization: Computer Science Education**Certification: State Approved Florida - Initial Certification Plan** (Major Code A541)**About the Specialization**

The M.S. in Education with a specialization in Computer Science Education leading to initial certification for teachers in Florida focuses on training non-educators to enter the classroom, while emphasizing the teaching of computer science. This specialization provides future educators with a foundation in classroom management, curriculum development, and methods of teaching, as well as skills for instructing students in the areas of technology applications, programming, networking, and data structures. Course content is research-based and infuses best practices in education, while aligning directly with the Florida Department of Education's certification requirements for computer science education.

Additional Admission Requirements

Provide Passing Scores on **all** subtests for:

- CLAST (if taken prior to July, 1, 2002), **or**
- Praxis I, **or**
- General Knowledge Test (GKT), **or**
- GRE score of 300 (combined verbal and quantitative scales only).

Program of Study

ESE 650:	Instructional Strategies for Exceptional Students (3 credits)	TSOL 567:	Applied Linguistics (3 credits)
ESE 660:	Curriculum and Instructional Materials for Exceptional Students (3 credits)	TSOL 547:	Testing and Evaluation in TESOL (3 credits)
ESE 670:	Inclusive Education for Exceptional Students (3 credits)	EDU 620:	Teacher Education Simulation (0.5 credit)

Total Credits Required for Degree Completion 52

Additional Graduation Requirements

Students with a Temporary Teaching Certificate must provide:

Florida Teacher Certification Examinations (FTCE) – Passing scores on the following areas:

- Professional Education Test (PED)
- General Knowledge Test (GKT) **or** CLAST (if taken prior to July 1, of 2002)
- Subject Area Exam (SAE) in Exceptional Student Education K-12
- Evidence of student teaching experience **or** have a minimum of one (1) year of full-time teaching experience in a K-12 school.

Students with a Professional Teaching Certificate must provide:

Florida Teacher Certification Examinations (FTCE) – Passing scores on the following areas:

Subject Area Exam (SAE) in Exceptional Student Education K-12

Specialization: Exceptional Student Education and Reading

Noncertification Track (Major Code F612)

About the Specialization

The M.S. in Education with a specialization in Exceptional Student Education and Reading focuses on preparing educators in the areas of teaching students with disabilities literacy and language arts. This specialization provides educators with the skills to develop curriculum and assess, evaluate, and instruct children and youth with disabilities across the spectrum in the area of reading. Course content is research-based and infuses scientifically-based evidence of best practices in the science of reading.

Program of Study

EDU 5000:	Orientation to the Graduate Teacher Education Program (0 credit)	ESE 600:	Survey of Exceptionalities of Children and Youth (3 credits)
CUR 526:	Educational Research for Practitioners (3 credits)	ESE 610:	Speech and Language Development and Disabilities (3 credits)
EDU 600:	Accomplished Practices Seminar (0.5 credit)	ESE 620:	Behavior Management of Exceptional Students (3 credits)
ESE 630:	Educational and Psychological Assessment of Exceptional Students (3 credits)	RED 570:	Foundations of Reading: Theory and Practice (3 credits)

EDU 551:	Educational Procedures for the Gifted (3 credits)	Total Credits Required for Degree Completion 37	

Specialization: Gifted Education
Certification: State Approved – Nevada Add-On Endorsement (Major Code A527)

About the Specialization

The M.S. in Education with a specialization in Gifted Education is a state-approved program in Nevada for an add-on endorsement for teachers. It focuses on preparing educators to guide gifted and advanced students to achieve their maximum potential. This specialization provides educators with the skills to create curriculum and instruct gifted students, with an emphasis on the development of their creativity. Course content is research-based and infuses best practices in education, while aligning directly with the Nevada Department of Education’s program licensure requirements.

Additional Admission Requirements

Valid Nevada Permanent Teaching License

Program of Study

EDU 5000:	Orientation to the Graduate Teacher Education Program (0 credit)	EP 5281:	Developing Creativity in Gifted Students (3 credits)
CUR 526:	Educational Research for Practitioners (3 credits)	EP 5282:	Educating Special Populations of Gifted Students (3 credits)

EDU 555:	Seminar for the Guidance of Gifted Children (3 credits)	Electives – Select three courses (9 credits)	
EDU 551:	Educational Procedures for the Gifted Child (3 credits)	Total Credits Required for Degree Completion 37	

Specialization: Interdisciplinary Arts
Noncertification Track (Major Code F536)

About the Specialization

The M.S. in Education with a specialization in Interdisciplinary Arts (IAP) focuses on developing visionary and conceptual artists to assume leadership roles at any professional arts organization, company, or institution and/or to initiate innovative arts programs, events, and original works of intellectual property. This specialization provides educators and artists with expertise in visioning a global culture, arts and expressive therapies, dramatic writing, business and corporate applications, multimedia technological resources, and arts leadership. Course content is research-based and infuses best practices in education.

The IAP Specialization offers courses in Drama Therapy. FSE does not issue certification in Drama Therapy. Rather, completing the program approved electives in the Drama Therapy option satisfies the M.S. degree requirement as set forth by the National Association for Drama Therapy (NADT) to become a Registered Drama Therapist (RDT). In addition to completing an approved M.S. degree, NADT has other requirements.

Program of Study

Core Courses (15 credits)

EDU 5000:	Orientation to the Graduate Teacher Education Program (0 credit)
EIA 526:	Research in Interdisciplinary Arts: An Introduction to the I. A. Program (3 credits)
EIA 501:	Interdisciplinary Arts in Society, Community, and School (3 credits)
EIA 506:	Applied Aesthetics in the Arts: Curriculum and Instruction (3 credits)
EIA 503:	Arts and Classroom Management: Infusing Arts into the Classroom (3 credits)
EIA 511:	Studies in Creative Process and Conceptual Arts: A Quantum Vision (3 credits)

IAP Electives

Select five (15 credits)

EIA 512:	Arts and Expressive Therapies: A Survey (3 credits)
EIA 513:	The Art of Words: Writing for Dramatic Media (3 credits)
EIA 514:	Business Applications of Interdisciplinary Arts and Social Entrepreneurism (3 credits)
EIA 515:	Thou Art: Reuniting Culture and Spirit for a Global Society (3 credits)
EIA 517:	Interdisciplinary Arts Infusion: From Chaos to Order (3 credits)
EIA 537:	Musical Theatre Studies (3 credits)
EIA 630:	International Cinema Studies in Italy (3 credits)
EIA 540:	Moving Art: Aesthetic of the Motion Picture 1922-1966 (3 credits)
EIA 557:	Cinematherapy I: Images with a Purpose (3 credits)
EIA 558:	Cinematherapy II: Personal and Social Awareness through Cinema (3 credits)
EIA 600:	International Arts and Culture Infusion (3 or 6 credits)
EIA 6505:	Special Topics in Interdisciplinary Arts I (3 credits)
EIA 6506:	Special Topics in Interdisciplinary Arts II (3 credits)

Applied Professional Experience

Select one (6 credits)

EIA 688:	Capstone: Interdisciplinary Arts Leadership (6 credits)
EIA 689:	Capstone: Theatre Arts Leadership (6 credits)
EIA 690:	Capstone: Musical Arts Leadership (6 credits)
EIA 691:	Capstone: Visual Arts Leadership (6 credits)
EIA 692:	Capstone: Dance Arts Leadership (6 credits)

Drama Therapy Option (21 credits)

In addition to the Core Courses, complete the following:

EIA 512:	Arts and Expressive Therapies: A Survey (3 credits)
EIA 525:	Principles of Drama Therapy (3 credits)
EIA 689:	Capstone: Theatre Arts Leadership (6 credits)

The following elective courses are offered by the Department of Family Therapy in the School of Humanities and Social Sciences. Complete these electives for the Drama Therapy Option

SFTM 5310:	Introduction to Systems Theories (3 credits)
SFTM 6333:	Theories of Personality and Psychopathology (3 credits)
SFTM 6374:	Human Development and Individual/Group Psychotherapy (3 credits)

For further information on these courses, please see the SHSS catalog at <http://shss.nova.edu/catalog.pdf> or email the program coordinator at hartmann@nova.edu, or dfournie@nova.edu

Total Credits Required for Degree Completion 36

Specialization: Management and Administration of Educational Programs

Noncertification Track (Major Code F504)

About the Specialization

The M.S. in Education with a specialization in Management and Administration of Educational Programs focuses on preparing educators as managers and administrators. This specialization provides educators with skills in leadership, management and supervision, and budgeting as related to curriculum and instruction. Course content is research-based and infuses best practices in education.

Program of Study

EDU 5000:	Orientation to the Graduate Teacher Education Program (0 credit)	EDL 500:	Problem Solving and Visionary Leadership (3 credits)
CUR 526:	Educational Research for Practitioners (3 credits)	EDL 530:	Management of Schools (3 credits)
EDL 510:	Ethical School Leadership (3 credits)		

EL600: Seminar in the Knowledge Base of Educational Leadership (3 credits)
Or
 EL 601: Knowledge Based of Educational Leadership – Comprehensive Examination (3 credits)
 EDL 505: Educational Budgeting and Finance (3 credits)
 EDL 525: Human Resources: Process and Staff Development (3 credits)

Electives – Select four courses (12 credits)

EL 698: Administrative Internship (3 credits)
Or
 EL 699: Administrative/Educational Leadership Internship (6 credits)

Note: Students applying to EL 699 would complete nine (9) credit hours of electives instead of 12

Total Credits Required for Degree Completion 36

**Specialization: Mathematics Education
 Noncertification Track** (Major Code F653)

About the Specialization

The M.S. in Education with a specialization in Mathematics Education focuses on preparing educators in the areas of middle and secondary school mathematics. This specialization provides educators with skills for assessment, curriculum development, and instruction in subject areas such as geometry, algebra, and calculus, as well as strategies for developing problem solving skills in students. Course content is research-based and infuses best practices in education.

Program of Study

EDU 5000: Orientation for the Graduate Teacher Education Program (0 credit)	MAT 662: History, Current Trends, and Technology in Mathematics Education (3 credits)
CUR 526: Educational Research for Practitioners (3 credits)	MAT 687: Diagnosis and Remediation of Learning Difficulties in Mathematics (3 credits)
EDU 600: Accomplished Practices Seminar (0.5 credit)	MAT 511: Teaching Probability and Statistics in the K -12 Classroom (3 credits)
MAT 522: Methods of Teaching Middle and Secondary Math (3 credits)	MAT 516: Elements of Differential Calculus (3 credits)
*MAT 512: Pre-Algebra and Elementary Number Theory for Teachers (3 credits)	Or MAT 508: Conquering the Teaching of Calculus (3 credits)
MAT 509: Learning and Teaching Geometry in the K-12 Classroom (3 credits)	MAT 517: Elements of Integral Calculus (3 credits)
MAT 507: Linear and Abstract Algebra for Teachers (3 credits)	Or MAT 506: Strategies for Teaching Calculus (3 credits)
MAT 513: Problem-Solving Strategies in Mathematics Classrooms (3 credits)	MAT 510: Research and Applied Mathematical Experiences in Schools (3 credits)
	EDU 620: Teacher Education Simulation (0.5 credit)

*** MAT 512 must be the first MAT prefix course taken in the program.**

Total Credits Required for Degree Completion 37

Specialization: Middle Grades Mathematics Education (Major Code A582)
Secondary Mathematics Education (Major Code A955)
Certification: State Approved Florida - Initial Certification Plan

About the Specialization

The M.S. in Education with a specialization in Mathematics Education leading to initial certification that focuses on preparing non-educators to enter the classroom in the areas of middle and secondary school mathematics. This specialization provides future educators with skills for assessment, curriculum development, and instruction in subject areas such as geometry, algebra, and calculus, as well as strategies for developing problem solving skills in students. Course content is research-based and infuses best practices in education.

Additional Admission Requirements

Provide Passing Scores on **all** subtests for:

- CLAST (if taken prior to July, 1, 2002), **or**
- Praxis I, **or**
- General Knowledge Test (GKT), **or**
- GRE score of 300 (combined verbal and quantitative scales only).

Program of Study

- General Knowledge Test (GKT) **or** CLAST (if taken prior to July 1, of 2002)
- Subject Area Exam (SAE) in Mathematics Education 5-9 or 9-12

- d. Evidence of student teaching experience **or** have a minimum of one (1) year of full-time teaching experience in a K-12 school.

Students with a Professional Teaching Certificate must provide:

Florida Teacher Certification Examinations (FTCE) – Passing scores on the following areas:
 Subject Area Exam (SAE) in Mathematics Education 5-9 or 9-12

**Specialization: Multicultural Early Intervention
 Noncertification Track** (Major Code F574)

About the Specialization

The M.S. in Education with a specialization in Multicultural Early Intervention focuses on training early childhood education professionals working in programs serving young children and their families in a multicultural or cross-cultural setting. This specialization provides the preparation and skills necessary for early intervention, as well as those skills needed for developing curriculum, assessing needs, managing a classroom, and developing language and literacy. Course content is research-based and infuses best practices in education.

Program of Study

EDU 5000:	Orientation to the Graduate Teacher Education Program (0 credit)	EC 519:	Health, Safety, and Nutrition Issues in Early Childhood (3 credits)

EC 521:	Developmentally Appropriate Literature-based Curriculum for Young Children (3 credits)	EDU 688:	Teaching Internship Seminar (9 credits)
Total Credits Required for Degree Completion 76			

Additional Graduation Requirements

Florida Teacher Certification Examinations (FTCE) – Passing scores on the following areas:

- Professional Education Test (PED)
- General Knowledge Test (GKT) **or** CLAST (if taken prior to July 1, of 2002)
- Subject Area Exam (SAE) in Prekindergarten/Primary Education (Age 3 to Grade 3)

Specialization: Prekindergarten - Primary Education with ESOL Endorsement Certification: State Approved – Florida (Major Code A610)

About the Specialization

The M.S. in Education with a specialization in Prekindergarten - Primary Education with ESOL endorsement is a state-approved program in Florida for add-on certification for teachers. It focuses on the area of teaching students in prekindergarten through grade three. This specialization provides educators with the skills for assessing and teaching language and literacy, and concepts in mathematics, science, and the arts. Course content is research-based and infuses best practices in education and strategies for teaching English as a second language (ESOL), while aligning directly with the Florida Department of Education's certification requirements for prekindergarten and primary education. Courses are aligned with the standards from the National Association for the Education of Young Children.

Additional Admission Requirements

- Valid Teaching Certificate:** Temporary or Professional
- If entering with Temporary Teaching Certificate,** please provide:
 - Passing CLAST (if taken prior to July, 1, 2002),
 - General Knowledge Test (GKT), **or**
 - GRE score of 300 (combined verbal and quantitative scales only).

Specialization Area Coursework

Choose one of the following five courses, based on the content areas you have chosen

CSE 515: Methods of Teaching Computer Science K-12 (3 credits)
ENG 521: Methods of Teaching Middle School and Secondary English (3 credits)
MAT 522: Methods of Teaching Middle and Secondary Mathematics (3 credits)
SCI 523: Methods in Science Education (3 credits)
SST 524: Methods for Teaching Social Studies (3 credits)

Capstone

EDU 620: Teacher Education Simulation (0.5 credit)
EDU 688: Teaching Internship Seminar (9 credits)

Total Credits Required for Degree Completion 37

Additional Graduation Requirements

Praxis II – Minimum passing scores on the following areas:

Computer Science: Not Required

English

- Subject Assessment/Specialty Area Tests: English Language: Literature and Composition: Content Knowledge (0041): 150, **AND**
- English Language, Literature, and Composition: Pedagogy (0043) **OR**
- Principles of Learning and Teaching (PLT) Grades 7-12 (0624): No minimum score required for test taken September 1, 2011 – July 30, 2012. Minimum scores will be established on July 1, 2012.

Math

- Subject Assessment/Specialty Area Tests: Mathematics Content Knowledge(0061): 133 **AND**
- Mathematics: Pedagogy (0065): 135 **OR**
- Principles of Learning and Teaching (PLT) Grades 7-12 (0624): No minimum score required for test taken September 1, 2011 – July 30, 2012. Minimum scores will be established on July 1, 2012.

Science

- Subject Assessment/Specialty Area Tests: General Science: Content Knowledge, Part 1 (0431): 150 **AND**
- General Science: Content Essays (0433): 135 **OR**
- Principles of Learning and Teaching (PLT) Grades 7-12 (0624): No minimum score required for test taken September 1, 2011 – July 30, 2012. Minimum scores will be established on July 1, 2012.

Social Studies

- Subject Assessment Specialty Area Tests Social Studies: Content Knowledge: 152 **AND**

- Principles of Learning and Teaching (PLT) Grades 7-12 (0624): No minimum score required for test taken September 1, 2011 – July 30, 2012. Minimum scores will be established on July 1, 2012.

**Specialization: Social Studies Education
Noncertification Track** (Major Code F657)

About the Specialization

The M.S. in Education with a specialization in Secondary Social Studies Education focuses on preparing educators in the areas of history, geography, economics, and government for secondary school students. This specialization provides educators with the skills to develop curriculum and instruct students using a variety of learning techniques. Course content is research-based and infuses best practices in education.

Students with a Temporary Teaching Certificate must provide:

Florida Teacher Certification Examinations (FTCE) – Passing scores on the following areas:

- Professional Education Test (PED)
- General Knowledge Test (GKT) **or** CLAST (if taken prior to July 1, of 2002)
- Subject Area Exam (SAE) in Social Studies 5-9 or Social Studies 6-12
- Evidence of student teaching experience **or** have a minimum of one (1) year of full-time teaching experience in a K-12 school.

Students with a Professional Teaching Certificate must provide:

Florida Teacher Certification Examinations (FTCE) – Passing scores on the following areas:

Subject Area Exam (SAE) in Social Studies 5-9 or Social Studies 6-12

Specialization: Spanish Language Education

Noncertification Track (Major Code F520)

About the Specialization

This program is designed for candidates who have an advanced knowledge of Spanish. Participants will further develop their proficiency in the four skills (listening, speaking, reading, and writing) while they study innovative teaching methodologies, culture, literature, and linguistics. An effort has been made to include skills appropriate for teaching at all K-12 levels, from elementary school Spanish to the Advanced Placement courses. Strategies

appropriate for teaching Spanish as a foreign language as well as Spanish for heritage speakers will be explored. Course content is research-based and infuses best practices in education.

The Spanish Language Education program is conducted completely in Spanish, thus an advanced or close to advanced level of Spanish language proficiency is needed to be successful. Beginning in the Fall, 2012, entering students will need to pass an oral language assessment (through a testing service) in order to graduate.

	Total Credits Required for Degree Completion 37

Specialization: Spanish Language Education

Certification: Florida State Approved – Initial Certification Plan (Major Code A520)

About the Specialization

This NCATE approved Initial Certification Program has been created for candidates who do not have a background in teaching, but want to become Spanish teachers. The courses in this curriculum include essential education courses as well as Spanish courses that will enable the candidates to teach at all K-12 levels, from elementary school Spanish to the Advanced Placement courses. Strategies appropriate for teaching Spanish as a foreign language as well as Spanish for heritage speakers will be explored. Course content is research-based and infuses best practices in education.

The Spanish Language Education program is conducted completely in Spanish, thus an advanced or close to advanced level of Spanish language proficiency is needed to be successful. Beginning in the Fall, 2012, entering students will need to pass an oral language assessment (through a testing service) in order to graduate.

Additional Admission Requirements

1. Eighteen (18) undergraduate Spanish credits **or** native speaker of Spanish
2. Advanced Spanish proficiency
3. Provide Passing Scores on **all** subtests for:
 - CLAST (if taken prior to July, 1, 2002), **or**
 - Praxis I, **or**
 - General Knowledge Test (GKT), **or**
 - GRE score of 300 (combined verbal and quantitative scales).

Specialization: Spanish Language Education with Bilingual Endorsement
Certification: State Approved – Nevada (Major Code A529)

About the Specialization

The M.S. in Education with a specialization in Spanish Language Education with Bilingual Endorsement is a state-approved program in Nevada for an add-on endorsement for teachers who have an advanced knowledge of Spanish. It focuses on the areas of writing, literature, and Spanish culture. This specialization provides educators with contemporary knowledge in both oral and written communication with an emphasis in teaching subject-area content in the Spanish language. Course content is research-based and infuses best practices in education, while aligning directly with the Nevada Department of Education’s program certification requirements.

The Spanish Language Education program is conducted completely in Spanish, thus an advanced or close to advanced level of Spanish language proficiency is needed to be successful. Beginning in the Fall, 2012, entering students will need to pass an oral language assessment (through a testing service) in order to graduate.

Additional Admission Requirements

Valid Nevada Permanent Teaching License

Specialization: Teaching and Learning
Noncertification Track (Major Code F750)

About the Specialization

The M.S. in Education with a specialization in Teaching and Learning focuses on preparing educators to conduct an effective learning environment in the classroom. This specialization provides educators with skills for classroom management, assessment, and curriculum development, as well as in-depth study of the effects of psychology, culture, and society on learning. Course content is research-based and infuses best practices in education.

Program of Study

Core Courses (18 credits)

EDU 5000: Orientation to the Graduate Teacher Education Program (0 credit)	EDU 503: Classroom Management and Organization (3 credits)
EDU 600: Accomplished Practices Seminar (0.5 credit)	CUR 526: Educational Research for Practitioners (3 credits)
RED 550: Foundations of Reading for Content Area Teachers (3 credits)	CUR 591: Assessment and Evaluation (3 credits)
EDU 502: Psychological Foundations in Education (3 credits)	EDU 620: Teacher Education Simulation (0.5 credit)
	APR 650: Educational Field Based Project (3 credits)

Students taking any of the Florida State-Approved Endorsement tracks: Gifted Education, Reading Education, or TESOL must also complete the following course:

CUR 506: Curriculum and Instruction (3 credits)

Select one of the Endorsement Areas (15 credits) or Directed Content Course Sequences (18 credits)

• **Gifted Education Endorsement (15 credits)**

- EDU 550: Introduction to Nature and Needs of the Gifted (3 credits)
- EDU 551: Educational Procedures for the Gifted (3 credits)
- EDU 555: Seminar for Guidance of the Gifted Children (3 credits)
- EP 5828: Educating Special Populations of Gifted Students (3 credits)
- EP 5281: Developing Creativity in Gifted Students (3 credits)

• **TESOL Endorsement (15 credits)**

- TSOL 569: Methodology of TESOL (3 credits)
- TSOL 515: Curriculum Development for TESOL (3 credits)
- TSOL 562: Cultural and Cross-Cultural Studies (3 credits)
- TSOL 567: Applied Linguistics (3 credits)
- TSOL 547: Testing and Evaluation in TESOL (3 credits)

• **Reading Education Endorsement (15 credits)**

- RED 570: Foundations of Reading: Theory and Practice (3 credits)
- RED 575: Contemporary Foundations of Reading: Research Perspective (3 credits)
- RED 554: Assessment in Reading (3 credits)
- RED 555: Supervised Reading Practicum I: Individual Remediation (3 credits)
- RED 587: Supervised Reading Practicum II: Group Remediation (3 credits)

• **Mathematics Education Directed Content Course Sequence (18 credits)**

- MAT 504: Algebra in Secondary Schools (3 credits)
- MAT 506: Strategies for Teaching Calculus (3 credits)
- MAT 507: Linear and Abstract Algebra for Teachers (3 credits)
- MAT 508: Conquering the Teaching of Calculus (3 credits)
- MAT 509: Learning and Teaching Geometry in the K-12 Classrooms (3 credits)
- MAT 522: Methods of Teaching Middle and Secondary Mathematics (3 credits)

• **Science Education Directed Content Course Sequence (18 credits)**

- SCI 600: Foundations of Physical Science for Teachers (3 credits)
- SCI 601: Inquiry-Based Space Science for Teachers (3 credits)
- SCI 603: Teaching Inquiry-Based Life Science (3 credits)
- SCI 604: Teaching Chemistry: An Activity-Based Study of Matter and Energy (3 credits)
- SCI 605: Interdisciplinary Earth Science for Teachers (3 credits)
- SCI 523: Methods in Science Education (3 credits)

• **Computer Science Education Directed Content Course Sequence (18 credits)**

- CSE 501: Computing Resources for Teachers (3 credits)
- CSE 505: Computer Applications for Teachers (3 credits)
- CSE 510: Instructional Applications of Technology: Introduction to
- CSE 517: Programming Concepts (3 credits)
- Web Applications for Computer Science Education (3 credits)
- CSE 525: Introduction to Structured Programming for Computer Science Educators (3 credits)
- CSE 515: Methods of Teaching Computer Science K-12 (3 credits)

• **English Education Directed Content Course Sequence (18 credits)**

- ENG 600: Recent Directions in Oral Communications (3 credits)
- ENG 615: Recent Directions in Expository Writing (3 credits)
- ENG 635: Recent Directions in Adolescent Literature (3 credits)
- ENG 645: Recent Directions in Literary Analysis (3 credits)
- ENG 665: Many Voices in Contemporary World Literature (3 credits)
- ENG 521: Methods of Teaching Middle School and Secondary English (3 credits)

• **Social Studies Education Directed Content Course Sequence (18 credits)**

- SST 616: Sociological Perspectives in our Multicultural Society (3 credits)
- SST 622: Consent of the Governed: American Government (3 credits)
- SST 623: American History I in the Middle and Secondary Curriculum (3 credits)
- SST 627: World History I in 5-12 Curriculum (3 credits)
- SST 630: Contemporary Social Problems and Issues (3 credits)
- SST 524: Methods for Teaching Social Studies (3 credits)

• **Spanish Language Education Directed Content Course Sequence (18 credits)**

- LANG 530: Advanced Spanish Grammar (3 credits)
- LANG 531: Advanced Spanish Composition (3 credits)
- LANG 550: Spanish Linguistics for Teachers (3 credits)
- LANG 561: Representative Spanish Authors II (3 credits)
- LANG 556: Peoples and Cultures of Latin America (3 credits)
- LANG 581: Foreign Language Methods (3 credits)

Total Credits Required for Degree Completion 37

Specialization: Teaching English as a Foreign Language (TEFL)
Noncertification Track (Major Code F907)

About the Specialization

The M.S. in Education with a specialization in Teaching English as a Foreign Language focuses on preparing current and future educators in the areas of foreign language instruction, curriculum development, and assessment and evaluation. This specialization provides students with a foundation in the second language learning theories and instructional technology and distance education, and then allows students to further explore advanced studies in applied linguistics or technology. Course content is research based and infuses best practices in education. This program has been designed for individuals interested in teaching English as a foreign language in international environments and does not lead to certification for teaching in a public K-12 context in the United States. The program options offered, including several international partnerships, make it a unique program for those outside the United States who work in foreign language settings.

Program of Study

Required Core Courses

EDU 5000:	Orientation to the Graduate Teacher Education Program (0 credit)

National Graduate Teacher Education Online Program (NGTE)

As a component of the Abraham S. Fischler School of Education within Nova Southeastern University, the National Graduate Teacher Education Online Program is dedicated to quality educational practice, fulfilling the needs of the learning community, and providing positive and meaningful adult learning experiences. The purpose of the National Graduate Teacher Education Online Program is to provide quality distance education through the use of research, guided activities, and practical experience to a diverse population of professional educators.

NGTE provides a virtual learning community that is consistent with the mission of Nova Southeastern University in providing educational programs of distinction at times and in locations convenient to the learner and promoting an atmosphere of creativity and innovation using technology where appropriate. Graduates of the NGTE program will earn a M.S. in Education.

Nova Southeastern University is fully accredited by the Southern Association of Colleges and Schools (SACS). NGTE programs are aligned with appropriate national standards. Because our students come from many states as well as areas outside the United States, these programs are not developed in accordance with any particular state certification requirements.

NGTE program participants should contact their state department of education for guidance in obtaining certification or licensure, or contact their local school district for approval in fulfilling district-level incentive programs. Certification requirements vary by state and district. **Completion of an NGTE program of study does not guarantee certification.**

NGTE online education courses are conducted entirely online, allowing students to receive and submit coursework and interact with participants and professors via Internet access. Participants log in to the course management system to complete activities and assignments and interact with the professor and other students in the class. Campus attendance is not required. All registration, correspondence, and course participation are conducted online.

Students admitted to the NGTE Online Program are assigned to a cluster. Each cluster is comprised of a group of students from a variety of professional settings. Students in each cluster begin the program at the same time and progress through program components together. Students follow a clearly established program of study for the specialization and must comply with program requirements for degree candidacy and completion. Clusters sometimes form study groups that meet electronically between class sessions, seminars, and during online classes to discuss assignments and to facilitate student progress. Each cluster operates under the direction of a Field Associate. The Field Associate, who holds a doctorate in education or a related field, is a facilitator of many administrative details and cluster activities and serves to support students in their academic pursuits. Clusters begin Fall 1, Winter 1, or Summer 1 as enrollment demands. Students can complete their program in 3 terms. Each of these terms (Fall, Winter, and Summer) comprises two sessions: Fall 1 and 2, Winter 1 and 2, and Summer 1 and 2. Students take 2 courses per session. All NGTE courses follow the GTEP calendar.

Important Note: All applicants must register for EDU 5000 (Orientation to the Graduate Teacher Education Program) during their first session/term.

Program Learning Outcomes

This program aims to impart the following skills:

1. Demonstrate proficiency in using technology for assessment, communication, information access, and decision-making.
2. Demonstrate proficiency in applying theoretical, conceptual, and practical knowledge obtained from their course content and research to improve situations in the work setting.
3. Demonstrate an understanding of the various components of leadership capacity, philosophy, approaches, and styles.
4. Demonstrate an understanding of the historical highlights and contemporary issues in their professional field.

Admission Requirements

Please refer to *General Admission Requirements* in the General Student Information section of this catalog for the admission requirements for all graduate students. The following are specific requirements for entry into the M.S. in Education program:

- a. An official transcript from a regionally accredited institution indicating a conferred bachelor's degree.
- b. Evidence of a minimum cumulative grade point average (CGPA) of a 2.5, **or**
- c. GRE scores of 1000 (combined Verbal and Quantitative scales only) **for tests taken prior to August 1, 2011** or GRE scores of 300 (combined Verbal and Quantitative scales only) **for tests taken on or after August 1, 2011**, or the Miller's Analogies Test (MAT) with a raw score of 50. (The tests must have been taken within the past 5 years from the date of application.)

Note: Applicants who do not meet the minimum CGPA or GRE requirements may enroll in a maximum of six (6) credit hours and must earn a grade of B or higher in each course during the first term of enrollment for conditional admission. Students who do not earn a grade of B or higher in each course may be subject to dismissal from the program.

Transfer of Credit

A maximum of nine semester hours of graduate credits in teacher education will be considered. Please refer to Transfer of Credit in General Student Information section of the catalog for further information.

No transfer of credit will be allowed for the following courses:

- Core courses—CIT 502
- Capstone—CIT 609, and CIT 610

Graduation Requirements

Please refer to the *General Student Information* and *M.S. in Education* sections of the catalog to find all degree completion requirements.

How to Join a Cluster

For assignment to a cluster, online degree-seeking students must do the following:

1. Complete and submit the application for admission and application fee.
2. Upon admission, contact the Field Associate for their desired specialty area.
3. Register prior to the registration deadline of the term their assigned cluster is to begin.

Program Completion Timeline

NGTE clusters are designed to allow students to complete their program requirements within 12- to 14- months. If students require a leave of absence, they will have to leave their cluster and rejoin another cluster when they are ready to return. Under such circumstances, as with other Master's programs, NGTE allows students 6 years in which to complete all degree and program requirements. The beginning of the 6-year time frame for degree or program completion is the first term during which any courses that are applied toward any degree or any certification program were taken, either as a non-degree-seeking student or as a degree-seeking student in another specialization. Students who are unable to complete all degree or program requirements within the maximum six-year time frame will be dismissed from the program.

Specialization Areas

Graduates of this program will earn a M.S. in Education in one of the following specialization areas:

- Curriculum, Instruction, and Technology
- Educational Technology
- Environmental Education

Programs of Study

The following are sample curricula for each of the NGTE M.S. specialization areas. The outlines reflect the required course sequence. **Students should register for the entire term at the beginning of the registration period.** Outlines are subject to change. Students should contact their Field Associate for the most updated curriculum information. Program prerequisites are monitored through Student Services and may not be reflected in the following outlines.

Specialization: Curriculum, Instruction, and Technology
Noncertification Track (Major Code F676)

About the Specialization

The M.S. in Education with specialization in Curriculum, Instruction, and Technology is designed for educational professionals who seek site leadership roles in curriculum planning and development with an emphasis on the use of technology to effect change. Upon completion of the program, participants should have gained experience in using educational research, learning theories, and instructional technology to enhance student achievement. Integration of technology into classroom instructional activities, curriculum planning and implementation, and instructional technology leadership are the program focus.

Total Credits Required for Degree Completion 36

Specialization: Educational Technology
Noncertification Track (Major Code F644)

About the Specialization

The M.S. in Education with specialization in Educational Technology is for practitioners who seek experience to fill the expanding need for innovators in the use of new technologies at regional, district and school levels. Graduates of the Educational Technology program are prepared to take on leadership roles in working with teachers and students to model effective technology integration and transform today's classrooms into the learning centers of tomorrow.

Specialization: Environmental Education
Noncertification Track (Major Code F551)

About the Specialization

The M.S. in Education with a specialization in Environmental Education focuses on the complex relationship of human society to the natural and built environment. This specialization helps professional educators to foster and impart the interdisciplinary knowledge, values, attitudes, and commitment needed to understand and resolve environmental issues. Course content recognizes that environmental educators may work in diverse settings.

Master of Science in Instructional Design and Diversity Education

(Major Code F658)

The M.S. in Instructional Design and Diversity Education (IDDE) with concentrations in Gifted Education, Reading Education, Urban Education and Teaching English to Speakers of Other Languages (TESOL) provides a solid foundation in instructional design as well as in assessment and evaluation practices that apply to the areas of cross-cultural awareness and classroom culture. This major will enable practitioners in the field to develop curricula to meet 21st century demands, design learning modules using a problem-based learning approach, and effectively teach a student population that is increasingly diverse. Through their selected concentrations, graduates who already hold a Valid Teaching Certificate (in Florida) or a Valid Nevada Permanent Teaching License may obtain a Florida or Nevada state-approved endorsement in Teaching English to Speakers of Other Languages (TESOL), Gifted Education, or Reading Education. Course content is researched based and infuses best practices in education. Students seeking certification/licensure and not residing in Florida or Nevada should contact the department of education in the state in question to confirm certificate of licensure requirements. Classes are taught primarily online; but are also offered onsite or using the blended approach that involves face-to-face instruction on a long weekend during the term, with the remainder of the instructional activities offered online. Graduates of this program will earn a Master of Science in Instructional Design and Diversity Education.

Program Learning Outcomes

This program aims to impart the following skills:

1. Increase competence and effectiveness in interaction with diverse groups,
2. Apply appropriate methods for conducting quantitative and qualitative research in diversity education,
3. Understand assessment and analysis of needs, performance improvement and systematic design of instructional materials and programs,
4. Demonstrate global competency through knowledge of the environments, political systems, economies, societies and the transnational flow of goods, peoples, ideas and values,
5. Demonstrate an understanding of diverse teaching and learning styles of teachers and students, and
6. Apply leadership skills and conceptual knowledge to culturally diverse settings.

Admission Requirements

Please refer to *General Admission Requirements* in the General Student Information section of this catalog for the admission requirements for all graduate students. The following are specific requirements for entry into the M. S. in Education program:

- a. An official transcript from a regionally accredited institution indicating a conferred bachelor's degree.
- b. Evidence of a minimum cumulative grade point average (CGPA) of a 2.5, **or**
- c. GRE scores of 1000 (combined Verbal and Quantitative scales only) **for tests taken prior to August 1, 2011** or GRE scores of 300 (combined Verbal and Quantitative scales only) **for tests taken on or after August 1, 2011**, or the Miller's Analogies Test (MAT) with a raw score of 50. (The tests must have been taken within the past 5 years from the date of application.)

Note: Applicants who do not meet the minimum CGPA or GRE requirements may enroll in a maximum of six (6) credit hours and must earn a grade of B or higher in each course during the first term of enrollment for conditional admission. Students who do not earn a grade of B or higher in each course may be subject to dismissal from the program.

Transfer of Credit

A maximum of nine semester hours of graduate credits will be considered. Please refer to Transfer of Credit in *General Student Information* section of the catalog for further information.

Graduation Requirements

Please refer to the *General Student Information* and *M.S. in Education* sections of the catalog to find all degree completion requirements.

Master of Science in Instructional Technology and Distance Education

(Major Code F509)

The mission of the M.S. Program in Instructional Technology and Distance Education (ITDE) is to develop professionals who can plan, organize, manage, and teach effectively using instructional technology in the classroom, on the job, and online through a variety of electronic delivery systems. The M.S. in ITDE program provides skills in distance education, instructional media, instructional design, and training. It is designed for working professionals who wish to improve teaching and training skills and for those who wish to become instructional designers, trainers, e-learning specialists, and media professionals. Classes are taught mostly online, with a few classes using a blended approach that involves face-to-face instruction on a long weekend during the term, with the remainder of the instructional activities offered online. Graduates of this program will earn a Master of Science in Instructional Technology and Distance Education

Important Notes: Prior to enrollment in a graduate course, all applicants must register for EDU 5000: Orientation to the Graduate Teacher Education Program, during their first session/term.

Program Learning Outcomes

This program aims to impart the following skills:

1. Media production and utilization,
2. Instructional design,
3. Distance education course and program design and delivery,
4. Instructional technology and distance education management, assessment, and evaluation,
5. Research and evaluation

Admission Requirements

Please see *General Student Information* and *M.S. in Education* section for admission information. The following are specific admission requirements for entry into the M.S. in ITDE program.

- a. Applicants must submit test scores from the Miller Analogies Test (MAT) or Graduate Record Examination (GRE). There is no minimum score required. The test must have been taken within the past 5 years.
- b. Two letters of recommendation
- c. Copy of current Resume or Curriculum Vitae

Transfer of Credit

No transfer of credit is accepted into this program.

Program Completion Timeline

The program (coursework and reflective portfolio) is designed to be completed in five terms; however, students have a maximum of 6 years to complete the program. Students who are unable to complete all degree or program requirements within the established time frame will be dismissed from the program.

Capstone

ITDE students are required to complete a Reflective Portfolio Project. Students should begin working on their Reflective Portfolio during their first courses in the program. The Reflective Portfolio requires, in part, the collection of course syllabi and major assignments. Enrollment counselors can furnish a copy of the syllabus for the Reflective Portfolio (EDD 6000). The syllabus contains directions about the completion of the Reflective Portfolio.

Graduation Requirements

Please refer to the *General Student Information* and *M.S. in Education* sections of the catalog to find all degree completion requirements.

Master of Science in Leadership

(Major Code F987)

The Master of Science in Leadership (MSL) was developed in collaboration with the H. Wayne Huizinga School of Business and Entrepreneurship. The degree consists of two core courses developed by the faculty of each school and two separate tracks. Students may choose either the track offered by the Huizinga School of Business and Entrepreneurship, or the track offered by the Abraham S. Fischler School of Education to complete their degree. The Fischler track was developed for advisors, coordinators, trainers, supervisors, administrators, and directors of private schools, colleges and universities, professionals in human services and non-profit organizations, and the military. The curriculum is designed to develop practitioners who can apply effective leadership skills in the fields of education and human services. Classes are taught online. Classes may be offered on site using a blended approach that involves face-to-face instruction in the evening or during weekends, with the remainder of instructional activities offered at a distance. The curriculum facilitates the transition from theory to practice and fosters the development of leadership skills to organize, motivate, and lead others to achieve organizational, personal and team goals.

Program Learning Outcomes

This program aims to impart the following:

1. Demonstration of knowledge of frameworks, models, strategies and issues regarding the science of leadership.
2. Problem solving through application of theoretical, conceptual, and practical knowledge in personal and professional settings.
3. Use of research for the purpose of decision making.
4. Demonstration of effective oral and written communication in mastering the program content.
5. Proficiency in using technology to access research and relevant information.

Admission Requirements

Please refer to *General Admission Requirements* in the General Student Information section of this catalog for the admission requirements for all graduate students. The following are specific requirements for entry into the M. S. in Education program:

- a. An official transcript from a regionally accredited institution indicating a conferred bachelor's degree.
- b. Evidence of a minimum cumulative grade point average (CGPA) of a 2.5, **or**
- c. GRE scores of 1000 (combined Verbal and Quantitative scales only) **for tests taken prior to August 1, 2011** or GRE scores of 300 (combined Verbal and Quantitative scales only) **for tests taken on or after August 1, 2011**, or the Miller's Analogies Test (MAT) with a raw score of 50. (The tests must have been taken within the past 5 years from the date of application.)

Note: Applicants who do not meet the minimum CGPA or GRE requirements may enroll in a maximum of six (6) credit hours and must earn a grade of B or higher in each course during the first term of enrollment for conditional admission. Students who do not earn a grade of B or higher in each course may be subject to dismissal from the program.

Transfer of Credit

A maximum of nine semester hours of graduate credits will be considered. Please refer to Transfer of Credit in *General Student Information* section of the catalog for further information.

Graduation Requirements

Please refer to the *General Student Information* and *M.S. in Education* sections of the catalog to find all degree completion requirements.

Master of Science in Medical Education

(Major Code F559)

The Master of Science (MS) in Medical Education is designed to assist university physician faculty members and community clinical preceptors develop and enhance their professional education and teaching skills, as well as heighten their ability to facilitate the learning process of students and residents. This two-year program was developed in collaboration with NSU's College of Osteopathic Medicine.

Program Learning Outcomes

The participants in the Masters of Science in Medical Education will be able to:

1. Demonstrate the ability to employ multiple methods to facilitate learning in a variety of settings.
2. Design learning opportunities that incorporate the use of multiple forms of current and evolving technologies.
3. Employ assessment strategies to determine the degree to which learners have achieved specified education and training outcomes.
4. Identify and employ multiple learning principles in the provision of a broad range of instructional activities.
5. Demonstrate the ability to design and conduct research and engage in scholarly activities in health professions education.
6. Develop a project that applies the knowledge concepts, skills, and attitudes acquired during the Masters of Science in Medical Education Program.

Admission Requirements

The following are specific admission requirements for entry into the M.S. in Medical Education program. Please see *General Student Information* for additional admission information.

- a. Proof of a terminal degree in any health professions field. (This is usually a doctorate for most medical and other health care disciplines. Examples of exceptions are physician assistant and nursing faculty when a Master's will be accepted.)
- b. Verification letter indicating appointment to the faculty of applicant's school.
- c. No GRE or minimum GPA is required for admissions into the program

Transfer of Credit

No transfer credits will be accepted in this program.

Program Completion Timeline

Students are required to attend two live classes on Main Campus (NSU). These live classes are scheduled for: first class of HED 600 and the last class of HED 650. The online program is designed to be completed in 2 years; however, students have a maximum of 6 years to complete the program. Students who are unable to complete all degree or program requirements within the established time frame will be dismissed from the program.

Graduation Requirements

Please refer to the *General Student Information* and *M.S. in Education* sections of the catalog to find all degree completion requirements.

Program of Study

HED 600:	Practicum in Teaching Medical and Other Health Professions Students in a Diverse Learning Environment (6 credits)	HED 630:	Practicum in Effective Instruction Strategies in Health Professions Education (6 credits)

Total Credits Required for Degree Completion 36			

Master of Science in Speech-Language and Communication Disorders

(Major Code F537 or A537 for Florida or Nevada Department of Education Approved Program)

The Master of Science in Speech-Language and Communication Disorders Program focuses on training speech-language pathologists to provide a full range of services to individuals with communication disorders in a variety of professional settings. In addition, the program is Department of Education approved in Florida and Nevada training speech-language pathologists to provide a full range of services to individuals with communication disorders in a school or classroom setting. This major provides scientifically-based academic and clinical curricula to foster critical thinking and application of best practices. Course content is research-based and aligns directly with the Florida Department of Education's certification requirements for speech-language pathology, Florida Licensure awarded by the Florida Department of Health, Nevada Department of Education's certification requirements for speech-language pathology, and the Certificate of Clinical Competence awarded by the American Speech-Language and Hearing Association (ASHA). This program is also accredited by the Council on Academic Accreditation in Audiology and Speech-Language Pathology (CAA) of ASHA.

Program Learning Outcomes

The SLCD graduate entering the profession will be able to do the following:

1. Integrate and apply information from the physical, biological, social, and behavioral sciences to the field of communication sciences and disorders.
2. Demonstrate clinical proficiency in screening and assessment skills with a variety of clinical populations.
3. Develop and implement a plan of intervention with a variety of clinical populations.
4. Evaluate and critically apply current research to determine and enhance clinical efficacy.
5. Recognize and apply the knowledge of diversity across professional activities.
6. Use written, oral, and nonverbal communication means to communicate clearly, effectively, and appropriately.
7. Collaborate and/or counsel effectively with clients, family members, caregivers, and other professionals.
8. Demonstrate professional behaviors that exemplify knowledge of ethical, legal, regulatory, and financial aspects of professional practice.
9. Demonstrate the skills for lifelong learning, professional development, and self-assessment.
10. Demonstrate the ability to use technology to accomplish research, client diagnosis, and treatment.

Professional Accreditation

The master's degree in Speech-Language and Communication Disorders, offered through the Abraham S. Fischler School of Education, is approved by the Florida Department of Education, the Nevada Department of Education, and is accredited by the Council on Academic Accreditation in Audiology and Speech-Language Pathology (CAA) of the American Speech-Language-Hearing Association (ASHA).

Instructional Delivery System

The master's program operates year-round and is divided into three semesters. Semesters typically begin in September, January, and May. Academic courses are offered primarily in the evenings. Clinical labs and externships are held during the weekdays, and occasional Saturday or evening labs may be available. Students should plan to devote full-time participation to two externship experiences. Occasionally, some classes are delivered in week-long formats in intercessions scheduled twice a year. Students are required to attend a three day New Student Orientation prior to the first semester of course work in the program.

New Student Orientation

New students must attend a mandatory 3-day orientation meeting on campus. Students are responsible for any expenses that may be incurred in order to attend. During the meeting, students will be oriented to Nova Southeastern University, the Abraham S. Fischler School of Education, and the Program in SLCD, meet some of the faculty, and participate in speech and hearing screenings. Students will have received their plans of study, submitted their registration and tuition, and purchased the required Publication Manual of the American Psychological Association (APA), (6th ed.), prior to the orientation meeting. Students should review the SLCD Web site (<http://www.schoolofed.nova.edu/slp>) and are responsible for familiarizing themselves with all of the departmental policies and procedures. Students are required to sign a form reflecting knowledge of the student handbook.

Student Insurance

All students are required to have liability insurance for the duration of enrollment in the Programs in SLCD (including prerequisite courses). Each student will be charged \$10 per term for coverage under the program insurance plan. Insurance will be renewed annually by the program.

Background Check

Students enrolled into the SLCD program will have a criminal background check in preparation for clinical placements.

Clinical Practicum

The Clinic for Speech-Language and Communication Disorders is located on the NSU Main campus, and a variety of offsite contracted locations. Clinical hours obtained in the Clinic and off campus practicum sites may only be counted toward American Speech-Language-Hearing Association (ASHA) certification requirements if the student earns a passing grade for each clinical assignment. Only clinical practicum hours earned while the student is/was enrolled in a university program, and under the supervision of an ASHA certified and state licensed SLP or Audiologist may be counted toward the degree and certification.

The Program is affiliated with more than 1,200 off-campus sites around the country, for clinical and externship placements. Students are not permitted to make their own clinical or externship arrangements.

Admission Requirements

The following are specific admission requirements for entry into the Master of Science program in Speech-Language and Communication Disorders. Please see General Student Information for additional admission information.

- a. An official transcript from a regionally accredited institution indicating a conferred bachelor's or graduate degree.
- b. Evidence of a cumulative GPA of a 3.0:
 - Applicants must have attained grades of B or better in any prerequisite courses completed.
 - Applicants who have earned a grade lower than a B in a prerequisite course must repeat the course.
 - Applicants who have logs of any observations or clinical clock hours obtained under the supervision of a speech-language pathologist holding an ASHA-CCC may submit these records to the program advisor.
- c. Applicants whose native language is not English may be required to demonstrate English proficiency through results of the Test of English as a Foreign Language (TOEFL).
- d. Three letters of recommendation.
- e. Qualified applicants will be invited to participate in a face-to-face or telephone interview.
- f. Two written essays (in the application packet).
- g. Students seeking Florida Department of Education certification must meet criteria for the Florida State Approved Program, Florida Initial Certification Plan (ICP) for Speech-Language Pathology.
- h. Students seeking Nevada Department of Education licensure must meet criteria for the Nevada state-approved program, Nevada initial licensure for Speech-Language Pathology.

International Students

International students must present verification of student visa or residency status. Due to availability of clinical placements, students who live outside of the United States, including Canada, during their course of study will not be eligible for admission to the Master of Science in Speech-Language and Communication Disorders [SLCD] program. Furthermore, students accepted to the SLCD program may not relocate outside of the United States, including Canada, before the completion of the degree.

Prerequisite Courses

Prerequisite courses will be accepted as part of the applicant's bachelor's degree coursework if the applicant earned a grade of B or higher in each required prerequisite course. Prerequisite courses will only be accepted if taken within the past 10 years of the date of application to the program. If the applicant did not complete the required prerequisites as part of their undergraduate program, courses may be taken as post baccalaureate work.

Program Requirements Regarding the SLP Praxis Examination and Capstone

1. Students must take capstone with Externship. Exemptions from this program requirement may only be given by program administration.
2. Students must pass capstone before taking the Praxis. Students taking the Praxis without having successfully completed the capstone will get a Professional Warning. In addition, they will be required to fulfill the capstone course requirement.
3. Students must pass the capstone in order to graduate.
4. Students must register for Praxis using the process described in the capstone course and must take the Praxis at the first opportunity following successful completion of that class.
5. Students who do not pass the capstone must repeat it successfully in order to be eligible to take the Praxis and graduate. This may delay graduation.
6. Students who are required to take the SLP Praxis as a condition of employment must provide official documentation of that requirement to program administration at least two semesters prior to Externship 1.

Transfer of Credit

In order for a student to receive transfer credit, courses taken previously must be equivalent to those described in this catalog, and must have been taken within 5 years prior to admission. Approval of transfer credit will be granted only after the student has submitted a written request for consideration with the program director or his/her designee. The student must provide catalog course descriptions and may be required to provide course syllabi. Only courses completed at regionally accredited universities and colleges, or their foreign equivalents, and Council on Academic Accreditation (CAA) accredited programs on the graduate level, will be considered for transfer credit into the master's program. No more than nine semester hours of credit may be transferred into the master's degree program. In order to be considered for transfer credit, a grade of B or better must have been recorded for each course. No clinical course credits will be allowed to transfer.

Credits earned at Nova Southeastern University are transferable only at the discretion of the receiving school. Students who wish to transfer credit should contact the admissions office of the receiving school for information.

Students holding a master's degree in audiology and who are seeking a Master's degree in Speech-Language and Communication Disorders for dual licensure or certification may exceed the maximum number of transfer credits upon approval by the program director.

SLCD Fees

Students enrolled in the SLCD program are subject to the following additional fees.

1. **Lab:** Students enrolling in clinical classes (SLP 6005, 6101, 6102, 6110, 6120, and 6130) pay a \$200 fee per lab class.
2. **Out-of-State Externship Fee:** \$750 for each clinical lab experience and each externship (over and above tuition and lab fee). This fee applies to externship assignments within the continental United States.
3. **Out-of-Tricounty-Area Clinic (in Florida) Lab and Extern Fees:** \$200 over and above tuition and lab fees
4. **Late Registration:** \$100

Deposit Policy

Applications are brought before the SLCD Admissions Committee according to the date files are completed. Candidates are notified of acceptance by mail. At that time, a tuition deposit of \$500 will be required as confirmation of acceptance.

The deposit schedule is: June 1 for students admitted for fall; October 1 for students admitted for winter; January 1 for students admitted for summer. After one year of acceptance date, students who have not enrolled will be withdrawn and must reapply for admission and will be governed by the policies in place at that time.

Program Completion Timeline

The master's program may be completed in eight semesters but must be completed within 6 years from the time graduate courses have begun. Students who are unable to complete all degree or program requirements within the established time frame will be dismissed from the program.

Graduation Requirements

The following is required in order to complete the M.S. in Speech Language and Communication Disorders:

- Satisfactory completion of all required courses and labs in the major
- Successful completion of the required clinical experiences totaling a minimum of 400 accrued hours
- Maintained cumulative grade point average of 3.0 or higher
- Successful completion of the required capstone course
- Successful completion of the required portfolio
- Successful completion of Knowledge and Skills required by the American Speech-Language-Hearing Association
- Passing scores for the required sections of the Florida Teacher Certification Exam (indicated for Florida Department of Education certification requirements)
- Completion of the Praxis Exam
- Completed application for degree and satisfaction of all Abraham S. Fischler School of Education and Nova Southeastern University financial obligations

Certificate of Clinical Competence

This program is designed to prepare students to meet the standards for ASHA certification. A comprehensive list of ASHA certification standards is available at <http://www.asha.org/certification/>.

Council of Academic Accreditation of the American Speech-Language-Hearing Association (CAA) Complaint Policy

The Nova Southeastern University Master's Degree program in Speech-Language and Communication Disorders has been awarded accreditation by the Council on Academic Accreditation of the American Speech-Language-Hearing Association. Students enrolled in a program that is accredited by the CAA are eligible to apply for the ASHA Certificate of Clinical Competence (CCC). Should a student enrolled in the program wish to file a grievance against the program, the following conditions must be met:

- Grievances must be against an accredited educational program, or program in candidacy status in speech-language pathology and/or audiology
- Grievances must relate to the standards for accreditation of educational programs in audiology and speech-language pathology
- Grievances must include verification, if the complaint is from a student or faculty/instructional staff member, that the complainant exhausted all institutional grievance and review mechanisms before submitting a complaint to the CAA

All grievances must be signed and submitted in writing to:

Chair, Council on Academic Accreditation
in Audiology and Speech-Language Pathology (CAA)
American Speech-Language-Hearing Association
2200 Research Boulevard
Rockville, Maryland 20850-3289

Program of Study

Prerequisite Courses

SLP 5001:	Anatomy and Physiology (3 credits)
SLP 5002:	Phonetics (3 credits)
SLP 5003:	Neuroanatomy (3 credits)
SLP 5004:	Hearing and Speech Science (3 credits)
SLP 5005:	Speech and Language Development (3 credits)
SLP 5007:	Directed Observation (1 credit)
SLP 5008:	Evaluation of Speech-Language Disorders (3 credits)
SLP 5010:	Treatment of Speech and Language Disorders (3 credits)
SLP 5300:	Audiology (3 credits)
SLP 5400:	Rehabilitation for the Hearing Impaired (3 credits)

Core Courses (41 credits)

SLP 6000:	Diagnosis of Language and Speech Disorders (3 credits)
SLP 6011:	Language and Learning Disabilities in School-age Children and Adolescents (3 credits)
SLP 6012:	Communication Disorders in Infancy through Preschool Age (3 credits)
SLP 6015:	Clinical Processes (3 credits)
SLP 6020:	Language Disorders in Adults (3 credits)
SLP 6025:	Augmentative and Alternative Communication (3 credits)
SLP 6030:	Voice Disorders (3 credits)
SLP 6040:	Fluency Disorders (2 credits)
SLP 6050:	Motor Speech Disorders (3 credits)
SLP 6055:	Dysphagia (3 credits)
SLP 6060:	Phonological Disorders (3 credits)
SLP 6070:	Research Methods in Speech-Language Pathology (3 credits)
SLP 6075:	Seminar in Professional Issues (3 credits)
SLP 6078:	Technological Applications in CSD* (0 credit)

Required attendance at the South Florida Main Campus*

SLP 6091:	Multicultural and Counseling Issues (3 credits)
-----------	-------------------------------------------------

Elective Courses *Six elective credits must be selected.*

SLP 6013:	Autism Assessment: A Communication-Based Perspective (3 credits)
SLP 6014:	Autism Spectrum Disorders (3 credits)
SLP 6021:	Cognitive Communication Disorders (3 credits)
SLP 6023:	Advanced AAC Technology (1 credit)
SLP 6024:	Promoting Literacy in Individuals with Significant Communication Difficulties (1 credit)
SLP 6026:	AAC Assessment (1 credit)
SLP 6027:	AAC Strategies for the Beginning Communicator (1 credit)
SLP 6028:	Low-Tech Communication Aids (1 credit)
SLP 6029:	AAC in the Curriculum (1 credit)
SLP 6037:	Craniofacial Anomalies (3 credits)
SLP 6045:	AAC in Educational Settings (3 credits)
SLP 6057:	Medical Aspects of Communication Disorders (3 credits)
SLP 6080:	Directed Research (1-6 credits)
SLP 6203:	Organization and Management of School-Based SLP Programs (3 credits)
SLP 6400:	(Central) Auditory Processing Disorders (1 credit)

Labs and Externships (Required)

SLP 6005:	Diagnostics Lab (1 credit)
SLP 6101:	Clinical Lab 1 (1 credit)
SLP 6102:	Clinical Lab 2 (1 credit)
SLP 6110:	Externship (1 credit)
SLP 6120:	School Externship, K-12 (1 credit)
Or	
SLP 6130:	Pediatric Externship—Non-school Setting (1 credit)
Or	
SLP 6140:	Approved Program School Externship (1 credit)
SLP 6200:	Capstone (0 credit)

Total Credits for Completion 52

Additional Florida Department of Education Approved Program Requirements for SLP

- Successful completion of three education courses (may be part of undergraduate degree program, or may be taken concurrently with masters in SLP course work)
 - ESE 600: Survey of Exceptionalities of Children and Youth, or equivalent
 - SLP 6203: Organization and Management of School-Based Speech-Language Pathology Programs, or equivalent
 - RED 550: Foundations of Reading for Content Area Teachers, or equivalent
- Florida Teaching Certification Examinations in
 - Subject Area Examination in Speech and Hearing Handicapped, K-12
 - Professional Education Test
- Successful completion of School Externship – SLP 6120: Externship: School
- Completion of the Praxis II Exam in Speech-Language Pathology (0330)

All students must submit a *Degree Application* <http://www.nova.edu/registrar/instructions.html>

Master's Degree Course Descriptions

APR 650 Educational Field-Based Project (3 Cr)

The Field-Based Project is intended to engage the students in a problem-solving experience designed to improve or enhance an educational situation. This process is systematic and involves the student in (a) submission of a structured proposal, (b) active intervention, (c) evaluation of the implemented activities and outcomes, and d) completion of a final report. **Prerequisite/s: 24 credits (33 for ESE), including EDU 5000, CUR 526, and EDU 601.**

ATH 500 Leadership in Athletic Administration (3 Cr)

This course will give students a greater sensitivity, understanding, and appreciation for the responsibilities, duties, and techniques required to function effectively as an educational leader and administrator within the total area of management and administration of sports and fitness organizations. It is further expected that students will acquire a deeper understanding and respect for the need and appropriate application of measurement and evaluation techniques in the decision-making process. **Prerequisite/s: None**

ATH 510 Socio-Cultural and Ethical Foundations of Sport (3 Cr)

This course will enable students to have an understanding of the socio-cultural environment in which sport exists, the socio-cultural and ethical dilemmas confronted in sport, the social stratification and mobility opportunities provided through sport, the commercialization and mass media exploitation in sport, and the barriers to sport participation, including ethical and gender issues. Philosophical, political, societal, moral, race, class, and sexuality issues within sport will be addressed. **Prerequisite/s: None**

ATH 520 Essentials of Sports Law (3 Cr)

This course will provide athletic administrators with an awareness of the legal implications of their actions. This course will introduce the student to the U.S. legal system and focus on the areas of tort, contract, agency, professional sport law issues and constitutional law as they apply to sports. It will provide the student with a foundation of comprehensive information that is relevant to practitioners in the sport industry and provide the student with a better understanding of the law in general. **Prerequisite/s: None**

ATH 530 Marketing in Athletic Administration (3 Cr)

This course will expose the student to fundamental concepts of marketing, emphasizing how those concepts are applied to the domestic sports industry as well as to the international market. The course will focus on the unique aspects of sport, such as its particular product and life cycle profiles, the sport consumer and the various marketing tools and strategies that can be utilized to successfully bring the product to market, specifically the classic marketing mix, targeting, segmentation, program implementation and control. **Prerequisite/s: None**

ATH 540 Economics and Finance in Athletic Administration (3 Cr)

This course will teach the student to analyze the financial implications and operating procedures of the athletic industry, including where revenue is obtained, how it is spent, and how to effectively utilize remaining resources to help foster future growth. Finance is the key for any decision making process, and a thorough knowledge of financial concepts, systems, statements, budgets, forecasts and planning is the key to making athletic administrative decisions. **Prerequisite/s: None**

ATH 550 Event Planning and Public Relations in Athletic Administration (3 Cr)

This course provides the student with the history and evolution of event management; explores the myriad of types of events that are offered in the marketplace; evaluates an event based on information gained; and presents an event that the student will produce, including all that is involved in running a successful event from inception to completion. This course will teach the student how to effectively communicate goodwill and promote a favorable relationship with a variety of administrators, personnel, the community, and the media. **Prerequisite/s: None**

ATH 560 Field Experience Advising (1 Cr)

This course is a prerequisite for Field Experience in Athletic Administration I and II and Applied Research in Athletic Administration I and II. The purpose of this course is to offer individual advising about careers in athletics so that a student can successfully glean skills and techniques from the field experience. Students will learn how to create a professional résumé and cover letter to prepare them for future professional experiences. Students who are able to complete an applied field experience will be responsible for locating the site for their applied field experience, obtaining approval from the instructor, and applying for the applied field experience. These students will take ATH 670 Applied Field Experience I in the following term. Students are encouraged to complete an applied field experience; however, students who are unable to complete an applied field experience will propose an applied research project and take ATH 671 Applied Research in Athletic Administration I in the following term. **Prerequisite/s: None**

ATH 670 Applied Field Experience in Athletic Administration I (3 Cr)

This is part I of a 16-week capstone course allowing students to culminate an in-depth, applied athletic administrative experience before entering the athletic industry. In this course, students will commence the applied field experience and glean the skills necessary to function effectively in the applied field experience. In addition, this course will teach students about the purpose of an electronic portfolio, how to map out the electronic portfolio in advance, and how to create an electronic portfolio plan. **Prerequisite/s: ATH 0560**

ATH 671 Applied Research in Athletic Administration I (3 Cr)

This is part I of a 16-week capstone course allowing students to culminate an in-depth, applied athletic administrative experience before entering the athletic industry. In this course, students will complete an applied research project. In addition, this course will teach students about the purpose of an electronic portfolio, how to map out the electronic portfolio in advance, and how to create an electronic portfolio plan. **Prerequisite/s: ATH 0560**

ATH 675 Applied Field Experience in Athletic Administration II (3 Cr)

This is part II of a 16-week capstone course allowing students to culminate an in-depth, applied athletic administrative experience before entering the athletic industry. In this course, students will complete the applied field experience that they commenced in ATH 670 and will finalize and present the electronic portfolio. **Prerequisite/s: ATH 0670**

ATH 676 Applied Research in Athletic Administration II (3 Cr)

This is part II of a 16-week capstone course allowing students to culminate an in-depth, applied athletic administrative experience before entering the athletic industry. In this course, students will complete an applied research project and will finalize and present the electronic portfolio. **Prerequisite/s:** ATH 671

CAE 500 Introduction to Media and Instruction (3 Cr)

This course introduces students to the principles of instructional design and learning theory, examines methods for planning, production and utilization of media in instruction and provides experience in the development of a lesson plan that incorporates the use of instructional media. **Prerequisite/s:** None

CAE 502 Internet for Educators (3 Cr)

This introductory course includes the fundamentals of navigating the Internet and its role in the K-12 classroom. Participants will explore Internet terminology, Internet services, forms of Internet communication and retrieval of information. Educational Web sites will be examined and evaluated. Current issues and controversies concerning Internet access and use in the K-12 environment will be discussed. Target audience: classroom teachers and media specialists working with grades Kindergarten through 12. **Prerequisite/s:** None

CAE 503 Internet Resources for Educators: Applications for Instruction (3 Cr)

This intermediate course examines Internet resources and communication tools and how they may be used in the learning environment to build critical thinking and research skills. Students will learn to use the Web to locate, examine, and evaluate instructional resources to design instructional activities for education or training. Synchronous and asynchronous forms of Web communication will be explored along with issues of acceptable Internet use in the K-12 classroom. Projects and activities focus on the individual student's professional environment and curriculum needs. Target audience: classroom teachers and media specialists working with grades Kindergarten through 12. **Prerequisite/s:** None

CAE 504 Introduction to Web Authoring (3 Cr)

This introductory project-based course examines and demonstrates the elements of Web page development including page and site design, copyright issues, HTML coding, and World Wide Web related resources. Each participant will use problem-based learning experiences to create basic web pages culminating in a final WWW site. **Prerequisite/s:** None

CAE 505 Web Authoring 2: Beyond Basic WWW Page Development (3 Cr)

Students will supplement the WWW page developed in Web Authoring I using more advanced authoring techniques such as tables, image maps, frames, forms, and JavaScript. Students will examine inquiry-based learning and complete projects that integrate Web Authoring inquiry-based pedagogy in web site design. **Prerequisite/s:** CAE 504

CAE 507 Video and Multimedia for Education (3 Cr)

This course introduces elements of audio, video and multimedia creation for individual computer based learning and distance delivery. Students will create educational multimedia materials for teaching and learning in a variety of formats using new technologies and software. **Prerequisite/s:** None

CAE 510 Web 2.0 Tools: Applications for Teaching and Learning (3 Cr)

This course provides students with the knowledge, skills, and tools to integrate Web 2.0 tools into classroom instruction. Students will research and learn to use popular free educational Web 2.0 tools and resources, create learning activities, and develop teaching and learning resources that can be used immediately in classrooms with students. **Prerequisite/s:** None

CAE 6100 Classroom and Clinical Applications of Assistive Technology (3 Cr)

The term assistive technology as defined by federal legislation is "any item, piece of equipment, or product system that is used to increase, maintain, or improve functional capacities of individuals with disabilities." This course is a broad overview of assistive technologies commonly being introduced into school and clinical settings to empower and support persons with varied physical and learning disabilities. **Prerequisite/s:** None

CBD 501 Special Education Law (3 Cr)

This course will provide participants with a clear understanding of the federal laws and regulations that apply to working with individuals with disabilities and their families in preschool and school settings. Legal and ethical issues, responsibilities, professionalism, and accountability of administrators, educators, and other service providers will be reviewed. Accommodations and modifications for students with disabilities will be explored. Additionally, inclusion and related issues will be discussed within the context of the laws. **Prerequisite/s:** None

CBD 502 Assessment and Diagnosis of Exceptional Learners (3 Cr)

This course introduces participants to the proper selection and use of educational and psychological assessments and the correct interpretation and use of assessment results specifically for students with disabilities. Special emphasis is placed on preparing participants to be sensitive to the social and ethical implications of assessments. **Prerequisite/s:** None

CBD 503 Classroom Management (3 Cr)

Students will examine various theoretical aspects of and practical applications for the effective organization and management of the special education classroom. The interdependence of instructional planning and behavior management systems will be emphasized. Variables related to teacher behaviors, student behaviors, curricular concerns, and academic planning will be addressed. **Prerequisite/s:** None

CBD 504 Curriculum and Instructional Materials for Exceptional Learners (3 Cr)

This course is designed to enhance the professional development of preservice and inservice teachers who plan to work with exceptional students. Emphasis is on planning and organizing classroom environments, assessing students' weaknesses and strengths, designing strategies for treating behavior patterns, and selecting and modifying curriculum materials to promote learning. **Prerequisite/s:** None

CBD 505 Working with Families of Exceptional Learners (3 Cr)

This course will enable participants to develop knowledge of historical influences of parents in the provision of education of students with disabilities. Participants will become familiar with past and present issues, priorities, problems and concerns facing parents. Further, participants will examine the emotional stages parents of students with disabilities frequently experience and will identify behavioral characteristics of the different emotions that parents encounter. Cultural factors impacting on parents' emotional reactions will be explored. Emphasis will be placed on participants' gaining an understanding of parents' emotional responses to their student's disability and enabling them to communicate and interact effectively with parents. **Prerequisite/s: None**

CBD 506 Transition of Exceptional Learners (3 Cr)

This course will focus on the strategies, methods, curriculum, and assessment for facilitating an effective transition from school to adulthood for students with disabilities. Special emphasis will be placed on career development and independent living. **Prerequisite/s: None**

CBD 508 Methods and Strategies in Behavior Management (3 Cr)

The principles introduced in this course not only explain why certain behaviors exist, but also offer participants a methodology to produce desirable changes and improve the academic and social development of students with emotionally and behavioral disabilities. **Prerequisite/s: None**

CBD 509 Social Skills Training (3 Cr)

This course introduces participants to the application of social skills training for teaching children and youth with cognitive and behavioral disorders to become socially and emotionally competent. The cognitive, behavioral, environmental, and cultural contexts of social skills are explored. Strategies for teaching social skills are also discussed. **Prerequisite/s: None**

CBD 510 Characteristics and Needs of Students with Developmental Disabilities (3 Cr)

This course provides a comprehensive coverage of developmental disabilities and outlines both past and present theories and practices in the field. The course also provides participants with basic information and foundational skills for understanding and working with students with developmental disabilities. Emphasis is on what the concept of developmental disabilities involves, how learning problems can be recognized, and how to address these problems. **Prerequisite/s: None**

CBD 511 Characteristics and Needs of Students with Learning Disabilities (3 Cr)

This course provides a comprehensive coverage of the field of learning disabilities and outlines both past and present theories and practices in the field. The course also provides participants with basic information and foundational skills for understanding and working with students with learning disabilities. Great emphasis is placed on what the concept of learning disabilities involves, how learning problems can be recognized, and on how to address these problems. **Prerequisite/s: None**

CBD 512 Characteristics and Needs of Students with Emotional and Behavioral Disabilities (3 Cr)

This course involves a study of the characteristics of children and youth identified with emotional and behavioral disorders (EBD). Participants will develop an understanding of diverse theoretical perspectives, definitions, and intervention models; symptomology and etiological factors that contribute to EBD; and descriptive data currently used in both the literature and the professional discipline. **Prerequisite/s: None**

CBD 513 Methods for Teaching Students with Developmental Disabilities (3 Cr)

This course introduces preservice teachers to various strategies and techniques to educate students with developmental disabilities. Methods of managing and teaching children with developmental disabilities utilizing visual, auditory, kinesthetic, and tactile concepts in remediation are also explored. Special attention will be devoted to developing individualized program strategies for enhancing learning for students with developmental disabilities. **Prerequisite/s: None**

CBD 514 Methods for Teaching Students with Learning Disabilities (3 Cr)

This course introduces participants to the various educational programs and teaching strategies which have been used successfully in remediation. Methods of managing and teaching children with learning disabilities utilizing visual, auditory, kinesthetic, and tactile concepts in remediation are also explored. **Prerequisite/s: None**

CBD 515 Methods for Teaching Students with Emotional and Behavioral Disorders (3 Cr)

This course introduces preservice and inservice teachers to the professional and academic contexts of the field of emotional and behavioral disorders. The course content integrates the multiple perspectives necessary for understanding and influencing student's behavioral adjustment, and provides information on how to plan, organize, and manage instructional programs for students in different settings. **Prerequisite/s: None**

CBD 516 Teaching Mathematics to Exceptional Learners (3 Cr)

This course is designed to ensure that exceptional student education teachers have the content knowledge necessary to teach mathematics. In addition, students will learn ways to adapt math instructional strategies, assessment and materials for students with disabilities. Topics will include strategies for number operations, thematic approach in mathematics, and alternative assessment strategies for the exceptional students. Students will learn the number structure and theory of numbers through puzzles and games. **Prerequisite/s: None**

CBD 517 Teaching Reading to Exceptional Learners (3 Cr)

This course will concentrate on the best practices for teaching reading to students with disabilities. Participants will increase their understanding in the assessment and correction of reading difficulties and the analysis of these difficulties. The major components of literacy instruction for students with disabilities will be explored as well as modifications and adaptations to achieve a balanced literacy curriculum. **Prerequisite/s: None**

CIT 500 Theories of Learning (3 Cr)

Learning theory remains a crucial component of instructional delivery. Instruction should be tailored to the learning process, and learning theory provides a framework for analysis of teaching practices. This course examines various learning theories that directly impact education and their influence on teaching and learning. Philosophies relating to how people learn, curriculum design,

assessment, and reorganization for school change will be discussed. Classroom teachers and media specialists working with kindergarten through Grade 12 will find this course particularly useful. **Prerequisite/s: None**

CIT 501 Curriculum and Instruction (3 Cr)

This course is intended to provide skills to the participants to develop, design, plan and assess the curriculum. Major topics that include theories and foundations of the curriculum are balanced with practical applications of developing curriculum materials appropriate for the participants setting. Current topics including multicultural curriculum, program evaluation, integrated curriculum, thematic units, technology-based learning and assessment of student learning outcomes are examined. **Prerequisite/s: None**

CIT 502 Research in Education: Process and Application (3 Cr)

Taken as the first course of each Master's program specialization, CIT 0502 begins a process that continues throughout the student's program of study, emphasizing research skills and development of an applied research project. Prerequisite to subsequent courses in all NGTE majors, CIT 502 is the first component of an integrated three-part process that continues with six to eight weeks of implementation and culminates with a final report generated in CIT 0610. **Prerequisite/s: None**

CIT 503 Assessment of Learning (3 Cr)

This course offers a variety of practical skills for improving assessment techniques and instruments. Among assessment topics to be covered are design and development of assessment plans, teacher-made tests, standardized and commercial tests, and performance assessments. Program evaluation, the role of high-stakes testing and its relationship of learning, and assessment and decision-making will also be examined. **Prerequisite/s: None**

CIT 505 Management and Organization of Educational Programs (3 Cr)

This course assists students in integrating teaching methods, principles of curriculum development and evaluation, and methods for dealing with student behavior in a cohesive, well-managed educational program. The course also covers techniques for communicating with parents and methods for working effectively within the school's administrative structure. **Prerequisite/s: None**

CIT 506 Social, Multicultural, Historical and Philosophical Issues (3 Cr)

This course examines how to develop appropriate curriculum in multicultural settings. Discussion of what constitutes a developmentally and culturally-appropriate curriculum for linguistically (ESOL) and culturally different learners is emphasized throughout this course. Guidelines for the selection of appropriate teaching, materials and activities with consideration to all aspects of diversity are examined. **Prerequisite/s: None**

CIT 609 Special Topics in Curriculum Design 1 (3 Cr)

This course is an independent study of special topics and issues in curriculum planning, organization, and design. It is designed to have the student learn from a variety of online resources. This course is designed for students who have completed programs of study in NGTE and allows the student to pull together many elements from other past courses. **Prerequisite/s: None**

CIT 610 Special Topics in Curriculum Design 2 (3 Cr)

This course is designed to provide analysis and synthesis of formal applied research in a selected work setting. Students will present and evaluate the results of a research project, analyze and evaluate the research methods used, and offer recommendations for integrating the project in the work setting and beyond. They will also complete tasks that demonstrate leadership, ensure improvement in educational activities, and/or enhance technology integration in the work setting. **Prerequisite/s: None**

CSE 501 Computing Resources for Teachers (3 Cr)

This computer literacy course is designed for computer science education majors. Educational applications of technology and the use of hardware, software, and peripheral devices are emphasized. **Prerequisite/s: None**

CSE 505 Computing Applications for Teachers (3 Cr)

Computer science education majors will apply computer application programs in educational settings. An overview will be given of the wide variety of applications of computers for enhancing administrative and educational tasks to improve problem solving. **Prerequisite/s: CSE 501**

CSE 510 Instructional Applications of Technology: Introduction to Programming Concepts (3 Cr)

Extending basic applications of computers will help candidates blend critical thinking skills and technology to improve the educational environment. This includes an investigation of artificial intelligence, the use of the computer as a control device, the Logo and Alice environments, and graphics. **Prerequisite/s: CSE 501 and CSE 505**

CSE 515 Methods of Teaching Computer Science K-12 (3 Cr)

Candidates will investigate instructional strategies for designing and teaching computer science courses in kindergarten through grade 12. Included in the course is a review of the instructional elements of computer science. A systematic design model will be used to develop a course curriculum plan. **Prerequisite/s: CSE 501, CSE 505, CSE 510, CSE 525, CSE 530, CSE 535**

CSE 517 Web Applications for Computer Science Education (3 Cr)

Candidates will use current Web development software to create instructional and informational Web pages for PreK-12 classrooms and schools. Elements of Web page design and formatting that are appropriate for PreK-12 students, along with sources of Web utilities, will be emphasized. **Prerequisite/s: CSE 501 and CSE 505**

CSE 525 Introduction to Structured Programming for Computer Science Educators (3 Cr)

Using the concepts of problem solving, critical thinking, and pseudocode, candidates will analyze assigned tasks and develop structured approaches to designing computer programs using the structured programming languages. **Prerequisite/s: CSE 501 and CSE 505**

CSE 530 Introduction to Programming in C++ for Computer Science Educators (3 Cr)

This course introduces the C++ programming language. Candidates will apply problem solving and critical thinking skills to analyze

assigned tasks and develop structured approaches to designing computer programs. AP Computer Science A test topics will be covered. **Prerequisite/s: CSE 501 and CSE 505**

CSE 535 Java for Computer Science Educators (3 Cr)

The Java programming language is used to introduce and reinforce problem-solving through modular and object-oriented programming and applications of programs in a Web-based environment. This course introduces graphical user interfaces (GUIs), event-driven programming using abstract window toolkits (AWTs), and the placement of Java code within an HTML-based Web page. **Prerequisite/s: CSE 501 and CSE 505.**

CSE 540 Data Structures for Computer Science Educators (3 Cr)

Candidates will develop skills in creating and testing programs to solve complex problems. Data abstraction and modularity are stressed. The following data structures will be used by students in the course: records, arrays, and pointers; singly and doubly linked lists; introduction to recursion, stacks, and queues; tree-structured data; sorting and searching techniques; and graphs. **Prerequisite/s: CSE 501, CSE 505 and CSE 530 or CSE 535**

CSE 545 Networking in Computer Science Education Environments (3 Cr)

Basic networking theory and practice appropriate for the PreK-12 computer science lab or classroom are introduced. Resources to support computer networks are identified. **Prerequisite/s: CSE 501 and CSE 505**

CSE 560 Data Presentation Software for Educators and Administrators (3 Cr)

Candidates will use software (Excel, Internet Explorer, R, and Word) to obtain, organize, and present educational data in table and graphical formats. Benefits, comparisons, selection of software, and presentation techniques will be emphasized. This course will benefit administrators and teachers who need to compile, analyze, and communicate educational statistics. **Prerequisite/s: None**

CSE 699 Applied Professional Experience in Computer Science Education (3 Cr)

Candidates will apply professional experiences in Computer Science Education in PreK-12 computer labs and classrooms, reflect on activities, and collect samples of student work and assessments used to demonstrate achievement of professional and state standards. **Prerequisite/s: 24 credits including CUR 526**

CSED 501 Planning a Charter School Program Start - Up Logistics (3 Cr)

This course is designed to provide an overview of the charter school movement; the principles, practices and purpose of charter schools are explored. This course provides guidance in developing a charter school, understanding the fine points of organizing a charter school and the daily administration of a charter school operation. The course focuses on the required elements in establishing an effective charter school from conceptualization through to implementation and end of year review. **Prerequisite/s: None**

CSED 503 Community and Public Relations (3 Cr)

This course explores public relations and community involvement as significant factors and viable tools to deliver an effective community and public relations program suited to the needs of the school community. **Prerequisite/s: None**

CSED 504 Teaching Exceptional Student Education in a Charter School Classroom (3 Cr)

This course will provide participants with a clear understanding of the Federal laws and regulations that apply to working with individuals with disabilities and their families in preschool and school settings. Legal and ethical issues, responsibilities, professionalism, and accountability of administrators, educators, and other service providers will be reviewed. Accommodations and modifications for students with disabilities will be explored. Inclusion and related issues will be discussed within the context of the laws. **Prerequisite/s: None**

CSED 506 Curriculum and Instruction in Charter Schools (3 Cr)

This course provides a comprehensive analysis of the process of curriculum development. It will begin with an examination of the theoretical dimensions of curriculum development followed by its relationship to instructions. There will be a study of the roles of various school personnel whose primary responsibility is the development of curriculum. The course will conclude with an in-depth study of a number of models of curriculum development. Special emphasis will also be placed on the investigation of various types of charter schools and the curriculum that drives these schools. **Prerequisite/s: None**

CSED 591 Assessment and Student Evaluation in Charter Schools (3 Cr)

This course emphasizes the practical skills in student evaluation and assessment required for curriculum planning in the classroom and the school. The educators will be taught principles of educational measurement as they relate to the K-12 classrooms. Along with basic terminology, educators will develop particular skills in writing instructional objectives and learning outcomes, develop test items of various types, construct rating scales and rubrics, as well as interpret student performance. **Prerequisite/s: None**

CSED 698 Charter Leadership Internship (3 Cr)

This internship provides an opportunity for simulated and practical instructional experiences for future or current charter school administrators who wish to enhance their professional qualifications or explore other administrative positions. The internship is designed as the capstone experience for students completing their degree in Charter School Education and Leadership. **Prerequisite/s: None**

CUR 506 Curriculum and Instruction (3 Cr)

This course provides a comprehensive analysis of the *process* of curriculum development. It will begin with an examination of the theoretical dimensions of curriculum development followed by its relationship to instruction. There will be a study of the roles of various school personnel whose primary responsibility is the development of curriculum. The course will conclude with an in-depth study of a number of models of curriculum development. **Prerequisite/s: None**

CUR 526 Educational Research for Practitioners (3 Cr)

This course introduces students to the concepts and skills needed by educational practitioners in accessing, critically reviewing, and designing research. These skills include the use of electronic databases, synthesizing research for application in instruction and

training, developing objectives to evaluate both progress and process, and collecting and analyzing data within an educational context. Students are required to design an action research project that is relevant to their specialization. **Co-requisite/s:** EDU 5000

CUR 591 Assessment and Evaluation (3 Cr)

The purpose of CUR 591 is to emphasize the practical skills in student evaluation required for curriculum planning in the classroom and the school. Areas covered include the development of effective teacher-made tests, the utilization of standardized test results in the development of intervention and remediation strategies for both individuals and groups of students, and recommended instruments and alternative practices for the assessment of multicultural students. **Prerequisite/s:** None

EC 500 Child Growth and Development (Birth through Age 8) (3 Cr)

Students will explore the growth and development of children from birth through age 8. The course includes in-depth study in all aspects of human development, including the physical, socioemotional, cognitive and creative domains. **Prerequisite/s:** None

EC 501 Language Acquisition and Development (3 Cr)

This comprehensive course provides students with a background in how children acquire communication and language skills. Understandings of the developmental rationale and progression needed to determine appropriate strategies that recognize, acknowledge and strengthen typical individual language patterns is emphasized. The components of the learning interrelationships of communication skills and language forms with applications for infants through school age children are presented. **Prerequisite/s:** None

EC 502 Program Development for Children: Infants, Toddlers and Preschoolers (Birth-Age 5) (3 Cr)

This course covers appropriate practices, methods and curriculum development for programs for children ages birth through 5. Attention is given to planning, design, implementation and evaluation of programs. Criteria for the analysis and selection of materials are discussed. Field Experiences are integrated. **Prerequisite/s:** None

EC 503 Child Study and Assessment (3 Cr)

This course covers identification, screening and utilization of appropriate assessment strategies for use in educational programs for children ages three through eight. Included are techniques for direct observation of children, interviews, formal and informal screening methods, developmental assessment, and standardized and criterion-referenced testing. Field experiences are integrated. **Prerequisite/s:** None

EC 508 Theory and Practice in Early Childhood Education (3 Cr)

This course covers the historical philosophical and sociological foundations of early childhood education as background for study of methods of planning, implementing and evaluating developmentally appropriate programs for young children. Emphasis is given to a review of current curriculum and service delivery models. **Prerequisite/s:** None

EC 509 Developmentally Appropriate Language, Literacy, and Early Reading Experiences for Children Ages 3-8 (3 Cr)

In this course students examine the developmental and linguistic characteristics and needs of young children as a foundation for the development of the reading process. Theories about language and literacy acquisition and development are explored as a basis for the design, planning and implementation of literacy and early reading classroom experiences. Five key areas for effective early reading behaviors are explored. Students engage in appropriate field experiences. **Prerequisite/s:** None

EC 511 Developmentally Appropriate Curriculum for Children Ages 3 through 8: Social Studies and the Arts (3 Cr)

This course focuses on planning, implementing, and evaluating developmentally appropriate and integrated content and methodology for fostering children's understanding of the social world and expression of the human experience through art, drama, movement, and music. Students will participate in appropriate field experiences. **Prerequisite/s:** None

EC 512 Developmentally Appropriate Curriculum: Concept Development through Math and Science (3 Cr)

This course focuses on planning, implementing, and evaluating developmentally appropriate integrated methodology for fostering children's logical reasoning and concept formation and skills in mathematics and science. Students will participate in appropriate field experiences. **Prerequisite/s:** None

EC 513 Child Guidance and the Organization of Appropriate Environments for Children Ages 3 Through 8 (3 Cr)

This course focuses on the design and implementation of developmentally appropriate physical and socio-emotional environments for young children. The course covers methods for fostering individual social and emotional growth through the use of appropriate motivation and behavior management strategies and the organization of the indoor and outdoor environment. Health, nutrition, and safety policies are also covered. **Prerequisite/s:** None

EC 514 Family and School Collaboration in Early Childhood Programs (3 Cr)

In this course students will explore and analyze current practices in the field of school/community involvement at the early childhood and primary levels and strategies for developing successful family and community involvement programs. The nature of family systems will be covered, with an emphasis on the ethno cultural and economic variables. **Prerequisite/s:** None

EC 517 Seminar on Family Systems for Early Childhood Educators (3 Cr)

This course focuses on the analysis of the family through the theory of family systems. Students will examine the different dimensions (systems) of the family as a social institution and their impact on the developing child. Emphasis will be placed in exploring and discussing the different family configurations found in today's society. Current local and national issues affecting the family and the child such as diversity, the economy, homelessness, changing societal values, and others will be discussed. **Prerequisite/s:** None

EC 518 Developmentally Appropriate Curricular Practices in Multicultural Settings (3 Cr)

This course examines how to develop a developmentally appropriate curriculum for children in multicultural settings. Discussion of what constitutes a developmentally and culturally-appropriate curriculum for linguistically (ESOL) and culturally different children is emphasized through the course. Guidelines for the selection of child-appropriate teaching approaches, materials, and activities with consideration to all aspects of diversity are discussed throughout the course. **Prerequisite/s:** None

EC 519 Health and Safety Issues in Early Childhood Classrooms (Birth through Age 8) (3 Cr)

This course is aimed to offer students with an overview of current issues related to the health and safety of the young child. Students will examine and discuss common social and health indicators such as child abuse, substance abuse, malnutrition, and childhood illnesses. Legal responsibilities of educators as well as services and practices to promote a healthy environment will be examined. Appropriate field experiences are included. **Prerequisite/s: None**

EC 521 Developmentally Appropriate Literature-Based Curriculum for Young Children (3 Cr)

This course focuses on how to use children's literature to develop integrated curricula following NAEYC's recommendations. Students will examine the different literary genres and themes appropriate for young children with emphasis on resources for culturally and linguistically different children. Guidelines for the design and implementation of appropriate activities for infants/toddlers, preschoolers, and primary-age children will be addressed throughout the course. **Prerequisite/s: None**

EC 522 Planning the Play-Based Curriculum: Arts and Movement for Children Ages Birth through Age 8 (3 Cr)

This course examines the concept of integrated curriculum and the use of play as a developmentally appropriate teaching and curricular strategy for children ages three through six. Students plan and develop integrated activities suitable for young children with consideration to the needs of culturally and linguistically different children. Selected ESOL strategies and observation and assessment activities are discussed. Field experiences are integrated. **Prerequisite/s: None**

EC 526 Family Literacy (3 Cr)

Students explore methodologies to support parents and family members in literacy processes at home at school. Strategies for integrated curricular home/classroom activities are discussed. Selection and use of ESOL strategies, language and culturally appropriate materials for second language learners are discussed. Lesson planning and assessment issues are emphasized. Appropriate field experiences are integrated. **Prerequisite/s: None**

EC 531 Appropriate Curriculum for Preschoolers: Social Sciences and Literacy Development Birth through Age 4 (3 Cr)

In this course students will explore and implement appropriate strategies and practices to foster language and social development of the very young child. Guidelines for the selection and preparation of materials, use of learning centers, planning, and assessment issues are discussed throughout the course. **Prerequisite/s: None**

EC 541 Guiding Behavior in the Preschool Classroom (Birth – Age 4) (3 Cr)

Through this course students will examine and discuss the organization and implementation of developmentally appropriate physical and socio-emotional environments for infants, toddlers and preschoolers. NAEYC criteria for the development of DAP indoor and outdoor environments are also examined. Health, safety, and nutrition issues will be examined. Appropriate field experiences are provided. **Prerequisite/s: None**

EC 579 Foundations of Emergent Literacy: Infants and Toddlers (3 Cr)

This course examines the development of language and literacy during the infancy and toddler years. Stages of language learning and development, role of parents and teachers are discussed. Issues about second language learning at home and school will be examined. Developmentally appropriate techniques and ESL techniques for promoting language development are explored. Students engage in the development and organization of literacy materials and environments. Appropriate field experiences are integrated. **Prerequisite/s: None**

EC 586 Early Intervention Trends and Issues (3 Cr)

This course examines recent practices and trends in the field of early intervention. Students engage in the analysis of current issues such as assessment practices, policies, intervention models, services, ethics and cross-cultural issues. Field experiences are integrated into course activities. **Prerequisite/s: None**

EC 592 Emergent Literacy Practices with Children 3-5 Years Old (3 Cr)

This course engages students in the design and implementation of a developmentally appropriate integrated curriculum with emphasis on emergent literacy activities for young children ages 3-5. Curricular techniques, methods, organization of the environment, and selection of appropriate materials are examined. Adaptations for children with special needs and second language learners and parent involvement strategies are discussed. Field Experiences are integrated. **Prerequisite/s: None**

EC 601 Child Development Issues and Trends: The Preschool Years (Birth through Age 5) (3 Cr)

This course examines growth and development issues across the physical, social, cognitive, language and creative domains during the prenatal infancy, toddler hood, and preschool years. Discussion of current developmental and scientific research findings and trends is also covered. Cultural diversity issues related to early development are also addressed. Students will engage in appropriate field experiences. **Prerequisite/s: None**

EC 602 Cognitive and Social Development: Cross-Cultural Perspectives (3 Cr)

This course examines growth and development issues across the physical, social, cognitive, language, and creative domains during the prenatal, infancy, toddlerhood, and preschool periods. Discussion of current developmental and scientific research findings and trends is also covered. Students will engage in appropriate field experiences. **Prerequisite/s: None**

EC 620 Research Issues in Child Development (3 Cr)

This course provides an overview of the research process and of research issues related to each of the developmental areas (social-emotional, cognitive, language, physical). Students examine topics linked to the process of growth and development and to the education of children ages birth through eight. Appropriate field experiences are integrated. **Prerequisite/s: None**

EC 699 Applied Professional Experience in Early Childhood Education (3 Cr)

This course will require students to participate and document applied professional experiences in an early childhood setting (Preschool-Grade 3). Students will maintain a reflective journal and create a course folder to demonstrate achievement of professional and content standards. **Prerequisite/s: 24 credits, including EC 620**

EC 5015 Teaching and Working with Five-Year Old Children: The Kindergarten Classroom (1 Cr)

This course provides an overview of appropriate pedagogical methods for the Kindergarten classroom. Students review the characteristics of five year-old children and discuss the teaching implications of the concept developmentally appropriate and culturally practices. Child-appropriate models, planning methods and selection of classroom resources are examined through hands-on activities. Field experiences are integrated. **Prerequisite/s: None**

EC 5275 Learning Center Management for the Early Childhood Classroom (Birth to age 8) (3 Cr)

In this course, students will be provided a framework for supporting students' active involvement using the classroom environment and learning centers. The design principles in designing the environmental space and equipment to support and guide students to becoming independent learners, problem solvers and decision-makers will be explained. Well-planned experiences foster the joy of learning by meeting each student's individual developmental level. Adapting the curriculum and instructional time for differing abilities and preferences enhances personalized understanding and knowledge of basic concepts. **Prerequisite/s: None**

EC 5280 Multicultural Children's Literature (3 Cr)

This course examines appropriate children literature representative of different cultural groups. Students will engage in the discussion of selected literary works from the different genres including riddles, songs, nursery rhymes, chants, and picture books. Lesson planning, design and selection of props and storytelling techniques will be discussed. **Prerequisite/s: EC 620**

ECAI 501 Education and Society (3 Cr)

This course investigates the impact of society on education. Synthesis and analysis of historical issues as they relate to current society will be addressed. Strategies for successful education within the current societal structure will be a focus. **Prerequisite/s: None**

ECSE 699 Applied Professional Experience in Early Childhood Special Education (3 Cr)

This course will require candidates to participate and document applied professional experiences in an early childhood special education setting (infant, toddler, preschool, or kindergarten). Candidates will maintain a reflective journal and complete a Teacher Work Sample to demonstrate achievement of professional and content standards. **Prerequisite/s: 24 credits, including EDU 5000, CUR 526, EDU 601, EP 5265, EP 5270, and EP 5275.**

EDL 500 Problem Solving and Visionary Leadership (3 Cr)

Effective educational leaders need to be able to work with and through others. Through the activities in this course, the student will develop and apply various leadership, visionary, interpersonal, and supervisory skills. The development of these skills will enhance the students' ability to problem solve, interpret various types of data, and communicate information to diverse types of stakeholders. **Prerequisite/s: None**

EDL 505 Educational Budgeting and Finance (3 Cr)

Using acquired knowledge of historical and current school finance concepts and applicable state funding procedures for computation, accounting, auditing, and reporting, students will analyze the planning, development, implementation, and evaluation of a school budget. This course also provides an overview of the charter school movement. **Prerequisite/s: None**

EDL 506 Standards-Based Curriculum and Assessment (3 Cr)

This course addresses the need for educational leaders to position teaching and learning at the focal point of schools. It prepares students to make decisions about curriculum, addressing the need for improving student achievement. The course provides conceptual knowledge about standards, instruction strategies, and assessment, as well as reflection and practice in the analysis of the curricular processes such as unlocking standards, creating objectives, creating units, designing lessons, and assessing. The class gives students opportunities to align the curriculum, instruction, and assessment process to promote student performance. The course promotes the use of the William C. Golden School Leadership Development Program as a leadership tool for professional improvement. **Prerequisite/s: None**

EDL 510 Ethical School Leadership (3 Cr)

Students will explore and demonstrate knowledge of basic theories of leadership, change process, group dynamics, motivation, planning techniques, responses to external forces, and application of the Florida Principal Competencies. **Prerequisite/s: None**

EDL 520 School Law for Administrators (3 Cr)

Students will investigate the impact of school law on the rights of students and educators as guaranteed by the United States Constitution and will include federal and state statutes and regulations (state and federal statutory and regulatory provisions) as well as tort and contract liability as they influence public education. Students will explore federal and state regulations that present specific processes and procedures to be implemented by school administrators in working with parents, students, and educators. **Prerequisite/s: None**

EDL 525 Human Resources: Process and Staff Development (3 Cr)

This course prepares prospective school administrators in the personnel components of the profession. From analysis of positions to recruitment, selection, induction, retention to termination current and past court cases are used to understand the historical and legal responsibilities of administrators in today's educational personnel climate. Readings, case studies, presentations, papers, field experience and group activities are the tools used to cover these topics. **Prerequisite/s: None**

EDL 530 Management of Schools (3 Cr)

Students will internalize the implications of the authority and total responsibility placed on school administrators. Emphasis will be placed on the students' ability to implement the components of a vision and mission statement, by evaluating a research-based program to improve student achievement. In addition, students will demonstrate their ability to distinguish between different leadership models. Further, students will display a thorough understanding of effective school management, information gathering, delegation, decision-making strategies/models, ethical leadership, systematic planning, as well as community and stakeholder partnerships. **Prerequisite/s: None**

EDL 545 School Improvement Process (3 Cr)

Course description: This course addresses the need for educational leaders to focus on school improvement that promotes the success of all students. The course provides conceptual knowledge about school vision and school improvement processes. It also provides opportunity for reflection on the importance of assuring instructional focus, and the importance of the use of students' achievement data in the process of school improvement. **Prerequisite/s: None**

EDL 550 Electronic Tools for Educational Leaders (3 Cr)

This course constitutes an overview of the technology competencies appropriate for educational leaders. Educational leadership applications of technology are addressed with an emphasis on new and emerging hardware and software tools related to instruction and the management of a school. The major topics of the course are covered in a variety of learning activities: lecture, discussion, cooperative activities, hands-on computer activities, research, writing, scenarios, reflective thinking, analysis of technology plans, administrative policies and practices related to technology. Students are expected to have a basic level of computer literacy prior to beginning this course. **Prerequisite/s: None**

EDL 669 Educational Leadership Internship (3 Cr)

This course provides an opportunity to observe, interview, work with, and perform the duties of administrators in the actual work setting. Course requirements include a minimum of 300 contact hours, completion of a leadership portfolio, and structured activities related to the role and responsibilities of the educational leader. **Prerequisite/s: None**

EDU 501 School and Society (3 Cr)

Current issues and practices in today's schools are examined in the context of the historical and philosophical trends that have shaped American education. **Prerequisite/s: None**

EDU 502 Psychological Foundations in Education (3 Cr)

This course establishes a psychological foundation for teaching. Developmental theories, diversity, approaches to instruction, differentiation, exceptional students, and assessment are studied and practiced. Emphasis is placed on the implications of developmental processes for the design of appropriate curriculum and instruction. **Prerequisite/s: EDU 601**

EDU 503 Classroom Management and Organization (3 Cr)

This course assists students in integrating teaching methods, principles of curriculum development and evaluation, and methods for dealing with student behavior in a cohesive, well-managed educational program. The course also covers techniques for communicating with parents and methods for working effectively with the school's administrative structure. A field experience component is included. **Prerequisite/s: None**

EDU 508 Instructional and Assessment Strategies (3 Cr)

This course offers a comprehensive review and practical application of effective teaching and assessment strategies in the classroom. Areas covered include organization and development of instruction, instructional strategies that meet the needs of diverse learners, and effective assessment strategies, which include interpretation and utilization of data from state achievement tests. **Prerequisite/s: None**

EDU 514 Pre-Internship Practices (3 Cr)

This course is an introduction to educational aspects necessary for successful state certification. Seminar instruction focuses on lesson planning, vocabulary/educational terminology acquisition, and instructional management techniques for prospective classroom teachers and school library media specialists. School site observation and participation introduces students to current teaching and management practices and the school environment. Students are placed in classrooms or school library media centers with experienced cooperating teachers who have clinical educator training and ESOL certification/endorsement. This placement occurs through the university office in cooperation with school districts. **Prerequisite/s: None**

EDU 529 Seminar in Secondary Education (3 Cr)

This seminar provides an opportunity to discuss issues unique to secondary education. These issues include conflicting views on the purpose of secondary education, contemporary educational policy and/ or legal/organizational issues and finally issues related to curricular and instructional practices. The students will also study the strategies of a well researched and documented effective secondary teacher. **Prerequisite/s: None**

EDU 550 Introduction to Nature and Needs of the Gifted (3 Cr)

This course includes basic knowledge of the gifted including characteristics, evaluation, and identification procedures. It also includes fundamentals of curriculum planning utilizing an analysis of the strengths, weaknesses, and potential of the gifted. **Prerequisite/s: None**

EDU 551 Educational Procedures for the Gifted (3 Cr)

This course includes techniques for selecting strategies matched to the needs and interests of the individual gifted child and introduces specific strategies such as simulation, synectics encounter, movement, and role-playing. It also includes lesson development techniques so that the gifted child may achieve a balance between cognitive and affective areas. **Prerequisite/s: EP 5281, EP 5282.**

EDU 555 Seminar for the Guidance of Gifted Children (3 Cr)

This course focuses on topics that assist educators working with the special needs of gifted students. Participants acquire the knowledge and skills needed to help guide gifted children in their current environment and their future choices. **Prerequisite/s: EDU 550**

EDU 561 Independent Study for Research on Gifted Students (3 Cr)

This course is designed to give opportunities for research and in-depth theoretical readings in a substantive area of gifted education not normally covered within the standard courses. Research projects and advanced readings will vary according to individual interest. **Prerequisite/s: None**

EDU 597 Instructional Strategies for Teaching PK-Grade 12 (3 Cr)

This is an introductory teaching methods course for teaching in grades PK-12. In this course, teachers will learn to identify the developmental levels of their students and the particular needs of their diverse students in order to promote the learning process. Using this knowledge, teachers will learn to plan and implement appropriate learning experiences to assess the effectiveness of their lessons based on the achievement of their learners. Positive teacher characteristics and the many roles of the teacher will be studied. **Prerequisite/s: none**

EDU 600 Accomplished Practices Seminar (0.5 Cr)

This course is designed to enhance students' understanding of the Educator Accomplished Practices. Instruction will emphasize the multiple aspects of each accomplished practice in a classroom setting. Students will learn how to demonstrate their proficiency through a series of activities including an introduction to the assessment system (ASSESS) and key assessments within their program. **Prerequisite OR Co-requisite: CUR 526**

EDU 620 Teacher Education Simulation (0.5 Cr)

This course is an online simulation in which students will demonstrate their proficiency with the Educator Accomplished Practices. In a simulated classroom environment, students will engage in decision-making processes to effectively apply the Educator Accomplished Practices to positively influence student learning. **Pre-requisite: EDU 600 plus 12 credits in the specialization**

EDU 688 Internship and Seminar (9 Cr)

This course offers a comprehensive review and practical application of educational philosophy, methods, and strategies through a 12-week clinical experience (internship) that includes coursework and seminars. The central coursework is composed of a 12-week field experience, with a concurrent seminar serving as a supportive and reinforcing component. During the seminar sessions, the teacher candidate will explore, in depth, such topics as school board rules, regulations, and policies; professional ethics; best practices; Professional Generic Competencies; Preprofessional Educator Accomplished Practices; state standards; teaching strategies; current trends in education; review and discussion of essential teaching competencies; Bloom's Taxonomy as it relates to comprehensive student assessment; self-assessment; and assessment of the student teaching experience. This is an ESOL infused course. **Prerequisite/s: None**

EDU 689 Supported Teaching Externship (9 Cr)

The purpose of EDU 689 is to provide support for Initial Certification students who are hired as full time teachers before completing the internship. (Students must have completed the Florida Teacher Certification Exam prior to graduation.) Areas covered include on-site classroom management assistance, the effective use of individualized authentic assessment, lesson planning and implementation of established curriculum, and assistance in preparation for the FCAT. **Prerequisite/s: None**

EDU 699 Teacher Leadership Institute: Action Research Project (6 Cr)

One of the most powerful ways to deepen your understanding of what you are studying is to conduct research in your own classroom. Learn how to design, implement, and evaluate an action research project using a topic that relates to what you have learned in the program and publish your research as a way to contribute to the professional knowledge base. **Prerequisite/s: None**

EDU 5000 Orientation to the Graduate Teacher Education Program (0 Cr)

This seminar provides an orientation to the program and technology skills necessary for successful participation in the M.S. and Ed.S. programs of the Fischler School of Education. Students will be introduced to university systems designed to provide support and services during the formal program of studies, i.e., academic advising, course materials and schedules, the portfolio process, Educator Accomplished Practices, etc. Students will also practice technology skills, i.e., using email, sending attachments, navigating the Internet to locate university Web sources, accessing library materials through the NSU Electronic Resources, using APA form and style, locating and using program Web sites, and using the online course management system. The seminar also provides students an opportunity to meet with an Academic Advisor/Enrollment Services Representative. Attendance in this noncredit seminar is required for all entering M.S. and Ed.S. students. Students need to complete EDU 5000 during the same session of the first graduate course in the program of study. **Prerequisite/s: None**

EDU 5999 Advanced Topics (1-6 Cr)

This is an organized class specifically designed to accommodate student needs and program development demands not met by existing course offerings. See the course topic syllabus for list of outcomes, assignments and assessments. May be repeated for credit. Prerequisite/s: Instructor Permission. **Prerequisite/s: None**

EDU 6505 Special Topics in Education I (3 Cr)

Special Topics in Education I involves the qualitative analysis emerging issues in trends in education. Topics are identified and determined via an individualized process of negotiation with course professor/instructor, and are to reflect an advanced level of inquiry and problem-solving related to the student's program of study. **Prerequisite/s: None**

EDUB 610 BrainSMART Science, Structure, and Strategies (6 Cr)

In this course, students study how people learn according to research from the fields of education, cognition, and the brain. Participants will evaluate and apply the research-based BrainSMART model for improving student achievement, specifically focusing on instructional strategies to address positive learning state and engagement, making meaning, attention, retention, and transfer. Explore the body-brain system and specific areas of the brain and their function, including the limbic system and the processes which make each brain as unique as a fingerprint. Examine how emotions, motivation, and positive relationships influence how the brain pays attention, learns, and remembers. Develop and evaluate specific strategies to aid the visual, kinesthetic, and auditory processing styles and understand how the brain processes what it sees and hears. **Prerequisite/s: None**

EDUB 612 Thinking for Results: Applying the Science of Student Achievement (6 Cr)

In this course, students will explore and apply how cognitive processes and strategies influence student achievement. A three-phase model of thinking is discussed and analyzed. The first phase focuses on how the brain gathers information. The second phase investigates how the brain processes information after it is gathered. The third phase examines how the brain outputs, or expresses, information. In order to increase students' capacity to maximize performance in these three phases, a toolbox of cognitive assets is presented. Specific examples of these cognitive assets in the context of the classroom are explored for application. Students will

learn the importance of metacognition and how to improve thinking skills. Terms associated with the brain (e.g., frontal lobes), its executive function capability, and the role of mirror neurons are explored. Students will use and analyze assessments and instructional methodologies for the purpose of increasing analytical and evaluative thinking. **Prerequisite/s: None**

EDUB 614 Differentiated Instruction: Respecting Brain-Based Learner Differences (6 Cr)

In this course, a deeper understanding of the potential of every brain is explored in the context of individual strengths and prior academic experience. A variety of brain and cognitive learner differences will be discussed including gender differences, learning style preferences, and a system for better understanding students and their needs. Students will complete individual learner profiles for their own students and use those profiles to plan and evaluate lessons. This course also is designed to equip educators with a range of research-based presenting and facilitating strategies. These practical strategies will help educators adapt instruction to reach students with a variety of learning strengths in the classroom. **Prerequisite/s: None**

EDUB 617 Courageous Learners: Tools for Teaching Students At Risk (6 Cr)

Students today are arriving in the classroom with an enormous variety of skills, experiences, and attitudes. Many are at risk of academic failure, but virtually every student can achieve academic success when they are provided with effective instruction and an environment of respect. This course presents a model for addressing this challenge allowing students to master a new approach for understanding and reaching students with learning challenges; to discover tools for increasing motivation and enhancing academic achievement by all students; and to review model strategies that work well with students who learn differently. Particular attention is paid to challenges that relate to the learner's neurobiological system and two particular areas of study are attention deficit disorders and dyslexia. Students also explore and apply ways to link with parents and community resources to assist courageous learners in reaching their potential. **Prerequisite/s: None**

EDUB 619 Student Achievement and Classroom Management (6 Cr)

This course explores how educational objectives, or learning goals, are fundamental to effective teaching and provide a set of shared expectations among students, teachers, administrators, and the general public. Examine how developing and maintaining teacher-student relationships influence classroom management and increase a student's likelihood to accept rules and procedures necessary for effective classroom management. By incorporating strategies to help nurture this relationship, behavioral problems are significantly decreased. Investigate, apply and evaluate strategies proven to reduce classroom disruption and to increase on-task behavior. **Prerequisite/s: None**

EDUB 621: Brain-Based Foundations for Beginning Reading (6 Cr)

This course focuses on an introduction to brain structure and function related to language development and beginning literacy in the preschool and primary grades. Phonemic awareness, reading readiness, emergent literacy, and multiple approaches to the teaching of phonics are addressed. Classroom assessment that guides teachers to appropriate interventions with young students is a focus. Emphasis is placed on a balanced approach to reading that includes diverse methodologies based on brain research for vocabulary development, as well as increased comprehension and fluency in the preschool and primary grades. **Prerequisite/s: None**

EDUB 622: Connecting the Brain to Higher-Order Thinking and Literacy (6 Cr)

In this course, students will learn the importance of metacognition and the use of specific cognitive strategies in reading classrooms of upper elementary grades. An introduction to terms associated with the brain (e.g., frontal lobes), its executive function capability, and the importance of reflective reading are explored. Research that focuses on model upper elementary grade reading classrooms will be analyzed, and current issues such as the importance of nonfiction and learning across the content areas will be examined. Teachers will use assessments and instructional methodologies for the purpose of increasing analytical and evaluative thinking, and specifically, comprehension, in reading. **Prerequisite/s: None**

EDUB 623: Brain-Based Differentiated Reading Instruction (6 Cr)

In this practical course, students will learn brain-based principles and strategies for differentiating instruction to increase the likelihood that all students will have success, including those who have reading challenges. Specifically, the focus will be on teaching methodologies to reach boys effectively, as well as girls; reaching those who have difficulty maintaining attention during reading; teaching Limited English Proficiency (LEP) students; and identifying the brain system differences that occur when readers struggle. Participants will complete assessments and instructional plans for a balanced reading program, as well as an individualized reading roadmap appropriate for all types of readers. **Prerequisite/s: None**

EDUB 699 Teacher Leadership Institute: Action Research Project (6 Cr)

The National Board for Professional Teaching Standards calls for "teachers to think systematically about their practice and learn from experience" and to "critically examine their practice on a regular basis to deepen knowledge, expand their repertoire of skills, and incorporate new findings into their practice." This course engages students in action research as a way to critically analyze, reflect on, and improve their teaching practice. Implementing a BrainSMART strategy or skill within the classroom, students will demonstrate competency with that strategy or skill to assist student acquisition of new knowledge and use the action research process to assess how the strategy or skill helps to improve teaching and learning in the classroom. Students also will analyze and discuss the connection between action research and teacher leadership. This course is the capstone course of the master's program and includes a minimum 40-hour field experience as students will teach, implement, and evaluate strategies as part of their action research projects. **Prerequisite/s: None**

EDUC 610 Classroom and Instructional Management (6 Cr)

This course focuses on instructional concepts and teaching techniques to assist practicing teachers in managing today's interactive classroom. Participants explore management strategies such as conflict resolution and peer mediation to increase on-task behavior, create nurturing, cooperative classrooms that promote active learning, and enhance overall teaching effectiveness. **Prerequisite/s: None**

EDUC 620 Instruction and Assessment for Diverse Classrooms (6 Cr)

In this course candidates explore integration of curricula, instruction, and assessment to meet the diverse needs of learners. Candidates develop a repertoire of assessment strategies, including standardized and teacher-made tests, portfolios, and performance tasks, to evaluate student learning and growth as well as classroom instruction. Candidates also examine the effect of federal, state, and local regulations and policies on inclusive educational programs. **Prerequisite/s: EDUC 610 and EDUC 630,**

EDUC 640, EDUC 650 or EDUC 661, EDUC 660, EDUC 662 or EDUC 671, EDUC 670, EDUC 672 or EDUC 681, EDUC 680, EDUC 682

EDUC 630 Action Research in Practice - Curriculum and Instruction (6 Cr)

This course focuses on instructional concepts and teaching techniques to assist practicing teachers in managing today's interactive classroom. Participants explore management strategies such as conflict resolution and peer mediation to increase on-task behavior, create nurturing, cooperative classrooms that promote active learning, and enhance overall teaching effectiveness. **Prerequisite/s: None**

EDUC 640 Cognitive Curricula (6 Cr)

In this course, Candidates explore and practice the skills necessary to create curricula and experiences that promote classroom learners' acquisition and use of creativity and critical thinking and problem-solving skills. Candidates use problem-based learning, thematic teaching, and project-based learning models to develop and implement a coherent, integrated curriculum that helps classroom learners transfer learning to new situations, connect ideas across content areas, and make connections between the real world and the classroom. **Prerequisite/s: EDUC 610, EDUC 630**

EDUC 650 Instructional Models and Technology (6 Cr)

This course focuses on the fundamental principles of various teaching models and technology tools that complement and support each model. Candidates identify, evaluate, integrate, and implement the models and appropriate technology tools to maximize learning opportunities for students. **Prerequisite/s: EDUC 610, EDUC 630, EDUC 640**

EDUC 660 Reading Foundations and Instructional Interventions (6 Cr)

Reading is the foundation of every other subject. Teachers need to have many tools at their disposal to help students be successful readers. This course explores a variety of methods, materials, and strategies to promote reading skills and addresses instruction in phonics and phonemic awareness, building print and alphabetic awareness in beginning readers, developing vocabulary, and improving reading comprehension. **Prerequisite/s: EDUC 610, EDUC 661**

EDUC 661 Action Research in Practice—Reading (6 Cr)

In this course, Candidates experience the art and science of action research while developing the tools of reflective inquiry and collaborative practice. Candidates engage in analysis of current classroom challenges related to reading as they explore and practice action research methods as a logical extension of classroom instruction. Integral to this process is the development of the first phases of an Action Research Project, a capstone project that focuses on a reading topic, and the creation of a cumulative professional portfolio that demonstrates professional growth. **Prerequisite/s: EDUC 610**

EDUC 662 Language, Learning, and Technology Across the Curriculum (6 Cr)

This course focuses on promoting literacy skills in the classroom through the infusion of technology with critical thinking and process skills across the curriculum. Candidates investigate and practice integrating reading, writing, and technology into everyday lessons and structuring the classroom environment to promote content area reading skills. Candidates also identify and implement effective assessments of students' reading progress. **Prerequisite/s: EDUC 610, EDUC 661, EDUC 660**

EDUC 670 Teaching and Assessing Mathematics through Technology (6 Cr)

In this course, candidates reflect on their current instructional practices and explore new strategies, including the application of technology, for enhancing students' understanding of math concepts and their computation skills. Candidates investigate and practice techniques for fostering math skills and diagnosing skill level development. **Prerequisite/s: EDUC 610, EDUC 671**

EDUC 671 Action Research in Practice—Mathematics (6 Cr)

In this course, Candidates experience the art and science of action research while developing the tools of reflective inquiry and collaborative practice. Candidates engage in analysis of current classroom challenges related to mathematics as they explore and practice action research methods as a logical extension of classroom instruction. Integral to this process is the development of the first phases of an Action Research Project, a capstone project that focuses on a mathematics topic, and the creation of a cumulative professional portfolio that demonstrates professional growth. **Prerequisite/s: EDUC 610**

EDUC 672 Best Practices for Teaching Mathematics Across the Curriculum (6 Cr)

This course focuses on developing instructional practices in mathematics that promote academic success for all students. Candidates use research-based best practices to encourage students' logical mathematical thinking and to integrate use of mathematical skills across the curriculum. Other topics include instruction on connecting course content to learning standards and blending brain-compatible teaching techniques with thematic teaching. **Prerequisite/s: EDUC 610, EDUC 671, EDUC 670**

EDUC 680 Computer Applications and Technology Across the Curriculum (6 Cr)

This course offers instruction in integrating technological resources into specific content areas. Candidates explore basic software, Internet-based instructional resources such as WebQuests, media tools (including social media), and incorporating the Internet into classroom teaching. **Prerequisite/s: EDUC 610, EDUC 681**

EDUC 681 Action Research in Practice—Technology (6 Cr)

In this course, Candidates experience the art and science of action research while developing the tools of reflective inquiry and collaborative practice. Candidates engage in analysis of current classroom challenges related to technology as they explore and practice action research methods as a logical extension of classroom instruction. Integral to this process is the development of the first phases of an Action Research Project, a capstone project that focuses on a technology integration topic, and the creation of a cumulative professional portfolio that demonstrates professional growth. **Prerequisite/s: EDUC 610**

EDUC 682 Orchestrating Your Classroom with Technology (6 Cr)

In this course, candidates practice using hypermedia and multimedia tools and explore use of these tools in the classroom to engage students and support their learning. Candidates plan, design, and develop multimedia projects for practical integration in their classrooms. **Prerequisite/s: EDUC 610, EDUC 681, EDUC 680**

EIA 501 Interdisciplinary Arts in Society, Community, and School (3 Cr)

This course outlines the emerging field of Community Arts and defines vital roles artists can play in structuring, rebuilding and maintaining communities within cultural, social and educational contexts. This course will develop the awareness and ability to nurture relationships among the artist, arts organizations, educational organizations, the business and commercial sector and audiences, including the ability to broaden participation in the arts, initiate arts education programs and forge links among various communities. It will be divided into two distinct sections: Section 1 will focus on lecture, community guests and discussions to provide a broad overview of community-based art. Section 2 will focus on field research that will support the practice and theory of designing a community arts program. **Prerequisite/s: None**

EIA 503 Infusing Arts into the Classroom (3 Cr)

Students will be introduced to the concepts and practices of Collaborative Artmaking and arts infusion into the classroom. Methods and techniques of dramatization, music, dance, and visual art will be examined and analyzed. Because the performance-based arts are inherently interdependent, a sense of cooperation and flexibility will be shown to enhance the collaborative skills of all participants. The student will focus on acquiring these techniques through the implementation of skills used in their discipline area, such as theatre, instrumental music, dance, choral music or visual arts. The interdisciplinary nature of multiple arts-disciplines will provide the teacher of a specific subject area to be empowered with new and diverse theories, methodologies and techniques of numerous other arts-related and educational disciplines. This enhanced flexibility will provide tolerance for inclusion and enrich the classroom as a learning environment. The structure of the "classroom" is reexamined as a potential "learning stage" and reevaluated as an art-friendly environment wherein numerous learning styles are addressed. Some of the issues covered are balancing creative chaos with an atmosphere of orderly systematic learning; grading and evaluation; arts as a delivery system for teaching math, science, history and social studies; and the role of the arts in teaching character and emotional intelligence. Arts Management beyond the classroom is also explored. **Prerequisite/s: None**

EIA 506 Applied Aesthetics in the Arts: Curriculum and Instruction (3 Cr)

Applied Aesthetics examines the philosophical underpinnings of the Arts. Students explore the aesthetic, intellectual, perceptual, ethical, analytical, visionary, critical and pragmatic aspects of various arts disciplines and how they can be applied to curriculum design and instruction. Some of the issues addressed are the role of authorial intention, the nature of expression, the nature of realism, the arts-as-moral-teacher versus the arts-for-the art's-sake debate, the nature of beauty, the Mozart Effect, learning styles, multiple intelligences and theories of genres. **Prerequisite/s: None**

EIA 511 Studies in Creative Process and Conceptual Arts: A Quantum Vision (3 Cr)

This course examines the nature of the creative arts in contrast to the interpretive arts. It encourages students to embark upon a personal exploration of the creative process as they conceptualize new works and new forms of expression and artistic achievement. Students investigate techniques of harnessing and applying creative thinking as a method of problem solving. Key principals of quantum physics are applied to art and the creative process. Parallels are drawn between creativity and the quantum realm – the invisible world wherein the visible is designed and assembled. In this environment of pure potentiality, students are encouraged to challenge existing perceptions, interpretations, and expectations in an effort to cultivate imagination and flexibility. This course offers insight into students' roles as artists and educators who will be creating a new global culture. **Prerequisite/s: None**

EIA 512 Arts and Expressive Therapies: A Survey (3 Cr)

The area of Expressive Therapies explores the arts as a vehicle for therapeutic artistic expression, transformation and healing. With the basic philosophical assumption that art is inherently a psychological activity, this course emphasizes a developing awareness of the healing aspects of the arts in both diagnostic and therapeutic intervention. It examines different art modalities in their practice in a range of clinical, educational and human service settings. Taking a holistic approach to health care and human growth, this course will examine both traditional and progressive methods of Arts and Expressive Therapies. **Prerequisite/s: None**

EIA 513 The Art of Words: Writing for Dramatic Media (3 Cr)

This course is an examination of the fundamentals of dramatic writing; learning to use the tools and techniques of the playwright, screenplay writer, teleplay writer, librettist, or performance artist. Plays, movies, TV shows, operas, ballets, and performance art will be explored and analyzed from the point of view of theme, plot, dialogue, character development, structure, tone, genre, and scenario. Each student will create a short original script. Building on the strengths of the specific arts discipline in which the student received undergraduate training, he or she will be guided through a linguistic pre-visualization of the project before scripting begins. **Prerequisite/s: None**

EIA 514 Business Applications of Interdisciplinary Arts and Social Entrepreneurism (3 Cr)

This course explores the process of arts management and the business aspects of managing the arts. Students are introduced to concepts and practices of arts business and management. The roles and duties of producers, general managers, agents, unions, entertainment attorneys, and production officials are identified and examined. Key processes including contract negotiation and marketing are studied. Particular issues such as copyright are discussed within the context of the arts and entertainment industry. Finally, the relationship of the individual arts organization to other arts organizations and the larger system is examined with the objective of understanding the concepts of management within the network, strategic alliances, and collaborations. The relationships between arts organizations are examined as they relate to best practices and effective arts management systems. The concept of "social entrepreneurship" is introduced as a new approach to business practices in the arts. **Prerequisite/s: None**

EIA 515 Thou Art: Reuniting Culture and Spirit for a Global Society (3 Cr)

This course explores the concept of art as a verb – the archaic second person singular present indicative form of being. The artistic process is reframed as a modality by which to experience life. The role of the artist in society is examined from the perspective that art from the viewpoint of an artist is something that the individual *is* rather than something the individual *does*. This course illuminates the unifying power of creativity. Emphasis is on world cultures and traditions that have never separated from their spiritual core. This course focuses on ways of building bridges between Western Culture and its spiritual foundations through personal artistic expression. **Prerequisite/s: None**

EIA 525 Principles of Drama Therapy (3 Cr)

This course will introduce the student to the principles of drama therapy - an intentional and systematic use of drama/theatre

processes to achieve the therapeutic goals of symptom relief, emotional and physical integration, and personal growth. The course includes reading, discussion, written analysis, and improvisational enactment of the theory and practice of leading professionals in the field. It is the foundation course for the Drama Therapy Track of the MS in Education with a Concentration in Interdisciplinary Arts Program. It is also the foundation course for the Alternative Training Program of the National Association for Drama Therapy to train students beyond the Master's degree to fulfill the requirements for certification as a Registered Drama Therapist.
Prerequisite/s: None

EIA 526 Research in Interdisciplinary Arts: An Introduction to the I.A. Program (3 Cr)

This course orients the incoming student to the core ideas, history and philosophy of Interdisciplinarity in the Arts. It also introduces students to the various research designs and methodologies relevant to the arts such as historiography, arts-based research, content analysis, theory and criticism, and relevant elements of qualitative and quantitative methods. Further, students will focus on their specializations such as music, theater, dance and the visual arts as research areas within which to work. Students examine the origins, contexts, masterpieces, and creators of exemplary artworks that combine various art forms. From Gesamtkunstwerk to contemporary interactive multi-media video and musical theatre, elements of form, structure and composition are explored as students select focus of study and prepare a research paper. **Prerequisite/s: None**

EIA 537 Musical Theatre Studies – Interdisciplinary Curriculum and Techniques (3 Cr)

This course will illustrate Musical Theatre as being the prime example of Interdisciplinary Art in that it, by definition, encompasses the combined disciplines of music, theatre, dance and design. The course will examine the advent of the musical theater in the United States, Great Britain and the movies. The inclusion of such an interdisciplinary art form, utilizing music, drama, visual and dance-based artistic involvement as a vehicle in the Fine Arts, Language Arts and Social Studies classroom for the delivery of curriculum is emphasized and analyzed. The use of Cooperative Learning techniques, Multiple Intelligences and Alternative Assessment through the creative process provides conceptual framework for student growth and development. Audio and video examples of masterpieces of the genre will be viewed and examined. Readings will be engaged-in and discussed. Group-level projects designed to share like-minded experiences will be continually pursued.

Social relevance, global education and multi-ethnic inclusion in the curriculum will be examined through the lens of Interdisciplinary Arts. Through texts, students will learn the “inside story” regarding the production techniques and rationale behind many of the decisions made by administrative and artistically creative members of the original production teams.

Questions of race, class consciousness, political culture and of course, and the ever popular themes of love and hate, will be examined as themes from diverse productions. A final project including lesson plans and a proposal will equal 1/3 of the grade. The project will be designed for a group-based, Multiple Intelligence driven, globally relevant, multi-cultural skit / show or musical performance which will be produced by students. **Prerequisite/s: None**

EIA 540 Moving Art: The Aesthetic of the Motion Picture 1922 – 1966 (3 Cr)

This course is both a survey and a research course which examines the advent of the film throughout the world as produced between 1922 and 1966. Students will explore the great strides in character development, plot construction, acting technique, scriptwriting, editing, use of light and shadow, and camera and lens technique, that, through the use of the artistic vision of numerous creators, have set our social stage during these developmental years. They will examine the commonly accepted definitions of beauty, art, value, mores, motivation, and behavior which have been influenced by the films of this era and are just a few of the attributes used to define humanity. The study of film as an interdisciplinary art form, utilizing music, acting, directing, design, editing, dance, dramatic writing, and visual artistic involvement, will be used as a means of widening the vision of emerging interdisciplinary arts professionals.

This course is an elective in the Interdisciplinary Arts Program. It is recommended that the student have completed or be concurrently enrolled in the EIA Applied Aesthetics in the Arts course. It is also strongly suggested that this course be taken prior to enrolling in the EIA 513 Art of Words course, as there will be cross-curricular references to this course in the latter course.
Prerequisite/s: None

EIA 557 Cinematherapy I: Images with a Purpose (3 Cr)

We live in a culture of images. In this course students will be immersed in a process of in-depth examination of the meaning and power of images. Images, in fact, are never neutral; their effect is that of conditioning the observer. It is important, therefore, to carry out a scholarly analysis of what an image actually is. Image based thinking will be considered both in relation to the creative process and to problem solving. We will begin with the philosophical concept of an idea as a mental representation. We will study the symbology of dreams in order to understand the close relationship between images and the unconscious. The psychoanalytical proposition that a film may be considered the film director's dream will be closely scrutinized. Students will study cinematherapy: a new technique for analyzing films and psychological dynamics. The concept of cinematherapy is rooted in the awareness that the film viewer is conditioned by his or her individual life experience, and this in turn makes the viewer's perception highly unique. The viewer's intimate interior world and life experiences condition perception of the film, and result in a highly subjective interpretation. This is due to the fact that the viewer assimilates only certain images and edits out others, all on the basis of unique individual experiences. The study of cinematherapy will enable the viewer to understand the underlying causes of certain emotions experienced during a film, and will shed light on certain aspects of one's own personality and on how others view the same situation.
Prerequisite/s: None

EIA 558 Cinematherapy II: Personal and Social Awareness through Cinema (3 Cr)

This course focuses on the analysis of mythology through international cinema. Students will examine in depth the differences between Freud and Jung's psychological perspectives on symbolic dream interpretation, as well as the concept of the collective unconscious and its archetypes that appear in Jungian theory. This will enable students to utilize their comprehension of the symbolic language of dreams in order to conceptualize the personal mythology theory of Dr. Stephen Larsen. Through the analysis of selected films, students will examine six major mythological themes which recur across cultures, demonstrating that cinema functions as society's modern day mythology as identified by Dr. Joseph Campbell. **Prerequisite/s: None**

EIA 600 International Arts and Culture Infusion (3 Cr or 6 Cr)

Students interface with American and International participants and staff artist/instructors of an “in-progress” Lovewell intensive

workshop in a host country. Using the “Lovewell Method” applied arts-education philosophy and teaching methodologies, students will develop creative, conceptual academic and professional performing arts skills in various arts disciplines such as drama, music, design, dance, video, stage management and technology as they are infused in an international setting. **Prerequisite/s: None**

EIA 630 International Cinema Studies (Study Abroad Program in Italy) (3 Cr)

This course focuses on the analysis of international cinema with particular emphasis on Italian cinema. Students will participate in a rich cultural exchange onsite in Italy while studying with Italian professors and professional directors, actors, producers, composers, designers, and cinematographers from all over the world. This course offers participants an authentic interdisciplinary learning experience, including interactive workshops at the Maremetraggio Film Festival in Trieste and field trips and lectures involving some of the leading international artists, technicians and business experts working in the world of film. Another component of this course includes an on-location lecture/demonstration at Cinecittà, Europe's top movie studio in Rome, designed to analyze the process and the environment in which some of the world's greatest movies have been produced. **Prerequisite/s: None**

EIA 688 Capstone: Interdisciplinary Arts Leadership (6 Cr)

This Capstone Project is the culminating event of the IA Program. It is an Interdisciplinary Arts Event conceived, written, created and produced by the student and the production team he or she has assembled. While interdisciplinary in nature, the project must focus on the candidate's major artistic area of interest, be outlined in writing and approved by the Program Administrator and Artistic Director and appropriate faculty in order to be scheduled and marketed for public performance. It may take the form of an artistic work or lecture demonstration but must encompass some aspect of performance or presentation by the Masters Candidate. Students will be assisted by faculty and peers as they develop their Capstone Projects. The project must demonstrate excellence in Interdisciplinary Arts and be accompanied by a contextual essay describing the history, evolution, intention, purpose and methods by which the student created the Capstone Event. **Prerequisite/s: 30 credits of coursework in the EIA program.**

EIA 689 Capstone: Theatre Arts Leadership (6 Cr)

This Capstone Project is the culminating event of the IA Program. It is an Interdisciplinary Arts Event conceived, written, created and produced by the student and the production team he or she has assembled. While interdisciplinary in nature, the project must focus on the candidate's major artistic area of interest (in this case, the Theatre/Dramatic Arts), be outlined in writing and approved by the Program Administrator and Artistic Director and appropriate faculty in order to be scheduled and marketed for public performance. It may take the form of an artistic work or lecture demonstration but must encompass some aspect of performance or presentation by the Masters Candidate. Students will be assisted by faculty and peers as they develop their Capstone Projects. The project must demonstrate excellence in inclusion of the Interdisciplinary Arts with the area of Theatre/Dramatic Arts and be accompanied by a contextual essay describing the history, evolution, intention, purpose and methods by which the student created the Capstone Event. **Prerequisite/s: 30 credits of coursework in the EIA program.**

EIA 690 Capstone: Musical Arts Leadership (6 Cr)

This Capstone Project is the culminating event of the IA Program. It is an Interdisciplinary Arts Event conceived, written, created and produced by the student and the production team he or she has assembled. While interdisciplinary in nature, the project must focus on the candidate's major artistic area of interest (in this case, the Musical Arts), be outlined in writing and approved by the Program Administrator and Artistic Director and appropriate faculty in order to be scheduled and marketed for public performance. It may take the form of an artistic work or lecture demonstration but must encompass some aspect of performance or presentation by the Masters Candidate. Students will be assisted by faculty and peers as they develop their Capstone Projects. The project must demonstrate excellence in inclusion of the Interdisciplinary Arts with the area of Musical Arts and be accompanied by a contextual essay describing the history, evolution, intention, purpose and methods by which the student created the Capstone Event. **Prerequisite/s: 30 credits of coursework in the EIA program.**

EIA 691 Capstone: Visual Arts Leadership (6 Cr)

This Capstone Project is the culminating event of the IA Program. It is an Interdisciplinary Arts Event conceived, written, created and produced by the student and the production team he or she has assembled. While interdisciplinary in nature, the project must focus on the candidate's major artistic area of interest (in this case, the Visual/Fine Arts), be outlined in writing and approved by the Program Administrator and Artistic Director and appropriate faculty in order to be scheduled and marketed for public performance. It may take the form of an artistic work or lecture demonstration but must encompass some aspect of performance or presentation by the Masters Candidate. Students will be assisted by faculty and peers as they develop their Capstone Projects. The project must demonstrate excellence in inclusion of the Interdisciplinary Arts with the area of the Visual Arts and be accompanied by a contextual essay describing the history, evolution, intention, purpose and methods by which the student created the Capstone Event. **Prerequisite/s: 30 credits of coursework in the EIA program**

EIA 692 Capstone: Dance Arts Leadership (6 Cr)

This Capstone Project is the culminating event of the IA Program. It is an Interdisciplinary Arts Event conceived, written, created and produced by the student and the production team he or she has assembled. While interdisciplinary in nature, the project must focus on the candidate's major artistic area of interest (in this case, the Dance Arts), be outlined in writing and approved by the Program Administrator and Artistic Director and appropriate faculty in order to be scheduled and marketed for public performance. It may take the form of an artistic work or lecture demonstration but must encompass some aspect of performance or presentation by the Masters Candidate. Students will be assisted by faculty and peers as they develop their Capstone Projects. The project must demonstrate excellence in inclusion of the Interdisciplinary Arts with the area of Dance Arts and be accompanied by a contextual essay describing the history, evolution, intention, purpose and methods by which the student created the Capstone Event. **Prerequisite/s: 30 credits of coursework in the EIA program.**

EIA 6505 Special Topics in Interdisciplinary Arts I (3 Cr)

This course involves the qualitative analysis of emerging issues in trends in Interdisciplinary Arts. Topics are identified and determined via an individualized process of negotiation with course professor/instructor, and are to reflect an advanced level of inquiry and problem-solving related to the student's program of study. Students may choose to work with a local or other arts organization that creates Interdisciplinary Arts productions or events, or they may work on or create a special project involving arts and education, arts for social change, expressive arts therapies, community arts/cultural development, arts for diverse populations/intercultural development, or any combination thereof. They may also choose to conduct independent qualitative research in Interdisciplinary Arts in their area(s) of interest. **Prerequisite/s: None**

EIA 6506 Special Topics in Interdisciplinary Arts II (3 Cr)

This course expands and enhances qualitative analysis of emerging issues in trends in Interdisciplinary Arts explored in EIA 6505. Topics are identified and determined via an individualized process of negotiation with course professor/instructor, and are to reflect an advanced level of inquiry and problem-solving related to the student's program of study.

Students may choose to work with a local or other arts organization that creates Interdisciplinary

Arts productions or events, or they may work on or create a special project involving arts and education, arts for social change, expressive arts therapies, community arts/cultural development, arts for diverse populations/intercultural development, or any combination thereof. They may also choose to conduct independent qualitative research in Interdisciplinary Arts in their area(s) of interest. **Prerequisite/s: EIA 6505 and IAP Director Approval**

EL 600 Seminar in the Knowledge Base of Educational Leadership (3 Cr)

All content taught in the Educational Leadership Program is reviewed. The intent of this course is to provide students with a synthesis of the knowledge base required as the intellectual underpinning for successful practice as a school administrator. The program comprehensive examination is administered as part of this course. **Prerequisite/s: None**

EL 601 Knowledge Based of Educational Leadership - Comprehensive Examination (3 Cr)

All content taught in the Management and Administration of Educational Programs (MAEP) is reviewed in this course. The intent of this course is to provide students with a synthesis of the knowledge base required as the intellectual underpinning for successful practice as an administrator. The program comprehensive examination is administered as part of this course. **Prerequisite/s: None**

EL 698 Administrative Internship (3 Cr)

This course provides an opportunity to observe, interview, work with, and perform the duties of administrators in the actual work setting. Course requirements include a minimum of 150 contact hours, completion of a leadership portfolio, and structured activities related to the role and responsibilities of educational leaders. The Internship is designed to fulfill the competency and experience goals of the Intern. Responsibilities assigned and tasks performed are to be in keeping with the administrative areas identified as important to the growth of the Intern while meeting the State of Florida Field Experience requirements needed for certification as an Educational Leader. The internship is also designed to ensure that any products or output are useful to the system in which the Intern works. The internship allows the Intern to serve with selected successful administrators in a controlled setting built around the Intern's competency needs and desired experiences. **Prerequisite/s: Internship Administrator Approval**

EL 699 Administrative/Educational Leadership Internship (6 Cr)

This course provides an opportunity to observe, interview, work with, and perform the duties of administrators in the actual work setting. Course requirements include a minimum of 300 contact hours, completion of a leadership portfolio, and structured activities related to the role and responsibilities of educational leaders. The Internship is designed to fulfill the competency and experience goals of the Intern. Responsibilities assigned and tasks performed are to be in keeping with the administrative areas identified as important to the growth of the Intern while meeting the State of Florida Field Experience requirements needed for certification as an Educational Leader. The internship is also designed to ensure that any products or output are useful to the system in which the Intern works. The internship allows the Intern to serve with selected successful administrators in a controlled setting built around the Intern's competency needs and desired experiences. **Prerequisite/s: Internship Administrator Approval**

ELE 502 Methods of Teaching Mathematics in the Elementary School (3 Cr)

This course focuses on methods, materials, and approaches for teaching mathematics, including numeration, number systems, problem solving, measurement, informal geometry, and computational algorithms. Emphasis is given to the teaching and assessment of concepts. **Prerequisite/s: None**

ELE 503 Reading in the Elementary Classroom (3 Cr)

This course focuses on the key theories and models of the reading process and a critical evaluation of competing ideologies and approaches. Emphasis is placed on understanding reading theory and building on a research foundation to address complex issues such as designing effective reading instruction and assessment, diagnosing and treating reading disabilities, and analyzing the impact of language and social contexts on reading instruction. **Prerequisite/s: None**

ELE 504 Methods of Teaching Reading in the Elementary School (3 Cr)

This course focuses on the practical application of reading theory in an elementary classroom through the selection and use of a variety of methods, materials and approaches for the learner's continuous improvement. In this course, emphasis is placed on the application of curriculum models as well as diagnostic and remedial strategies that address effectively the developmental and instructional needs of diverse student populations. **Prerequisite/s: ELE 503**

ELE 505 Teaching Visual Arts and Music in the Elementary School (2 Cr)

This course focuses on the skills and techniques, cultural and historical connections, creation and communication, aesthetic and critical analysis, and design and use of appropriate assessment strategies in teaching visual arts and music in the elementary school. **Prerequisite/s: None**

ELE 506 Teaching Physical Education and Health Education in the Elementary School (2 Cr)

This course focuses on physical, social, and emotional growth and development, personal health and wellness, community health and safety issues, instructional practices, subject content and appropriate curriculum design and assessment strategies in teaching physical education and health education in the elementary school. **Prerequisite/s: None**

ELE 540 Creativity in the Elementary School (3 Cr)

The purpose of this course is to focus on the foundations and techniques of art, music and physical education as integrated aspects of the school curriculum. A review of the principles behind the concept of creativity and its relationship to daily classroom activities is also considered. **Prerequisite/s: None**

ELE 601 Teaching Language Arts in the Elementary School (3 Cr)

This course focuses on research, trends, professional improvement, and pedagogy in the area of language arts. Emphasis is placed

on knowledge and comprehension of the language arts subject area, the design and implementation of instructional strategies that integrate technology and reinforce effective communication skills, and the use of performance-based assessment with diverse populations of elementary students. **Prerequisite/s: None**

ELE 602 Teaching of Science in the Elementary School (3 Cr)

This course focuses on the methods, materials and approaches for teaching science, including developmentally appropriate introductions to the physical, Earth and life sciences. Emphasis is given to exemplary processes and projects. **Prerequisite/s: None**

ELE 603 Teaching Elementary Social Studies in a Multicultural Society (3 Cr)

This course focuses on recent trends and issues in curriculum development and instructional practice in elementary social studies. Models of social studies programs will be examined. Emphasis is on the areas of concept and skill development as they relate to the needs of children living in a multicultural society. **Prerequisite/s: ELE 502, ELE 503, ELE 504, ELE 505, ELE 506, ELE 601, and ELE 602.**

ELE 699 Applied Professional Experience in Elementary Education (3 Cr)

This course will require graduate students to complete applied professional experiences in Elementary Education in K-6 educational settings. Graduate students will maintain a reflective journal and create a workbook that includes samples of their pupils' work and the assessment instruments they used to demonstrate achievement of professional and state standards. **Prerequisite/s: 24 credits, including CUR 526.**

EM 500 Philosophy of School Library Media Programs (3 Cr)

This course includes the functions of the school library media program in the educational environment; the professional role of the media specialist; program standards; program planning, implementation, and evaluation; research applications; and trends and issues that influence school media programs. **Prerequisite/s: None**

EM 501 Learning Literacies and Assessment in School Library Media Programs (3 Cr)

This course teaches future educational media specialists to apply literacies needed to develop 21st century learning skills within P-12 standards-based curricula. Students will practice assessment data collection, analysis of classroom- and school-based data, and relate findings to learning outcomes. **Prerequisite/s: None**

EM 505 Design and Production of Educational Media (3 Cr)

This survey course introduces the principles of instructional design; provides experience in the production of audio, video, and visual media; and includes methods of teaching media production. **Prerequisite/s: None**

EM 510 Media for Children (3 Cr)

This course provides an overview of the developmental stages of children; the use of print and non print media to meet instructional, informational, personal, and recreational needs of children; production of materials to stimulate interest and enjoyment of literature; and methods for providing reading, listening, and viewing guidance. **Prerequisite/s: EM 500 and EM 505 – Co-requisite/s: EM 505**

EM 515 Reference and Information Services (3 Cr)

This course examines print and online information resources; techniques for providing reference and information services; and methods of teaching reference strategies to students and staff. **Prerequisite/s: EM 500, EM 505, and EM 525.**

EM 517 PowerPoint for Educators (3 Cr)

This course is designed to provide educators/candidates with the opportunity to develop basic and advanced skills necessary to begin effectively creating presentations in Microsoft PowerPoint. **Prerequisite/s: None**

EM 520 Instructional Role of the School Library Media Specialist (3 Cr)

This course emphasizes the school library media specialist's role in curriculum planning, methods of information skills instruction, and techniques for integrating media into the learning environment. **Prerequisite/s: EM 500, EM 505, EM 525, and EM 510 or EM 535.**

EM 525 School Library Media Collection Development (3 Cr)

This course addresses the principles of locating, evaluating, selecting, and maintaining media resources; acquisition of materials and equipment; the impact of technology on collection development practices; and use of software to assist in the collection development process. **Prerequisite/s: EM 500 and EM 505.**

EM 530 Management of School Library Media Programs (3 Cr)

This course includes methods of operating the school library media program, including program policies, circulation and inventory systems, budgeting, staffing, marketing, facilities use, and the application of technology to media center management practices. **Prerequisite/s: EM 500, EM 505, and EM 525 – Co-requisite/s: EM 525**

EM 535 Media for Young Adults (3 Cr)

This course includes the developmental stages of adolescents; use of print and nonprint media to meet the instructional, informational, personal, and recreational needs of adolescents; and methods of providing reading, listening, and viewing guidance. **Prerequisite/s: EM 500 and EM 505 – Co-requisite/s: EM 505**

EM 540 Organization of School Library Media Collections (3 Cr)

This course includes library classification systems, principles, and techniques of descriptive cataloging, methods of organizing media resources, and the application of technology to bibliographic methods. **Prerequisite/s: EM 500, EM 505, EM 515, EM 525, EM 530 and EM 510 or EM 535. Co-requisite/s: EM 515 and 530**

EM 545 Production of Instructional Video Programs (3 Cr)

This course provides experience for educators in the production and use of instructional video programs. Scripting, production, and editing techniques are explored and the role of video in classroom instruction and multimedia development is examined.

Prerequisite/s: None

EM 560 Using the Web for Research (3 Cr)

This course gives students a comprehensive introduction to the World Wide Web and its use as a research tool. An overview of online databases, along with resources that helps students to use the American Psychological Association (APA) form manual, is provided. **Prerequisite/s: None**

EM 565 Computers in School Library Media Centers (3 Cr)

Current practices relating to identification, evaluation, management and use of computer technology and resources, electronic information sources, and systems are presented within the context of creating the infrastructure to facilitate information literacy in PreK-12 environments. **Prerequisite/s: EM 500, EM 505, and EM 530.**

EM 580 Social Networking Technologies for Educators (3 Cr)

Blogs, Facebook, MySpace, Wikis, YouTube – what will be the next online social networking technology available to students? More importantly, how can educators apply these online social networking technologies to standards based content? In this course, candidates will develop strategies to identify and effectively apply appropriate social networking technologies in educational settings. Candidates will discuss and reflect upon issues relating to access, parental support, privacy, and online safety. Methods for assessing student-developed products will be discussed and demonstrated. **Prerequisite/s: None**

EM 699 Applied Professional Experience in Educational Media (3 Cr)

Candidates will apply professional experiences in Educational Media in PreK-12 school library media centers and classrooms, reflect on activities, and collect samples of student work and assessment used to demonstrate achievement of professional and state standards. **Prerequisite/s: 24 EM credits, including CUR 526.**

ENG 521 Methods of Teaching Middle School and Secondary English (3 Cr)

This course provides an overview of current practices in curriculum and instruction in middle and high schools with an emphasis on special methods for teaching secondary English. **Prerequisite/s: None**

ENG 600 Recent Directions in Oral Communications (3 Cr)

Students will explore the role of oral communications in learning, methods of integrating oral communications into all areas of English language arts, ways to assist students in overcoming oral communication apprehension, and formal and informal strategies for making a presentation before an audience. **Prerequisite/s: ENG 521**

ENG 605 Recent Directions in Language Learning (3 Cr)

Students will gain a fuller understanding of the language/experience model for the teaching of language skills and its implications for individualization in the initial assessment, teaching, and evaluation of students. Specific focus will be on the nature of language, the use of learning styles, the teaching of vocabulary, bidialectalism, encouraging correctness, visual literacy, computers and newsprint, and encouraging student self-assessment. **Prerequisite/s: ENG 521**

ENG 615 Recent Directions in Expository Writing (3 Cr)

The process model of expository writing will be examined, analyzed, and explicated. Particular emphasis will be placed on recent directions for the improvement of writing abilities, exploring the reading-writing connection, response to literature, and teaching the research paper. **Prerequisite/s: ENG 521**

ENG 625 Recent Directions in Creative Writing (3 Cr)

The nature of creative writing will be analyzed, and students will examine recent directions in ways to enhance creativity in the writing process. Specific focus will be on the development of creative approaches to the writing of poetry, diaries, journals, and fiction. **Prerequisite/s: None**

ENG 635 Recent Directions in Adolescent Literature (3 Cr)

Students will examine the identification, selection, and use of adolescent literature. Particular emphasis will be placed on ways of conducting individual, whole class, and group reading activities. Students will learn how to encourage and develop literacy and ways to teach the comprehension of and identification with literature. **Prerequisite/s: ENG 521 and ENG 645**

ENG 645 Recent Directions in the Analysis of Literature (3 Cr)

Students will study the various facets of reader-response theory and apply them to their teaching of all genres of literature. Students will create thematic units and learn specific techniques for developing their students' skills in the critical analysis of literature. **Prerequisite/s: ENG 521**

ENG 650 Many Voices in Contemporary American Literature (3 Cr)

Participants will read widely from several genres in twentieth century, multicultural American literature. They will critically analyze selections and their readings of them in oral and written forms including response journals and more formal, interpretive papers. **Prerequisite/s: ENG 521 and ENG 645**

ENG 665 Many Voices in Contemporary World Literature (3 Cr)

Participants will read widely from several genres in twentieth century, multicultural world literature. They will critically analyze literary selections and their readings of them in oral and written forms including response pieces and more formal, interpretive papers. **Prerequisite/s: ENG 521 and ENG 645**

ENG 675 Voices in Twentieth Century British Literature (3 Cr)

Participants will read widely from several genres in twentieth century, multicultural British literature. They will critically analyze literary selections and their readings of them in oral and written forms including response pieces and more formal, interpretive papers. **Prerequisite/s: ENG 521 and ENG 645**

ENG 699 Applied Professional Experience in English Education (3 Cr)

This course requires graduate students to complete applied professional experiences in middle school or high school English language arts classrooms. As this course is the culmination of students' work in their graduate English education specialization, the focus will be on applying the knowledge and skills students have acquired and developed. Candidates will submit weekly reflections on their experiences, conduct regular observations and teach research-based lessons to demonstrate their learning. **Prerequisite/s: 24 credits, including CUR 526 and EDU 5000.**

EP 650 Assessment, Diagnosis, and Nature of Children with Autism Spectrum Disorder (3 Cr)

This course focuses on providing information and discussion about the major social, behavioral, communication, and learning characteristics of autism spectrum disorders (ASD). Theories as to etiology and prevalence will be discussed and researched. Screening and diagnostic tools used to identify individuals with ASD will be reviewed. A variety of discipline-specific tools and strategies to assist in educational planning will be reviewed. Methods for adapting assessment strategies to better evaluate individuals with ASD will be discussed. The role of the parents in the assessment process and methods to share assessment information with them will be studied. Field experience is embedded into the course through observations of individuals with ASD and interviews with families. **Prerequisite/s: None**

EP 655 Nature of Autism: Intervention Methods, Strategies, and Application (3 Cr)

This course focuses on review of research-based interventions from classroom structure and organization through application and assessment of intervention strategies. Interventions designed to ameliorate deficits in the areas of academics, communication, learning readiness, independence, social skills, and behavior will be highlighted. The class will also focus on accommodations and modifications needed to include individuals with Autism Spectrum Disorders (ASD) in the general education curriculum. The role of collaboration among school personnel, with families and community agencies to advocate and promote for the success of the student with ASD will be addressed. Students will participate in field work through designing classroom environments, developing Individual Education Program (IEP) goals and a teaching plan for a student, implementing an intervention, collecting and analyzing data from the intervention, and presenting it to the class **Prerequisite/s: EP 650**

EP 660 Behavioral Assessment and Intervention for Students with Autism Spectrum Disorder (3 Cr)

Students will focus on assessment and intervention strategies for addressing challenging behaviors in the classroom, at home, and in the community for students with autism spectrum disorder (ASD). Students will learn to generate hypotheses about the functions of challenging behavior as they relate to communication skills and identify positive behavioral support strategies to implement to replace the negative behaviors. Positive behavioral support, functional behavioral assessment, functional communication training, and other more traditional behavior management strategies will be discussed. Students will participate in a field experience that involves completing a functional assessment through direct and indirect assessment and developing a positive behavioral support plan based on that assessment. **Prerequisite/s: EP 650 and EP 655**

EP 665 Language, Communication Development and Augmentative Communication in Autism Spectrum Disorders (3 Cr)

Communication is one of the most significant deficits for most individuals with Autism Spectrum Disorders (ASD). This course will focus on the nature of the language and communication difficulties and methods for remediating them using high and low levels of technology. Research supporting the use of a variety of augmentative and alternative communication (AAC), language facilitation, and assistive technology to support communication development will be discussed. The role of assistive technology in language facilitation, teaching literacy, and providing a method for communication for children who are nonverbal will be reviewed. Students will complete field experiences to create communication and literacy activities for home and school settings. **Prerequisite/s: EP 650 and EP 655**

EP 699 Applied Professional Experience in Gifted Education (3 Cr)

This course will require graduate students to complete applied professional experiences with pupils who have been identified as gifted in K-12 educational settings. Graduate students will maintain a reflective journal and create a pupil workbook that includes samples of their pupils' work and the assessment instruments they used to demonstrate achievement of professional and state standards. **Prerequisite/s: 24 credits, including CUR 526**

EP 5265 Nature and Needs of Young Children with Disabilities (3 Cr)

This course provides an overview of the effects of disabilities and risk factors on the development of young children, birth to age five, and on their families. The referral, assessment, planning, and intervention process is reviewed. Models of intervention practices are explored. Legal and ethical issues related to early intervention/special education are examined. Field experience is integrated into course activities. **Prerequisite: A course in child or human development or educational psychology. Prerequisite/s: None**

EP 5270 Assessing the Needs of Young Children with Disabilities (3 Cr)

This course presents an overview of basic measurement and evaluation concepts for interpreting formal and informal screening and assessment processes used with young children, birth to five. Legal and ethical issues related to assessment are covered. The types of measures used to gather information and the interpretation and utilization of data in developing an individualized program are reviewed. Field experience is integrated into course activities. **Prerequisite/s: EP 5265.**

EP 5275 Intervention Strategies and Classroom Behavior Management of Young Children with Disabilities (3 Cr)

This course covers the development and adaptation of curriculum, teaching methods, materials, and the physical environment for use with young children with disabilities. Students are also trained in the use of behavior modification techniques for managing and evaluating individual behavior problems and for establishing and maintaining standards for behavior in the classroom setting. Field experience is integrated into course activities. **Prerequisite/s: EP 5265 and EP 5270.**

EP 5280 Working with Families of Young Children with Disabilities and the Community (3 Cr)

This course focuses on applications of the family systems approach for assessing family needs and developing and implementing the Individualized Family Service Plan. Community resources and services and the legal rights of the family and child are reviewed. Students are trained in techniques for working with parents as case managers and advocates in setting educational goals and utilizing community resources. **Prerequisite/s: None**

EP 5281 Developing Creativity in Gifted Students (3 Cr)

This course focuses on theories of creativity and on developing creativity in gifted students. **Prerequisite/s:** EDU 550, EDU 551 and EDU 555

EP 5282 Educating Special Populations of Gifted Students (3 Cr)

This course focuses on special populations of gifted students, such as minorities, underachievers, the disabled, the economically disadvantaged and highly gifted students. The course reviews students' characteristics and appropriate programmatic adaptations. **Prerequisite/s:** EDU 550, EDU 551, EDU 555, and EP 5281

ESE 600 Survey of Exceptionalities of Children and Youth (3 Cr)

This course will provide students with fundamental information on laws, policies and practices in exceptional student education and on specific categories of exceptionality, including definitions, prevalence, causes, assessment techniques, educational strategies, and current and future trends in the field of exceptional student education. **Prerequisite/s:** None

ESE 610 Speech and Language Development and Disabilities (3 Cr)

This course will provide students with a basic understanding of the nature of speech and language; the developmental progression in language acquisition; and the techniques for evaluating language development and remediating speech, language, and communication disorders in children. **Prerequisite/s:** None

ESE 620 Behavior Management of Exceptional Students (3 Cr)

This course will provide students with various management techniques for managing classroom behavior promoting social adjustment of their students, and coordinating the classroom learning environment for the purpose of improving the academic and social development of students with learning and behavior problems. **Prerequisites:** CUR 526, ESE 600, and ESE 610.

ESE 630 Educational and Psychological Assessment of Exceptional Students (3 Cr)

This course will introduce students to the various educational and psychological tests and assessment tools most widely used to evaluate exceptional students, with emphasis on the practical application of assessment in schools and on the assessment process from initial identification through the development of an Individualized Education Program (IEP). It will also prepare all those concerned with the teaching-learning process to be sensitive to the social and ethical implications of test use and to be familiar with both formal and informal assessment strategies that will help them contribute to the decision-making process for exceptional students. **Prerequisites:** CUR 526, ESE 600, ESE 610, & ESE 620.

ESE 640 Transition Skills and Services for Exceptional Students (3 Cr)

This course will introduce students to a variety of educational, career, and vocational choices available to exceptional students. These choices include academic skills, personal skills, social skills, employability skills, and daily living skills, which exceptional students need in order to actualize their potential and become contributing members of society. Emphasis will be given to the concept of planning for transition within the educational program and the need to plan more carefully for the transition to adulthood. **Prerequisites:** CUR 526, ESE 600, ESE 610, ESE 620, & ESE 630.

ESE 650 Instructional Strategies for Exceptional Students (3 Cr)

This course will focus on the various strategies and techniques used to educate and train exceptional students. Emphasis will be on normalization and on the array of services available to students with disabilities from elementary school to high school. Special attention will be devoted to strategies that help teachers develop individualized educational programs, strategies for classroom organization and management, and strategies to enhance learning through microcomputer technology. **Prerequisites:** CUR 526, ESE 600, ESE 610, ESE 620, ESE 630, & ESE 640.

ESE 660 Curriculum and Instructional Materials for Exceptional Students (3 Cr)

This course will introduce students to the various curriculum and instructional materials used to teach exceptional students. It will provide students with specific suggestions for selecting and modifying the curriculum to promote learning and for developing appropriate materials to use in the classroom. Students will also be provided strategies for adapting curriculum materials, teacher instruction, and student practice activities for both basic and content-area instruction. **Prerequisites:** CUR 526, ESE 600, ESE 610, ESE 620, ESE 630, ESE 640, & ESE 650.

ESE 670 Inclusive Education for Exceptional Students (3 Cr)

This course will introduce students to the current information on how exceptional children are served within inclusive school environments. Students will learn about the role of working with other professionals and parents to determine student eligibility for special education, to carry out educational programs, and to monitor learning. Information will also be provided about students who are not necessarily eligible for special education, but who would benefit from the same instructional strategies as exceptional students because of their own special needs. **Prerequisites:** CUR 526, ESE 600, ESE 610, ESE 620, ESE 630, ESE 640, ESE 650, & ESE 660.

ESE 680 Teaching Social and Personal Skills to Exceptional Students (3 Cr)

This course will present students with a wide range of information regarding the social and personal skills that children with disabilities need in order to achieve their personal independence in school, at home, and in the community. Emphasis will be on the importance of teaching personal management and independent living skills, on providing appropriate adaptations to promote personal autonomy, and on creating supports and services that maximize independence and community integration of students with disabilities. **Prerequisites:** CUR 526, ESE 600, ESE 610, ESE 620, ESE 630, ESE 640, ESE 650, ESE 660, & ESE 670.

ESE 690 Consultation and Collaboration in Exceptional Student Education (3 Cr)

This course will help students become more proficient in working together within school contexts. Emphasis will be on the context of school and home collaborations, and on the diversity issues that may affect the way people work together. Students will learn that school consultation, collaboration, and teamwork are essential in transforming school learning environments into settings where teachers, administrators, and parents of exceptional students work together and trust each other for the benefit of the students. **Prerequisites:** CUR 526, ESE 600, ESE 610, ESE 620, ESE 630, ESE 640, ESE 650, ESE 660, ESE 670, & ESE 680.

ESE 699 Applied Professional Experience in Exceptional Student Education (ESE) (3 Cr)

This course will require students to complete an applied professional experience in Exceptional Student Education in a K-12 public school setting. Students will maintain a reflective journal and create a work folder that includes samples of their students' work and the assessment instruments used to demonstrate achievement of professional and state standards under the guidance of a certified teacher in exceptional student education. **Prerequisites: 33 Credits (CUR 526 and all ESE courses).**

ETAL 511 Brain-based Learning and Instruction (3 Cr)

This course provides participants with current medical and educational research on learning and the brain. Participants will explore the brain imaging research and how it is applied in the classroom. The course is designed to provide experiences in analyzing and synthesizing the research; then culminated by the use of this information in lesson planning and delivery. **Prerequisite/s: None**

ETEC 601 Instructional Design (3 Cr)

This course addresses application of the theory of instructional design and the design process as it applies to the development of educational media and software. Goal analysis, objectives, instructional strategy development, and evaluation in the design process are utilized in the production of an educational product. **Prerequisite/s: None**

ETEC 602 Technology and School Curriculum (3 Cr)

This course examines the role of technology in the curriculum and its impact on school change. Research on the design of computer-aided instruction and computer utilization in the K-12 classroom will be explored. Methods of educational software evaluation, selection, and acquisition are introduced. Students will apply modern technologies and principles of instructional design curriculum development in producing programs of instruction. **Prerequisite/s: None**

HED 600 Practicum I: Teaching Medical Students and Other Health Professions Students in a Diverse Learning Environment (6 Cr)

HED 600 will assist the participants in adapting instruction in their medical area of expertise to the ways in which their individual students learn best. Research in the field of education suggests that students' academic performance improves when instructors match their instructional strategies to students' learning styles. The practicum will include guidelines for identifying students' learning preferences and identifying instructional strategies and environments to address these preferences. **Prerequisite/s: None**

HED 610 Practicum II: Implications of the Domain of Human Development on Health Professions Students (6 Cr)

HED 610 will address the nuances of adult learning, with specific emphasis on the relationship between knowledge of diversity and human development as significant variables in devising effective learning environments. The course will address the theoretical and applied aspects of human development and learning theory as a means to incorporate such knowledge into academic planning and programming. Successful completion of HED 600 is recommended but not required. **Prerequisite/s: None**

HED 620 Practicum III: Technology Resources for Health Professions Education (6 Cr)

This practicum will assist the participants to become familiar with current and emerging technologies used to deliver instruction. Participants will learn about the various computer technologies used in the classroom to enhance teaching and learning, such as multimedia and PowerPoint presentations. An important focus of the practicum will be the identification of appropriate online resources for health professions educators. Additional topics will include audio-conferencing, online instruction, and compressed video. **Prerequisite/s: None**

HED 630 Practicum IV: Effective Instruction Strategies in Health Professions Education (6 Cr)

The practicum will address the relationship between medical content and contexts, adult learning, and general human development knowledge as a means to devise effective learning environments. The course will address the theoretical and applied aspects of human development and learning theory as a means to incorporate such knowledge into academic planning and instructional programming. **Prerequisite/s: None**

HED 640 Practicum V: Assessment and Measurement in Health Professions Education (6 Cr)

The practicum will address diverse assessment strategies, including standardized and non-standardized tests, with a particular emphasis on authentic assessment processes. The practicum will address test analyses, item analyses, and general assessment materials construction principles. In addition, the use of assessment data will be addressed in the context of instructional programming and curriculum development. **Prerequisite/s: None**

HED 650 Practicum VI: Research in Health Professions Education (6 Cr)

The practicum is intended to engage the student in a problem-solving experience designed to improve or enhance a medical or health profession educational situation. The practicum process is systematic and involves (a) submission of a formal practicum proposal, (b) active participation in implementation, and/or research, (c) evaluation of the project activities, and (d) submission of a final product. **Prerequisite/s: None**

IDDE 610 Learning Theories and the Practice of Instructional Design (3 Cr)

A solid foundation in learning theory is an essential element in the preparation of Instructional Design (ID) professionals. This course will provide the instructional designer an understanding of the strengths and weaknesses of major learning theories in order to apply added knowledge when designing and redesigning learning for the diverse classroom. **Prerequisite/s: None**

IDDE 625 Program Assessment and Evaluation for Diverse Classrooms (3 Cr)

This course is designed to assist teachers with developing, delivering, and evaluating instruction and assessment practices that will enhance the abilities of diverse and multicultural learners. It is also designed to encourage teachers to share research and best practices in collaborative communities of peers leading to growth in their professional lives. Areas covered will include varied methods of instruction and assessment, best practices for diverse and multicultural classrooms, and assessment of personal growth as well as that of students and peers. **Prerequisite/s: None**

IDDE 630 Diversity: Cross Cultural Awareness (3 Cr)

The purpose of IDDE 630 is twofold: (1) The first purpose is to help students begin to understand the diversity of human experiences, internally and externally. The course will examine ways people interface with their environment. The course also

addresses the internal processes (e.g., feelings, thoughts, assumptions, values, and perceptions). The focus on “diversity” entails exploring similarities and differences, commonalities and idiosyncrasies, shared and inconsistent experiences. (2) The second purpose is to explore one's own cultural background (e.g., ethnicity) to better understand the foundation and roots of one's values and how they influence behavior in social and professional interactions. **Prerequisite/s: None**

IDDE 640 Diversity and Social Justice (3 Cr)

This course focuses on the relationships between and among diversity, social justice, and education, examining privilege, power and oppression, and the process of social activism to achieve equity. It will address socio-political, economic, and legal issues and their impact on social justice. **Prerequisite/s: None**

IDDE 650 Global Awareness and Classroom Culture (3 Cr)

Theorists agree that teaching global awareness in the classroom adds to the students' knowledge base, enriches the curriculum, engages students, improves school performance, and helps children deal with the increasingly diverse communities in which they live. This course will prepare teachers to empower increasingly diverse student populations to meet the demands of an interdependent world—thus, changing the traditional classroom culture with added knowledge about the complexity and interdependency of world events and issues. **Prerequisite/s: None**

IDDE 699 Applied Professional Experience in Diversity Education (3 Cr)

This course will provide an extension of learning into various school-community settings. The course is designed for teachers to personally experience learning and diversity in a community setting and thus experience learning in the same way their students will be expected to learn through problem-based methodology. This course has two segments: (a) selection and orientation to community settings, and (b) field work in the selected setting. With the assistance of advisors, course participants will actually identify and design a community/service project for themselves and complete it. A program advisor will help the students design the experience. The program administrator or appropriate designee will approve the design, monitor, and evaluate the experience. This is the capstone course in the IDDE program; therefore, students should have completed most or all of their IDDE program coursework prior to enrolling in this course. **Prerequisite/s: EDU 5000, CUR 526, IDDE 610, IDDE 625, IDDE 630, IDDE 640, and IDDE 650.**

INED 500 Comparative International Education (3 Cr)

This course provides teachers with an opportunity to examine some of the dilemmas facing language educators in an international context from both a policy point of view and an educator's perspective. Using both critical studies and personal memoirs, students will examine literacy and TEFL educational issues in the context of different countries and discuss how educational systems are organized to meet political, social, and economic agendas. Students will reflect on the role of the individual language teacher in a changing multilingual environment. Both online data research and two memoirs related to language education policy set in different countries are used as source materials for this course. **Prerequisite/s: None**

INED 691 Action Research in Practice (Part 1) (3 Cr)

This course is intended to engage the student in a problem-solving experience designed to improve or enhance an educational situation. This process is systematic and involves the identification of a need or problem and the creation of a viable solution, based on educational research. A project proposal that is approved by the student's Advisor and the Reader will be the culminating product. **Prerequisite/s: CUR 526 and at least one additional course.**

INED 692 Action Research in Practice (Part 2) (3 Cr)

The students will actively engage in problem-solving in an educational setting. Each student will implement his/her approved INED 691 proposal for a minimum of 12 weeks, monitor progress toward the objectives, using formative and summative assessment strategies, analyze the resulting data, and write a final report. **Prerequisite/s: INED 691.**

LANG 530 Advanced Spanish Grammar (3 Cr)

This master level grammar course assumes that the candidate speaks Spanish and has studied Spanish grammar; therefore this course is not a general review of grammar. It essentially focuses on the most problematic topics of Spanish grammar even though all grammar topics are open to discussion. **Prerequisite/s: None**

LANG 531 Advanced Spanish Composition (3 Cr)

This master level composition course assumes that the candidate speaks Spanish and has had experience writing in Spanish. The purpose of this course is to further develop the writing abilities of the candidates by applying the Process Writing Method. Grammar topics and writing methodologies are discussed as needed. **Prerequisite/s: None**

LANG 545 Peoples and Cultures of Spain (3 Cr)

This course will cover the history and culture of Spain from Roman times to the present. Elements of culture such as ethnicity, art, architecture and music are intertwined with the history. **Prerequisite/s: LANG 551 or permission from content professor**

LANG 546 The Spanish Golden Age (3 Cr)

An introduction to the history, literature and art of Spain from 1500 to 1700. It includes virtual visits to the El Greco Museum in Toledo, Cervantes' house in Valladolid, and samples of Calderon de la Barca and Lope de Vega's plays. Students will read poetry, prose and theatre by some of Spain's greatest authors. Adaptation of topics to the classroom will be addressed throughout the course. **Prerequisite/s: None**

LANG 550 Spanish Linguistics for Teachers (3 Cr)

This course in applied linguistics helps teachers gain a better understanding of the inner structure of the Spanish language, words and their meaning, pragmatics, the history of the language and second language acquisition. **Prerequisite/s: None**

LANG 551 Teaching Spanish to Heritage Speakers (3 Cr)

This course will examine how to teach Spanish to students who grew up in homes where Spanish was spoken. **Prerequisite/s: LANG 581 or permission from the Content Professor**

LANG 556 Peoples and Cultures in Latin America (3 Cr)

This course examines Latin American history and culture from Pre-Columbian times to the present. Elements of culture such as ethnicity, art, architecture and music are intertwined with the history. **Prerequisite/s:** LANG 551 or permission from the Content Professor

LANG 560 Representative Spanish Authors (3 Cr)

Readings from selected masterpieces of Spanish literature and teaching strategies for their presentation in the classroom. **Prerequisite/s:** LANG 530 and LANG 531

LANG 561 Representative Spanish Authors II (3 Cr)

Readings from selected masterpieces of Spanish literature and teaching strategies for their presentation in the classroom. **Prerequisite/s:** None

LANG 565 The Spanish Frontier in North America (3 Cr)

This course examines America's Spanish colonial past, from the early explorations by Alvar Nunez Cabeza de Vaca, Hernando De Soto, and Francisco Vazquez de Coronado, to the historical legacy of Spain and early Mexico in what is now Florida, Louisiana, California, and the American Southwest. **Prerequisite/s:** None

LANG 566 Latino Heritage in the United States (3 Cr)

This course is a survey of the literary expression of Latino/a writers in the United States, as they interpret their history, status and place in American society. The course will give teachers a broad overview so that they can integrate those writers and texts into the classroom. **Prerequisite/s:** LANG 530 and LANG 531

LANG 575 Spanish Children's Literature (3 Cr)

This course will examine the characteristics of traditional and modern Spanish children's literature. Students will analyze Spanish children's literature representing the different genres and themes. Attention will be given to works written in Spanish in Latin America, Spain and the USA. Guidelines for the selection, design and implementation of appropriate Spanish literature-based activities will be addressed throughout the course. **Prerequisite/s:** None

LANG 576 Readings in Content Area Spanish (3 Cr)

Candidates will acquire the pedagogy and the vocabulary that will enable them to teach in Spanish in the areas of social studies, science and math at the elementary level. **Prerequisites:** None

LANG 581 Foreign Language Methods (3 Cr)

This course presents teachers with a wide spectrum of techniques and strategies that promote more effective foreign language learning. Teaching strategies for listening, speaking, reading and writing will be explored. Candidates will have an opportunity to understand the differences between the presentational, interpretive and interpersonal communicative lesson plans. **Prerequisite/s:** None

LANG 599 Special Topics (3 Cr)

This course will examine topics of special interest to Spanish teachers. **Prerequisite/s:** None

LANG 699 Applied Professional Experience in Spanish Language Education (3 Cr)

This course requires graduate students to complete applied professional experiences in elementary, middle school and/or high school Spanish language classrooms. The focus will be on applying the knowledge and skills students have acquired and developed. Students will submit reflections on their experiences conduct regular observations and teach research-based lessons to demonstrate their learning. **Prerequisite/s:** 24 credits, including CUR 526, EDU 5000, and EDU 601

MAT 504 Algebra in Secondary Schools (3 Cr)

This unique algebra course will enable students to tap into the power of mathematics. The course is designed to help participants make sense of the mathematics they will learn. Real-world examples are provided throughout the course to help teachers see and teach students why it is important to learn mathematics and how people use it on a daily basis. Through the course work, teachers will acquire the knowledge and skills needed to teach algebra content to their students. **Prerequisite/s:** MAT 513

MAT 506 Strategies for Teaching Calculus (3 Cr)

This course examines issues related to teaching calculus in middle and secondary schools. It will help prepare teachers for the challenges they face in delivering the content for topics including set theory, function, sequences and series, limit, and continuity. There will be an emphasis on gaining basic knowledge of the concepts and theories of calculus and preparation of instruction that will help facilitate the learning of calculus in the classroom. **Prerequisite/s:** None

MAT 507 Linear and Abstract Algebra for Teachers (3 Cr)

This course investigates the concept of linear and abstract algebra through real-life problem-solving situations. Graduate students will be exposed to a variety of successful teaching strategies that will facilitate the learning of these concepts. **Prerequisite/s:** MAT 504

MAT 508 Conquering the Teaching of Calculus (3 Cr)

This course will introduce the principles of calculus through hands-on experiences. There will be application of Mamikon's graphical approach to calculus in practical and easily understandable approaches in K – 12 classrooms. **Prerequisite/s:** None

MAT 509 Learning and Teaching Geometry in the K-12 Classrooms (3 Cr)

This course enables teachers to learn and organize materials known to geometry into a logical deductive system through the medium of play. Graduate students will examine topics in Geometry, integrate technology, and identify effective strategies to use with their students. **Prerequisite/s:** None

MAT 510 Research and Applied Mathematical Experiences in Schools (3 Cr)

This course will require graduate students to complete applied professional experiences in Math Education in K–12 educational settings. A major outcome of this class will enable graduate students to analyze assessment data and plan appropriate math programs for a targeted population. The course focuses on providing opportunities for graduate students to learn how to assemble a Mathematics Assistance Project using mentors. **Prerequisite/s: None**

MAT 511 Teaching Probability and Statistics in the K-12 Classroom (3 Cr)

This course will examine issues related to probability and statistics. Graduate students will explore means of collecting, classifying, representing, analyzing, and interpreting data. Given certain data and conditions, the graduate students will make connections to everyday-life occurrences and be exposed to hands-on strategies in the teaching of probability and statistics in the classrooms. **Prerequisite/s: None**

MAT 512 Pre-Algebra and Elementary Number Theory for Teachers (3 Cr)

This course is designed to present and explore the essential skills of arithmetic as they apply to algebra. Topics of modular arithmetic, modular equation set, group, field, bar code, and code breaking will be introduced. **Prerequisite/s: None**

MAT 513 Problem Solving Strategies in Mathematics Classrooms (3 Cr)

This course will concentrate on the role of problem-solving in the mathematics classroom. Through the exploration of various mathematics contexts, students learn to solve and pose problems, and communicate their problem-solving strategies, by engaging in mathematical demonstrations. The goal is to provide the skills and strategies needed for developing and implementing successful problem-solving lessons. **Prerequisite/s: None**

MAT 514 Topics in Applied Algebra and Geometry (3 Cr)

This course covers concepts in number theory, the real number system as well as algebra and geometry. The emphasis is on algebraic models (linear, quadratic, and exponential) and their applications. Additionally this course will serve students well as a foundation course leading to further study in more advanced topics in algebra, geometry, trigonometry and calculus. **Prerequisite/s: None**

MAT 515 Probability and Statistics (3 Cr)

This course is designed to give students an introduction to probability and statistics with a focus on problem solving. The course includes set theory, Venn diagrams, combinations and permutations, probability, and expected value and concludes with a unit on descriptive statistics and normal distributions. A class project requires students to think and write critically as well as apply the concepts learned in the course. **Prerequisite/s: None**

MAT 516 Elements of Differential Calculus (3 Cr)

This is the first course in a two course graduate calculus sequence Topics include Limits, Continuity, Definition of the Derivative, Rules of Differentiation, Implicit Differentiation, Applications of the Derivative: Curve Sketching, Related Rates, and Optimization Problems. **Prerequisite/s: MAT 514**

MAT 517 Elements of Integral Calculus (3 Cr)

This is the second part of a two-course graduate calculus sequence. Topics include differentiation and applications of exponential and logarithmic functions, indefinite integrals via the antiderivatives, definite integrals, calculating areas using Riemann sums and The Fundamental Theorem of Calculus, properties of the definite integral, integration by substitution, integration by parts, use of integration tables, additional applications of the definite integral to probability theory, volumes of revolution, and separation of variables. **Prerequisite/s: MAT 516**

MAT 522 Methods of Teaching Middle and Secondary Mathematics (3 Cr)

This course provides an overview of current practices in curriculum and instruction in the secondary schools with emphasis on special methods for teaching Middle and High School Mathematics. **Prerequisite/s: None**

MAT 662 History, Current Trends, and Technology in Mathematics Education (3 Cr)

This course traces the development of several branches of mathematics, including logic, algebra, and analysis of functions from ancient to modern times. The aim of the course is to familiarize graduate students with developments in a rapidly changing field, with particular attention given to curricular patterns and instructional practices in mathematics. It further examines the role of technology in mathematics education and its impact on teaching, learning, assessment, and teacher preparation. **Prerequisite/s: MAT 513, MAT 504 and MAT 509**

MAT 687 Diagnosis and Remediation of Learning Difficulties in Mathematics (3 Cr)

This course provides an overview of those conditions which impair learning mathematics. Graduate students will focus on analyzing various inhibitors in K–12 mathematics, such as dyscalculia and "math anxiety". The content will include reviewing policies, theories, methods, techniques, and ethical principles for individuals with exceptional learning needs. There will be an examination of differentiated instructional strategies for teaching math to students who have fear of mathematics or limited math comprehension. **Prerequisite/s: None**

MATH 699 Applied Professional Experience in Mathematics Education (3 Cr)

Candidates will apply professional, math education experiences in PreK-12 school classrooms, reflect on activities, and collect samples of student work and assessments used to demonstrate achievement of professional and state standards. **Prerequisite/s: 24 MAT program credits, including CUR 526**

MSL 680 Leadership Theory and Practice (3 Cr)

Leadership Theory and Practice: This is the introductory leadership course in the MS in Leadership program delivered by the H. Wayne Huizenga School of Business and Entrepreneurship and the Fischler School of Education. The course examines leadership as a process with a tri-fold focus: the leader, the followers, and the situation. Students will have the opportunity to explore leadership theories and build leadership skills. An additional focus will be on leadership development. **Prerequisite/s: None**

MSL 681 Leading Change (3 Cr)

Leaders in organizations are continuously required to lead their organizations through the Change process. Participants will explore various organizational systems such as organizational culture, diversity, effective work relationships and steps necessary in the change process. Armed with this knowledge, the effective leader will succeed in moving their organization through change.

Prerequisite/s: None

MSL 682 Ethical Leadership (3 Cr)

Leadership studies have acknowledged the significance of the ethical dimensions of leadership and their effects on organizations and personnel. Ethics and values have attained prominent status as factors which can shape behaviors and performance in organizations. This course is designed to analyze and consider the practical and fundamental relationships between leadership and ethics. Topics include moral reasoning, confronting ethical dilemmas, analyzing power and authority, managing ethics in organizations, communicating values in an organization, and the personal and professional manifestation of ethical leadership.

Prerequisite/s: None

MSL 683 Research of Leaders in Education and Human Resources (3 Cr)

This course introduces the student to the role and importance of research as an organizational and educational leadership tool. Identifying a research topic, developing a problem statement, developing a hypothesis, reviewing the research, sampling, measurement, data collection, proposal writing, and ethical considerations of research are topics included in this course. Basic statistical techniques are also introduced. **Prerequisite/s: None**

MSL 684 Organizational Systems (3 Cr)

This course examines the role of leadership in diverse educational and human service organizations. Various models and paradigms presented through use of metaphors stretch the students' imagination and invite further analyses of the students' own places of work. By learning how to read and apply organizational metaphors, students will better understand their own organizations and how they function. **Prerequisite/s: None**

MSL 685 Leading Learning Communities (3 Cr)

This course examines the concept of learning communities from organizational and individual leadership perspectives. Emphasis is placed on developing leadership skills and strategies needed to create and sustain learning communities. Models from educational and human service organizations are examined. Creating, leading and sustaining learning communities along with visionary leadership are needed to promote organizational effectiveness and move organizations forward. **Prerequisite/s: None**

MSL 686 Strategic Leadership in Education and Human Services (3 Cr)

This course focuses on the critical analysis of strategic leadership. Students identify organizational strengths and needs in order to develop a strategic plan to achieve organizational mission, vision, and objectives. Nowhere is this so important as for individuals leading educational, human services and non-profit organizations. The essential elements of strategic leadership, team building and team collaboration are highlighted as essential elements of the developmental process. **Prerequisite/s: None**

MSL 687 Current Organizational Issues and Trends in Educational and Human Services Organizations (3 Cr)

This course is designed to offer students the opportunity to explore current issues and trends in the context of their workplace. Changing social conditions, cultural influences, and ethical considerations are discussed in relation to educational and human services organizations. **Prerequisite/s: None**

MSL 688 Leadership in the Information Age (3 Cr)

This course provides students with the tools to create a model of integrated leadership through the alignment, development, and improvement of current data systems within the organization. Students will develop an understanding of the needs of the organization's constituency of the organization and how to develop continuous improvement processes through the use of technology. **Prerequisite/s: None**

MSL 689 The Business of Leadership: Special Topics (4 Cr)

The course offers students the opportunity to apply the concepts of leadership and problem solving to real life experiences as they explore an area of individual interest. Readings from the "masters" in the field provide a framework for case studies, web seminars, and projects. **Prerequisite/s: None**

MSL 690 International Leadership Perspectives for Educators (3 Cr)

The course focuses on the key leadership behaviors and practices involved in leading education and human services organizations internationally. It provides insights on current international affairs, cultural diversity issues and the ramifications for leading an organization in an international environment. **Prerequisite/s: None**

MSL 9100 Leadership Seminar (3 Cr)

This course focuses on strategic leadership and its influence on organizational effectiveness which occurs in the context of modern society by initiating change and reacting to change. Participants will pursue theory and research focusing on the foundations for decision making and analysis of complex historical, cultural, sociological, philosophical, and theoretical perspectives in the leadership process. **Co-requisite/s: MSL 9100 and MSL 9100S must be taken simultaneously.**

MSL 9100L Leadership Seminar (6 Cr)

This course focuses on strategic leadership and its influence on organizational effectiveness; which occurs in the context of modern society by leading change. Participants will pursue theory and research focusing on the foundations for decision-making and analysis of complex historical, cultural, sociological, philosophical, and theoretical perspectives in the leadership process. This course is taught only in Spanish. **Prerequisite/s: Admission to the International Program**

MSL 9100S Leadership Simulation (3 Cr)

MSL 9100 applies problem solving and critical thinking skills in a real world-like, risk-free, and immersive environment. Through rich dialog and collegial collaboration, students will serve in a variety of key leadership roles within a city administration using a cutting-edge interactive simulation of a virtual city. Over a period of 15 weeks, you will be engaged in making vital decisions relating to the

quality of life of Centerville. **Co-requisite/s: MSL 9100 and MSL 9100S must be taken simultaneously.**

OCEE 500 Foundations of Environmental Education - Theory (3 Cr)

The course traces and critiques the history, goals, definitions, underlying assumptions, implementation, methodology of environmental education, the diverse locations and methods where and how environmental education occurs and by which it is constrained. **Prerequisite/s: None**

OCEE 510 Foundations of Environmental Education - Practice (3 Cr)

Building upon the concepts developed in OCEE 500, this course will highlight movements in national and international environmental adult education. This course provides opportunities to examine and critique existing environmental education curricula and resources. **Prerequisite/s: None**

OCEE 520 Teaching Environmental Concepts (3 Cr)

Recognizing the need to develop practical skills related to the study and understanding of ecological systems, this course will begin by clarifying the science of specific environmental issues, and then offer opportunities to develop tools to teach students about a variety of interdisciplinary complexities. **Prerequisite/s: None**

OCEE 530 Environment and Society (3 Cr)

This course investigates the impact of society on the non-human environment. Synthesis and analysis of environmental issues as they relate to current western society will be addressed. Strategies for successful education within current ecological challenges will be a focus. **Prerequisite/s: None**

OCEE 540 Interpreting Our Environment (3 Cr)

This course investigates situations where the non-human environment is interpreted to others; interpretations based upon personal experience and a sense of place. Through the application of communication and experiential learning theories, this course will offer opportunities for educators to practice the art and science of the interpretation of our environment. **Prerequisite/s: None**

OCEE 550 Reason for Hope (3 Cr)

This course allows us to share multicultural understanding of environmental education ("EE") and offers positive case studies – "Reasons for Hope" – such as the Jane Goodall Institute's *Roots & Shoots*, an international hands-on humanitarian and EE program for kindergarten to college students. **Prerequisite/s: None**

RED 550 Foundations of Reading for Content Area Teachers (3 Cr)

This course is designed for students who are not enrolled in a Reading Education program. The focus of this course is to offer a general overview of literacy study, including major aspects of written, oral, and visual literacy and the reading process. Additionally, students will learn classroom instructional strategies for reading across the curriculum with specific emphasis on content areas such as social studies, science, language arts, and mathematics. **Prerequisite/s: None.**

RED 554 Assessment in Reading (3 Cr)

This course familiarizes the students with a variety of techniques both formal and informal, for assessing reading levels diagnosing reading disability, and measuring achievement. Techniques for assessing reading level and readability are explored. **Prerequisite/s: RED 0570**

RED 555 Supervised Reading Practicum I: Individual Remediation (3 Cr)

This course includes the development and use of informal diagnostic procedures, organization of small group and individualized reading instruction, and evaluation of remedial reading techniques and materials. **Prerequisite/s: RED 0554**

RED 560 Literature for Children and Adolescents (3 Cr)

Students will become acquainted with the literature available for children in the various media of communication and develop and practice techniques for introducing literature to children and adolescents. Participants will analyze children's literature on the basis of literary style, patterns of organization, reading level, and the needs and interests of children. Participants will develop skills for broadening children's understanding of literature in specific content areas. **Prerequisite/s: None**

RED 565 Language Arts in the Secondary School (3 Cr)

The focus of this course will be upon the development of instructional methods and techniques for reading, writing, and speaking in grades 6-12. Students will explore reading in the content areas, the concept of reading and writing to learn, thinking skills, study skill systems, and effective verbal communication. **Prerequisite/s: RED 0570**

RED 570 Foundations of Reading: Theory and Practice (3 Cr)

This course examines and presents a general overview of the nature of reading and reading models; describes and defines the reading process including patterns that make it possible for readers to decode words that are unfamiliar to them. The course also explores the theoretical basis for different reading systems including research based methods in the instruction of phonics and phonemic awareness. It also provides opportunities for practical application of the reading theories. **Prerequisite/s: None**

RED 575 Contemporary Foundations of Reading: Research Perspective (3 Cr)

This course will familiarize students with current research-based theories of learning related to reading at the elementary and secondary level, with an emphasis on learning styles, cognitive development models, and computer-based learning experiences in reading. Practical application of the theories will be addressed. Adaptive instruction as it applies to meeting individual needs will also be explored. **Prerequisite/s: None**

RED 580 Educational Measurements (3 Cr)

This course explores a variety of assessment tools for the evaluation of reading abilities. It examines the construction of classroom tests, published tests and the development of instructional objectives. Emphasis is placed on the ability to construct, select, and interpret tests that would provide valid measures of instructional objectives. **Prerequisite/s: RED 554, RED 555, and RED 570**

RED 585 Reading in the Content Areas (3 Cr)

The focus of this course is to provide classroom instructional strategies for reading across the curriculum with emphasis on content areas such as social studies, science, language arts, and mathematics. Students will explore strategies for reconciling text difficulties, identify skills that can be applied for maximizing information from text, identify strategies for improving study skills, and identify strategies for determining suitability of content area text for individual students, including diverse and LEP learners. **Prerequisite/s: RED 0570**

RED 587 Supervised Reading Practicum II: Group Remediation (3 Cr)

The student will be engaged in a supervised practicum involving problem-solving experiences designed to improve reading-related challenges. Based on a thorough review of the reading research literature and knowledge gained in his or her coursework and field experiences, the student will select, plan, and use appropriate reading assessment instruments, strategies, and materials to identify needs and provide remedial reading instruction, for a designated period of time, in a K-12 classroom setting. **Prerequisite/s: 24 credits, including RED 554, RED 555, RED 570, and RED 575**

RED 590 Administration and Interpretation of Instructional Assessments (3 Cr)

This course focuses on the administration and interpretation of instructional assessments and research-based classroom teaching strategies in reading for grades 1-12. **Prerequisite/s: RED 0570**

RED 5271 Reading Supervision and Curriculum Development—Theory and Practice (3 Cr)

This course focuses on the administration and interpretation of reading programs in grades pre-K-12. The role of the reading specialist in supervising and improving reading instruction will be researched. **Prerequisite/s: RED 570**

SCI 523 Methods in Science Education (3 Cr)

This course provides an overview of current practices in curriculum and instruction in the modern science classroom with emphasis on special methods for teaching Middle and High School Science. The student will explore a variety of techniques utilized in an inclusive and effective learning environment for both typical and atypical students and for those who are limited in English proficiency (LEP). Effective laboratory management will be discussed in terms of legal, safety and ethical issues. The student will develop a Unit Plan and present a lesson in a local school. **Prerequisite/s: None**

SCI 600 Foundations of Physical Science for Teachers (3 Cr)

This course examines content and methods for teaching physical science in the preK- 12 classroom in accordance with National Science Teacher Association (NSTA) Science Standards. The topics of the subject matter content are concepts in force and motion which are developmentally appropriate for elementary, middle, and secondary school students. There will be a field experience in a local school. **Prerequisite/s: SCI 523**

SCI 601 Inquiry-Based Space Science for Teachers (3 Cr)

This course examines content and methods for teaching space science in the preK-12 classroom in accordance with National Science Teacher Association (NSTA) Science Standards. Space science is a growing field, yet not well established in public school curricula. There is an emphasis on integrating space science concepts with established science topics in K-12 coursework. There will be a field experience in a local school. **Prerequisite/s: None**

SCI 602 Teaching Comprehensive Ocean Science (3 Cr)

This course examines content and methods for teaching ocean science in the preK-12 classroom in accordance with National Science Teacher Association (NSTA) Science Standards. The ocean is a vast unknown relative to our knowledge of other regions of the world. This course explores methods of instruction to introduce the natural composition of the oceans and the growing effect of human activities on the ocean environment. There will be a clinical field experience in a local school. **Prerequisite/s: None**

SCI 603 Teaching Inquiry-Based Life Science (3 Cr)

This course examines content and methods for teaching life science in the preK-12 classroom in accordance with National Science Teacher Association (NSTA) Science. The student will explore a variety of techniques utilized in an inclusive learning environment for both typical and atypical students and for those who are Limited in English Proficiency (LEP). This is an ESOL infused course. "Hands-on" approaches, resources, materials, and technology applicable to skills in laboratory management will be discussed. There will be a clinical field experience in a local school. **Prerequisite/s: SCI 523**

SCI 604 Teaching Chemistry: An Activity-Based Study of Matter and Energy (3 Cr)

This course examines content and methods for teaching concepts in matter and energy leading to chemistry in the preK-12 classroom in accordance with National Science Teacher Association (NSTA) Science Standards. Elementary and middle school students study concepts in matter and energy in a hands-on activity-based learning method which creates a foundation of understanding for later high school study of chemistry which utilizes both concrete and abstract learning strategies. There will be a clinical field experience in a local school. **Prerequisite/s: SCI 523**

SCI 605 Interdisciplinary Earth Science for Teachers (3 Cr)

This course examines content and methods for teaching concepts in earth science in the preK-12 classroom in accordance with National Science Teacher Association (NSTA) Science Standards. Earth science has become increasingly important in the modern school curriculum as the conservation of the natural environment has become more of a concern to society. This course explores the relationship between science, technology, and society in our endeavor to understand and preserve Earth's environment. There will be a clinical field experience in a local school. **Prerequisite/s: SCI 523**

SCI 699 Applied Professional Experience in Science Education (3 Cr)

This course will require graduate students to apply professional experiences in science education in PreK-12 computer labs and classrooms, reflect on activities, and collect samples of student work and assessments used to demonstrate achievement of professional and state standards. **Prerequisite/s: 24 credits, including EDU 5000, CUR 526, EDU 601 and SCI 523.**

SLP 5001 Anatomy and Physiology (3 Cr)

This course is an introduction to the anatomy and physiology of the auditory and vocal mechanisms. **Prerequisite/s: None**

SLP 5002 Phonetics (3 Cr)

This class will cover the study of the history, theory and application of phonetics, including sampling and transaction techniques. **Prerequisite/s: None**

SLP 5003 Neuroanatomy (3 Cr)

This course provides an introduction to the gross structure of the brain and spinal cord and functional relationship of their parts with emphasis on the auditory and vestibular peripheral and central nervous systems. **Prerequisite/s: None**

SLP 5004 Hearing and Speech Science (3 Cr)

Physical bases and processes of production and perception of speech. **Prerequisite/s: None**

SLP 5005 Speech and Language Development (3 Cr)

Study of pre-linguistic and psycholinguistic variables related to normal development from infancy through adolescence; application of analytic methods of development and cultural variations in speech and language. **Prerequisite/s: None**

SLP 5007 Directed Observation (1 Cr)

Twenty-five hours of observations as an orientation to the clinical aspect of speech-language pathology. **Prerequisite/s: None**

SLP 5008 Evaluation of Speech-Language Disorders (3 Cr)

Principles of screening and evaluation of clients typically seen in a clinic, school, hospital or nursing home settings, including administration of specific evaluation instruments. **Prerequisite/s: SLP 5002, SLP 5005 and SLP 5007**

SLP 5010 Treatment of Speech and Language Disorders (3 Cr)

Overview of communication disorders, professional terminology, and intervention strategies. **Prerequisite/s: None**

SLP 5300 Audiology (3 Cr)

Instruction in test administration and interpretation of standard and specialized tests of auditory function. **Prerequisite/s: None**

SLP 5400 Rehabilitation for the Hearing Impaired (3 Cr)

Prevention and remediation of communication problems resulting from hearing impairment in populations from birth to geriatrics. **Prerequisite/s: SLP 5005, SLP 5010, and SLP 5300**

SLP 6000 Diagnosis of Language and Speech Disorders (3 Cr)

This course will fulfill the requirement set forth by the American Speech-Language Hearing Association for course work in the area of assessment as noted in Standard III-D: The applicant must possess knowledge of the principles and methods of prevention, assessment, and intervention for people with communication and swallowing disorders, including consideration of anatomical/physiological, psychological, developmental, and linguistic and cultural correlates of the disorders. **Prerequisite/s: None**

SLP 6005 Diagnostics II Practicum (1 Cr)

(1 CR) Emphasis on analysis and interpretation of data and the impact on differential diagnosis. Lab class meetings are required. **Prerequisite/s: SLP 6000 and SLP 6010 or SLP 6020 and SLP 6060**

SLP 6011 Language and Learning Disorders in School-Aged Children and Adolescents (3 Cr)

This course addresses the etiology, diagnosis, and treatment of language-learning delay/disorders (including developmental and acquired disorders), affecting school-age children through adolescence. Emphasis will be placed on a communication process model of evaluation and intervention with the implications of this integrated approach to facilitate reading, writing, speaking, listening, and thinking. The importance of the functional interrelationships among linguistic, cognitive, and affective functions and the social contexts within which they occur will be stressed. A variety of assessment and treatment procedures for use with this diverse clinical population will be discussed. Presentation of the paradigm shift from a traditional deficit model to an emergent literacy model with collaborative strategies to design and conduct curriculum-based assessment and interventions will be covered. **Prerequisite/s: None**

SLP 6012 Communication Disorders: Infancy-Preschool (3 Cr)

Identification, assessment, and intervention principles and procedures for young children who display or are at-risk for socio-communicative-linguistic deficits. Emphasis on family-centered early intervention service delivery and integrated intervention model for facilitating communication and language skills. Discussion of collaborative strategies and disciplinary teaming models for facilitating effective parent-professional partnerships. **Prerequisite/s: None**

SLP 6013 Autism Assessment: A Communication-Based Perspective (3 Cr)

This course will provide information about critical issues in assessing communication and language in children and adults with autism spectrum disorders. This course will focus on implementing effective evidence based assessment strategies in order to develop appropriate communication goals and strategies for individuals with autism spectrum disorders. Lectures, case reports, videotaped demonstrations, and hands-on learning activities will be completed. **Prerequisites: None**

SLP 6014 Autism Spectrum Disorders (3 Cr)

This course will provide information and discussions about critical issues in teaching communication and language to children and adults with autism spectrum disorders. This course will focus on implementing effective assessment and intervention strategies as well as developing appropriate communication programs for individuals with autism spectrum disorders. Lectures, case reports, videotaped demonstrations, and hands-on learning activities will be completed. **Prerequisite/s: None**

SLP 6015 Clinical Processes (3 Cr)

Clinical Processes will provide a base of knowledge and fundamental skills needed for beginning supervised clinical practice. This course will review the basic aspects of delivery of treatment services for communication disorders, including communication skills, interpersonal skills, behavioral management skills, intervention strategies and processes, data management, and clinical writing

skills. Emphasis will be placed on basic clinical intervention processes common to a variety of disorder areas. **Prerequisite/s: None**

SLP 6020 Language Disorders in Adults (3 Cr)

This course provides a knowledge base for evaluation and treatment of disorders of language of adults including aphasia, closed-head injury, and dementia. **Prerequisite/s: None**

SLP 6021 Cognitive Communication Disorders (3 Cr)

This course provides a knowledge base for adult and pediatric acquired and developmental cognitive communication disorders. Topics include attention, memory, reasoning/problem solving, executive function, learning, processing, and language. The diagnosis and treatment of these deficits in patients at many levels of recovery will be discussed. **Prerequisite/s: SLP 6011, SLP 6012 and SLP 6020**

SLP 6023 Advanced AAC Technology (1 Cr)

This course will explore the characteristics of computer-based voice-output communication software, computer-based self-authoring software and devices that will enhance this software. An overview of augmentative communication assessment for selection of the appropriate software and intervention principles will be presented. Students will be able to make appropriate software selection for a client considering the features of each computer-based software program. **Prerequisite/s: None**

SLP 6024 Developing Literacy Skills in Individuals with Significant Communication Impairments (1 Cr)

This course provides an overview of the literacy learning process and addresses the unique needs of individuals with severe communication impairment who are at risk for reading and writing difficulties. Topics include discussions of various tools for evaluating literacy, and specific strategies and intervention techniques appropriate for individuals with severe apraxia of speech, autism, cerebral palsy, and other developmental disabilities. Participants will learn about appropriate pieces of assistive technology to facilitate literacy learning. Participants will also learn to consider the influence of culture on literacy learning and become familiar with culturally inclusive practices for enhancing reading and writing. Effective collaboration with general and special educators will be discussed. **Prerequisite/s: None**

SLP 6025 Augmentative and Alternative Communication (3 Cr)

This course will review the basic aspects of the field of augmentative communication, including aided and unaided symbols, strategies, and techniques. An overview of augmentative communication assessment and intervention principles and procedures will be presented. This course will address the needs of individuals with little or no functional speech across the life span, including etiologies such as severe aphasia, autism, cerebral palsy, dual sensory impairment, intellectual disability, progressive neurological diseases, and traumatic brain injury. **Prerequisite/s: None**

SLP 6026 AAC Assessment (1 Cr)

This course will provide information about evaluation procedures for the individual with severe communication disorders. The course will focus on the in-depth study of AAC assessment strategies across multiple domains. Lectures, videos and hands-on learning activities will be explored during the course. **Prerequisite/s: None**

SLP 6027 AAC Strategies for the Beginning Communicator (1 Cr)

Provides review of issues and procedures involved in evaluating individuals who communicate at pre-intentional, pre-symbolic, and emerging symbolic levels. Includes discussions of environmental assessment, communication sampling, and structured protocols to assess communication modes, pragmatic and discourse functions. Review of intervention techniques, including movement-based approaches and the use of graphic and object symbols. Emphasis will be placed on planning for meaningful communication that generalizes to daily living situations. **Prerequisite/s: None**

SLP 6028 Low Tech Communication Aids (1 Cr)

Review of issues and procedures in selecting and developing no- and low technology communication aids. Includes review of the cognitive, linguistic, visual, and physical factors that influence vocabulary/message selection and organization, format, and symbol selection. Discussion of intervention techniques to facilitate independent use of these communication aids through direct intervention and consultation with parents and teachers. Low tech tools for expressive communication, participation and learning, and behavior management/emotional regulation will be reviewed. Strategies will be presented for maximizing and measuring functional treatment outcomes. **Prerequisite/s: None**

SLP 6029 Augmentative and Alternative Communication in the Curriculum (1 Cr)

This course reviews intervention principles, issues, and strategies for school-aged children using augmentative and alternative communication. Participants will gain experience developing goals and intervention programs that foster the development of social and academic skills along with expressive communication. Strategies for specific areas of AAC learning will be reviewed, including vocabulary development, symbol learning, access skills, and direct selection and scanning. Issues relevant to students in the primary grades, in later elementary school, in middle school, and in high school will be discussed. **Prerequisite/s: None**

SLP 6030 Voice Disorders (3 Cr)

Etiological factors, and procedures for diagnosis, treatment, and interdisciplinary management of individuals with functional and/or organic voice and resonance disorders, e.g., dysphonia secondary to nodules, hypernasality secondary to cleft palate. **Prerequisite/s: SLP 5001, SLP 5003, SLP 5004, SLP 5008, SLP 5010 and SLP 6070**

SLP 6037 Craniofacial Anomalies (3 Cr)

Study of etiology, assessment, and remediation of communicative impairments in children and adults with craniofacial anomalies. Specific emphasis will be placed on articulatory and resonance disorders resulting from cleft lip and palate, and velopharyngeal insufficiency and incompetence. **Prerequisite/s: SLP 5001, SLP 5003, SLP 5004, SLP 5008, SLP 5010, SLP 6030 and SLP 6070**

SLP 6040 Fluency Disorders (2 Cr)

Etiology, diagnosis, and management of children and adults with disorders of fluency, e.g., developmental stuttering, neurologically based stuttering, cluttering, and other non-fluent speech conditions will be studied. **Prerequisite/s: SLP 5010**

SLP 6045 - Augmentative and Alternative Communication in Educational Settings (3 Cr)

This course focuses on the implementation of augmentative and alternative communication (AAC) in educational settings. Learners will gain an understanding of the legal foundations of providing AAC devices and services in school settings. The course addresses strategies for AAC services that can be used to provide access to the general education curriculum for students with significant communication challenges. Language assessment and intervention strategies for AAC communicators are discussed. Issues and strategies to teach reading and writing skills are presented along with strategies for facilitating the development of social skills and friendships. **Prerequisite/s:** SLP 6025.

SLP 6050 Motor Speech Disorders (3 Cr)

Education and training in the assessment and management of motor speech disorders across the lifespan. Discussion of the nature, etiology, diagnosis, and management of motor speech disorders with emphasis on differential diagnosis and treatment. **Prerequisite/s:** SLP 6070

SLP 6055 Dysphagia (3 Cr)

This course provides information about normal anatomy and physiology of the swallow. Using an evidence-based model, information about the evaluation and treatment of swallowing disorders is provided. Common etiologies for dysphagia (e.g. neurogenic and head and neck cancer) are addressed for the adult population. An overview of pediatric dysphagia is provided. Current issues and controversial topics are discussed in a framework of questions students should consider. Examples of ethical questions in the management of dysphagia are presented. Students are afforded the opportunity to view fiberoptic endoscopic evaluation of swallowing (FEES). Video views of normal and abnormal swallows through video fluoroscopic evaluation are provided through a noncredit required lab. **Prerequisite/s:** SLP 6050

SLP 6057 Medical Aspects of Communication Disorders (3 Cr)

The emphasis of this course will be to enhance the student's understanding of the relationships between speech-language pathologists, medical disciplines and allied health disciplines. Understanding medical terminology, governing bodies of health care organizations, medical ethical dilemmas, and report writing for the medical model of treatment will be significant focuses of this course. **Prerequisite/s:** None **Co-requisite/s:** SLP 6015, SLP 6101, SLP 6102, SLP 6110, SLP 6120, or SLP 6130

SLP 6060 Articulation and Phonological Disorders (3 Cr)

This course provides a knowledge base for normal and disordered speech sound development. Theories of assessment and intervention are discussed, and application, analysis and comparison is stressed for all theories and approaches presented. A variety of procedures for identification and remediation of articulatory and phonologic disorders are presented. Traditional therapeutic techniques and current diagnostic and intervention strategies are highlighted. **Prerequisite/s:** SLP 5002

SLP 6070 Research Methods (3 Cr)

Exposure to critical analysis of the field's literature with respect to research design and statistical application. **Prerequisite/s:** None

SLP 6075 Seminar in Professional Issues in Speech-Language Pathology (3 Cr)

The purpose of this course is to increase students' awareness and understanding of current professional issues pertaining to such matters as standards of ethics, scope of practice, legislative mandates affecting the professions, professional service delivery systems, healthcare reimbursement issues, state licensure, national certification, state teacher certification requirements, State Accomplished Practices for Educators, state education standards, job opportunities and interview strategies, participation in professional organizations, professional advocacy, and HIV/AIDS awareness. **Prerequisite/s:** SLP 6015. **Co-requisite/s:** SLP 6101, SLP 6102, SLP 6110, SLP 6120, or SLP 6130

SLP 6078 Technological Application in Communication Science and Disorders (0 Cr)

This course provides an overview of technological applications used by professionals in speech-language pathology with an introduction to computer applications in the field. This course also provides the technological foundation necessary for students to complete the online master's degree. **Prerequisite/s:** None

SLP 6080 Directed Research (1 Cr)

This course provides students with an opportunity to develop clinically relevant research skills and gain hands-on experiences with research practices. Students work collaboratively with selected faculty members to plan and conduct their research projects. The scope and depth of the project varies according to the number of credits for which the course is taken. Students must secure faculty permission in advance of registering for this course. **Prerequisite/s:** None

SLP 6091 Multicultural and Counseling Issues (3 Cr)

This course will provide a forum for discussion regarding issues in the provision of services to multicultural populations. Counseling approaches for use with clients and/or families with communication problems through effective interpretation, information dissemination, and discussion will be explored. **Prerequisite/s:** None **Co-requisite/s:** SLP 6005, SLP 6015, SLP 6101, SLP 6102, SLP 6110, SLP 6120, or SLP 6130

SLP 6101 Clinical Lab I Practicum (1 Cr)

This course has dual components; students will provide treatment to assigned patients as well as attend weekly class meetings. Participation in a direct patient contact supervised clinical practicum will occur with supervised clinical practice performed in the treatment of speech, language, and hearing disorders. Development and application of appropriate treatment plans, collaborative supervisory meetings, self analysis skills, research, and completion of written documentation is expected. Discussions on professional topics such as prevention, portfolio development, child/elder abuse neglect and case studies will be covered. **Prerequisite/s:** None

SLP 6102 Clinic II Practicum (1 Cr)

In this practicum experience, students will move along the supervisory continuum working toward increased independence. Self-analysis of clinical skills and enhancement of acquired skills will be emphasized. Lab class meetings are required. **Prerequisite/s:** SLP 6101

SLP 6110 Externship: Adult (1 Cr)

This class will meet for two two-hour classes prior to beginning the placement process to assist the student in expanding clinical and professional skills in preparation for an adult externship experience. Issues relating to confidentiality, facility policy and procedures, interviewing skills, professional dress and appearance, attendance policies, research and presentation expectations, as well as interpersonal skills will be incorporated into these classes to facilitate an enhanced pediatric externship program. Emphasis will be on all aspects of professionalism and interaction with a new clinical supervisor. **ALL STUDENTS MUST TAKE THIS COURSE. Prerequisite/s: SLP 6055 and SLP 6102.**

SLP 6120 Externship: School (1 Cr)

School externship requires a full time placement (minimum of 32 hours/week for an entire semester) in a school setting with which NSU has a current legal affiliation. The school externship must be taken by candidates seeking Department of Education certification in speech-language pathology. Candidates will participate in all activities associated with a school-based SLP position including assessment and treatment of students in a PK-12 school setting. Candidates will be supervised by an ASHA certified, state licensed school-based SLP and by a University-based faculty. **Prerequisite/s: SLP 6101 and SLP 6102**

SLP 6130 Externship: Pediatric Non-School (1 Cr)

This class will meet for two two-hour classes prior to beginning the placement process to assist the student in expanding clinical and professional skills in preparation for a pediatric externship experience. Issues relating to confidentiality, policy and procedures, interviewing skills, professional dress and appearance, attendance policies, research and presentation expectations, as well as interpersonal skills will be incorporated into these classes to facilitate an enhanced pediatric externship program. Emphasis will be on all aspects of professionalism and interaction with a new clinical supervisor. Each student will meet with the Externship Coordinator or her designee, in person or via telephone conference, for a minimum of one individual placement conference, to discuss location of externship, preference for a specific type of facility and order of adult and pediatric externship experiences. There will also be two online two-hour chats held during the semester and attendance is mandatory. The first chat will be held during the first half of the externship semester and the second chat in the second half. In addition, a mid-semester site visitation meeting, during the course of each pediatric externship, will be required for each student-extern at their respective site, during which the externship coordinator (or her designee) will meet with the student-extern and the onsite externship supervisor together and individually, to address student progress, areas of concern, targeted skills for improvement, hours accrued, etc. **Prerequisite/s: None**

SLP 6140 Approved Program School Externship (3 Cr)

School externship requires a full time placement (minimum of 32 hours/week for a 14 week semester) in a school setting with which NSU has a current legal affiliation. The school externship must be taken by candidates seeking Department of Education certification in speech-language pathology (SLP). Candidates will participate in all activities associated with a school-based SLP position including assessment and treatment of students in a PK-12 school setting. Candidates will be supervised by school-based clinical faculty (SLP) who are ASHA certified and state licensed and by a University supervisor (site visitor). **Prerequisite/s: SLP 6102**

SLP 6200 Capstone (0 Cr)

CAPSTONE is an online course designed to assist students in reviewing major content areas in the field of speech-language pathology in preparation for the Praxis national examination. It addresses approximately 18 major topic areas covering normal and disordered processes, professional issues, research methodologies, and other content important to the profession. Students progress through the course at their own pace, reviewing online course materials, participating in discussion boards, and contributing to synchronous chats. **Prerequisite/s: None**

SLP 6201, 6202 Special Topics (1-3 Cr)

Advanced study of selected theoretical, clinical, or professional issues in speech pathology and audiology (elective may be taken for credit, CEU, or recertification). **Prerequisite/s: None**

SLP 6203 Organization and Management of School-Based Speech-Language Pathology Programs (3 Cr)

This course will address the challenges facing school-based speech-language pathologists. Topics will include: legislative mandates; current issues in education and the impact of these issues on the traditional roles of school-based speech-language pathologists; organization and management of school speech-language programs; active participation on the educational team; service delivery models for diverse populations; use of technology in schools; treatment outcomes and accountability measures; marketing services in the schools and the community; creative program ideas. **Prerequisite/s: None**

SLP 6400 (Central) Auditory Processing Disorders for the Speech-Language Pathologist (1 Cr)

The course will provide an overview of the characteristics of Auditory Processing Disorders, evaluation tools used for diagnosing the disorder, differential diagnosis considerations, effects of Auditory Processing Disorders on language skills and academic achievement, and treatment approaches shown to be effective through clinical research. **Prerequisites: SLP 5300, SLP 5400, SLP 5008, SLP 5010, SLP 6000, SLP 6011 and SLP 6012.**

SST 524 Methods for Teaching Social Studies (3 Cr)

This course examines the origins and evolving state of social studies and citizenship education across the Nation. Based on theory, research and practical experiences this course focuses on the art, science and craft of social studies teaching with an emphasis on engaging students in the construction of knowledge. A major part of this course is developing approaches to analyzing and improving social studies instruction while incorporating emerging technologies. **Prerequisite/s: None**

SST 612 Economics in the Middle and Secondary Curriculum (3 Cr)

In this course teachers licensed to teach social sciences will develop a sound foundation in the principles of economics and their applications in the world in which we live. It is expected that the teachers will plan motivating lessons to teach these principles at the middle and secondary levels. Economics also helps to provide a framework for the study of history and current events. **Prerequisite/s: None**

SST 614 Geography in the Middle and Secondary Curriculum (3 Cr)

This course provides an overview of the broad field of geography and the effects of geography on the human condition. The intention is to provide both information and to increase skills so that the participants will develop innovative geographic education materials for use in middle and secondary classrooms. **Prerequisite/s: None**

SST 615 Teaching Current Trends in World Affairs for the Middle and Secondary School Curriculum (3 Cr)

In this course students will study current trends and issues from a world historical perspective. This will be accomplished through research and discussion of the many sides of viewing a trend or issue. Students will have the opportunity to study and debate the complex interrelationships surrounding an event or trend. By doing this students will learn how to seek patterns in these interrelationships and then project meaning to human life. **Prerequisite/s: SST 627 and SST 629**

SST 616 Sociological Perspectives in Our Multicultural Society (3 Cr)

This course provides an in-depth study of racial and ethnic relations in America, past to the present. The focus is on interracial and interethnic groups from a sociological analytical perspective interspersed with historical interactions that affected each group. **Prerequisite/s: None**

SST 622 Consent of the Governed: American Government (3 Cr)

This course will examine how the United States is governed today by studying the Framers' intentions and how they have been implemented and adapted over the years. In addition, there will be an exploration of issues that the Framers had not envisioned, and how the American people and the basic institutions of government have responded and adapted to these new demands. **Prerequisite/s: None**

SST 623 American History I in the Middle and Secondary Curriculum (3 Cr)

American History (Pre-colonial times through the Reconstruction Period) will be reviewed, discussed and researched in this course. This period in American history will be studied through the lenses of the 10 NCSS standards: culture; time; continuity & change; people; places & governance; production; distribution & consumption; science, technology & society; and civic ideals & practice. Emphasis will also be placed on integrating the latest curricula practices and teaching strategies using State Standards as a guide. **Prerequisite/s: None**

SST 625 American History II in the Middle and Secondary School (3 Cr)

This intensive course covers American History from the *Reconstruction* through the *Present*. This period will be studied through the lenses of the ten standards of the Social Studies Curriculum: culture; time, continuity & change; people, places & environment; individual development & identity; individual groups & institutions; power, authority & governance; production, distribution & consumption; science, technology & society; and civic ideals & practices. Emphasis will be placed on integrating the latest curricula practices, state standards, teaching strategies and assessments into the curriculum. **Prerequisite/s: None**

SST 627 World History I in 5-12 Curriculum (3 Cr)

This course explores the world from its beginnings to the 1500s by studying the significant physical, cultural, economic, religious, and political features that shaped the world during these times. **Prerequisite/s: None**

SST 629 World History II in 5-12 Grades Curriculum (3 Cr)

This course provides an in-depth study of major events from the 1500s to the present. It includes significant interactions among the peoples of Africa, Asia, Latin America, and the Middle East. Curriculum strategies and activities will be structured so that middle and secondary students will become more global in their thinking and see themselves as concerned citizens of the world. **Prerequisite/s: None**

SST 630 Contemporary Social Problems and Issues (3 Cr)

This course provides an opportunity to study social problems and issues, and their causes and consequences, in our global society. Relevant sociological theory, concepts, and perspectives provide a systematic framework for examining specific social issues such as race, ethnicity, poverty, gender, addictions, family structure, and terrorism. **Prerequisite/s: None**

SST 699 Applied Professional Experience in Social Studies Education (3 Cr)

This culminating course provides the opportunity for the candidates to apply the content knowledge and the professional development skills acquired in their graduate courses to social studies classrooms at the middle and secondary school levels. These applied professional experiences allow the graduate students to demonstrate effective teaching practices that increase student learning. **Prerequisite/s: Completion of 24 credit hours in the degree program**

SSV 500 Mitigation and Prevention (3 Cr)

Mitigation and Prevention: This course will provide an overview of operational responsibilities and skills necessary for school officials charged with the safety and security of school staff and students using an all hazard approach. Mitigation and Prevention will introduce school officials to the necessary steps in identifying potential barriers to "hardening" the school site in emergency situations and recommending proactive measures to see that all students and staff learn and work in a safe and secure environment. **Prerequisite/s: None**

SSV 501 Emergency Preparedness (3 Cr)

This course will provide a comprehensive study in the development of a school's safety plan. Using an all hazard approach, the components of a school safety plan will be developed, focusing on a rapid, coordinated, effective response when a school emergency occurs. Realizing that every school must have an emergency plan tailored to its unique needs, this course will assist administrators in identifying critical components of the plan. Tabletop exercises will be developed to practice the recommendations of the safety plan. **Prerequisite/s: None**

SSV 502 Response and Recovery (3 Cr)

This course is designed to follow the emergency plan designed in SSV 0501. Topics discussed will include: determining if an emergency is occurring, identify the needed response, and coordinating appropriate personnel. This course will address the emotional impact of a school emergency and the need to return to the educational focus of the schools as quickly as possible. The

planning and practicing of drill will be developed and discussed, as well as taking part in the tabletop exercises. **Prerequisite/s: None**

TEFL 515 Curriculum and Materials Development (3 Cr)

This is an introduction to curriculum development for Teachers of English as a Foreign Language (TEFL). The focus of this course is the processes involved in developing, implementing, and evaluating language programs and any organized course of language instruction. This course provides tools for the process of review and reflection by surveying approaches to language curriculum development and materials and by examining ways of addressing the issues that take place in developing and evaluating language programs and language teaching materials. **Prerequisite/s: None**

TEFL 525 – Teaching English to Young Children (3 Cr)

Through this course students examine the conceptual and developmental background of the process of second language acquisition during the early childhood years (birth-age 8). Classroom applications to support young children's acquisition of the English language are discussed. Appropriate field experiences are integrated. **Prerequisite/s: None**

TEFL 530 Technology in TEFL (3 Cr)

This course explores the various technological options at the disposal of English as a Foreign Language (EFL) teachers which include language software, commercial and free web-based teaching materials and tools and other multimedia resources. Course participants will review the latest technological innovations in English language teaching as well as situate them in the technology and language standards of their respective countries. Course participants will also create a plan of action for implementing an integrated use of technology in language teaching in their EFL classrooms. **Prerequisite/s: None**

TEFL 535 Teaching English to Adolescents and Adults (3 Cr)

This course describes the different learning styles that adolescents and adults bring to learning English as a foreign language. The role of the teacher in the various stages of the teaching and learning process and in various learning contexts is examined. Information is presented regarding the planning and implementation of teaching methodologies that address the specific needs and interests of adolescent and adult learners of English as a foreign language. **Prerequisite/s: None**

TEFL 547 Testing and Evaluation in TEFL (3 Cr)

The emphasis of this course is on formal English proficiency testing, the improvement of English proficiency testing, and understanding of test results. The course provides an overview of formative and summative assessments in the English as a Foreign Language (EFL) classroom. Additionally, the course provides a summary of reliability and validity in tests and the stages of test development. **Prerequisite/s: None**

TEFL 562 Sociolinguistics for TEFL Practitioners (3 Cr)

This course serves to acquaint course participants with major figures and various elements of the field of sociolinguistics. Elements of Sociolinguistics which will be addressed in the course include relationships between languages/dialects, socioeconomic status, gender, ethnicity, and geography. Course participants will review the latest research in sociolinguistics and apply this research to their own teaching contexts in their respective countries. **Prerequisite/s: None**

TEFL 563 International Englishes: Historical Development and Usage (3 Cr)

This course investigates the historical development and usage of varieties of International English. The English language has the standing of the major international language. How English has developed, and arrived at that status, what are its current varieties, and what the future holds for international communication through this language are the major themes presented. Through analysis of online international news journals, students will compare how similar issues are presented differently, from a cultural and a technical writing perspective. The varieties of English throughout the world will be compared to local usage. Students will gain an appreciation of how language changes through cultural contact. **Prerequisite/s: None**

TEFL 567 Applied Linguistics for Teaching English as a Foreign Language (3 Cr)

This course is an introduction to the linguistics principles and terminology that inform English language learning methodology. This course will identify and apply the principles of English phonology, morphology, syntax, and semantics to an analysis of English language learner skills. There will be an emphasis on using linguistics as a tool for teaching English as a foreign language. The course will review possible problems encountered by students learning English as a foreign language. **Prerequisite/s: None**

TEFL 569 Methods of Teaching English as a Foreign Language (3 Cr)

Course description: Methods of teaching English as a foreign language considers the best methods to teach English as a global language. The course examines the use of methods in teaching the skills of speaking, reading and writing in the foreign language context. It presents students with the latest developments in the area of methodology, classroom techniques and dynamics. Furthermore, it is concerned with context-sensitive teaching, the role of the nonnative English speaking teacher, and the role of educational technology. A DVD based set of assignments is included, providing real classroom case studies as a basis for thought-provoking discussion and modeling. **Prerequisite/s: None**

TEFL 574 Computer Assisted Language Tests for Teaching English as a Foreign Language (3 Cr)

This course presents a critical review of research and practice that addresses controversial issues in computer assisted language tests (CALTs). Some of the issues reviewed in the course are whether CALTs are equivalent to paper and pencil-tests, whether CALTs can enhance test validity, and what impact CALTs might have on the learner. These issues are discussed at length from both theoretical and practical perspectives. A description of test-authoring software and an awareness of the advantages of such a system are explored. **Prerequisite/s: None**

TEFL 575 Structure of English (3 Cr)

This course is primarily designed to provide course participants with a survey of the major components of the structures of English and their grammatical functions. Course participants will review English grammar websites in order to determine their applicability to the TEFL classroom. **Prerequisite/s: None**

TSOL 500 Foundations of Bilingual Education (3 Cr)

This course provides a broad foundational basis for understanding the history and legal basis of bilingual education in the United States and in the NSU candidate's state of residence. Ethical, legal, historical, and linguistic aspects of second language education are explored. Florida students learn the basics of the Florida Consent Decree and explore its specific remedies. The course is not applicable towards the Florida add-on TESOL endorsement, but is required of all M.S. in TESOL degree candidates and Nevada bilingual endorsement programs. **Prerequisite/s: None**

TSOL 510 Classroom TESOL, Theory and Strategies for Teachers (3 Cr)

This course presents an integrated view of TESOL for secondary classroom teachers and ICP candidates who are not majoring in TESOL. It provides a broad conceptual framework and many practical strategies for teachers to understand the potentials and hurdles of the LEP student in all classroom settings. It surveys the Office of Multicultural Student Language Education's twenty-five performance standards for Teachers of English for Speakers of Other Languages, and reviews some of the latest research written by experts in the field. This course is required of all approved program education majors including Secondary English Education, Elementary Education, PreK Primary Education, Exceptional Student Education, and Reading, who are seeking initial certification. It may be used to fulfill the Category II teacher ESOL requirement. **Prerequisite/s: None**

TSOL 515 Curriculum Development for TESOL (3 Cr)

This course is an introduction to curriculum development for ESOL teachers. It includes a general overview of curriculum design, the basics of second language curricular needs and how to adapt the content curriculum for ELL students, with emphasis on integrating language and content by means of thematic units. Different types of ESOL programs and plans will be studied. Students will also learn how to evaluate and adapt materials for ELL students. This is a required course for the M.S. degree in TESOL and for the Nevada and Florida add-on ESOL Endorsement. **Prerequisite/s: None**

TSOL 520 Second Language Learning: Theory, Methods, and Evaluation (3 Cr)

TSOL 520 is required by all ICP candidates enrolled in an approved Florida ESOL infused program. The course also fulfills the Nevada bilingual endorsement requirement for acquisition of theories of second language acquisition. It focuses on second language development, covering language learning theories, methods, and assessment strategies in the field. Current and classic language learning theories are analyzed and applied. The SIOP lesson model is thoroughly explained and used. The student is expected to be able to locate and use research and resources in ESOL methods and assessment. **Prerequisite/s: None**

TSOL 525 Teaching Reading and Literacy Development in Spanish (3 Cr)

This course offers students an in-depth analysis of methods and approaches to teach reading in the Spanish language. Students will analyze various techniques used in the bilingual classroom in order to teach children strategies to foster literacy and writing development in Spanish. The course will engage students in the selection of age-appropriate classroom materials, curricular planning and appropriate field experiences. This course fulfills the requirement for the M.S. degree in TESOL and a TSOL endorsement to meet Nevada State bilingual certification. **Prerequisite/s: None**

TSOL 547 Testing and Evaluation in TESOL (3 Cr)

This course is written for those who are working with English language learners (ELL) s in elementary and secondary schools, and in sheltered and mainstreamed English for Speakers of Other Languages (ESOL) programs. This course will help ESOL educators to recognize the progress ELL students make, and to identify ways of documenting that growth. Sound evaluations assume the need for substantial assessment skills on the part of the evaluator to deal effectively with a wide range of issues that arise. **Prerequisite/s: None**

TSOL 562 Cultural and Cross-Cultural Studies (3 Cr)

The course examines cultural factors that may influence learning. The course focuses on concepts of culture and cultural issues as they are viewed by different theoretical perspectives. It builds a greater awareness of the role culture plays in defining who we are. The course encourages teachers to apply this knowledge to make practical changes in the classroom so that it will facilitate better learning. This course is required for a M.S. in TESOL and for the Florida and Nevada add-on ESOL Endorsement. **Prerequisite/s: None**

TSOL 567 Applied Linguistics (3 Cr)

This course provides an introduction to the linguistic principles and terminology that inform English Language Learning (ELL) methodology. Students will analyze phonological, morphological, syntactical, and lexical aspects of the ELL student. Emphasis will be on first and second language acquisition. Students will gain insight and understanding about linguistic issues and stay current with important linguistic research. This is a required course for the M.S. degree in TESOL and for the Florida and Nevada add-on ESOL Endorsement. **Prerequisite/s: None**

TSOL 569 Methodology of TESOL (3 Cr)

A survey of approaches, methods, techniques, and procedures for teaching English to non-native speakers in grades K-12. This is a required course for the M.S. degree in TESOL and for the Florida and Nevada add-on ESOL Endorsement. **Prerequisite/s: None**

TSOL 575 Critical Issues in TESOL (3 Cr)

This course offers an in-depth analysis of a wide range of issues affecting the programs and teaching of ESOL. Issues such as linguistics, foreign language teaching, second language acquisition, the teaching of phonics, educational politics, and multicultural education are analyzed and discussed with the help of current textbook and online reading assignments. Students are expected to examine the various sides of each issue and to form and support their own viewpoints. This course is required for the M.S. in TESOL degree. **Prerequisite/s: None**

TSOL 580 Dual Language Classrooms: Teaching Math, Science, and Social Studies to Speakers of Other Languages (3 Cr)

This course covers various aspects of teaching English language learners (ELLs) in order to determine what conditions can enhance their achievement in math, science, and social studies. It provides an exploration of advanced methods of teaching ELLs in the content areas, integrating all language production and reception skills within a content/theme-based pedagogical framework. Key issues in content area teaching and learning will be explored with the goal of identifying specific concepts, components, and strategies for optimum subject area instruction in ESOL and bilingual classroom settings. This course fulfills the Nevada bilingual

endorsement requirement for methods of teaching math, science, and social studies in the native language. **Prerequisite/s: None**

TSOL 699 Applied Professional Experience in TESOL (3 Cr)

This course will require graduate students to document applied professional experience with students whose first language is not English in a K-14 educational setting. Graduate students will maintain a reflective journal, develop an evaluative portfolio of one students' work, use and evaluate multiple assessment instruments, and demonstrate application of the state professional and content standards. **Prerequisite/s: 24 credits, including CUR 526**

URBE 500 Public Education in an Urban Setting (3 Cr)

This course provides an overview of urban education trends. Emphasis is placed on the investigation of historical, social, and cultural perspectives and their influence in the urban education setting. Throughout the course, teachers are engaged in identifying community resources and developing effective classroom-based strategies and interventions for assisting urban students. **Prerequisite/s: None**

URBE 501 Classroom Management in Urban Schools (3 Cr)

This course provides an examination of causal factors that frequently influence the academic and behavioral performance of urban students. In addition, classroom interventions to minimize these challenges are identified. Effective teaching practices, addressing individual needs within the urban education classroom, are emphasized throughout the course. **Prerequisite/s: URBE 500**

URBE 502 Instructional Methods in Mathematics in Urban Schools (3 Cr)

This course provides the opportunity to explore current methods for teaching mathematics in the urban school setting. The identification of appropriate course content, instructional delivery, and assessment techniques for use with diverse students in the regular classroom setting is emphasized throughout the course. **Prerequisite/s: URBE 500**

URBE 503 Instructional Methods in Science in Urban Schools (3 Cr)

This course provides the opportunity to explore current methods for teaching science in the urban school setting. The identification of appropriate course content, instructional delivery, and assessment techniques for use with diverse students in the regular classroom setting is emphasized throughout the course. **Prerequisite/s: URBE 500**

URBE 504 Instructional Methods in Literacy in Urban Schools (3 Cr)

This course provides topics in literacy designed to explore and support the findings of the National Reading Panel Report to guide and improve literacy instruction in the urban school setting. The identification of instructional strategies, based upon a balanced literacy framework and intended for use with diverse students in the regular classroom setting, is emphasized throughout the course. **Prerequisite/s: URBE 500**

URBE 505 Parental and Community Involvement in Urban Schools (3 Cr)

This course provides opportunities for educators to examine the distinctive role of parents and guardians within the educational process. An understanding of the need for strong home-school-community connections and committed parental involvement for the benefit of diverse urban students is promoted throughout the course. **Prerequisite/s: URBE 500**

URBE 506 Standards, Curriculum, and Assessment in Urban Schools (3 Cr)

This course provides an overview of national, state, and local performance standards, curriculum, and assessment practices. The course is designed to help teachers gain knowledge and skills concerning the relationships between performance standards, curriculum, and assessment for the benefit of diverse urban students. **Prerequisite/s: URBE 500**

URBE 507 Integration of Technology in Urban Schools (3 Cr)

This course provides an overview of the use of technology, including software and electronic media, as an integral component of educational practice. The course is designed to help teachers gain knowledge and skills concerning the methods, materials, techniques, and strategies of incorporating technology as an instructional tool for the benefit of diverse urban students. **Prerequisite/s: URBE 500**

URBE 508 Instructional Methods for the Social Studies in Urban Schools (3 Cr)

This course provides the opportunity to explore current methods for teaching the social studies in the urban school setting. The identification of appropriate course content, instructional delivery, and assessment techniques for use with diverse students in the regular classroom setting is emphasized throughout the course. **Prerequisite/s: URBE 500**

URBE 699 Applied Professional Experience in Urban Education (3 Cr)

This course will require graduate students to complete applied professional experiences in K-12 urban school settings. Graduate students will maintain a reflective journal and create a folder that includes samples of pupils' work and the assessment instruments they used to demonstrate achievement of professional and state standards. **Prerequisite/s: 24 credits, including CUR 526**

Educational Specialist Programs

Educational Specialist

The Educational Specialist degree (Ed.S.) offers the professional educator both a challenging and rewarding educational experience. Through the numerous specializations offered at the Ed.S. level, current educators can add certification/licensure areas and endorsements, renew current certification/licensure areas, and increase their levels of expertise within their fields. The curriculum focuses on growth in professional practice, application of current research and theory to each student's professional work, acquisition and enhancement of leadership capacities, and the achievement of career objectives. Technological advancement will continue to impact the program, enabling our students to obtain their degrees in new and exciting ways, and from virtually any location.

The Ed.S. offers individuals with a master's degree various opportunities to meet their educational, career, and professional goals. All education programs share a common instructional system and mission, but they are designed to meet different needs. The program goals are to prepare educators to meet the challenges of their profession and to reinforce the importance of their role in rapidly changing political, economic, and social environments.

Important Note: All applicants must register for EDU 5000: Orientation to the Graduate Teacher Education Program during their first session/term. The orientation is a requirement for all students.

Educational Specialist Mission Statement

The mission of the Ed.S. is to offer individuals with a master's degree various opportunities to meet their educational, career, and professional goals, as well as state certification needs. All education programs share a common instructional system and mission, but they are designed to meet different needs. The program goals are to prepare educators to meet the challenges of their profession and to reinforce the importance of their role as informed decision-makers in rapidly changing political, economic, and social environments.

Choosing the Degree Plan that Meets Your Career Goals

Many options will be seen in this catalog. The following serves as a guide to help applicants select the correct plan to meet their personal and professional career goals.

Initial Certification Plans (State-Approved Programs)

The Initial Certification Plans are designed for individuals with baccalaureate degrees, in fields other than education, who wish to earn teacher certification/licensure AND a graduate degree at the same time by completing a state-approved program. Many states require completion of a "state-approved program" before they grant a teaching certificate/license.

Add-On Certification Degree Plan (State-Approved Programs)

These state-approved programs are designed for individuals who already possess a baccalaureate or graduate degree in education and who wish to obtain a graduate degree, AND add another subject area, or increase their level of expertise in their current field. Many states require completion of a "state-approved program" before they will grant a teaching certificate/license.

Degree Only Plan

This is NOT a state-approved program. The degree only plan is designed for individuals with a baccalaureate degree who wish to pursue a graduate degree in education. To qualify for an additional teaching area or endorsement, prospective students must confer with their state department of education.

Important Note: Before choosing a degree program, applicants are strongly encouraged to contact their state department of education, teacher certification/licensure office for specific certification requirements for the state where they intend to teach.

Admission Requirements

The following are specific admission requirements for entry into The Ed.S. program. Please refer to the *General Student Information* section in this catalog for additional requirements.

- a. Official transcripts from a regionally accredited institution indicating a conferred master's degree, and official final transcripts from all institutions of higher education (community colleges, bachelor's programs, graduate programs).
- b. Evidence of a cumulative grade point average (CGPA) of a 3.0 is required.
- c. Applicants to the Nevada state approved program in Educational Leadership must provide evidence of a temporary or professional teaching certificate/license and an employment verification letter demonstrating at least two years of teaching experience.

Admission Requirements for Initial Certification, Initial Licensure, and Approved Program Applicants

1. The Florida Department of Education requires passing scores on the CLAST (passed before July 1, 2002), or GKT, or GRE scores of 1000 (combined Verbal and Quantitative scales only) **for tests taken prior to August 1, 2011** or GRE scores of 300 (combined Verbal and Quantitative scales only) **for tests taken on or after August 1, 2011**, or Praxis I as a requirement for admission to Initial Certification Plans and State-Approved teacher education programs.
2. The Nevada Department of Education requires passing scores on Praxis I or CBEST as a requirement for admission to Initial Certification Plans and State-Approved teacher education programs.

Program Learning Outcomes

The Educational Specialist program aims to impart the following skills, which were identified as critical to being a knowledgeable and effective educator in a rapidly changing school environment:

1. The ability to use research, assessment data, and research methodology in decision making for school change.
2. The ability to understand and be able to implement multiple instructional designs to support the learning needs of a diverse student population.
3. Competencies to evaluate strategies of teaching and learning that ensure the success of all students.
4. Proficiency in using advanced technology to deliver best practices in instruction.
5. The ability to identify, analyze, and apply professional literature and research.

Transfer of Credit

A maximum of nine semester hours of graduate credits in teacher education will be considered. Please refer to the *General Student Information* section of the catalog for further information.

No transfer of credit will be allowed for the following courses:

- EDU 5000—Orientation to the Graduate Teacher Education Program
- Core course—EDU 708
- Capstone—Administrative Internship, Applied Field Experience Selections, Applied Professional Experience, Arts Leadership Institute, Educational Applied Research Project, Field-Based Project, Supervised Reading Practicum.

Program Completion Timeline

Master's and Educational Specialist students are allotted six years from the initial term of enrollment in which to complete all program/degree requirements. Students unable to complete all program/degree requirements within this six-year timeframe will be subject to dismissal. For exceptions and further information on the Educational Specialist Program Completion Timeline policy please refer to the Student Handbook section of the catalog.

Testing Requirements

Testing requirements must be satisfied prior to the conferral of the student's degree. Students are responsible for submitting official passing test scores to the Office of Student Services prior to conferral and for commencement participation eligibility. The information below is specific for those states where approved programs are offered.

Initial Certification Plan. Prior to the completion of the state-approved program, Florida preservice educators must pass the Professional Education (PED) Examination and the appropriate Subject Area Exam (SAE). Degrees will not be conferred until all testing requirements are fulfilled and the necessary level of skill mastery has been successfully documented through the portfolio review process. Completion of Initial Certification plans of study requires passing scores on all sections of the Florida Teacher Certification Exam (FTCE).

State-Approved Programs. Completion of a Florida-approved program requires the passing of all sections of the appropriate Subject Area Exam (SAE). Degrees will not be conferred until all testing requirements are fulfilled and the necessary level of skill mastery has been successfully documented through the portfolio review process. Completion of a state-approved program requires passing scores on all sections of the Florida Teacher Certification Exam (FTCE).

State-Approved Educational Leadership. Completion of the Florida-approved program in Educational Leadership requires the passing of all sections of the Florida Educational Leadership Examination (FELE).

Nevada

Initial licensure seeking students in Nevada are required to pass the Praxis I (Pre-Professional Skills Test, PPST) or CBEST (California Basic Educational Skills Test). In addition, depending upon the specialization and license desired, Nevada students are required to pass the Praxis II (Subject Assessments) of subject area skills. Students are advised to confer with an Academic Advisor or local site personnel about the appropriate subtests. Students are also advised to contact the Nevada Department of Education's Teacher Licensing Office (<http://nvteachers.doe.nv.gov/>) with other

questions on licensure.

Graduation Requirements

Please refer to Graduation in the *General Student Information* section of the catalog to find degree completion requirements. Any specific program completion requirements can be located within the specialization, or contact an Academic Advisor.

To complete the Ed.S. in Education program a student must:

- Successfully complete EDU 5000:Graduate Teacher Education Program Orientation,
- complete all required coursework ,
- attain an overall 3.0 GPA,
- complete a capstone project (e.g., Applied Professional Experience, Internship, Practicum),
- complete all state testing requirements a specified for your program specialization(contact an Academic Advisor),
- submit a degree application form and payment of diploma fee, and
- fulfill all financial obligations to the university.

All students must submit a Degree Application <http://www.nova.edu/registrar/instructions.html>

Important Note: Once a degree is conferred, it cannot be retroactively changed to another degree plan for any reason. Before choosing a degree program, applicants are strongly encouraged to contact their state department of education, teacher certification/licensure office for specific certification requirements for the state where they intend to teach.

Programs of Study

The chart below is intended as a guide to help students choose a program that will satisfy their academic or professional goals. Students who are not seeking certification or licensure may take any of the Ed.S. programs as non-certification programs, as long as they meet general FSE admission requirements.

Specialization Area Educational Specialist	Florida State Approved Certification Program	Nevada State Approved Licensure Program	Non- Certification Program
Brain-Based Teaching Teacher Leadership			X
Computer Science Education	X		X
Curriculum and Teaching			X
Curriculum, Instruction, Management and Administration			X
Early Literacy and Reading			X
Educational Leadership	X	X

Elementary Education			X
English Education			X
Gifted Education			X
Mathematics			X
Reading Education			X
Reading Specialist Endorsement		X	
Science Education			X
Technology, Management, and Administration			X
TESOL			X

The following are sample curricula for each of the FSE Ed.S. specialization areas. The outlines do not necessarily reflect the recommended course sequence and outlines are subject to change. The course names listed within the outlines may be abbreviated. Please consult an Academic Advisor for most updated curriculum information. Program prerequisites are monitored through Student Services and may not be reflected in the following outlines.

Educational Specialist with a Major in Brain-Based Teaching Program (Major Code F558)

The Brain-Based Teaching program is designed for teacher leaders, educators in all disciplines, district administrators, and school personnel who have already earned their master's degree and want to move their teacher leadership skills to the next level while improving curriculum and instruction in schools and classrooms. The program focuses on empowering teacher leaders with a practical framework and strategies for enhancing student achievement grounded in a synergy of education, mind, and brain research. Students will explore how educators can help their own students as well as other educators using what is known about neuroplasticity, how learning changes the physical structure of the brain and methodologies for differentiating instruction in ways that help diverse learners fulfill their unique potential. A central focus is on teaching the cognitive and metacognitive skills essential for career and college success in the 21st Century. Program objectives are aligned with state and national accomplished teaching standards. Graduates of the Brain-Based Teaching program will earn an Ed.S. with a major in Brain-Based Teaching. **The Brain-Based Teaching program is not a certification/licensure program.**

Students typically complete the program in 12 months of study, however, students are allowed up to 6 years in which to complete all degree and program requirements. Please refer to the *Ed.S. in Education* section of the catalog for the *Program Completion Timeline*.

Program Learning Outcomes

This program aims to impart the following skills:

1. Demonstrate an understanding of how the human brain functions within the context of instructional leadership.
2. Understand and evaluate what current research suggests are the keys to increasing student learning and achievement.
3. Create a deeper understanding of how mental models govern what educators think and do within the school environment.
4. Construct a practical framework for teacher leadership with the goal of improving student learning in schools through differentiated instruction.
5. Analyze current trends and innovations in the areas of curriculum, research, human development, evaluation and assessment.
6. Create and evaluate a plan for systemic change in a school or school system.

Program Admission Requirements

The following are specific admission requirements for entry into the Ed.S. Brain-Based Teaching with a Concentration in Teacher Leadership program. Please see General Admission Requirements for additional admission information.

- An official transcript from a regionally accredited institution indicating a conferred master's and official final transcripts from all institutions of higher education (community colleges, bachelor's programs, graduate programs).

Transfer of Credit

Transfer of credit is not accepted in the Ed.S. with a Major in Brain-Based Teaching. Please see Transfer of Credit in the *General Student Information* section of the catalog for further information.

Graduation Requirements

Please refer to the *General Student Information* and *Educational Specialist* sections of the catalog to find all degree completion requirements.

Additional graduation requirements for the Brain-Based Teaching program:

- Completion of the Teacher Leadership Institute: Action Research Project
- Program Portfolio

All students must submit a *Degree Application* <http://www.nova.edu/registrar/instructions.html>

Program of Study – Teacher Leadership (Concentration Code F811)

EDUB 730:	The Neurobiology of BrainSMART Instructional Leadership (6 credits)	EDUB 714:	Families, Schools, and Communities: Ethical Issues and Practices (3 credits)

Educational Specialist Programs of Study

Specialization: Computer Science Education Noncertification Track (Major Code F541)

About the Specialization

The Ed.S. with a specialization in Computer Science Education focuses on training educators in the area of technology and learning. This specialization provides educators with the skills to design computer science learning facilities and incorporate technology into instruction. Course content is research-based and infuses best practices in education.

Additional Admission Requirements

Master's degree in Computer Science or Certification in Computer Science Education

Program of Study

EDU 5000:	Orientation to the Graduate Teacher Education Program (0 credit)	CSE 760:	Computer Science Education and Distance Learning (3 credits)

Specialization: Computer Science Education Certification: State Approved Florida – Initial Certification Plan (Major Code A541)

About the Specialization

The Ed.S. in Education with a specialization in Computer Science Education leading to initial certification for teachers in Florida focuses on preparing non-educators to enter the classroom, while emphasizing the teaching of computer science. This specialization provides future educators with a foundation in classroom management, curriculum development, and methods of teaching, as well as skills for instructing students in the areas of technology applications, programming, networking, and data structures. Course content is research-based and infuses best practices in education, while aligning directly with the Florida Department of Education's certification requirements for computer science education.

Additional Admission Requirements

- Provide Passing Scores on **all** subtests for:
- CLAST (if taken prior to July, 1, 2002), **or**
- PRAXIS I, **or**
- General Knowledge Test (GK), **or**
- GRE score of 300 (combined verbal and quantitative scales only).

Program of Study

Additional Graduation Requirements

Florida Teacher Certification Examinations (FTCE) – Passing scores on the following areas:

- Professional Education Test (PEd)
- General Knowledge Test (GK) **or** CLAST (if taken prior to July 1, of 2002)
- Subject Area Exam (SAE) in Computer Science Education K-12

Specialization: Computer Science Education

Certification: State Approved – Florida (Major Code A541)

About the Specialization

The Ed.S. in Education with a specialization in Computer Science Education is a state-approved program in Florida for add-on certification for teachers. It focuses on the area of computer instruction with an emphasis on programming. This specialization provides educators with the skills to create curriculum and instruct students in the areas of technology applications, programming, networking, and data structures. Course content is research-based and infuses best practices in education, while aligning directly with the Florida Department of Education's program certification requirements.

Additional Admission Requirements

- Valid Teaching Certificate:** Temporary or Professional
- If entering with Temporary Teaching Certificate**, please provide:
 - Passing CLAST subtests scores (if taken prior to July 1, 2002), **or**
 - General Knowledge Test (GKT), **or**
 - GRE score of 300 (combined verbal and quantitative scales only).

Additional Graduation Requirements

Students with a Temporary Teaching Certificate must provide:

Florida Teacher Certification Examinations (FTCE) – Passing scores on the following areas:

- Professional Education Test (PEd)
- General Knowledge Test (GKT) **or** CLAST (if taken prior to July 1, of 2002)
- Subject Area Exam (SAE) in Computer Science Education K-12
- Evidence of student teaching experience or have a minimum of one (1) year of full-time teaching experience in a K-12 school.

Students with a Professional Teaching Certificate must provide:

Florida Teacher Certification Examinations (FTCE) – Passing scores on the following area:

Subject Area Exam (SAE) in Computer Science Education K-12

Specialization: Curriculum and Teaching

Noncertification Track (Major Code F540)

About the Specialization

The Ed.S. with a specialization in Curriculum and Teaching focuses on extending the preparation of educators to include the areas of curriculum design and instruction. This specialization provides educators with the skills to blend learning theories and curriculum design to enhance student achievement. Course content is research-based and infuses best practices in education.

Specialization: Educational Leadership Certification: State Approved – Florida (Major Code A534)

About the Specialization

The Ed.S. with a specialization in Educational Leadership is a state-approved program in Florida for add-on certification for teachers. It focuses on preparing prekindergarten through 12th-grade teachers for administrative positions in public and nonpublic schools and school systems. This specialization provides educators with leadership skills through practical application and provides broad knowledge of social, political, and economic forces at work in society that affect education. Course content is research based and infuses best practices in education, while aligning directly with the Florida Department of Education's program certification requirements.

Program of Study

		Total Credits Required for Degree Completion 36	

Additional Graduation Requirements

Students must successfully complete all areas of the Florida Educational Leadership Exam (FELE).

Specialization: Educational Leadership

Certification: State Approved – Nevada (Administrative) (Major Code A534)

About the Specialization

The Ed.S. with a specialization in Educational Leadership is a state-approved program in Nevada for add-on licensure for teachers. It focuses on preparing prekindergarten through 12th-grade teachers for administrative positions in public and nonpublic schools and school systems. This specialization provides educators with leadership skills through practical application and provides broad knowledge of social, political, and economic forces at work in society that affect education. Course content is research-based and infuses best practices in education, while aligning directly with the Nevada Department of Education's educational leadership licensure requirements.

Additional Admission Requirements

Valid Nevada Permanent Teaching License or Valid Professional Teaching License/Certificate

Program of Study

- b. General Knowledge Test (GKT) **or** CLAST (if taken prior to July 1, of 2002)
- c. Subject Area Exam (SAE) in Educational Media Specialist K-12

Specialization: Educational Media**Certification: State Approved – Florida** (Major Code A543)**About the Specialization**

The Ed.S. in Education with a specialization in Educational Media is a state-approved program in Florida for add-on certification for school library media specialists. It focuses on the area of school library media programs. This specialization provides educators with skills in development, organization, and management of school library media collections and programs, technology in school library and media centers, and age-appropriate media. Course content is research-based and infuses best practices in education, while aligning directly with the Florida Department of Education's educational media certification requirements.

Additional Admission Requirements

1. **Valid Teaching Certificate:** Temporary or Professional
2. **If entering with Temporary Teaching Certificate,** please provide:
 - Passing CLAST scores (if taken prior to July 1, 2002), **or**
 - General Knowledge Test (GKT), **or**
 - GRE score of 300 (combined verbal and quantitative scales only).

Program of Study

EDU 5000:	Orientation to the Graduate Teacher Education Program (0 credit)	EM 737:	Media for Young Adults (3 credits)
EM 705:	Design and Production of Educational Media (3 credits)	EM 765:	Computers in School Library Media Centers (3 credits)
EDU 600:	Accomplished Practices Seminar (0.5 credit)	EM 722:	Instructional Role of the School Library Media Specialist (3 credits)
EM 701:	Learning Literacies and Assessment in School Library Media Programs (3 credits)	EM 799:	Applied Professional Experience in Educational Media (3 credits)
EDU 708:	Research and Design in Education (3 credits)	EM 715:	Reference and Information Services (3 credits)
EM 725:	School Library Media Collection Development (3 credits)	EM 742:	Organization of School Library Media Collections (3 credits)
EM 712:	Media for Children (3 credits)	EDU 620:	Teacher Education Simulation (0.5 credit)
EM 732:	Management of School Library Media Programs (3 credits)		Total Credits Required for Degree Completion 37

Additional Graduation Requirements

Students with a Temporary Teaching Certificate must provide:

Florida Teacher Certification Examinations (FTCE) – Passing scores on the following areas:

- Professional Education Test (PED)
- General Knowledge Test (GKT) or CLAST (if taken prior to July 1, of 2002)
- Subject Area Exam (SAE) in Educational Media Specialist K-12
- Evidence of student teaching experience or have a minimum of one (1) year of full-time teaching experience in a K-12 school.

Students with a Professional Teaching Certificate must provide:

Florida Teacher Certification Examinations (FTCE) – Passing scores on the following area:

Subject Area Exam (SAE) in Educational Media Specialist K-12

Specialization: Elementary Education

Noncertification Track (Major Code F511)

About the Specialization

The Ed.S. with a specialization in Elementary Education focuses on training educators in the area of kindergarten through grade six instruction. This specialization provides educators with advanced knowledge for teaching critical thinking, creativity, and multiple subject areas in the elementary classroom. Course content is research-based and infuses best practices in education.

Program of Study

EDU 5000:	Orientation to the Graduate Teacher Education Program (0 credit)	ELE 712:	Mathematical Reasoning and Problem Solving in the Elementary Classroom (3 credits)
EDU 708:	Research Design in Education (3 credits)	ELE 715:	Critical Thinking in the Elementary Classroom (3 credits)
EDU 702:	Curriculum Trends and Innovations (3 credits)	ELE 714:	Teaching for Multicultural Understanding in the Elementary Social Studies Classroom (3 credits)
EDU 714:	Families, Schools, and Communities (3 credits)	ELE 711:	Literacy: Theory and Practice in the Elementary Classroom (3 credits)
EDU 719:	Current Research in Human Development (3 credits)	ELE 713:	Scientific Inquiry and Discovery in the Elementary Classroom (3 credits)
EDU 729:	Evaluation and Assessment Practices (3 credits)	ELE 716:	Creative Thinking in the Elementary Classroom (3 credits)
APR 750:	Educational Field-Based Project (3 credits)		Total Credits Required for Degree Completion 36

Specialization: English Education

Noncertification Track (Major Code F652)

About the Specialization

The Ed.S. with a specialization in English Education focuses on training educators in the areas of writing and literature. This specialization provides educators with advanced contemporary knowledge in both oral and written communication, as well as in-depth study of twentieth century literary authors. Course content is research-based and infused best practices in education.

Program of Study

EDU 5000:	Orientation to the Graduate Teacher Education Program (0 credit)	EDU 708:	Research Design in Education (3 credits)
-----------	------------------------------------------------------------------	----------	------------------------------------------

EDU 704:	Comparative Studies of Education Systems (3 credits)	ENG 765:	Theory and Practice in Teaching Global Literature (3 credits)

EDU 719:	Current Research in Human Development (3 credits)	ENG 745:	Literary Theory and English Language Arts Classrooms and Curricula (3 credits)
EDU 729:	Evaluation and Assessment Practices (3 credits)	ENG 755:	Arts and Media in English Language Arts Classrooms and Curricula (3 credits)
ENG 705:	Language and Linguistics in English Language Arts Classrooms and Curricula (3 credits)	**ENG 785:	Assessment, Integration, and Curriculum Design in Secondary English Language Arts (3 credits)
		APR 750:	Educational Field-Based Project (3 credits)

****Course in Development**

Total Credits Required for Degree Completion 36

**Specialization: Gifted Education
Noncertification Track** (Major Code F527)

About the Specialization

The Ed.S. with a specialization in Gifted Education focuses on preparing educators to develop and administer gifted education programs. This specialization provides educators with the skills to design curriculum, evaluate programs, and instruct gifted students, with an emphasis on developing critical thinking skills. Course content is research-based and infuses best practices in education.

Program of Study

EDU 5000:	Orientation to the Graduate Teacher Education Program (0 credit)	EDU 759:	Critical Thinking and Gifted Students (3 credits)
EDU 708:	Research Design in Education (3 credits)	EDU 761:	Independent Study for Research on Gifted Students in National and International Programs (3 credits)
EDU 702:	Curriculum Trends and Innovation (3 credits)	EDU 757:	Designing Curriculum for the Gifted: Focus on Culturally and Linguistically Different Students (3 credits)
EDU 714:	Families, Schools, and Communities (3 credits)	EDU 762:	Applied Research Project in Gifted Education (3 credits)
EDU 719:	Current Research in Human Development (3 credits)	EDU 760:	Gifted Students in the Regular Classroom (3 credits)
EDU 729:	Evaluation and Assessment Practices (3 credits)	APR 750:	Educational Field-Based Project (3 credits)
EDU 756:	Administration of Gifted Programs (3 credits)		

Total Credits Required for Degree Completion 36

**Specialization: Mathematics Education
Noncertification Track** (Major Code F653)

About the Specialization

The Ed.S. with a specialization in Mathematics Education focuses on training educators to develop and administer mathematics programs in k-12 schools, as well as in the areas of middle and secondary school mathematics. This specialization provides educators with skills for assessment, curriculum development, grant writing, and teaching subject areas such as geometry, algebra, and calculus. Course content is research-based and infuses best practices in education.

Program of Study

EDU 5000:	Orientation to the Graduate Teacher Education Program (0 credit)	MAT 701:	Creative Geometry for the Classroom (3 credits)
EDU 708:	Research Design in Education (3 credits)	EDU 702:	Curriculum Trends and Innovation (3 credits)
EDU 719:	Current Research in Human Development (3 credits)	EDU 714:	Families, Schools, and Communities (3 credits)
EDU 729:	Evaluation and Assessment Practices (3 credits)	MAT 700:	Incorporating Calculus Ideas (3 credits)
MAT 704:	Algebra for Teachers (3 credits)	MAT 702:	Probability and Statistics for the Educational Specialist (3 credits)
MAT 705:	Advanced Problem-Solving Strategies for Teachers (3 credits)	MAT 680:	The K-12 Mathematics Curriculum: Teaching, Learning, Assessment and Diversity (3 credits)
MAT 711:	How to Obtain Funding in Mathematics Through Grants and Sponsorship (3 credits)		

Total Credits Required for Degree Completion 36

Specialization: Reading Education
Noncertification Track (Major Code F513)

About the Specialization

The Ed.S. with a specialization in Reading Education focuses on training educators in the areas of research, reading disorders, and literacy issues for middle and high school grade levels. This specialization provides educators with the skills to develop curriculum and assess, evaluate, and instruct students in the area of reading. Course content is research-based and infuses best practices in education.

Program of Study

EDU 5000: Orientation to the Graduate Teacher Education Program (0 credit)
 EDU 708: Research Design in Education (3 credits)
 EDU 702: Curriculum Trends and Innovation (3 credits)
 EDU 714: Families, Schools, and Communities (3 credits)
 EDU 719: Current Research in Human Development (3 credits)
 EDU 729: Evaluation and Assessment Practices (3 credits)
 RED 730: Critical Issues in Reading (3 credits)
 RED 731: Interpreting Research in Reading Education (3 credits)
 RED 732: Reading Disorders: Diagnosis and Remediation (3 credits)
 RED 733: Academic Literacy Issues in Middle and Secondary Grades (3 credits)

RED 787: Educational Field-Based Project in Reading (3 credits)

Ed.S. students with no reading background take the following two reading courses:

RED 570: Foundations of Reading: Theory and Practice (3 credits)
 RED 575: Contemporary Foundations of Reading: Research Prospective (3 credits)

Choose two of the following courses:

LTRC 711: Assessment in the Early Literacy and Reading Classroom (3 credits)
 LTRC 716: Curriculum Approach and Prescriptive Instruction in Early Literacy Programs (3 credits)
 LTRC 722: Research in Oral and Written Language Development (3 credits)
 LTRC 735: Advanced Seminar in Children's Literature (3 credits)

Total Credits Required for Degree Completion 36

Specialization: Reading Education
Certification: State Approved – Nevada (Reading Specialist Endorsement) (Major Code A513)

About the Specialization

The Ed.S. with a specialization in Reading Education focuses on training educators in the areas of scientifically-based research, reading disorders, and literacy issues for middle and high school grade levels. This specialization provides educators with the skills to develop curriculum and assess, evaluate, and instruct students in the area of reading. Course content is research-based and infuses best practices in education.

Additional Admission Requirements

- A strong Reading Education background is highly recommended. The Reading Program faculty strongly encourages applicants without a Reading Education background to enroll in RED 570 and RED 575.
- Valid Nevada permanent teaching licence

Program of Study

EDU 5000: Orientation to the Graduate Teacher Education Program (0 credit)
 EDU 708: Research Design in Education (3 credits)
 EDU 702: Curriculum Trends and Innovation (3 credits)
 EDU 714: Families, Schools, and Communities (3 credits)
 EDU 719: Current Research in Human Development (3 credits)
 EDU 729: Evaluation and Assessment Practices (3 credits)
 RED 730: Critical Issues in Reading (3 credits)
 RED 731: Interpreting Research in Reading Education (3 credits)

RED 732: Reading Disorders: Diagnosis and Remediation (3 credits)
 RED 733: Academic Literacy Issues in Middle and Secondary Grades (3 credits)
 RED 787: Educational Field-Based Project in Reading (3 credits)
 LTRC 711: Assessment in the Literacy and Reading Classroom (3 credits)
 LTRC 722: Research in Oral and Written Language Development (3 credits)

Additional Optional Electives

RED 570: Foundations of Reading: Theory and Practice (3 credits)
 RED 575: Contemporary Foundations of Reading: Research Perspective (3 credits)

Total Credits Required for Degree Completion 36 (or 42 with Optional Electives)

Additional Graduation Requirements

Students must take and pass the Praxis II Reading Specialist (0204/5204): Minimum score 165

Specialization: Science Education
Noncertification Track (Major Code F656)

About the Specialization

The Ed.S. with a specialization in Science Education focuses on training educators in the areas of advanced secondary school sciences. This specialization provides educators with knowledge of multiple science areas, such as quantum physics, molecular biology, and meteorology and climatology, as well as skills to instruct students in this content area through a variety of learning techniques. Course content is research-based and infuses best practices in education.

Program of Study

EDU 5000:	Orientation to the Graduate Teacher Education Program (0 credit)	SCI 731:	Teaching Molecular Biology (3 credits)
EDU 708:	Research Design in Education (3 credits)	SCI 732:	Trends in Planetary Science Education (3 credits)
EDU 702:	Curriculum Trends and Innovation (3 credits)	SCI 733:	Teaching New Concepts in Deep Sea Exploration (3 credits)
EDU 714:	Families, Schools, and Communities (3 credits)	SCI 734:	Population Education and the Environment (3 credits)
EDU 719:	Current Research in Human Development (3 credits)	SCI 735:	Teaching Meteorology and Climatology (3 credits)
EDU 729:	Evaluation and Assessment Practices (3 credits)	APR 750:	Educational Field-Based Project (3 credits)
SCI 730:	Descriptive Quantum Physics for Teachers (3 credits)	Total Credits Required for Degree Completion 36	

Specialization: Teaching English to Speakers of Other Languages
Noncertification Track (Major Code F660)

About the Specialization

The Ed.S. with a specialization in Teaching English to Speakers of Other Languages focuses on training educators as experts on issues, trends, and policies of teaching English as a second language. This specialization provides educators with skills for assessment and evaluation, as well as an international scope of English language acquisition. Course content is research-based and infuses best practices in education.

Program of Study

EDU 5000:	Orientation to the Graduate Teacher Education Program (0 credit)	TSOL 710:	Language Learning and Teaching for Multi-lingual Classrooms of the 21st Century (3 credits)
EDU 708:	Research Design in Education (3 credits)	TSOL 720:	International and National Assessment and Evaluation of English Language Acquisition (3 credits)
EDU 704:	Comparative Studies of Education Systems (3 credits)	TSOL 730:	International and Comparative Education: Issues in Language and Literacy Policy (3 credits)
EDU 714:	Families, Schools, and Communities (3 credits)	TSOL 740:	International Englishes: History, Issues, and Teaching Trends (3 credits)
EDU 719:	Current Research in Human Development (3 credits)	TSOL 750:	Distance Education Technology for Teaching English as a New Language (3 credits)
EDU 729:	Evaluation and Assessment Practices (3 credits)	TSOL 760:	Literature Review in TESOL (3 credits)
APR 750:	Educational Field-Based Project (3 credits)	Total Credits Required for Degree Completion 36	

National Graduate Teacher Education Online Program (NGTE)

As a component of the Abraham S. Fischler School of Education within Nova Southeastern University, the National Graduate Teacher Education Online Program is dedicated to quality educational practice, fulfilling the needs of the learning community, and providing positive and meaningful adult learning experiences. The purpose of the National Graduate Teacher Education Online Program is to provide quality distance education through the use of research, guided activities, and practical experience to a diverse population of professional educators.

NGTE provides a virtual learning community that is consistent with the mission of Nova Southeastern University in providing educational programs of distinction at times and in locations convenient to the learner and promoting an atmosphere of creativity and innovation using technology where appropriate.

Nova Southeastern University is fully accredited by the Southern Association of Colleges and Schools (SACS). NGTE programs are aligned with appropriate national standards. Because our students come from many states as well as areas outside the United States, these programs are not developed in accordance with any particular state certification requirements.

NGTE program participants should contact their state department of education for guidance in obtaining certification or licensure, or contact their local school district for approval in fulfilling district-level incentive programs. Certification requirements vary by state and district. **Completion of an NGTE program of study does not guarantee certification.**

Program Learning Outcomes

Before the point of graduation, Educational Specialist students will provide evidence of:

1. Demonstration of the professional practices aligned with the Florida Educator Accomplished Practices / InTASC Core Standards at the preprofessional level.
2. The ability to use research, assessment data, and research methodology in decision making for school change.
3. The ability to understand and be able to implement multiple instructional designs to support the learning needs of a diverse student population.
4. Competencies to evaluate strategies of teaching and learning that ensure the success of all students.
5. Proficiency in using advanced technology to deliver best practices in instruction.

Students admitted to the NGTE Online Program are assigned to a cluster. Each cluster is comprised of a group of students from a variety of professional settings. Students in each cluster begin the program at the same time and progress through program components together. Students follow a clearly established program of study for the specialization and must comply with program requirements for degree candidacy and completion. Clusters sometimes form study groups that meet electronically between class sessions, seminars, and during online classes to discuss assignments and to facilitate student progress. Each cluster operates under the direction of a Field Associate. The Field Associate, who holds a doctorate in education or a related field, is a facilitator of many administrative details and cluster activities and serves to support students in their academic pursuits. Clusters begin Fall 1, Winter 1, or Summer 1 as enrollment demands. Students can complete their program in three terms. Each of these terms (Fall, Winter, and Summer) comprises two sessions: Fall 1 and 2, Winter 1 and 2, and Summer 1 and 2. Students take 2 courses per session. All NGTE courses follow the GTEP calendar.

How to Join a Cluster

For assignment to a cluster, online degree-seeking students must do the following:

1. Complete and submit the application for admission and application fee.
2. Upon admission, contact the Field Associate for their desired specialty area.
3. Register prior to the registration deadline of the term their assigned cluster is to begin.

Transfer of Credit

A maximum of nine semester hours of graduate credits in teacher education will be considered. Please refer to the General Student Information section of the catalog for further information.

No transfer of credit will be allowed for the following courses:

- EDU 5000—Orientation to the Graduate Teacher Education Program
- Core courses—NGTE 700 and NGTE 720

Graduation Requirements

Please refer to Graduation in the *General Student Information* and *Educational Specialist* sections of the catalog to find all degree completion requirements.

Program Completion Timeline

NGTE clusters are designed to allow students to complete their program requirements within a 12- to 14-month time frame. If students require a leave of absence, they will have to leave the cluster and rejoin another cluster when they are ready to return. Under such circumstances, NGTE allows students six years in which to complete all degree and program requirements. The beginning of the 6-year time frame for degree or program completion is the first term during which any

courses that are applied toward any degree or any certification program were taken, either as a nondegree-seeking student or as a degree-seeking student in another specialization. Students who are unable to complete all degree or program requirements within the maximum allotted time will be dismissed from the program.

Specialization Areas

Graduates of this program will earn an Educational Specialist (Ed.S.) degree in one of the following specialization areas:

- Curriculum/Instruction Management and Administration
- Technology Management and Administration

Programs of Study

The following are sample curricula for each of the NGTE Ed.S. specialization areas. The outlines reflect the required course sequence. **Students should register for the entire term (session 1 and 2) at the beginning of the registration period.** Outlines are subject to change. Students should contact their Field Associate for the most updated curriculum information. Program prerequisites are monitored through Student Services and may not be reflected in the following outlines.

Specialization: Curriculum, Instruction, Management, and Administration Noncertification Track (Major Code F519)

About the Specialization

The educational specialist with a specialization in Curriculum, Instruction, Management, and Administration focuses on training educators as effective educational and instructional leaders. This specialization provides educators with the skills to develop and evaluate curriculum and curricular programs, with an emphasis on district-level leadership. Course content is research-based and infuses best practices in education.

Program of Study

EDU 5000:	Orientation to the Graduate Teacher Education Program (0 credit)	NGTE 715:	Educational Diversity and Community (3 credits)
NGTE 700:	Educational Inquiry and Electronic Research Technologies (3 credits)	CIMA 712:	Management for Curriculum and Instruction (3 credits)
CIMA 702:	Curriculum and Instruction: Trends and Issues (3 credits)	CIMA 717:	Curricular Product Evaluation (3 credits)
NGTE 705:	Today's Educational Leader (3 credits)	GRA 710:	Grant Writing (3 credits)
NGTE 706:	Managing Change in the Educational Environment (3 credits)	CIMA 707:	Focus on the Future: Reconceptualizing Curriculum (3 credits)
		NGTE 720:	Seminar in Program Synthesis (3 credits)
			Total Credits Required for Degree Completion 30

Specialization: Technology Management and Administration Noncertification Track (Major Code F518)

About the Specialization

The educational specialist with a specialization in Technology Management and Administration focuses on training educators to effectively plan, manage, train, and integrate technology into educational settings. This specialization provides educators with the skills to select and implement school-wide or district-wide educational technology systems and distance learning programs. Course content is research-based and infuses best practices in education.

Program of Study

NGTE 706:	Managing Change in the Educational Environment (3 credits)	TMA 721:	Distance Education: Systems and Methods (3 credits)
		NGTE 720:	Seminar in Program Synthesis (3 credits)
			Total Credits Required for Degree Completion 30

Educational Specialist Degree Course Descriptions

APR 750 Educational Field-Based Project (3 Cr)

The Field-Based Project is intended to engage the students in a problem-solving experience designed to improve or enhance an education situation. This process is systematic and involves the participant in (a) submission of a structured proposal, (b) active intervention, and/or research, (c) evaluation of the implemented activities, and presentation a final report/product. **Prerequisite/s:** EDU 5000 and EDU 708.

CIMA 702 Curriculum and Instruction: Trends and Issues (3 Cr)

This course provides students the opportunity to explore and investigate current practices and emerging trends and issues in the field of curriculum and instruction. **Prerequisite/s:** None

CIMA 707 Reconceptualizing Curriculum (3 Cr)

This course provides students with the opportunity to research current best practices in curriculum design for traditional electronic and distance learning environments and the skills and knowledge to assess relevant products. **Prerequisite/s:** None

CIMA 712 Management for Curriculum and Instruction (3 Cr)

This course provides students with the skills and knowledge required to design and manage curricula resources and delivery to ensure congruence among the written, taught, and tested curricula. **Prerequisite/s:** None

CIMA 717 Curricular Product Evaluation (3 Cr)

This course provides students with the skills & knowledge required to examine, review, evaluate & select consistent and equitable instructional programs, materials, and products that support student achievement and institutional goals. **Prerequisite/s:** None

CSE 701 Managing Computer Resources for Teachers & Administrators (3 Cr)

This computer literacy course is designed for computer science education majors. Educational applications of technology and the use of hardware, software, and peripheral devices are emphasized. **Prerequisite/s:** None

CSE 705 Computing Applications for Teachers (3 Cr)

Computer science education majors will apply computer application programs in educational settings. An overview will be given of the wide variety of applications of computers for enhancing administrative and educational tasks to improve problem solving. **Prerequisite/s:** CSE 701

CSE 713 Methods of Teaching Computer Science K-12 (3 Cr)

Candidates will investigate instructional strategies for designing and teaching computer science courses in kindergarten through grade 12. Included in the course is a review of the instructional elements of computer science. A systematic design model will be used to develop a course curriculum plan. **Prerequisite/s:** CSE 701 and CSE 705, or CSE 710 CSE 725, CSE 732, CSE 735

CSE 714 Instructional Applications of Technology: Introduction to Programming Concepts (3 Cr)

Extending basic applications of computers will help candidates blend critical thinking skills and technology to improve the educational environment. This includes an investigation of artificial intelligence, the use of the computer as a control device, the Logo and Alice environments, and graphics. **Prerequisite/s:** CSE 701 and CSE 705

CSE 717 Web Applications for Computer Science Education (3 Cr)

Candidates will use current Web development software to create instructional and informational Web pages for PreK-12 classrooms and schools. Elements of Web page design and formatting that are appropriate for PreK-12 students, along with sources of Web utilities, will be emphasized. **Prerequisite/s:** CSE 701 and CSE 705

CSE 720 Current Research in Computer Science Education and Technology Systems (3 Cr)

Students will identify and survey current research topics, projects, and professional offerings in computing for educational purposes. Current use of instructional hardware, software, programming languages, methods, and projects in learning communities that cross curricular areas is emphasized. **Prerequisite/s:** None

CSE 725 Introduction to Structured Programming for Computer Science Educators (3 Cr)

Using the concepts of problem solving, critical thinking, and pseudocode, candidates will analyze assigned tasks and develop structured approaches to designing computer programs using the structured programming languages. **Prerequisites:** CSE 701 and CSE 705

CSE 730 Programming Languages for Instruction (3 Cr)

The comparison and evaluation of instructional strategies and programming languages that are used for instructional purposes are emphasized, with the focus being on the foundations of introductory, structured, and object-oriented approaches. At the completion of this course, candidates will demonstrate selection and instruction in languages that meet standards-based, curricular frameworks. **Prerequisite/s:** None

CSE 732 Introduction to Programming in C++ for Computer Science Educators (3 Cr)

This course introduces the C++ programming language. Candidates will apply problem solving and critical thinking skills to analyze assigned tasks and develop structured approaches to designing computer programs. AP Computer Science A test topics will be covered. **Prerequisite/s:** CSE 701 and CSE 705

CSE 735 Java for Computer Science Educators (3 Cr)

The Java programming language is used to introduce and reinforce problem-solving through modular and object-oriented programming and applications of programs in a Web-based environment. This course introduces graphical user interfaces (GUIs), event-driven programming using abstract window toolkits (AWTs), and the placement of Java code within an HTML-based Web page. **Prerequisite/s:** CSE 701 and CSE 705

CSE 738 Computer Science Learning Facilities Design and Maintenance (3 Cr)

Principles of facilities design and maintenance required in a computer science classroom or lab environment are introduced and surveyed. The process of identifying district, state, and federal requirements, including accommodations and assistive devices for students with disabilities and varying instructional levels, will be emphasized. **Prerequisite/s: None**

CSE 745 Networking in Computer Science Education Environments (3 Cr)

Basic networking theory and practice appropriate for the PreK-12 computer science lab or classroom are introduced. Resources to support computer networks are identified. **CSE 701 and CSE 705**

CSE 747 Data Structures for Computer Science Educators (3 Cr)

Candidates will develop skills in creating and testing programs to solve complex problems. Data abstraction and modularity are stressed. The following data structures will be used by students in the course: records, arrays, and pointers; singly and doubly linked lists; introduction to recursion, stacks, and queues; tree-structured data; sorting and searching techniques; and graphs. **Prerequisite/s: CSE 701, CSE 705 and CSE 732 or CSE 735**

CSE 760 Computer Science Education and Distance Learning (3 Cr)

Current delivery formats and platforms will be introduced to computer science educators who design, facilitate, or provide distance learning courses. A variety of tools that support distance learning are identified and evaluated. **Prerequisite/s: None**

CSE 765 Leadership in Computer Science Education (3 Cr)

The development of curriculum and professional trends that support strong computer science education programs are identified and evaluated. Policies, practices, standards, and statutes that impact computer science education and computing across the curriculum are compared and evaluated. Professional advancement opportunities in computer science education are emphasized. **Prerequisite/s: None**

CSE 770 Survey of Programming Languages for Computer Science Educators (3 Cr)

A review of instructional and emerging programming languages used in the computer science education curriculum is surveyed and reviewed. Benefits, comparisons, and selection of programming languages, based on educational goals and objectives and external requirements (advanced placement testing, certification, district curricula, workforce development, etc.), is emphasized. **Prerequisite/s: None**

CSE 799 Applied Professional Experience in Computer Science Education (3 Cr)

Candidates will apply professional experiences in Computer Science Education in PreK-12 computer labs and classrooms, reflect on activities, and collect samples of student work and assessments used to demonstrate achievement of professional and state standards. **Prerequisite/s: 24 credits, including CUR 526**

EDL 700 Problem Solving and Visionary Leadership (3 Cr)

Effective educational leaders need to be able to work with and through others. Through the activities in this course, the student will develop and apply various leadership, visionary, interpersonal, and supervisory skills. The development of these skills will enhance the students' ability to problem solve, interpret various types of data, and communicate information to diverse types of stakeholders. **Prerequisite/s: None**

EDL 702 Standards-Based Curriculum and Assessments (3 Cr)

Course description: This course addresses the need for educational leaders to position teaching and learning at the focal point of schools. It prepares students to make decisions about curriculum, addressing the need for improving student achievement. The course provides conceptual knowledge about standards, instruction strategies, and assessment, as well as reflection and practice in the analysis of the curricular processes such as unlocking standards, creating objectives, creating units, designing lessons, and assessing. The class gives students opportunities to align the curriculum, instruction, and assessment process to promote student performance. The course promotes the use of the William C. Golden School Leadership Development Program as a leadership tool for professional improvement. **Prerequisite/s: None**

EDL 705 Educational Budgeting and Finance (3 Cr)

Using acquired knowledge of historical and current school finance concepts and applicable state funding procedures for computation, accounting, auditing, and reporting, students will analyze the planning, development, implementation, and evaluation of a school budget. This course also provides an overview of the charter school movement. **Prerequisite/s: None**

EDL 710 Ethical School Leadership (3 Cr)

Student will explore and demonstrate knowledge of basic theories of leadership, change process, group dynamics, and motivation as applicable to the principalship. Planning techniques, responses to external forces, and a thorough conversance with the Florida Principal Competencies are also included. **Prerequisite/s: None**

EDL 720 School Law for Administrators (3 Cr)

Students will investigate the impact of school law on the rights of students and educators as guaranteed by the United States Constitution and will include federal and state statutes and regulations (state and federal statutory and regulatory provisions) as well as tort and contract liability as they influence public education. Students will explore federal and state regulations that present specific processes and procedures to be implemented by school administrators in working with parents, students, and educators. **Prerequisite/s: None**

EDL 725 Human Resources and Staff Development (3 Cr)

This course prepares prospective school administrators in the personnel components of the profession. From analysis of positions to recruitment, selection, induction, retention to termination current and past court cases are used to understand the historical and legal responsibilities of administrators in today's educational personnel climate. Readings, case studies, presentations, papers, field experience and group activities are the tools used to cover these topics. **Prerequisite/s: None**

EDL 730 Management of Schools (3 Cr)

Students will internalize the implications of the authority and total responsibility placed on school administrators. Emphasis will be placed on the students' ability to implement the components of a vision and mission statement, by evaluating a research-based program to improve student achievement. In addition, students will demonstrate their ability to distinguish between different leadership models. Further, students will display a thorough understanding of effective school management, information gathering, delegation, decision-

making strategies/models, ethical leadership, systematic planning, as well as community and stakeholder partnerships. **Prerequisite/s:** None

EDL 745 School Improvement Process (3 Cr)

This course addresses the need for educational leaders to focus on school improvement that promotes the success of all students. The course provides conceptual knowledge about school vision and school improvement processes. It also provides opportunity for reflection on the importance of assuring instructional focus, and the importance of the use of students' achievement data in the process of school improvement. **Prerequisite/s:** None

EDL 750 Technology for Educational Leaders (3 Cr)

This course constitutes an overview of the technology competencies appropriate for educational leaders. Educational leadership applications of technology are addressed with an emphasis on new and emerging hardware and software tools related to instruction and the management of a school. The major topics of the course are covered in a variety of learning activities: lecture, discussion, cooperative activities, hands-on computer activities, research, writing, scenarios, reflective thinking, analysis of technology plans, administrative policies and practices related to technology. Students are expected to have a basic level of computer literacy prior to beginning this course. **Prerequisite/s:** None

EDU 702 Curriculum Trends and Innovation (3 Cr)

This course focuses on the analysis of current educational practices, models and futuristic approaches. Emphasis is placed in the investigation of educational, curricular policies and techniques developed for a variety of settings (i.e., community schools, hospital-based instruction, distance education, homeschooling). Integration of technology and multimedia is also included. **Prerequisite/s:** None

EDU 704 Comparative Studies of Education Systems (3 Cr)

This course provides an overview of global education systems and seeks to engage students in the analysis of curriculum, teaching styles, multicultural issues, political implications, law-related issues, and evaluation methods. Students will use technological resources to research education systems throughout the world in order to compare the educational system of the United States with selected educational systems of the world. **Prerequisite/s:** None

EDU 708 Research and Design in Education (3 Cr)

This course provides an in-depth analysis of appropriate educational research methodologies. Attention is placed on the discussion of quantitative (i.e., experimental, correlational, survey) and qualitative (i.e., ethnographic, case study, historical) methodologies. Students will engage in the examination and selection of available instrumentation, appropriate analysis and interpretation of research findings. **Prerequisite/s:** None; **Co-requisite/s:** EDU 5000

EDU 714 Families, Schools, and Communities: Current Perspectives in a Diverse Society (3 Cr)

In this course students examine the roles, practices, and responsibilities of educators with families and communities from the perspective of multiculturalism and diversity. Ethical issues related to equity, services, advocacy, and professional behaviors of educators in multicultural settings are discussed. **Prerequisite/s:** None

EDU 719 Current Research in Human Development (3 Cr)

This course engages students in the analysis of theoretical positions and research in human development. Selected research findings from the different domains (social-emotional, cognitive, language, and biological) are examined. Emphasis is placed on the educational applications/implications of developmental research, e.g., brain research, learning styles, multiple intelligences, and neo-Piagetian studies. **Prerequisite/s:** None

EDU 721 Grantsmanship, Program Planning, and Evaluation (3 Cr)

This course covers funding sources, proposal writing, and the development of budgets and evaluation plans for small grants. The focus is on the skills needed by teachers and building administrators seeking both internal and external funding for special projects. **Prerequisite/s:** CUR 526.

EDU 722 Effective Teacher Behaviors (3 Cr)

The teacher is considered by many to be the most important variable that influences learning in the classroom. Teacher characteristics such as clarity, business-like behavior, teacher enthusiasm, and other teacher behaviors that influence students' attitudes and achievement will be studied in this course. Research studies on teacher characteristics will be analyzed to determine the validity of their design and outcome. Training protocols in these behaviors will be an important outcome of this course. This course will also provide an opportunity to reflect on the teaching profession from a philosophical and personal perspective. **Prerequisite/s:** None

EDU 723 Values, Ethics and Character Education (3 Cr)

This course will examine the role of character education in the classroom. Classical and contemporary moral theories will be examined. Strategies for interdisciplinary teaching will be emphasized. Students will learn how to design and implement programs that result in effective classroom learning environments. Current research about moral development, conflict resolution, ethics, and values will be integrated with practical knowledge enabling students to affect positive change in the school climate and school culture. **Prerequisite/s:** None

EDU 724 Critical and Creative Thinking Processes in the K-12 Classroom (3 Cr)

The purpose of EDU 724 is to enhance the pedagogical skills and practices of classroom teachers. Strategies for developing and applying thinking skills will be emphasized. Students will learn how to apply thinking skills to daily lesson plans in all curriculum areas. Approaches to thinking skills will be examined. **Prerequisite/s:** None

EDU 725 Models of Teaching and Curriculum Development (3 Cr)

Various models of teaching and curriculum development will be studied in this course as to their appropriate use in increasing students' capacity for personal growth, social growth, and academic learning. Students will explore multiple ways of constructing knowledge as they study and explore a variety of models of teaching that will enable them to enhance the learning environments for the students. **Prerequisite/s:** None

EDU 726 Issues in Curriculum and Teaching (3 Cr)

To ensure program consistency, all sections of each course in the Graduate Teacher Education Program, regardless of delivery format,

follow the same course requirements and content as listed in this syllabus that is provided by the Program Professor/Lead Faculty. The Instructor may add, but not delete, topics and activities based on best practices. **Prerequisite/s: None**

EDU 727 Curriculum, Teaching and Supervision: School Leadership Roles (3 Cr)

This course will assist educators in becoming skilled clinical supervisors. It provides the background and theories needed to understand supervision and its relationship to curriculum and instruction. Field assignments will provide opportunities to practice and receive feedback on conferences and observation techniques. **Prerequisite/s: None**

EDU 729 Evaluation and Assessment Practices (3 Cr)

The purpose of EDU 729 is to introduce elements of measurement and assessment essential to good teaching. The assessment of learning plays an important role in the instructional process and its effectiveness depends largely on the ability to construct and select tests and assessments that provide valid measures of learning outcomes. Areas addressed include educational testing and assessment, the role of measurement and assessment in teaching, instructional goals and objectives, validity and reliability, classroom tests and assessments, standardized tests, and interpreting test scores and norms. **Prerequisite/s: None**

EDU 756 Administration of Gifted Programs (3 Cr)

This course focuses on the organization and administration of gifted programs from preschool to grade 12. The role of the administrator in providing programs and improving instruction for gifted and talented students and the problem solving process in resolving unique issues in gifted programs is emphasized. **Prerequisite/s: None**

EDU 757 Designing Curriculum for the Gifted: Focus on Culturally and Linguistically Different Students (3 Cr)

This course focuses on designing curriculum based on the characteristics, behaviors, and needs of atypical gifted students. Emphasis is placed on analyzing and developing instructional strategies for the atypical gifted and integrating technology into the planning and design of curriculum that addresses the social, emotional and linguistic needs of this special population of students. **Prerequisite/s: None**

EDU 759 Critical Thinking and Gifted Students (3 Cr)

This course focuses on the research related to hemisphericity and its relationship to critical and creative thinking in the intellectually and creatively gifted. Emphasis is placed on the identification, analysis, and evaluation of teaching strategies that encourage critical thinking, creative thinking, and problem solving in gifted students from pre-school to grade 12. **Prerequisite/s: None**

EDU 760 Gifted Students in the Regular Classroom (3 Cr)

The content of this course includes discussions of issues and procedures related to the needs of intellectually and creatively gifted students in the regular classroom; analysis of curriculum methods, teaching strategies, materials, and evaluation techniques for use with gifted students in the regular classroom setting. **Prerequisite/s: None**

EDU 761 Independent Study for Research on Gifted Students in National and International Programs (3 Cr)

This course is designed to give opportunities for research and indepth theoretical readings in a substantive area of gifted education not normally covered within the standard courses. Research projects and advanced readings will vary according to individual interest. **Prerequisite/s: None**

EDU 762 Applied Research Project in Gifted Education (3 Cr)

This course provides the opportunity to explore a problem-oriented, individual research project under the direction and supervision of a graduate faculty member. **Prerequisite/s: None**

EDU 5000 Orientation to the Graduate Teacher Education Program (0 Cr)

This seminar provides an orientation to the program and technology skills necessary for successful participation in the M.S. and Ed.S. programs of the Fischler School of Education. Students will be introduced to university systems designed to provide support and services during the formal program of studies, i.e., academic advising, course materials and schedules, the portfolio process, Educator Accomplished Practices, etc. Students will also practice technology skills, i.e., using email, sending attachments, navigating the Internet to locate university Web sources, accessing library materials through the NSU Electronic Resources, using APA form and style, locating and using program Web sites, and using the online course management system. The seminar also provides students an opportunity to meet with an Academic Advisor/Enrollment Services Representative. Attendance in this noncredit seminar is required for all entering M.S. and Ed.S. students. Students need to complete EDU 5000 during the same session of the first graduate course in the program of study. **Prerequisite/s: None**

EDU 7999 Advanced Topics (1-6 Cr)

This is an organized class specifically designed to accommodate student needs and program development demands not met by existing course offerings. See the course topic syllabus for list of outcomes, assignments and assessments. May be repeated for credit. **Prerequisite/s: None**

EDUB 702 Curriculum Trends and Innovations (3 Cr)

This course focuses on the analysis of current educational practices, models and futuristic approaches. Emphasis is placed in the investigation of educational, curricular policies and techniques developed for a variety of settings (i.e., community schools, hospital-based instruction, distance education, homeschooling). Integration of technology and multimedia is also included. **Prerequisite/s: None**

EDUB 708 Research and Design in Education (3 Cr)

This course provides an in-depth analysis of appropriate educational research methodologies. Attention is placed on the discussion of quantitative (i.e., experimental, correlational, survey) and qualitative (i.e., ethnographic, case study, historical) methodologies. Students will engage in the examination and selection of available instrumentation, appropriate analysis and interpretation of research findings. **Prerequisite/s: None**

EDUB 714 Families, Schools, and Communities: Ethical Issues and Practices (3 Cr)

In this course students examine the roles, practices, and responsibilities of educators with families and communities from the perspective of multiple cultures and diversity. Ethical issues related to equity, services, advocacy, and professional behaviors of educators in multicultural settings are discussed. **Prerequisite/s: None**

EDUB 719 Current Research in Human Development (3 Cr)

This course engages students in the analysis of recent theoretical positions and research in human development. Selected research findings from the different domains (social-emotional, cognitive, language, and biological) are examined. Emphasis is placed on the educational applications/implications of developmental research, e.g., brain research, learning styles, multiple intelligences, and neo-Piagetian studies. **Prerequisite/s: None**

EDUB 729 Evaluation and Assessment Practices (3 Cr)

The purpose of this course is to introduce elements of measurement and assessment essential to good teaching. The assessment of learning plays an important role in the instructional process and its effectiveness depends largely on the ability to construct and select tests and assessments that provide valid measures of learning outcomes. Areas addressed include educational testing and assessment, the role of measurement and assessment in teaching, instructional goals and objectives, validity and reliability, classroom tests and assessments, standardized tests, and interpreting test scores and norms. **Prerequisite/s: None**

EDUB 730 The Neurobiology of BrainSMART Instructional Leadership (6 Cr)

This course provides a framework for understanding and applying principles of instructional leadership within a neurobiological understanding of learning and leading. Using an understanding of the science of learning, cognition and the implications for education, students will create and evaluate plans to lead improvements in their classrooms and schools. Knowledge of specific brain functions and systems, including the limbic system, will inform plans. **Prerequisite/s: None**

EDUB 731 Best Practices in Thinking for Leading (6 Cr)

Mental models have a powerful influence on how schools and classrooms function. In this course a range of models, metaphors, and fields of research are explored from the areas of cognition and instructional leadership. Specific focus is directed toward discovering a framework for developing teacher leaders where research and best practices are examined. Research on the cognitive strengths that are essential for leading are also investigated and a range of strategies for improving strengths are discussed. Finally current research on the neurobiology of cognition is studied as are practical strategies for unleashing the brain's potential. In summary, this course focuses on three dimensions of thinking for leading: the school wide dimension, the dimension of cognitive strengths, and the dimension of the neurobiology of leadership and change. **Prerequisite/s: None**

EDUB 732 Differentiated Instructional Leadership (6 Cr)

The theory of differentiated instruction offers a powerful lens for looking at effective instructional leadership. The course explores several approaches to helping instructional leaders identify learner differences and adapt instruction. These approaches include the latest research on brain gender differences and the potential impact these studies may have on leadership effectiveness in organizations today. Additional theories explored include cognitive strengths, learner preferences, and a tool for reading the barcode for the brain. The emerging field of positive psychology is explored in the context of a differentiated leadership approach to increasing motivation and performance. **Prerequisite/s: None**

EDUB 799 Teacher Leadership Institute: Leading Brain-Based Change (3 Cr)

The purpose of this course is to serve as a capstone experience for students of teacher leadership and school change. Integrating key aspects of the program with the discipline of educational and instructional leadership, the coursework, materials, and assignments are intended to provide a framework for analyzing, synthesizing, and constructing a plan that encompasses research, theory to practice application, and problem solving for the challenges to change within schools and school systems. After a review of the Ed.S. program coursework, compilation of a summary literature review, and preliminary plan, students will develop a plan for systemic change within the school that can realistically be applied to their work environments. **Prerequisite/s: None**

ELE 711 Literacy: Theory and Practice in the Elementary Classroom (3 Cr)

This course focuses on the development of a comprehensive theoretical framework for analyzing and evaluating literacy learning in the elementary classroom. Emphasis is placed on current research and methods in literacy instruction with a particular focus on curricular modifications and accommodations for diverse groups of elementary students. **Prerequisite/s: None**

ELE 712 Mathematical Reasoning and Problem Solving in the Elementary Classroom (3 Cr)

This course explores current research in teaching mathematical reasoning and problem solving in the elementary classroom. The identification and application of appropriate mathematical content and processes, instructional delivery models, and assessment techniques for use with diverse students in elementary classrooms is emphasized throughout the course. **Prerequisite/s: None**

ELE 713 Scientific Inquiry and Discovery in the Elementary Classroom (3 Cr) This course explores current research and best practices in inquiry teaching and discovery learning in the elementary science classroom. Emphasis is placed on using dynamic teaching methods that stimulate thinking and inquiry about scientific concepts and processes in diverse learners. **Prerequisite/s: None**

ELE 714 Teaching for Multicultural Understanding in the Elementary Social Studies Classroom (3 Cr)

This course explores current research for teaching multicultural and global understanding and investigating related issues through the social studies curriculum in the elementary classroom. The identification and application of developmentally-appropriate multicultural and global content and processes, instructional delivery models, and assessment techniques are emphasized throughout the course. **Prerequisite/s: None**

ELE 715 Critical Thinking in the Elementary Classroom (3 Cr)

This course explores current research in teaching critical thinking through the language arts in the elementary classroom. Emphasis is placed on implementing and modifying instructional models and strategies with diverse elementary populations to reinforce their understanding and application of critical thinking skills across the integrated language arts curriculum. **Prerequisite/s: None**

ELE 716 Creative Thinking in the Elementary Classroom (3 Cr)

This course explores current research in teaching creative thinking through the visual and performing arts in the elementary classroom. Emphasis is placed on strategies and techniques designed to enhance creative thinking in diverse learners through the arts. **Prerequisite/s: None**

EM 700 Philosophy of School Library Media Programs (3 Cr)

This course includes the functions of the school library media program in the educational environment; the professional role of the media specialist; program standards; program planning, implementation, and evaluation; research applications; and trends and issues that

influence school media programs. **Prerequisite/s: None**

EM 701 Learning Literacies and Assessment in School Library Media Programs (3 Cr)

This course teaches future educational media specialists to apply literacies needed to develop 21st century learning skills within P-12 standards-based curricula. Students will practice assessment data collection, analysis of classroom- and school-based data, and relate findings to learning outcomes. **Prerequisite/s: None**

EM 705 Design and Production of Educational Media (3 Cr)

This survey course introduces the principles of instructional design; provides experience in the production of audio, video, and visual media; and includes methods of teaching media production. **Prerequisite/s: None**

EM 710 Current Research in Educational Media (3 Cr)

This course focuses on current research topics in educational media. Topics and trends that promote student learning and the development of exemplary media programs will be emphasized. Candidates will identify and survey related literature, projects, and offerings through professional organizations and learning communities. **Prerequisite/s: None**

EM 712 Media for Children (3 Cr)

This course provides an overview of the developmental stages of children; the use of print and non print media to meet instructional, informational, personal, and recreational needs of children; production of materials to stimulate interest and enjoyment of literature; and methods for providing reading, listening, and viewing guidance. **Prerequisite/s: EM 700 and EM 705 Co-requisite/s: EM 705**

EM 715 Reference and Information Services (3 Cr)

This course examines print and online information resources; techniques for providing reference and information services; and methods of teaching reference strategies to students and staff. **Prerequisite/s: EM 700, EM 705, and EM 725**

EM 720 Instructional Models for Educational Media Centers (3 Cr)

Optimal instructional models are the focus of how to promote informational skills and independent lifelong learning among K-12 students. Productive elements of a variety of instructional models are presented and evaluated for their contribution to educational outcomes. Topics will include the development of meaningful curriculum and media that meet instructional objectives, as well as motivational strategies to encourage faculty development and participation in collaborative teaching and staff development. **Prerequisite/s: None**

EM 722 Instructional Role of the School Library Media Specialist (3 Cr)

This course emphasizes the school library media specialist's role in curriculum planning, methods of information skills instruction, and techniques for integrating media into the learning environment. **Prerequisite/s: EM 700, EM 705, EM 725, and EM 712 or EM 737**

EM 725 School Library Media Collection Development (3 Cr)

This course addresses the principles of locating, evaluating, selecting, and maintaining media resources; acquisition of materials and equipment; the impact of technology on collection development practices; and use of software to assist in the collection development process. **Prerequisite/s: EM 700 and EM 725**

EM 728 Educational Media Center Facilities Design and Maintenance (3 Cr)

Creating productive educational media center settings that improve learning outcomes for a variety of educational settings is the focus of this course. Historic trends and developments in facility design and maintenance that contribute to the positive impact of a media center on student learning will be explored and applied to a variety of media center settings. **Prerequisite/s: None**

EM 730 Electronic Resources and Systems in Educational Media Centers (3 Cr)

This course focuses on effective practices of evaluation, selection, implementation, maintenance, and upgrading of management systems, databases, informational and instructional delivery systems, and network agreements. Planning strategies for implementing technologies, assuring equity of access, supporting distance learning models, and managing intellectual property in the digital age are stressed. **Prerequisite/s: None**

EM 732 Management of School Library Media Programs (3 Cr)

This course includes methods of operating the school library media program, including program policies, circulation and inventory systems, budgeting, staffing, marketing, facilities use, and the application of technology to media center management practices. **Prerequisite/s: EM 700, EM 705, and EM 725 Co-requisite/s: EM 725**

EM 735 Leadership in Educational Media Settings (3 Cr)

This course focuses on the identification and tracking of professional trends that contribute to exemplary educational media programs. These trends will include the identification of practices, policies, and statutes at the district, state, and national levels that impact school library media centers. Using effective communication, collaborative planning, and cooperative budgeting to work effectively with members of the school community, candidates will acquire strategies that will help them to function as independent change agents in an educational media setting. **Prerequisite/s: None**

EM 737 Media for Young Adults (3 Cr)

This course includes the developmental stages of adolescents; use of print and nonprint media to meet the instructional, informational, personal, and recreational needs of adolescents; and methods of providing reading, listening, and viewing guidance. **Prerequisite/s: EM 700, EM 705, EM 715, EM 725, and EM 712 or EM 737**

EM 740 Evaluation of Educational Media Centers and Services (3 Cr)

In this course, students will practice assessment and evaluation techniques that will result in the meeting of educational goals and objectives. Students will use professional standards, evaluative criteria, and local policy to develop media center goals and objectives, as they develop and implementing practices of action research. There are no prerequisites for this course. **Prerequisite/s: None**

EM 742 Organization of School Library Media Collections (3 Cr)

This course includes library classification systems, principles, and techniques of descriptive cataloging, methods of organizing media resources, and the application of technology to bibliographic methods. **Prerequisite/s: EM 700, EM 705, EM 715, EM 725, EM 732 and EM 712 or EM 737. Co-requisite/s: EM 715 and EM 732**

EM 765 Computers in School Library Media Centers (3 Cr)

Current practices relating to identification, evaluation, management and use of computer technology and resources, electronic information sources, and systems are presented within the context of creating the infrastructure to facilitate information literacy in PreK-12 environments. **Prerequisite/s:** EM 700, EM 705, and EM 732

EM 799 Applied Professional Experience in Educational Media (3 Cr)

Candidates will apply professional experiences in Educational Media in PreK-12 school library media centers and classrooms, reflect on activities, and collect samples of student work and assessment used to demonstrate achievement of professional and state standards. **Prerequisite/s:** 24 EM credits, including CUR 526

ENG 705 Language and Linguistics in Secondary English Language Arts Classrooms and Curricula (3 Cr)

Students will read and apply the theory that underlies major branches of language study and linguistics, review the rationale for the inclusion of language study (in addition to grammar and vocabulary expansion) and linguistic issues in secondary English language arts classrooms, and design lessons, units, and curricula that do so. **Prerequisite/s:** None

ENG 715 Composition Theory and the English Language Arts Classroom (3 Cr)

Students will enhance their knowledge of and apply major theoretical approaches to rhetoric/composition, the composing process, and composition pedagogy. They will discuss and design lessons, units, and curricula which integrate composition/rhetorical theory with composition pedagogy. **Prerequisite/s:** None

ENG 745 Literary Theory and English Language Arts Classrooms and Curricula (3 Cr)

This course will acquaint students with the major critical/theoretical approaches to literature, ask them to apply various critical stances, reflect on their own theoretical stances to literature and literature pedagogy, and design lessons, units and curricula which integrate theoretical approaches with instruction in literature. **Prerequisite/s:** None

ENG 755 Arts and Media in English Language Arts Classrooms and Curricula (3 Cr)

After reviewing the specialized terms and interpretive theories associated with arts forms and media genre as well as the rationale and methodology for the inclusion and integration of arts and media in classrooms, students will design lessons, units, and curricula which integrate and include the arts and media in secondary English language arts programs. **Prerequisite/s:** None.

ENG 765 Theory and Practice in Teaching Global Literature (3 Cr)

Students will read a number of global literary pieces (exclusive of U.S., Canadian, and Western European literature. Whenever the term global literature is used hereafter, it shall be defined in this manner.) and review theoretical stances on the teaching of global literature. They will create lessons, units, and curricula in which they apply their knowledge of global literature and theoretical approaches to its pedagogy. **Prerequisite/s:** None

GRA 710 Grant Writing (3 Cr)

This course provides students with the skills and knowledge to locate appropriate grant opportunities and to write effective grant proposals. **Prerequisite/s:** None

LTRC 704 Research in Language and Literacy Development (3 Cr)

This course examines research related to the process of language and early literacy development during the early and middle childhood years. Issues related to cultural and social influences on language/literacy development including fluency, vocabulary, phonemic awareness, phonics, and comprehension are discussed. **Prerequisite/s:** None

LTRC 711 Assessment in the Literacy and Reading Classroom (3 Cr)

Students engage in the discussion of the process of instruction and assessment in early literacy and reading. Discussion of screening activities, diagnosis, testing, and selection of remediation strategies engages students in practical experiences. Cultural and language differences (ESOL) will be explored. **Prerequisite/s:** None

LTRC 712 Play, Culture and Emergent Literacy (3 Cr)

Students analyze the role of play in the process of early literacy across cultures. Students engage in the discussion about the concept of play in different cultures and its relationship to language development. Strategies to support play in the classroom and at home are examined. Recent research methodologies and findings from studies in the area of cross-cultural play and literacy development during the early years (birth-5) are discussed. Students develop sample research projects related to culture, play, and literacy topics. **Prerequisite/s:** None

LTRC 716 Curricular Approaches and Prescriptive Instruction in Early Literacy Programs (3 Cr)

This course provides opportunities to analyze current models and approaches to foster behaviors in the classroom. Students examine the selection of child and age-appropriate models, planning, differentiated instruction to increase reading performance, selection of materials and strategies for parent /home involvement. **Prerequisite/s:** None

LTRC 722 Research in Oral and Written Language Development (3 Cr)

Course Description: In this course, students examine the developmental stages of oral language and its relationship to writing from scribbling to formal writing behaviors. Current research and theoretical frameworks on writing and language development are analyzed. Strategies to support and foster oral and written language expression are discussed. **Prerequisite/s:** LTRC 704.

LTRC 735 Advanced Seminar in Children's Literature (3 Cr)

In this course students analyze the different genres in children's literature and compare traditional and contemporary works with regards to the elements of literature (illustrations, plot, characterization, author's style, etc). Students choose an area of interest and develop a research project. **Prerequisite/s:** None

MAT 680 The K-12 Mathematics Curriculum: Teaching, Learning, Assessment, and Diversity (3 Cr)

This course will help teachers integrate the National Council of Teachers of Mathematics (NCTM) standards with their own mathematics curriculum. A major emphasis will be to help teachers improve classroom teaching practices and to assess learning outcome. In addition, application of conceptual understanding and issues related to diverse learners will be emphasized. **Prerequisite/s:** None

MAT 700 Incorporating Calculus Ideas (3 Cr)

This course is intended to deepen and enlarge the participant's understanding of calculus in order to incorporate calculus ideas in their lessons. Participants will learn innovative strategies to introduce the concepts of basic calculus in their classrooms. It introduces Graphing Lines, Graphing half-planes, conic sections, functions, limits, and integrals. It also includes computational calculus. Highlights of the course include several scientific projects that participants will be building and utilizing the product as models for their math students. **Prerequisite/s: None**

MAT 701 Creative Geometry for the Classroom (3 Cr)

This course places emphasis on geometric topics through the use of logic and problem-solving techniques. The emphasis is in teaching creative strategies for adaptation to the classroom. All course objectives are aligned to National Council of Teachers of Mathematics (NCTM) Standards, Florida Educator Accomplished Practices, and Sunshine State Standards. **Prerequisite/s: None**

MAT 702 Probability and Statistics for the Educational Specialist (3 Cr)

This course will help demonstrate to teachers ways to present the concepts of chance phenomena. Participants will examine charts, tables, and methodology for collecting, analyzing, and interpreting data. Teachers will learn to use these tools to enhance learning for their students. **Prerequisite/s: None**

MAT 704 Algebra for Teachers (3 Cr)

This course will teach participants to deliver basic algebraic concepts through the use of story telling and other language arts activities. These math stories will help learners integrate algebraic concepts with other fields of learning. Through these innovative approaches, teachers will acquire the knowledge and skills needed to teach algebra content to their students. **Prerequisite/s: None**

MAT 705 Advanced Problem-Solving Strategies for Teachers (3 Cr)

This course provides teachers with techniques and strategies to help their students solve a variety of word problems. Learners will be introduced to inductive and deductive reasoning, scientific notation and estimation, and operations with sets. **Prerequisite/s: None**

MAT 711 How to Obtain Funding in Mathematics Through Grants and Sponsorship (3 Cr)

In this course, the educational specialist will learn how to write a winning proposal through research and course work, students will design a successful mathematics intervention program for their targeted population. Participants will be engaged in both qualitative and quantitative research approaches. The emphasis will be reflecting on community needs and resources. As a major outcome of this class, students will develop an actual funding and grants proposal for their schools or districts. **Prerequisite/s: None**

NBPT 710 Documenting Professional Accomplishments and Building Portfolios (3 Cr)

Participants will identify and become familiar with the Five Core Propositions of the National Board for Professional Teaching Standards (NBPTS), and analyze the requirements for their chosen NBPTS certification area. An underlying focus of the course is work that ensures the development of an understanding of the NBPTS certification and assessment center processes. The coursework will focus on providing students with a base of understanding for the pursuit of National Board Certification as well as a systematic approach to teaching, and analyzing teaching practice in relation to the NBPTS core propositions and standards. **Prerequisite/s: None**

NBPT 720 Educational Reform Through the NBPTS (3 Cr)

This course will examine the fundamental perspectives of educational reform through the professional development of educators and the systematic teaching process of the NBPTS. This intense course initiates an educator's NBPTS candidacy. Participants analyze their portfolio requirements and evidence collection for certification. Furthermore, participants learn about the descriptive, analytical, and reflective writing necessary and as stipulated within their portfolio entries. The NBPTS's role in education reform as well as the global and local impact of National Board Certification is explored in detail. **Prerequisite/s: None**

NBPT 730 Practicum in Curriculum and Instruction (3 Cr)

This course provides a field experience for National Board Certified Teacher (NBCT) candidates in curriculum using the NBPTS practice of teaching as a system. It allows participants opportunities to demonstrate a systematic approach to teaching and to reflect on their current curriculum and instruction in relation to NBPTS. Analysis of student work, videotaped lessons, and other documentations of professional practices are supported through the course assignments by an NBCT instructor and other NBCT mentors. **Prerequisite/s: None**

NBPT 740 Teacher Leadership and Advocacy Seminar (3 Cr)

This course facilitates the new role of the student as a National Board Certified Teacher (NBCT). Students will reflect and explore the role of an NBCT in the learning and educational community. The coursework will focus on current research and resources related to teacher leadership and advocacy. **Prerequisite/s: None**

NGTE 700 Educational Inquiry and Electronic Research Technologies (3 Cr)

NGTE 0700 examines and applies research paradigms, examples of sound research, and critical interpretation and evaluation of research and theoretical writing in the field. **Prerequisite/s: None**

NGTE 705 Today's Educational Leader (3 Cr)

This course provides students the opportunity to study leadership characteristics and styles. Students will assess their own strengths and areas for development in the practice of leadership. They will gain an understanding and appreciation for the impact their leadership behaviors have on their organizations and staff. **Prerequisite/s: None**

NGTE 706 Managing Change in the Educational Environment (3 Cr)

This course provides students with the skills and knowledge to serve as a catalyst for change and to assist others in the acceptance and adoption of educational innovation. Through examining pertinent literature and educational reform initiatives, they will identify elements of effective change strategies and develop leadership competencies needed to proactively manage personal and organizational change. **Prerequisite/s: None**

NGTE 715 Educational Diversity and Community (3 Cr)

This course provides students with the skills and knowledge to apply cognitive theory in instructional program management for special needs students whose learning necessitates experiential differentiation. Participants will examine and apply best practices to encourage and accommodate diversity and equity while simultaneously promoting academic excellence. **Prerequisite/s: None**

NGTE 720 Seminar in Program Synthesis (3 Cr)

This course is designed to provide an analysis and synthesis of the information learned in the online Ed. S. program of study. It is based on reflection, and focusing on analysis and synthesis, it provides the student with an opportunity to prepare a detailed statement of where the field is and where it is going. The course will also include practical applications of the research process to the student's professional settings. The Learning Program Review will provide the student with the opportunity to look back on the entire degree program in order to examine how it has contributed to the student's intellectual and personal development. It also includes all learning experiences that have taken place during the students NSU program. **Prerequisite/s: NGTE 700**

RED 730 Critical Issues in Reading (3 Cr)

Students will analyze major issues and trends in literacy by reading and interpreting current scientifically-based research studies and demonstrating how they could apply this research in the classroom. **Prerequisite/s: None**

RED 731 Interpreting Research in Reading Education (3 Cr)

This course prepares students with the skills needed to read, interpret, and evaluate research in the science of reading. Students will gain a knowledge base to help them make informed educational decisions based on research results. **Prerequisite/s: None**

RED 732 Reading Disorders: Diagnosis and Remediation (3 Cr)

In this course students will define reading disabilities, explore the causes of these disabilities, and classify and assess remedial methods for reading disabilities. In order to put these disabilities in perspective, students will identify components of language development and the models of spoken and written language. **Prerequisite/s: None**

RED 733 Academic Literacy in Middle and High School (3 Cr)

This course will focus on techniques for teaching the elements of academic literacy, (i.e. reading, reasoning, thinking and writing) for instruction in the content areas. The course will address adolescent literacy issues that middle and high school teachers should consider when preparing instruction. **Prerequisite/s: None**

RED 750 Literature for Children and Adolescents (3 Cr)

Students become acquainted with the literature available for children in the various media of communication and develop and practice techniques for introducing literature to children and adolescents. Participants analyze children's literature on the basis of literary style, patterns of organization, reading level, and the needs and interests of children. Participants develop skills for broadening children's understanding of literature in specific content areas. **Prerequisite/s: None**

RED 787 Educational Field-Based Project in Reading (3 Cr)

The field-based project in reading is intended to engage the students in a problem-solving experience designed to improve and enhance the educational situation of struggling readers. This process is systematic and involves the participant in (a) submission of a structured proposal, (b) active intervention, and/or research, (c) evaluation of the implemented activities, and presentation a final report/product. **Prerequisites: 24 credits (33 for ESE), including EDU 5000 and EDU 708.**

SCI 730 Descriptive Quantum Physics for Teachers (3 Cr)

This course examines content and methods for teaching quantum physics. Students will descriptively explore the Big Bang Theory, atomic theory, and the contributions of Newton, Rutherford, Einstein, and Plank through the perspectives of two modern science researchers, Stephen Hawking and Brian Greene. Students will then apply this knowledge in lesson planning. A variety of learning techniques will be introduced through the writings of Roger Bybee, a science educator. These learning techniques will be appropriate in an inclusive learning environment for both typical and atypical students and for those who are limited in English proficiency (LEP). "Hands-on" approaches, resources, materials, and technology applicable to skills in laboratory management will be discussed. There will be a clinical field experience in a local school. **Prerequisite/s: None**

SCI 731 Teaching Molecular Biology (3 Cr)

This course examines content and methods for teaching molecular biology. Students will explore the elements and molecules that compose living systems. There is an introduction to the subject of DNA and the applications of genetic engineering in biotechnology through the writings of two of the leaders in the field, Susan Aldridge and James Watson. Students will then apply this knowledge in lesson planning. A variety of learning techniques will be introduced through the writings of Roger Bybee, a science educator. These learning techniques will be appropriate to an inclusive learning environment for both typical and atypical students and for those who are limited in English proficiency (LEP). "Hands-on" approaches, resources, materials, and technology applicable to skills in laboratory management will be discussed. There will be a clinical field experience in a local school. **Prerequisite/s: None**

SCI 732 Trends in Planetary Science Education (3 Cr)

This course examines content and methods for teaching planetary science. Students will explore newly discovered knowledge of the planets presented in the writings of the science journalist, Dava Sobel. There will also be an exploration of the history of space technology and exploration presented in one of Carl Sagan's final publications. Students will then apply this knowledge in lesson planning. A variety of learning techniques will be introduced through the writings of Roger Bybee, a science educator. These learning techniques will be appropriate to an inclusive learning environment for both typical and atypical students and for those who are limited in English proficiency (LEP). "Hands-on" approaches, resources, materials, and technology applicable to skills in laboratory management will be discussed. There will be a clinical field experience in a local school. **Prerequisite/s: None**

SCI 733 Teaching New Concepts in Deep Sea Exploration (3 Cr)

This course examines content and methods for teaching new concepts in deep sea exploration. Students will first be introduced to a history of deep-sea exploration and concepts in physical oceanography. Next, students will explore ocean depths from the perspective of marine biologists. Students will then apply this knowledge in lesson planning. A variety of learning techniques will be introduced that will be appropriate to an inclusive learning environment for both typical and atypical students and for those who are limited in English proficiency (LEP). "Hands-on" approaches, resources, materials, and technology applicable to skills in laboratory management will be discussed. There will be a clinical field experience in a local school. **Prerequisite/s: None**

SCI 734 Population Education (3 Cr)

This course examines content and methods for teaching current knowledge of human population dynamics and the Earth's carrying capacity. Students will read selected books pertaining to population growth in a finite world and the ideas of scientists about a sustainable environment in the Twenty-first Century. Students will then apply this knowledge in lesson planning. A variety of learning techniques will

be introduced that will be appropriate to an inclusive learning environment for both typical and atypical students and for those who are limited in English proficiency (LEP). "Handson" approaches, resources, materials, and technology applicable to skills in laboratory management will be discussed. There will be a field experience in a local school. **Prerequisite/s: None**

SCI 735 Teaching Meteorology and Climatology (3 Cr)

This course examines content and methods for teaching current knowledge of weather and climate. Students will read selections pertaining to meteorology and climatology and the predictions of scientists about the global climate in the Twenty-first Century. Students will then apply this knowledge in lesson planning. A variety of learning techniques will be introduced that will be appropriate to an inclusive learning environment for both typical and atypical students and for those who are limited in English proficiency (LEP). "Hands-on" approaches, resources, materials, and technology applicable to skills in laboratory management will be discussed. There will be a field experience in a local school. **Prerequisite/s: None**

TMA 701 Educational Technology Trends and Issues (3 Cr)

This course provides students the opportunity to explore and to investigate current practices and emerging trends and issues in the field of educational technology. This course is comprised of three parts. Part 1 focuses briefly on the historical foundations of technology in education. Part 2 includes best practices as documented in the research. Part 3 looks ahead to future uses and implementations of technology in education. **Prerequisite/s: None**

TMA 711 Educational Technology Project Management (3 Cr)

This course provides students with the skills and knowledge required to manage complex educational technology projects. Students will gain project management skills that include planning, designing, implementing, and supporting both small and large scale technology projects within in a school or district. Students will learn strategies for involving all stakeholders and communicating with them effectively. **Prerequisite/s: None**

TMA 716 New Technologies: Selection and Evaluation (3 Cr)

This course provides students with the skills and knowledge required to evaluate, select, and integrate technology-learning systems that support curriculum goals and meet diverse student needs. Students will define an educational problem and apply appropriate instructional strategies and technologies based on instructional objectives and research of curricular technologies. **Prerequisite/s: None**

TMA 721 Distance Education: Systems and Methods (3 Cr)

This course provides students with the theoretical framework of distance learning systems to support instruction and presents the practical considerations for planning and implementing distance learning programs in their district. Basic concepts of distance learning, planning, and program development, and the basic technologies being used are presented. Students will plan for distance learning programs to fill gaps in the instructional program in their district as well as create instructional presentations on the value and impact of distance learning programs on student achievement. **Prerequisite/s: None**

TSOL 710 Language Learning and Teaching for Multi-lingual Classrooms of the 21st Century (3 Cr)

This is an advanced course for principles of language learning and teaching focusing on the current classroom environments of the 21st century. This course is designed to prepare candidates with practical and theoretical understanding of implementing cultural infusion into language learning using various approaches of teaching. The course will focus on multicultural literacy, the ability to understand and appreciate the similarities and differences in the customs, values, and beliefs of one's own culture and the cultures of others. Research, theories, and best practice of language learning pedagogy will be combined with subject knowledge of the value of diversity, informed sensitivity and how to actively engage other cultures. **Prerequisite/s: None**

TSOL 720 International and National Assessment and Evaluation of English Language Acquisition (3 Cr)

This course examines various assessment measures and their role in the evaluation of the placement and progress of all English language learners in the United States and abroad. This course emphasizes the use of alternative assessments and reviews placement, diagnostic, outcomes, exit, and state mandated assessments. Alternative assessments, which are linked to standards, learning objectives, and national norms that will be connected to instruction will be examined. English language assessments used nationally and internationally will be reviewed. **Prerequisite/s: None**

TSOL 730 International and Comparative Education: Issues in Language and Literacy Policy (3 Cr)

This course provides teachers with an opportunity to examine some of the dilemmas facing language educators in an international context from both a policy point of view and an educator's perspective. Using both critical studies and personal memoirs, students will examine literacy and TEFL educational issues in the context of different countries and discuss how educational systems are organized to meet political, social, and economic agendas. Students will reflect on the role of the individual language teacher in a changing multilingual environment. Both online data research and two memoirs related to language education policy set in different countries are used as source materials for this course. **Prerequisite/s: None**

TSOL 740 International Englishes: History Issues and Teaching Trends (3 Cr)

This course investigates the history, structure, usage, and teaching of International English. The English language has the standing of the major international language. Its arrival at this status, its current varieties, and the possible futures as an international language communication are the major themes presented. Through analysis of online international newspapers and journals, students will compare how similar news events are presented, both from a sociolinguistic point of view and language structure. The varieties of English used throughout the world are compared to local usage. Issues concerning teaching English as a foreign language will also be introduced. **Prerequisite/s: None**

TSOL 750 Distance Education Technology for Teaching English as a New Language (3 Cr)

This course explores the various technological options at the disposal of teachers of English language learners which include language software, commercial and free web-based teaching materials and tools and other multimedia resources. Course participants will review the latest technological innovations in English language teaching as well as situate them in the technology and language standards of their respective states and nations. Course participants will also create a plan of action for implementing an integrated use of technology in language teaching in their schools and colleges. **Prerequisite/s: None**

TSOL 760 Literature Review in TESOL (3 Cr)

This course provides practice in the creation and writing of a literature review in the field of TESOL in order to prepare for writing a TESOL-themed dissertation and ultimately to contribute to the TESOL knowledge base through teaching and professional writing. Issues

addressed in the course include identification of previous research on a topic, establishing significance and importance of a topic, use of primary and secondary sources in TESOL, identification of instruments and procedures used investigating a TESOL topic, and creation of research questions as result of surveying the literature. The culminating task in the course will be an extensive literature review of the most current research on a TESOL topic. **Prerequisite/s: None**

Abraham S. Fischler
School of Education

Doctoral Programs

Doctor of Education (Major Code F871)

Doctor of Education Mission Statement

The Doctor of Education (Ed.D.) is designed to support the mission of the Abraham S. Fischler School of Education. The program is designed to prepare adult learners to fulfill their professional and personal academic goals. It provides opportunities to enhance the core knowledge, skills, and values essential to competent and ethical practitioners and leaders of organizations in the fields of education, human services, and related areas. The program learning outcomes are focused on facilitating the transfer of theory into practice in order to produce a new generation of local, national, and global leaders who will effect positive changes in a diverse and multicultural society.

Certification/Licensure

Enrollment in the Doctor of Education (Ed.D.) program does not guarantee certification or licensure at the local, regional, or state level. Students seeking certification/licensure should contact the department of education of the state in question to confirm certification or licensure requirements.

Program Learning Outcomes

Irrespective of the concentration in which the student is enrolled, all students will be able to:

1. Demonstrate knowledge learned in the program by applying it to real settings. (Knowledge)
2. Conduct an independent research investigation that contributes to the general body of knowledge in a specific field or profession. (Research)
3. Solve diverse problems using information and skills acquired in the program to create solutions. (Problem solving)
4. Make informed decision based on ethical and legal principles. (Ethics)
5. Formulate scholarly arguments supported by academic resources. (Communication)

Admission Requirements

The following are specific admission requirements for entry into the Doctor of Education program. Please refer to the *General Admission Requirements* section of the catalog for admission information.

- a. An official transcript from a regionally accredited institution indicating a conferred master's degree with a minimum CGPA of 3.0, and official final transcripts from all institutions of higher education (community colleges, bachelor's programs, post-graduate programs).
- b. Two professional letters of recommendation by two different individuals who can attest to the applicant's ability to succeed in a doctoral program.
- c. Current employment or relevant work experience in field.
- d. Miller Analogies Test (MAT), or Graduate Record Examination (GRE®) Test Scores ** the test must have been taken within the past five (5) years (regardless of score). MAT: Submit a test score report showing a raw score of 37(scaled score between 391-396), or GRE scores of 1000 (combined Verbal and Quantitative scales only) **for tests taken prior to August 1, 2011, or GRE scores of 300 (combined Verbal and Quantitative scales only) for tests taken on or after August 1, 2011.**

Additional Admission Requirements for State-Approved Program Applicants

Nevada students enrolled in the Educational Leadership concentration are required to have a minimum of 3 years teaching experience before degree conferral.

Transfer of Credit

A maximum of nine semester hours of credit will be considered for transfer if (1) the credit was earned within five calendar years of request for transfer, (2) the credit was earned post-Master's degree from a regionally accredited university, (3) the content of the courses requested for transfer is equivalent to the study area courses in the program, (4) the courses were not used towards a prior degree, and (5) a grade of A or B was earned in each of the courses requested for transfer. A grade of P (Pass) or CR (Credit) or other such grade cannot be accepted as equivalent to B unless it can be officially verified as such. No credit for experiential learning or other forms of advanced standing will be granted. Exceptions to the maximum number of transfer credits allowed are made only with the approval of the Office of Academic Affairs.

The student must provide the Office of Academic Affairs with a syllabus and catalog description of the courses for which transfer is sought. Faculty member evaluating transfer courses may require the student to provide further documentation and supporting material such as class notes.

Acceptance of graduate coursework from other colleges and/or universities is not guaranteed. Applicants who wish to request evaluation of prior coursework for consideration as transfer credit should fill out the Transfer of Credit request contained in the application and submit associated course descriptions and official transcripts at the time of application to the doctoral program.

Students currently enrolled in a FSE Ed.D. program should request and receive prior written approval from the Office of Academic Affairs before enrolling in any other institution's courses that are intended to be submitted for transfer credit.

Credits earned at Nova Southeastern University are transferable only at the discretion of the receiving school. Students who wish to transfer credits from NSU should contact the admissions office of the receiving school for information.

Transfer of Credit from FSE Ed.S. Program

Students applying to the FSE Doctor of Education program may apply for a transfer of up to 15 credits from the earned FSE Educational Specialist degree as elective credits if:

- a. the credits were earned within the preceding five years from the first term of enrollment
- b. the credits were at the 700 level or above
- c. the grade earned for each course was a B or better

Students wishing to apply for these transfer credits must complete the transfer credit application at the time of their application to the FSE doctoral program. Please refer to the *Educational Specialist (Ed.S.) Programs of Study* section in the catalog.

Doctoral Program Completion Timeline

Doctoral students are allotted seven (7) years from the initial term of enrollment in which to complete all program/degree requirements (excludes DSO 8000). Students unable to complete all program/degree requirements within this seven (7) year timeframe will be subject to dismissal. For exceptions and further information, please refer to the Doctoral Program Completion Timeline Policy (FSE Policy 1.02) in the Student Handbook section of the catalog.

Doctoral Studies Orientation (DSO)

The purpose of the Doctoral Studies Orientation (DSO 8000) is to provide an overview of six areas critical to helping ensure success for doctoral students beginning the Ed.D. program. This noncredit course is a mandatory requirement for all doctoral students in NSU's Abraham S. Fischler School of Education. Students should register for and complete the online DSO modules prior to beginning their first doctoral course. For additional information, please visit the DSO Web site at <http://www.fischlerschool.nova.edu/doctoral-studies-orientation/dso-home>

Summer Conference

During the first year in the program students who have completed at least one term of study are required to attend a one-week, FSE Conference on Global Leadership, Learning, and Research as part of required coursework.

Students who have attended the mandatory summer conference are encouraged to attend an additional conference to enhance their educational experience.

For additional information, please visit the summer conference website at <http://www.schoolofed.nova.edu/summer/>.

Applied Dissertation

The applied dissertation is a detailed, accurate, and cohesive account of a scholarly investigation designed to answer a research question directed toward the improvement of practice in education and human services. Research is distinguished by a theory-to-practice model encompassing a diversity of disciplines. Each student is assigned a faculty committee to facilitate and supervise the process.

Ed.D. students are required to complete an applied dissertation as their culminating project. Students should visit the Applied Research Center (ARC) Web site at <http://www.fischlerschool.nova.edu/applied-research/arc>, for more information about procedures, resources, and guidelines. There are three benchmarks in the completion of the applied dissertation: (1) the concept paper, (2) the dissertation proposal and Institutional Review Board (IRB) approval, and (3) the dissertation.

Doctoral students are reminded (a) if enrolled in Applied Dissertation Services for the current term in which the dissertation report was graded, the degree will be awarded at the end of the term, and (b) students must be enrolled in Applied Dissertation Services during the final format review process, and (c) that the format reviewers, and/or the dissertation committees frequently require revisions and corrections, and that these revisions must be made before the dissertation is ready for final submission to the ARC and subsequent binding.

Graduation Requirements

Please refer to Graduation in the *General Student Information* section of the catalog to find all degree completion requirements. Any specific program completion requirements can be located within your concentration or contact your Doctoral Enrollment Counselor (DEC).

To complete the Doctorate in Education program a student must:

- successfully complete DSO 8000: Doctoral Studies Orientation,
- attend the mandatory summer conference,
- complete all required coursework,
- attain an overall 3.0 GPA,
- complete an applied dissertation,
- complete all state testing requirements as specified for your program concentration, if any (contact a Doctoral

- Enrollment Counselor),
- submit a degree application form and payment of diploma fee, and
- fulfill all financial obligations to the university.

All students must submit a *Degree Application* <http://www.nova.edu/registrar/instructions.html>

Important Note: Once a degree is conferred, it cannot be retroactively changed to another degree plan for any reason. Before choosing a degree program, applicants are strongly encouraged to contact their state department of education, teacher certification/licensure office for specific certification requirements for the state where they intend to teach.

Ed.D. Concentrations and Minors

Ed.D. Concentrations

- Educational Leadership (State Approved Program – Nevada and Pennsylvania)
- Health Care Education
- Higher Education Leadership
- Human Services Administration
- Instructional Leadership
- Instructional Technology and Distance Education
- Nursing Education
- Organizational Leadership
- Reading
- Special Education
- Speech-Language Pathology

Ed.D. Minors

- Adult Education
- Applied Behavior Analysis
- Autism
- Brain-Based Leadership
- Charter School Education Leadership
- Community College Leadership
- Conflict Resolution
- Curriculum Development
- Early Childhood
- Gerontology
- Human Resource Development
- School Business Leadership
- Urban Education

Certificate of Advanced Graduate Studies [CAGS]

(Major Code F557)

The Certificate of Advanced Graduate Studies [CAGS] recognition is a part of the Fischer School of Education's [FSE] doctoral program and offers students, holding a Master's degree, the opportunity to earn a post-masters certificate in any approved concentration or minor area of study that is a part of an FSE doctoral degree program. Students may request a CAGS while in their FSE doctoral program. Students may also begin their FSE post-masters program by enrolling for an FSE CAGS and, if eligible, use that completed set of concentration or minor area content courses in the appropriate FSE doctoral degree program to which those courses may apply [see NOTE below]. To be eligible to receive an FSE CAGS, the student must enroll at the post-masters level and complete all courses required for the CAGS at the Fischler School of Education, and be in good academic and financial standing with Nova Southeastern University.

NOTE: A Certificate of Advanced Graduate Studies [CAGS] is advantageous for educators who need to satisfy certification requirements; receive recognition for completing discipline-specific courses and potentially augment their salaries; and for FSE doctoral students who have completed concentration and/or minor areas of study and plan to postpone completion of the remainder of their degree program.

Certificate of Advanced Graduate Studies Options

Students may earn a CAGS at the Fischler School of Education by:

Option 1: Completing all required concentration courses (a minimum of 18 credit hours to a maximum of 24 credit hours depending on concentration area) in any approved FSE doctoral Concentration [See Doctoral Concentrations and Minors listing above]

Option 2: Completing all required minor courses (15 credit hours) in any approved FSE doctoral Minor [See Doctoral Concentrations and Minors listing above]

Transfer of Credit

All credits applied toward an FSE CAGS must have been completed at Nova Southeastern University

NOTE: Some or all courses completed as part of an FSE CAGS are accepted as part of the appropriate FSE doctoral program if:

- the course was completed at the Fischler School of Education within the preceding five years from the first term of enrollment in the FSE doctoral program,
- the grade earned in the course was a B or higher, and
- the course is applicable as elective, minor, or concentration course in the student's FSE doctoral degree program.

Doctor of Education Programs of Study

General Program Requirements

All students enrolled in the Ed.D. program must complete the following general curricular requirements (36 credits) and choose one area of concentration and corresponding number of electives (33 credits). Total credits required for degree completion equals 69 (credits). Course requirements for each of the concentration areas are listed after the General Program Requirements.

Foundation Requirements (3 credits)

- DSO 8000: Doctoral Studies Orientation (online)
(0 credit)
- ARC 9300: Research Evaluation and
Development (Summer Conference)
(3 credits)

Core Courses (18 credits)

- EDD 9100: Leadership* (3 credits)
- EDD 9100S: Simulation* (3 credits)
- EDD 9200: Trends and Issues: Society, the
Individual, and the Professions
(6 credits)
- EDD 9300: Methods of Inquiry (6 credits)

***Note:** EDD 9100 and EDD 9100S must be taken together.

Research Elective (3 credits) (*Students must select at least one of the following courses.*)

- ARC 8912: Statistical Methods (3 credits)
- ARC 8913: Program Evaluation (3 credits)
- ARC 8914: Educational Assessment
(3 credits)
- ARC 8915: Survey Research (3 credits)
- ARC 8916: Qualitative Research (3 credits)
- ARC 8917: Advanced Program Evaluation
(3 credits)
- ARC 8918: Advanced Statistical Methods
(3 credits)
- ARC 8919: Single Subject Research
(3 credits)
- ARC 8920: Mixed Methods Research
(3 credits)

Applied Dissertation (12 credits)

- ARC 8966: Applied Dissertation Service 1: Concept Paper (2 credits)
Register in 2nd Term
- ARC 8967: Applied Dissertation Service 2: Dissertation Proposal (5 credits)
Register in 3rd Term
- ARC 8968: Applied Dissertation Service 3: Final Report (5 credits)
Register in 5th Term
- ADS 8091: *Applied Dissertation Services
(Registration from 37th month to conferral – 1 credit)

***Note:** Credit earned from ADS 8091 does not count toward the minimum credit hour requirement for either the EdD, PhD, or SLPD degrees.

Concentration Area and Electives (33 credits)

Concentration areas and electives allow students to specialize and study certain areas in depth. Students must select one of the following concentration areas listed. The number of credits required will vary based on the concentration chosen by the student. Through the electives component, students can individualize their doctoral studies even further. The electives may also be applied toward a second concentration (18–24 credits) or towards a minor (15 credits). Concentration and elective courses are generally offered online. Students must complete the minimum 69-credits to complete the doctoral degree including core, concentration and elective credits.

Total Credits for Completion 69

Concentration Area: Educational Leadership

Noncertification Track (Major Code F872)

Certification: State Approved Nevada and Pennsylvania (Major Code A801)

The primary goal of the concentration in Educational Leadership (EDL) is to improve our K-12 schools by preparing candidates for leadership and lifelong learning in the fields of K-12 educational administration. The doctoral program fosters an in-depth application of knowledge and skills, inquiry and research, problem-solving, collaboration and communication, professional development, ethical behavior, and higher order thinking skills.

The graduates of the EDL concentration will be leaders in improving schools and other learning environments; expanding their administrative competence and modeling visionary leadership; advocating and implementing educational improvement using informed action research, effective application of change theory, collaborative decision-making and strategic planning, risk and creativity, and appropriate evaluation; and identifying and addressing contemporary and future educational issues in a changing world.

Additional Admission Requirements

Nevada students enrolled in the Educational Leadership concentration are required to have a minimum of three years teaching experience before degree conferral.

Concentration Learning Outcomes

Graduates of the Ed.D. program with a concentration in Educational Leadership will demonstrate mastery of the following learning outcomes as evidenced by their participation in class, participation in problem-based projects, completion of class assignments and class presentation, and/or field based experiences.

Graduates will be able to:

1. Implement a strategic plan that outlines actions for school improvement and their implications.
2. Evaluate the human resource program in terms of human resource planning, recruitment of personnel, selection of personnel, placement and induction of personnel, staff development, evaluation of personnel, compensation of personnel, and collective bargaining (if appropriate).
3. Promote a positive culture within the school or district that includes the design of comprehensive professional growth plans for school personnel.
4. Utilize practical applications of organizational theories to manage the resources, budgeting process, physical plant or plants, organizational operations, and the resources of a school or district.
5. Develop and align the curriculum goals and objectives with instructional strategies appropriate for varied teaching and learning styles and specific student needs.
6. Collaborate with internal and external stakeholders, respond to their interests and needs, and mobilize resources.

Program of Study

General Program Requirements 36 credits

Concentration Area Courses (21 credits)

EDD 8460:	The Principal and School Leaders (3 credits)	EDD 8010:	Curriculum and Program Development (3 credits)

Elective Courses for Candidates not seeking School-Level or District-Level Licensure

Elective	(3 credits)
Elective	(3 credits)
Elective	(3 credits)
Elective	(3 credits)

Additional Required Courses for Pennsylvania Candidates seeking District-Level Licensure

EDD 8409:	Multicultural Issues in Special Education (3 credits)
EDD 8411:	Issues in Special Education Administration (3 credits)
EDL 7110:	School District Management (3 credits)

Candidates seeking initial licensure or certification at the district level must complete EDD 8463, and the internship

EDD 8463:	Reflection and Vision for District Leaders* (3 credits)
EDD 8499A:	Educational Leadership Internship for District Leaders * (2 credits)
EDD 8499B:	Educational Leadership Internship for District Leaders * (2 credits)
EDD 8499C:	Educational Leadership Internship for District Leaders * (2 credits)

Note: This program of study is approved for licensure for Superintendent in the State of Pennsylvania.

Additional Graduation Requirements

Students in the approved program in Pennsylvania must take and pass the Praxis II, Educational Leadership: Administration and Supervision (0411), minimum score of 143.

Electives (12 credits)

Students fulfill this requirement by completing doctoral level courses offered in any approved concentration, minor area, research or other doctoral level courses.

Or

Minor (15 credits)

Students may elect to pursue a minor by completing a minimum of 15 credit hours of doctoral level courses offered in any approved minor area.

Total Credits for Degree Completion 69 or 75

Concentration Area: Health Care Education

(Major Code F873)

The primary goal of the concentration in Health Care Education (HCE) is to prepare practicing educators and trainers, clinicians, and allied health professionals as facilitators, innovators, leaders, consultants, and instructional designers for the effective delivery of health information and education in academic, institutional, and public community-based settings including schools, universities, hospitals, long term and rehabilitation centers, mental health clinics, public and community organizations, and private practice. The doctoral program fosters an in-depth application of knowledge and skills, inquiry and research, problem-solving, collaboration and communication, professional development, higher order thinking skills, and ethical conduct.

Graduates of the Health Care Education concentration will foster quality of life, health promotion, disease prevention, and health care policy, in collaboration with multidisciplinary health care practitioners, clients, their families, and community stakeholders. They will act as leaders in influencing current and future issues of social justice, health care reform, technology utilization and professionalism in applying best practices in health care education.

Concentration Learning Outcomes

Graduates of the Ed.D. program with a concentration in Health Care Education will demonstrate mastery of the following learning outcomes as evidenced by their participation in class, participation in problem-based projects, completion of class assignments and class presentations, and/or field based experiences. Graduates will be able to:

1. Analyze learning needs in health care organizations by identifying and assessing relevant trends and issues.
2. Assess the impact of academic and educational programs for health care staff in dealing with clients, families, and communities.
3. Synthesize innovative educational interventions and best practices in health care education to effect behavioral,

- lifestyle, and compliance in defined client populations.
4. Evaluate implications for education and training caused by operational restructuring of health care organizations and client care delivery.
 5. Evaluate and comply with legal aspects and regulatory requirements of health care education relating to the governing of client rights, workplace rights, and safety and risks in health care environments.
 6. Analyze the development of health care policy including relevant social forces, cultural values, economics, politics, ethics, and law.

Program of Study

General Program Requirements 36 credits

Concentration Area Required Courses (18 credits)

EDD 8020: Continuing Education for the Health Care Professions (3 credits)	EDD 8024: Health Care Communications (3 credits)
EDD 8021: Contemporary Theories in Health Care Education and Promotion (3 credits)	EDD 8025: Legal Aspects of Health Care Education (3 credits)
EDD 8022: Trends in Health Care Policy (3 credits)	Elective
EDD 8023: Ethics and Professionalism in Health Care (3 credits)	*EDD 8026: Health and Learning (3 credits)

***Note: EDD 8026 may not be substituted for EDD 8022, EDD 8023, or EDD 8025**

Electives (15 credits)

Students fulfill this requirement by completing doctoral level courses offered in any approved concentration, minor area, research or other doctoral level courses.

Or

Minor (15 credits)

Students may elect to pursue a minor by completing a minimum of 15 credit hours of doctoral level courses offered in any approved minor area.

Total Credits for Degree Completion 69 or 72

Concentration Area: Higher Education Leadership

(Major Code F874)

The primary goal of the concentration in Higher Education Leadership is to prepare students for leadership and lifelong learning in the field of higher education. The doctoral program combines theory and practice with the goal of equipping its graduates with an in-depth knowledge of key leadership skills such as applied research, problem-solving, systems thinking, social intelligence, professional development, and higher order cognitive skills.

The graduates of the Higher Education Leadership concentration will be expected to serve as leaders in improving the academic and administrative performance of colleges and universities by modeling visionary leadership, using action research to drive continuous improvement, creating a collaborative decision-making culture, carrying out environmental scans, conducting program evaluations, and identifying and addressing educational challenges of the global economy.

Concentration Learning Outcomes

Graduates of the Ed.D. program with a concentration in Higher Education Leadership will demonstrate mastery of the following learning outcomes as evidenced by their participation in class, participation in problem-based projects, completion of class assignments and class presentation, and/or field based experiences. Graduates will be able to:

1. Function as effective administrators or faculty members within a college, university, or other institution of higher education, depending upon the student's background, specific knowledge and subject expertise.
2. Design and implement a plan for meeting the guidelines and requirements of accrediting agencies.
3. Develop a long range plan for a higher education institution using historical facts to the present using the principles of scenario building to enhance strategic planning.
4. Utilize practical applications of organizational theories to manage the budgeting process, organizational operations, student life, and educational innovation.
5. Design and align the curriculum goals and objectives with instructional strategies appropriate to lifelong learning.
6. Develop and implement activities and policies, as set forth by the governing structure of the higher education entity, designed to promote a culture of harmony and collegiality for the smooth operation of an institution of higher learning.

--------------------------------------------------------------------------------	------------------------------------------------------------------------------

Choose one of the following courses

EDD 8031: Financing Institutions of Higher Learning (3 credits)	EDD 8442: Ethics and Social Responsibility (3 credits)
EDD 8034: Foundations, Sponsored Research, and Collaborations in Institutional Development (3 credits)	EDD 8472: Human Resource Development (3 credits)
EDD 8410: Technological Literacy for Leaders (3 credits)	EDD 8510: Leading in a Learning Organization (3 credits)

Electives (12 credits)

Students fulfill this requirement by completing doctoral level courses offered in any approved concentration, minor area, research or other doctoral level courses.

Or

Minor (15 credits)

Students may elect to pursue a minor by completing a minimum of 15 credit hours of doctoral level courses offered in any approved minor area.

Total Credits for Degree Completion 69 or 72

Concentration Area: Human Services Administration

(Major Code F875)

The primary goal of the concentration in Human Services Administration (HSA) is to prepare students for leadership, administration, management, and policy development of human services agencies and programs. The doctoral program fosters an in-depth application of knowledge and skills, inquiry and research, problem-solving, collaboration and communication, professional development, ethical behavior, and higher order thinking skills.

The graduates of the Human Services Administration concentration will be expected to lead change in human services agencies and programs using the latest theories and research-based models available by: (a) expanding their administrative competence and modeling visionary leadership; (b) advocating and implementing educational improvement using current research, effective implementation of theories, culturally sensitive decision-making and strategic planning, and appropriate evaluation; and (c) identifying and addressing contemporary and future issues in human services organizations.

Concentration Learning Outcomes

Graduates of the Ed.D. program with a concentration in Human Services Administration will demonstrate mastery of the following learning outcomes as evidenced by their participation in class, participation in problem-based projects, completion of class assignments and class presentation, and/or field based experiences. Graduates will be able to:

1. Demonstrate leadership potential in human services administration and programs through an understanding of contemporary theories of organizational behavior and leaders' influence on organizational behavior and performance.
2. Evaluate human services programs in terms of human resource planning, recruitment, selection, placement, compensation and evaluation of personnel in light of the diverse needs of the community these programs serve.
2. Evaluate present and emerging strategic human resource challenges and how an organization's human resources influence its performance and productivity.
3. Analyze existing laws and policies governing human services organization and identify processes for new policy development including establishing rationales, communicating new policies to stakeholders, and enforcing such policies.
4. Explore the various aspects of organizational culture, and examine contemporary organizational theories as these relate to organizational behaviors within human service systems. Analyze the implications for leadership practice in the context of the current research literature.
5. Develop a strategic plan using current theory and principles of strategic planning including an analysis of barriers and facilitators of collaborative relationships among non-profit, for profit and government agencies

EDD 8602: Developing Human Services in the Context of the Family and the Community (3 credits)	EDD 8604: Human Services and the Law (3 credits)
	EDD 8605: Human Services Organizational Theory and Behavior (3 credits)
	EDD 8606: Special Topics in Human Services (3 credits)

Electives (15 credits)

Students fulfill this requirement by completing doctoral level courses offered in any approved concentration, minor area, research or other doctoral level courses.

Or

Minor (15 credits)

Students may elect to pursue a minor by completing a minimum of 15 credit hours of doctoral level courses offered in any approved minor area.

Total Credits for Degree Completion 69 or 72

Concentration Area: Instructional Leadership (Major Code F876)

The primary goal of the concentration in Instructional Leadership is to prepare students for leadership and life-long learning in the field of education. This concentration will help participants develop leadership skills, including setting clear goals, allocating resources to instruction, managing curriculum, and monitoring lesson plans through self-reflection and analysis, and best practices through practical application.

The graduates of the Instructional Leadership concentration will be able to use the knowledge, skills, and practices gained to solve problems in the workplace. The focus of instructional leadership is to develop educators who can create professional development activities that emphasize data-driven decision making using technology to improve instruction.

Concentration Learning Outcomes

Graduates of the Ed.D. program with a concentration in Instructional Leadership will demonstrate mastery of the following learning outcomes evidenced by their participation in class, in problem-based projects, completion of class assignments and class presentations, and/or field based experiences. Graduates will be able to:

1. Evaluate instructional practices to determine the effectiveness of teaching and develop appropriate prescriptions to develop high quality instruction for all participants.
2. Provide quality professional development and utilize the knowledge of adult learning, constructivism, and personalized learning to design and evaluate professional development.
3. Use strategies, tools, and skills for dialogue, assessment protocols, and open space technology and be able to design a plan to improve instruction and build a community of practice.
4. Use assessment in a way that provides equity and fairness for all students as part of a commitment to moral (and ethical) leadership for the teaching profession.
5. Provide leadership in the design, implementation, and evaluation of quality curriculum.

Program of Study**General Program Requirements 36 credits****Concentration Area Courses (18 credits)**

EDD 8110: Assessment Literacy (3 credits)	EDD 8113: Instructional Leadership (3 credits)
EDD 8111: Communities of Practice (3 credits)	EDD 8114: Professional Development (3 credits)

Students fulfill this requirement by completing doctoral level courses offered in any approved concentration, minor area, research or other doctoral level courses.

Or

Minor (15 credits)

Students may elect to pursue a minor by completing a minimum of 15 credit hours of doctoral level courses offered in any approved minor area.

Total Credits for Degree Completion 69 or 72

Concentration Area: Instructional Technology and Distance Education (Major Code F877)

The primary goal of the concentration in Instructional Technology and Distance Education (ITDE) is to prepare students who desire to lead education and training organizations in improving teaching and learning through the scientifically valid application of instructional technology. The curriculum provides experiences in distance education, instructional media, instructional technology, instructional design, and research-based instructional decision making.

The doctoral program in instructional technology and distance education includes practical information, authentic experiences, and useful skills that can be applied to the continually evolving process of systems-based instruction using the technologies of teaching and learning. Each student completes an applied dissertation. The dissertation contributes theory-based and practical knowledge to the field of instructional technology and distance education. The program is designed to be a model of best practices for distance education.

The concentration in ITDE has at its foundation a domestic approach to the use of instructional technology and development of distance education. Definitions, theories, and research are based on the approach and science of instructional technology and distance education as they are generally practiced in the USA. Courses in the ITDE concentration have an EDD prefix and are taught only in English.

A parallel program, the Doctor of Education with a major in ITDE, is taught partially in Spanish and is explained elsewhere in this catalog. Courses in that program have a prefix of ITDE

Concentration Learning Outcomes

Graduates of the Ed.D. program with a concentration in Instructional Technology and Distance Education will demonstrate mastery of the following learning outcomes as evidenced by their participation in class, participation in problem-based projects, completion of class assignments and class presentations. Graduates will be able to:

1. Design conditions for learning by applying principles, theories, and research associated with instructional systems design, message design, instructional strategies, and learner characteristics.
2. Develop instructional materials and experiences by applying principles, theories, and research related to print, audiovisual, computer based, and integrated technologies.
3. Use best practices, processes, and resources for learning by applying principles, theories, and research related to media utilization, diffusion, implementation, and policymaking.
4. Plan, organize, coordinate, and supervise instructional technology by applying principles, theories and research related to project, resource, delivery system, and information management.
5. Evaluate the adequacy of instruction and learning by applying principles, theories, and research related to problem analysis, criterion referenced measurement, formative and summative evaluation, and long-range planning.

Program of Study

General Program Requirements 36 credits

Concentration Area Courses (24 credits)

EDD 7005:	Instructional Media (3 credits)
EDD 7007:	Principles of Distance Education (3 credits)
EDD 8001:	Instructional Design (3 credits)
EDD 8006:	System Analysis and Design (3 credits)
EDD 8008:	Principles of Instructional Technology (3 credits)

Choose any three of the following courses (9 credits)

EDD 7123:	Digital Media for Instructional Technology and Distance Education (3 credits)
EDD 8121:	Advanced Instructional Design (3 credits)
EDD 8122:	Professional Practice in ITDE (3 credits)

EDD 8120:	Perspectives in ITDE (3 credits)

Electives (9 credits)

Students fulfill this requirement by completing doctoral level courses offered in any approved concentration, minor area, research or other doctoral level courses.

Or

Minor (15 credits)

Students may elect to pursue a minor by completing a minimum of 15 credit hours of doctoral level courses offered in any approved minor area.

Total Credits for Degree Completion 69 or 72

Concentration Area: Nursing Education

(Major Code F935)

The Doctor of Education with a concentration in Nursing Education is designed for registered nurses holding the Master's of Science in Nursing degree. The program provides advanced, subject-specific nursing education content courses along with education courses and applied research skills to develop scholar-teachers who are prepared to add to the body of knowledge and/or applied professional practices in nursing education settings. This program is for practicing licensed registered nurses and nurse educators who wish to obtain doctoral degrees and increase their knowledge and skills in nursing education. Applicants must hold a current, active U.S. nursing license and Master of Science degrees in Nursing.

Graduates of foreign master's degrees in nursing programs must obtain permission from the Director of Academic and Faculty Support assigned to the Nursing Program.

Concentration Learning Outcomes

Graduates of the Ed.D. program with a concentration in Nursing Education will demonstrate mastery of the following learning outcomes as evidenced by their participation in class, participation in problem-based projects, completion of class

assignments and class presentation, and/or field based experiences. Graduates will be able to:

1. Create content knowledge and/or professional practice
2. Conduct scholarly research in the content area
3. Defend reasoned solutions to complex problems
4. Communicate effectively
5. Demonstrate personal and professional integrity

Total Credits for Degree Completion 69

Concentration Area: Organizational Leadership

(Major Code F878)

The primary purpose of the concentration in Organizational Leadership (OL) is to build upon the capacities of adult learners to meet both current and future challenges facing their organizations. Organizational leaders must acquire the skills to lead in an increasingly diverse world in the context of a changing economy, growing globalism, and rapidly developing technology. The OL concentration has been designed to meet the needs of practitioners by linking theory to best practices. The curriculum presents students with strategic opportunities to develop professionally and to apply their knowledge and skills to lead organizations effectively into the future.

Concentration Learning Outcomes

Graduates of the Ed.D. program with a concentration in Organizational Leadership will demonstrate proficiency in the following learning outcomes as evidenced by their participation in class, application of problem-based learning, completion of class assignments and presentations, and/or field experiences.

1. Demonstrate understanding of leadership styles and their application in diverse organizational settings. (Knowledge)
2. Apply problem-solving skills to diverse organizational issues and settings. (Problem Solving)
3. Utilize research effectively in acquiring knowledge and formulating solutions. (Research)
4. Apply effective oral and written communication skills using technology where applicable. (Communication)
5. Make informed decisions based on ethical and moral principles. (Ethics)

Program of Study

General Program Requirements 36 credits

Concentration Area Courses (18 credits)

- EDD 8030: Successful Strategic Action Plans (3 credits)
- EDD 8125: Leadership Development through Theory and Practice (3 credits)
- EDD 8510: Leading in a Learning Organization (3 credits)
- EDD 8442: Ethics and Social Responsibility (3 credits)
- EDD 8472: Human Resource Development (3 credits)
- EDD 8511: Leading for Change (3 credits)

Electives (15 credits)

Students fulfill this requirement by completing doctoral level courses offered in any approved concentration, minor area, research or other doctoral level courses.

Or

Minor (15 credits)

Students may elect to pursue a minor by completing a minimum of 15 credit hours of doctoral level courses offered in any approved minor area.

Total Credits for Degree Completion 69 or 72

Concentration Area: Reading (Major Code F513)

The primary goal of the concentration in reading is to prepare students for leadership and lifelong learning in the field of literacy education. The doctoral program combines theory and practice with the goal of equipping its graduates with an in-depth knowledge and practice of accomplishments such as knowledge of subject matter, critical thinking, applied research, continuous improvement, ethical treatment of students, human development and learning, formal and informal assessments, professional development, and higher order cognitive skills.

Concentration Learning Outcomes

Graduates of the Ed.D. program with a concentration in Reading will demonstrate mastery of the following learning outcomes as evidenced by their participation in class, participation in problem-based projects, completion of class assignments and class presentation, and field based experiences. Graduates will be able to:

1. Apply historical and contemporary research findings that address literacy and literacy acquisition.
2. Apply contemporary research findings that address ethical strategies for teaching struggling readers ELL, special needs, and multicultural students.
3. Apply contemporary research findings that address development of international literacy progress.
4. Apply contemporary research findings that address standards, assessment, and high-stakes testing in educational settings.
5. Apply contemporary research findings that identify the development of exemplary teachers.
6. Address issues affecting teaching and learning at various developmental levels.
7. Identify and demonstrate knowledge of the role of literacy coaches and reading specialists.
8. Demonstrate ability to critically evaluate research in theory and practice.
9. Set up and manage literacy programs.
10. Evaluate current research findings concerning special education and reading.
11. Evaluate research findings concerning response to intervention.
12. Apply contemporary research findings that address the history of teacher education and its implication.

Program of Study

General Program Requirements 36 credits

Concentration Area Courses (18-24 credits)

Students with little or no reading background will take the following two courses:

EDD 9001: Advanced Perspectives on Literacy Issues (3 credits)
 EDD 9002: Reading Theory: Research and Practice (3 credits)

Students with a strong reading background can substitute electives for EDD 9001 and EDD 9002

EDD 9003: Advanced Seminar in Foundations of Reading Education (3 credits)

EDD 9004: Teaching Reading in Multicultural Classrooms (3 credits)
 EDD 9005: Literacy Across the Curriculum (3 credits)
 EDD 9006: Reading Intervention: Research and Practice (3 credits)
 EDD 9007: Research and Practice in Literature for K-12 Classrooms (3 credits)
 EDD 9008: Literacy Assessments in K – Grade 4 (3 credits)

Electives (9-15 credits)

Students fulfill this requirement by completing doctoral level courses offered in any approved concentration, minor area, research or other doctoral level courses. The number of hours in this area varies depending upon the student taking 18 or 24 concentration credits based upon the experiential and educational credentialing in reading of the student.

Or

Minor (15 credits)

Students may elect to pursue a minor by completing a minimum of 15 credit hours of doctoral level courses offered in any approved minor area.

Total Credits for Degree Completion 69 or 72

Concentration Area: Special Education (Major Code F879)

The primary goal of the concentration in Special Education is to provide students with a combination of theoretical and action-based learning opportunities; ultimately preparing them to serve as reflective decision-makers in instructional or administrative capacities. This includes those who seek a career as administrators, government policy specialists, college and university teachers, public and private agency or organization directors, program innovators, social planners, and special education consultants.

Course content follows a conceptualized design and facilitates the development of logical, critical, and reflective thinking skills in the areas of teacher collaboration, educational law, transition, assessment and evaluation, administration, and multicultural issues. All full time faculty members are former special education teachers or service providers and have a deep understanding of authentic instructional challenges in real-world contexts. Faculty works closely with students in all aspects of their doctoral preparation; mentoring them through numerous scholarly and professional experiences. The primary audience for the concentration is practicing teachers, administrators, parents or other service providers with a sincere desire to improve opportunities and the quality of life for individuals with disabilities.

Concentration Learning Outcomes

Graduates of the Ed.D. program with a concentration in Special Education will demonstrate mastery of the following learning outcomes as evidenced by their participation in class, participation in problem-based projects, completion of class assignments and class presentation, and/or field based experiences. Graduates will be able to:

1. Implement collaborative teaming approaches for the purpose of decision making related to the application of current research, curriculum development and interagency collaboration with school and agency staff, individuals with disabilities, and family members to improve outcomes attained by individuals with disabilities.
2. Employ analytical skills to identify and resolve problems in the delivery of special education and related services while promoting accountability and school renewal.
3. Employ analytical skills to identify and resolve problems in the effective and ethical delivery of direct services provided by human services agencies; e.g., training in self-determination, independent living, supported employment, advocacy, and associated life skills.
4. Apply the laws, regulations, and policies from the federal, state, and district levels that relate to individuals with disabilities and their families in educational, employment, and other community settings, as well as with regard to advocacy concerns.
5. Synthesize research from peer-reviewed journals to formulate a conceptual and theoretical framework to identify and address challenges that affect individuals with disabilities, to generate potential solutions to challenges, and to understand and influence disability related policies and practices.
6. Utilize current research for the purpose of substantiating ideas posited during academic discourse/discussions in both course participation activities and in subsequent professional settings.
7. Supervise the organization and administration of programs in special education, direct service agencies and/or other organizations that serve individuals with disabilities and their families.

Program of Study

Students fulfill this requirement by completing doctoral level courses offered in any approved concentration, minor area, research or other doctoral level courses.

Or

Minor (15 credits)

Students may elect to pursue a minor by completing a minimum of 15 credit hours of doctoral level courses offered in any approved minor area.

Total Credits for Degree Completion 69 or 72

Concentration Area: Speech-Language Pathology

(Major Code F880)

The primary goal of the concentration in Speech-Language Pathology (SLP) is to provide practicing professionals with an expertise in the area of administration and supervision. The graduates of Speech-Language Pathology will be able to serve as leaders in the profession, develop skills as lifelong learners, become reflective decision makers, and conduct program evaluations. The primary audience for the concentration is practicing speech-language pathologists.

Additional Admission Requirements

- Candidates must provide valid documentation of the Certificate of Clinical Competence in Speech-Language Pathology (CCC-SLP) and a copy of current state SLP license.

Concentration Learning Outcomes

Graduates of the Ed.D. program with a concentration in Speech-Language Pathology will demonstrate mastery of the following learning outcomes as evidenced by their participation in class, participation in problem-based projects, completion of class assignments and class presentation, and/or field based experiences. Graduates will be able to:

1. Apply human resource management techniques to evaluate job performance, develop employees, and manage a diverse work force.
2. Analyze existing laws and policies governing human services organization and identify processes for new policy development including establishing rationales, communicating new policies to stakeholders, and enforcing such policies.
3. Utilize practical applications of organizational theories to manage the resources, budgeting process, and organizational operations of an educational or health care facility.
4. Examine the legal aspects of health care and education as it applies to the profession of speech-language pathology.
5. Develop an understanding of how to detect major changes in speech-language pathology, the knowledge and skills to develop interventions to meet the challenges of change, and the dispositions to implement those changes.

EDD 7913: Curriculum Renewal (3 credits)
EDD 7914: Curriculum Teaching and Technology (3 credits)
EDD 8010: Curriculum and Program Development (3 credits)
EDD 8124: Theories of Learning (3 credits)

Total Credits for Minor Completion 15

- **Early Childhood**

Choose any five of the following courses
(Major Code F803)

- EDD 8611: Best Practices in Programs for Young Children: Pedagogical Applications (3 credits)
- EDD 8612: Critical Issues in Early Childhood Education in the Global Village (3 credits)
- EDD 8613: Families, Children, and Communities in a Multicultural and Diverse Society (3 credits)
- EDD 8614: Current Trends and Issues in Curricular Theory in Early Childhood Education (3 credits)
- EDD 8615: Child Advocacy: Social Concerns in the Global Context (3 credits)
- EDD 8616: Cultural Perspectives and Influences on Child Development (3 credits)

Total Credits for Minor Completion 15

- **Gerontology**

Choose any five of the following courses
(Major Code F885)

- EDD 7607: Concepts and Controversies in Aging (3 credits)
- EDD 7608: Humanities and Aging: An Exploration of Human Potential for Late Life Development (3 credits)
- EDD 7609: The Psychology of Aging: A Study of Humanistic, Transpersonal, and Life-Span Development Theory (3 credits)
- EDD 7610: Social Gerontology: The Sociology of Aging (3 credits)
- EDD 7611: Aging and Ethnicity (3 credits)
- EDD 7612: Biology of Human Aging (3 credits)

Total Credits for Minor Completion 15

- **Human Resource Development**

(Major Code F886)

- EDD 8472: Human Resource Development (3 credits)
- EDD 8570: Principles and Theories of Organizational Development (3 credits)
- EDD 8571: Principles and Theories of Training and Development (3 credits)
- EDD 8572: Principles of Organizational Synergy in Human Resource Development (3 credits)
- EDD 8574: Strategies and Practices for Organization Outcomes Evaluation (3 credits)

Total Credits for Minor Completion 15

- **School Business Leadership**

Choose any five of the following courses
(Major Code F888)

- EDD 8750: School Business Management (3 credits)
- EDD 8751: Operational Planning and Budgeting in Schools (3 credits)
- EDD 8752: Accounting, Auditing and Reporting for School Districts (3 credits)
- EDD 8753: Facility Operations Management (3 credits)
- EDD 8754: Maintenance and Operation of Ancillary Services in School Systems (3 credits)
- EDD 8755: Advanced Budgeting, Planning and Evaluation in Schools (3 credits)

Total Credits for Minor Completion 15

- **Urban Education**

(Major Code F887)

- EDD 8490: Culture of Urban Schools (3 credits)
- EDD 8491: Economics of Urban Education (3 credits)
- EDD 8492: Educational Policy and the Politics of Urban Education (3 credits)
- EDD 8493: Historical Context of Contemporary Urban Schools (3 credits)
- EDD 8494: Teaching, Learning, and Curriculum in Urban Contexts (3 credits)

Total Credits for Minor Completion 15

Doctor of Philosophy in Education

Doctor of Philosophy Mission Statement

The Doctor of Philosophy (Ph.D.) is designed to support the mission of the Fischler School of Education. The program prepares individuals to develop expertise in educational research methods in the areas of measurement, program evaluation, qualitative research methods, and statistics as they are applied in educational and other behavioral sciences. Graduates of the program are prepared for academic positions as research methodologists, corporate positions in research and testing agencies, or government positions as researchers, evaluators, or administrators of research programs in education or other areas of the behavioral sciences. The curriculum and program learning outcomes are grounded in continuous application of a theory-to-practice model that facilitates synergy in work-world settings in order to produce a new generation of local, national, and global research leaders who will effect positive changes in a diverse and multicultural society.

Certification/Licensure

The Doctor of Philosophy (Ph.D.) program is not designed for any certification or licensure at the local, state, regional, or national levels.

Program Learning Outcomes

All students will be able to:

1. Demonstrate ability to use assessment, evaluation, and research data to inform administrative decisions. (Knowledge)
2. Conduct a research study, assessment study, or program evaluation (Application)
3. Demonstrate the ability to effectively communicate the results of a unique study using a variety of media (e.g., written, oral, electronic). (Research)
4. Solve diverse problems using information and skills acquired in the program to create solutions. (Problem solving)
5. Make informed decisions based on ethical and legal principles. (Ethics)

Instructional Delivery Model

Courses in the Ph.D. program are offered online.

Admission Requirements

The following are specific admission requirements for entry into the Doctor of Philosophy program. Please refer to the General Student Information section of the catalog for admission information.

- a. An official transcript from a regionally accredited institution indicating a conferred master's degree with a minimum CGPA of 3.3 and official final transcripts from all graduate coursework.
- b. Three professional letters of recommendation by three different individuals who can attest to the applicant's ability to succeed in a Ph.D. program.
- c. Resumes are required for Ph.D. applicants. In addition to your academic history and relevant work experience, the resume should include any experience you have in teaching and research as well as including a list of all licenses and certifications you may have attained.
- d. A score on either the Miller Analogies Test (MAT) or Graduate Record Examination (GRE®). The test score submitted must have been taken within the past five (5) years (regardless of score).
 - Recommended score on MAT: Submit a test score report showing a raw score of 37(scaled score between 391-396).
 - Recommended score on GRE: scores of 1000 (combined Verbal and Quantitative scales only) **for tests taken prior to August 1, 2011** or GRE scores of 300 (combined Verbal and Quantitative scales only) **for tests taken on or after August 1, 2011**.
- e. Personal statement of goals. The statement of purpose describes your academic and professional goals and any experience relevant to the Ph.D. program. This is an opportunity for you to demonstrate your writing skills as you describe your future plans, expectations, and aspirations.
- f. Personal interview (may be conducted by phone).

International Students

International students wishing to pursue this degree program in the United States may not qualify for a student visa due to its online instructional delivery format. Students should contact an enrollment counselor to discuss their options prior to beginning the application process.

Transfer of Credit

A maximum of nine semester hours of credit will be considered for transfer if (1) the credit was earned within five calendar years of request for transfer, (2) the credit was earned post-Master's degree from a regionally accredited university, (3) the content of the courses requested for transfer is equivalent to the study area courses in the program, (4) the courses were not used towards a prior degree, and (5) a grade of A or B was earned in each of the courses requested for transfer. A grade of P (Pass) of CR (Credit) or other such grade will not be accepted. No credit for experiential learning or other

forms of advanced standing will be granted. Exceptions to the maximum number of transfer credits allowed are made only with the approval of the Office of Academic Affairs.

The student must provide the Office of Academic Affairs with a syllabus and catalog description of the courses for which transfer is sought. Students may be required to provide further documentation and supporting material such as class notes or other materials.

Acceptance of graduate coursework from other colleges and/or universities is not guaranteed. Applicants who wish to request evaluation of prior coursework for consideration as transfer credit should fill out the Transfer of Credit request contained in the application and submit associated course descriptions and official transcripts at the time of application to the doctoral program.

Students currently enrolled in the FSE Ph.D. program should request and receive prior written approval from the Office of Academic Affairs before enrolling in any other institution's courses that are intended to be submitted for transfer credit.

Credits earned at Nova Southeastern University are transferable only at the discretion of the receiving school. Students who wish to transfer credits from NSU should contact the admissions office of the receiving school for information.

Admission to Candidacy

Admission to candidacy for the Ph.D. program requires that a student has completed all coursework and earned a minimum of 54 semester credit hours.

Deposit Policy

Applications are reviewed by the Ph.D. program Admissions Committee based on the date an applicant's file is complete. Select candidates to the Ph.D. program are notified of full admission by mail. Following notification of full admission, a tuition deposit of \$500 will be required as confirmation of admission.

The deposit schedule is August 1 for students admitted for fall and December 1 for students admitted for winter.

Doctoral Program Completion Timeline

Doctoral students are allotted seven (7) years from the initial term of enrollment in which to complete all program/degree requirements (excludes PPO 8000). Students unable to complete all program/degree requirements within this seven (7) year timeframe are subject to dismissal. For exceptions and further information, please refer to the Doctoral Program Completion Timeline Policy (FSE Policy 1.02) in the *Student Handbook* section of the catalog.

Graduation Requirements

Please refer to Graduation in the *General Student Information* section of the catalog to find general degree completion requirements. For questions about any specific program completion requirements contact your Doctoral Enrollment Counselor (DEC).

To complete the Doctorate in Philosophy program a student must:

- complete PPO 8000 new student orientation,
- complete all coursework consisting of a minimum of 75 semester credit hours,
- maintain a minimum overall 3.0 GPA,
- attend a minimum of one Summer Conference,
- successfully complete the dissertation,
- successfully complete the applied research-practicum,
- meet all financial obligations to the university, and
- apply for degree conferral.

Ph.D. Program Orientation (PPO)

The purpose of the Ph.D. program orientation (PPO 8000) is to provide new students with an overview of critical areas in the program to help ensure doctoral student success. New students must complete the orientation meeting held on campus. This noncredit course is a mandatory requirement for all first-year Ph.D. students at NSU's Fischler School of Education. Students may enroll in the orientation simultaneously with the first doctoral course.

Summer Conference

During their second year in the program students are required to attend a one-week, FSE Conference on Global Leadership, Learning, and Research as part of required coursework.

Students who have attended the mandatory summer conference are encouraged to attend an additional conference to enhance their educational experience.

For additional information, please visit the summer conference website at <http://www.schoolofed.nova.edu/summer/>.

Applied Research Practicum

Every Ph.D. student must complete a research practicum. The practicum should occur after completing a minimum of 15 research credits and preferably prior to completion of the dissertation proposal. The practicum is designed to provide students with an opportunity to propose and engage in independent research, closely collaborating with faculty and other research leaders before moving on to the dissertation. The practicum generally results in a journal length research paper. The practicum is designed as a pre-dissertation research experience that would involve identifying a question or issue of interest, designing and conducting the study, and analyzing and reporting the findings. It is assumed that participation in a practicum will provide students with a range of opportunities relevant to conducting educational research.

The research practicum will support students in learning to:

1. Propose a significant question or questions grounded in existing theory and building on or responding to other research in a field of interest;
2. Select, justify, and implement methods appropriate to the question(s) and research context;
3. Gather appropriate evidence/data;
4. Subject the evidence/data to careful analysis;
5. Reassess prior assumptions and conceptualizations in relation to evidence/data gathered and ongoing analysis;
6. Organize and present oral and written reports that are cogent, focused, and logical for a community of scholars;
7. Respond to input and critiques, and provide advice and comments for others' research; and
8. Revise the written report in response to feedback.

A written proposal must be approved by the student's Practicum Advisor. The written proposal should include: (1) a rationale for the study, including a brief literature review; (2) research question(s) or purpose(s); (3) methodology and method, including plans for data analysis; and (4) a brief discussion of educational significance. The student should obtain approval of the practicum proposal and, if applicable, the Institutional Review Board (IRB) prior to beginning the practicum study.

Satisfactory completion of the Practicum requires a written report and an oral presentation approved by the Practicum Committee. The written report should include the following: (1) the rationale for the study, including a review of the relevant literature; (2) research question(s) or purpose(s); (3) methodology and method, including data analysis procedures; (4) findings/presentation of analyses; and (5) a discussion, including implications and limitations.

Dissertation

The dissertation is a detailed, accurate, and cohesive account of a formal, scholarly investigation designed to answer one or more research questions directed toward a significant educational issue. This research is distinguished by a strong theoretical foundation and methodology encompassing a diversity of disciplines and research skills. Each student is assigned a dissertation chair and two committee members to facilitate and supervise the process.

Ph.D. students are required to complete a dissertation as their culminating project and publicly defend that dissertation at a place and time mutually determined by the committee and student. There are two benchmarks in the completion of the dissertation: (1) the prospectus, and (2) the final report.

Ph.D. Concentration and Minor

Ph.D. Concentration

Educational Research and Evaluation

Ph.D. Minor

Systems Analysis

Doctor of Philosophy Program of Study

General Program Requirements

All Ph.D. program students must complete the following recommended program of study. Prerequisites are required for some courses. Total minimum credits required for degree completion is 75 (credits).

**Program of Study

YEAR 1

Term 1 – 9 Credits

- PPO 8000: Ph.D. Program Orientation (0 credit)
PHDE 8000: Historical Development of American Education (3 credits)
EDRE 8100: Methods of Educational Research (3 credits)
EDRE 8200: Introduction to Statistical Methods (3 credits)

Term 2 – 6 Credits

- EDRE 8300: Experimental Design and Analysis Using ANOVA Models (3 credits)
EDRE 8916: Qualitative Research (3 credits)

Term 3 – 6 Credits

- EDRE 8920: Mixed Methods Research (3 credits)
EDRE 9000: Designing Experiments in Educational Research (3 credits)

YEAR 2

Term 4 – 6 Credits

- EDRE 8913: Program Evaluation (3 credits)
EDRE 9100: Applied Nonparametric Statistics (3 credits)

Term 5 – 6 Credits

- EDRE 9300: Multivariate Statistics (3 credits)
EDRE 9400: Measurement Theory and Test Construction (3 credits)

Term 6 – 6 Credits

- ARC 9350: **Teaching Research Evaluation and Development (3 credits)
EDRE 9150: Data-Driven Decision Making in Education (3 credits)

YEAR 3

Term 7 – 6 Credits

- EDRE 9500: Large-Scale Assessment: Procedures and Practice (3 credits)
EDRE 8950: **Policy Analysis in Education (3 credits)

Term 8 – 7 Credits

- EDRE 9600: Applied Research Practicum (4 credits)
EDRE XXXX Research Elective (3 credits)

Term 9 – 7 Credits

- ARC 8970: **Research Dissertation Prospectus (4 credits)
EDRE XXXX Research Elective (3 credits)

YEAR 4

Term 10 – 8 Credits

- ARC 8980: **Research Dissertation I (8 credits)

Term 11 – 8 Credits

- ARC 8981: **Research Dissertation II (8 credits)

**Courses in Development

Total Credits for Degree Completion 75

Doctor of Speech-Language Pathology (SLP.D.)

(Major Code F837)

The doctor of speech-language pathology (SLP.D.) is designed to foster the continued academic education of speech-language pathologists pursuing an advanced, professional doctoral degree. This program fosters the development of knowledge, leadership, and problem-solving skills through the curriculum which incorporates current research, ethical decision-making, and models of best practice. Doctoral students are encouraged to analyze, synthesize, and apply research-based theory to their current work environment and through the development of the applied dissertation.

Doctor of Speech-Language Pathology Mission Statement

The mission of the doctoral program in Speech-Language Pathology (SLP.D.) is to foster the continued academic education of speech-language pathologists pursuing an advanced, professional doctoral degree. Within the curriculum, the faculty incorporates current research, ethical decision-making, and models of best practice to foster knowledge, leadership, problem-solving skills and research. Doctoral students are encouraged to analyze, synthesize, and apply research-based theory to their current work environment and through the development of the applied dissertation process. The program fulfills a commitment to society by providing practicing clinicians a variety of forums to keep their knowledge base current by allowing a flexible schedule for obtaining doctoral education and providing an environment that nurtures the development of current practitioners and future leaders.

Program Learning Outcomes

The SLP.D. graduate entering the profession will be able to do the following:

1. Demonstrate knowledge learned in the program by applying it to real settings (Knowledge)
2. Conduct an independent research investigation that contributes to the general body of knowledge in a specific field or profession. (Research)
3. Solve diverse problems using information and skills acquired in the program to create solutions. (Problem Solving)
4. Make informed decisions based on ethical and legal principles. (Ethics)
5. Formulate scholarly arguments supported by academic resources. (Communication)
6. Engagement in lifelong learning and self-assessment. (Lifelong Learning)

Instructional Delivery System

The Cohort Concept

The SLP.D. program is an online program that represents an innovative, practical, and realistic approach to professional doctoral studies. A new cohort is developed once a year that consists of 15 to 20 speech-language pathology professionals who live and work in a variety of settings. The cohort follows a program of study for matriculation through the courses. The cohort is intended to serve as both an administrative and educational vehicle for the program. The cohort format provides opportunities for sharing the expertise of individual cohort members and fosters professional dialogue.

The online format is provided to each cohort which includes formal instruction as delivered through hybrid (live/online), online and one live summer course. The hybrid instructors teach from the Ft. Lauderdale main campus. For these hybrid classes students are provided with software which allows them to hear and view (instructor / class) online. Students participate in faculty-directed independent reading and writing assignments between class meetings.

During the first summer in the program, all students are required to attend a weekend long SLP.D. class in addition to the Conference on Global Leadership (Florida location). As part of the summer conference students will enroll in a three credit research course.

Admission Requirements

The following are specific admission requirements for entry into the doctoral program in Speech-Language Pathology. Please refer to the *General Student Information* section of this catalog for additional admission information.

- a. Completed admission application packet, including \$50 nonrefundable application fee made payable to Nova Southeastern University
- b. Official transcripts indicating conferral of a master's degree by a regionally accredited institution (minimum 3.2 grade point average required)
- c. Official transcripts from all previously attended postsecondary institutions
- d. Copy of current vitae/resume
- e. Two professional letters of recommendation by two different individuals who can attest to the applicant's ability to succeed in a doctoral program
- f. Valid documentation of the Certificate of Clinical Competence in Speech-Language Pathology (CCC-SLP) and a copy of current state SLP licensure
- g. Written responses to questions/essays provided in the application
- h. Oral interview
- i. A test score report showing that the applicant received a raw score of 37 (scaled score 391–396) on the Miller

Analogies Test (MAT) or GRE scores of 1000 (combined Verbal and Quantitative scales only) **for tests taken prior to August 1, 2011**, or GRE scores of 300 (combined Verbal and Quantitative scales only) **for tests taken on or after August 1, 2011**. The test must have been taken within the past five years. If the score falls below the minimum requirement, the applicant must submit a rationale, in essay format, providing an explanation of why scores do not reflect the applicant's academic potential.

Transfer of Credit

A maximum of nine semester hours of post-master's degree, doctoral-level credit, earned from a regionally accredited institution within the past 5 years, will be considered toward meeting the doctoral programs' degree requirements. Grades for courses transferred must be at the grade of A or B or equivalent. Acceptance of transfer credit is not guaranteed.

Applicants who wish to request evaluation of prior coursework for consideration as transfer credit should note this on their application, send course descriptions, and request that official transcripts be sent to the Programs in Speech-Language and Communication Disorders. Current doctoral candidates should request and receive prior written approval from the associate dean of speech programs before enrolling in any other institution's courses that are intended to be submitted for transfer credit. This request should include an explanation and related course description(s).

Credits earned at Nova Southeastern University are transferable at the discretion of the receiving school. Students who wish to transfer credits from NSU should contact the admissions office of the receiving school for information.

Doctoral Program Completion Timeline

Doctoral students are allotted seven (7) years from the initial term of enrollment in which to complete all program/degree requirements (excludes DSO 8000). Students unable to complete all program/degree requirements within this seven (7) year timeframe will be subject to dismissal. For exceptions and further information, please refer to the Doctoral Program Completion Timeline Policy (FSE Policy 1.02) in the Student Handbook section of the catalog.

Doctoral Studies Orientation (DSO)

The purpose of the Doctoral Studies Orientation (DSO 8000) is to provide an overview of six areas critical to helping ensure success for doctoral students beginning the Ed.D. program. This noncredit course is a mandatory requirement for all doctoral students in NSU's Abraham S. Fischler School of Education. Students should register for and complete the online DSO modules prior to beginning their first doctoral course. For additional information, please visit the DSO Web site at <http://www.fischlerschool.nova.edu/doctoral-studies-orientation/dso-home>

Summer Conference

During the first year in the program students who have completed at least one term of study are required to attend a one-week, FSE Conference on Global Leadership, Learning, and Research as part of required coursework.

Students who have attended the mandatory summer conference are encouraged to attend an additional conference to enhance their educational experience.

For additional information, please visit the summer conference website at <http://www.schoolofed.nova.edu/summer/>.

Applied Dissertation

The applied dissertation is a detailed, accurate, and cohesive account of a scholarly investigation designed to answer a research question directed toward the improvement of practice in education and human services. Research is distinguished by a theory-to-practice model encompassing a diversity of disciplines. Each student is assigned a faculty committee to facilitate and supervise the process.

Ed.D. students are required to complete an applied dissertation as their culminating project. Students should visit the Applied Research Center (ARC) Web site at <http://www.fischlerschool.nova.edu/applied-research/arc>, for more information about procedures, resources, and guidelines. There are three benchmarks in the completion of the applied dissertation: (1) the concept paper, (2) the dissertation proposal and Institutional Review Board (IRB) approval, and (3) the dissertation.

Doctoral students are reminded (a) if enrolled in Applied Dissertation Services for the current term in which the dissertation report was graded, the degree will be awarded at the end of the term, and (b) students must be enrolled in Applied Dissertation Services during the final format review process, and (c) that the format reviewers, and/or the dissertation committees frequently require revisions and corrections, and that these revisions must be made before the dissertation is ready for final submission to the ARC and subsequent binding.

Graduation Requirements

Please refer to Graduation in the *General Student Information* section of the catalog to find all degree completion requirements. Any specific program completion requirements can be located within your concentration or contact your Doctoral Enrollment Counselor (DEC).

To complete the Doctorate in Speech-Language Pathology program a student must:

- successfully complete DSO 8000: Doctoral Studies Orientation,
- attend the mandatory summer conference,
- complete all required coursework,
- attain an overall 3.0 GPA,
- complete an applied dissertation,
- submit a degree application form and payment of diploma fee, and
- fulfill all financial obligations to the university.

All students must submit a Degree Application <http://www.nova.edu/registrar/instructions.html>

Important Note: Once a degree is conferred, it cannot be retroactively changed to another degree plan for any reason. Before choosing a degree program, applicants are strongly encouraged to contact their state department of education, teacher certification/licensure office for specific certification requirements for the state where they intend to teach.

Program of Study

DSO 8000: Doctoral Studies Orientation (0 credit)
ARC 9300: Research Evaluation and Development (Summer Conference) (3 credits)

Core Courses

SLPD 7000: Technology and Instrumentation in Communication Sciences (1 credit)
SLPD 7030: Gerontology (2 credits)
SLPD 7040: Supervision (3 credits)
SLPD 7060: Genetics (2 credits)
SLPD 7070: Pharmacology (2 credits)
SLPD 7075: Counseling (2 credits)
SLPD 7080: Business Management and Leadership (2 credits)
SLPD 7200: Neuroscience/Neuropsychology and Communication Disorders (3 credits)
SLPD 7210: Advanced Seminar in Pediatric Development (3 credits)
SLPD 7220: Advanced Seminar in Voice and Swallowing (3 credits)
SLPD 7250: Advanced Seminar in Augmentative and Alternative Communication (AAC) (3 credits)

Research Courses (12 credits)

EDD 9300: Methods of Inquiry (6 credits)
ARC 8912: Statistical Methods (3 credits)
Choose one of the following
ARC 8913: Program Evaluation (3 credits)
ARC 8915: Survey Research (3 credits)
ARC 8919: Single Subject Research (3 credits)

Benchmark Courses

ARC 8966: Applied Dissertation Service 1: Concept Paper (2 credits)
ARC 8967: Applied Dissertation Service 2: Dissertation Proposal (5 credits)
ARC 8968: Applied Dissertation Service 3: Final Report (5 credits)
ADS 8091: Applied Dissertation Continuing Services (1 credit)

Total Credits for Degree Completion 53

Doctoral Degree Course Descriptions

ADS 8091 Applied Dissertation Services (1 Cr)

Dissertation services for continuing doctoral students previously enrolled in ADS 8090 who did not complete the applied dissertation. ADS 8091 is also for currently enrolled students who are entering the 37th month of the doctoral program. Students are responsible for registering for ADS 8091. Service fees will apply. **Prerequisite/s: None**

ARC 8911 Research Design and Methods (3 Cr)

The purpose of the Research Design and Methods course is for doctoral students to demonstrate an understanding of the purpose of research, research design, and research methods. Research is the application of the scientific method to solving real world problems; research design is the plan for the application of accepted practices; and research methods provides models for the appropriate collection, organization, and analysis of unbiased data for decision making, replication, and to contribute to the knowledge base. **Prerequisite: EDD 9300**

ARC 8912 Statistical Methods (3 Cr)

Statistical Methods is a course in applied statistics that will introduce concepts and methods in descriptive and inferential statistics. The course is designed to provide students with the statistical background required for doctoral-level research while emphasizing the application of statistics. **Prerequisite: EDD 9300**

ARC 8913 Program Evaluation (3 Cr)

This course will examine key concepts, methods, and approaches in the field of evaluation research. Students will be exposed to the theoretical and methodological diversity inherent in current evaluation practices across a number of substantive areas (e.g., social services, education, and business). The comprehensive range of activities involved in designing, implementing, and assessing the utility of social and educational programs will be a primary focus of the course. **Prerequisite: EDD 9300.**

ARC 8914 Educational Assessment (3 Cr)

Course emphasis will be on equipping students with the necessary conceptual and technical understandings of the process of assessing individuals, as well as developing skills for formulating, conducting, and reporting educational assessments. Students will have the opportunity to conduct scholarly and professional reviews of assessment instruments and a variety of assessment studies. Students will also learn to integrate classroom assessment into instructional planning to improve student learning. Secondary foci of the course are writing instructional objectives, developing test items of various types, constructing rating scales and rubrics, and interpreting student performance. Statistical and psychometric concepts in assessment will be covered. This course will also explore the use of test and other assessment results in making instructional and placement decisions. Attributes of assessment practices, such as reliability and validity, will be discussed. **Prerequisite: EDD 9300.**

ARC 8915 Survey Research (3 Cr)

The Survey Research course is designed to provide doctoral students with an overview of survey research methods. Topics in the course will include survey design, implementation, sampling, data collection, follow-up, analyses, and ethics. Students will design a pilot survey in preparation for their dissertation research. **Prerequisite: EDD 9300.**

ARC 8916 Qualitative Research (3 Cr)

The purpose of the Qualitative Research course is to introduce doctoral students to the principles of research methods. The course content includes in-depth and formal interviewing techniques, principles of field observation, content analysis, literature reviews, historical analysis, focus groups, questionnaire design, and philosophical inquiry into qualitative research perspectives. Major emphasis in the course is placed upon learning how to integrate qualitative methods as appropriate. **Prerequisite: EDD 9300.**

ARC 8917 Advanced Program Evaluation (3 Cr)

This course is intended to provide students with an in-depth and comprehensive foundation in advanced program evaluation methods. Topics will include the development and use of logic models, as well as the use of quasi-experimental and randomized designs in evaluation research. A wide range of data-collection procedures, including conventional (e.g., systematic surveys) and unconventional (e.g., trained observer ratings) will be highlighted. The course will introduce a range of strategies for analysis of evaluation data that will facilitate the use of statistical procedures in evaluation research, address qualitative approaches to analysis of evaluation data, and provide guidance on the application of cost effectiveness and cost-benefit techniques in program evaluation. **Prerequisite: EDD 9300 and ARC 8913.**

ARC 8918 Advanced Statistical Methods (3 Cr)

This course is designed to provide students with an in-depth knowledge and application of sophisticated statistical procedures used in education and human services. Areas that will be covered will include factorial analysis of variance (ANOVA), univariate ANOVA post hoc tests, analysis of covariance (ANCOVA), repeated measures analysis, simple linear and multiple regression and power analysis. In addition, the course will encompass a review of select multivariate statistical techniques. This course will emphasize the application of these statistical procedures to real world situations that students may encounter in their research or work setting. **Prerequisite: EDD 9300 and ARC 8912.**

ARC 8919 Single Subject Research (3 Cr)

This course covers basic concepts and methods employed in single-subject research. Participants will learn about single-subject research designs including the case study, AB and its variations, changing criterion, multiple baseline, and alternating treatment. Important factors in designing and critically reviewing single-subject research will be presented, along with options for analyzing data from single-subject research studies. Ethical issues in single-subject research will also be reviewed. **Prerequisite: EDD 9300**

ARC 8920 Mixed Methods Research (3 Cr)

Mixed Methods is a course in research design that will introduce the concepts and methods of mixed methods approaches (i.e., incorporating both quantitative and qualitative methods) to research. The course is designed to provide students with the foundation and conceptual understanding of utilizing mixed methods in doctoral-level research. **Prerequisite: EDD 9300, and ARC 8912 or ARC 8916.**

ARC 8966 Applied Dissertation Service 1: Concept Paper (2 Cr)

The content of Applied Dissertation Services 1 focuses on formulating research questions and writing the concept paper. The committee chair and member roles are discussed as well as the roles and responsibilities of the Applied Research Office faculty and staff. This seminar will culminate in the completion of the first corresponding benchmark, the concept paper. Credit for this seminar will be assigned following approval of the concept paper. **Prerequisite/s: None**

ARC 8967 Applied Dissertation Service 2: Dissertation Proposal (5 Cr)

The content of Applied Dissertation Services 2 emphasizes the formulation and writing of the dissertation proposal and the process for IRB approval. Methodology and content for each of the proposal chapters are defined, including a thorough discussion of the roles of the literature review to support or refute the dissertation topic. This seminar focusing on scientific inquiry will culminate in the completion of the second corresponding benchmark, the applied dissertation proposal. Credit for this seminar will be assigned following approval of the proposal. **Prerequisite/s: None**

ARC 8968 Applied Dissertation Service 3: Final Report (5 Cr)

Applied Dissertation Services 3 involves data collection/implementation, the applied dissertation (final report) and the final approval process. Content and format issues, as well as recommendations for further research, are highlighted. Dissemination of the dissertation and possible outlets for publication are covered. This seminar will culminate in the completion of the third corresponding benchmark, the applied dissertation (final report). Credits for this seminar will be assigned following approval of the applied dissertation (final report). **Prerequisite/s: None**

ARC 9300 Research Evaluation and Development (3 Cr)

Focuses on research design, implementation, and analysis and its place in leading educational change. The course requires a one week face-to-face component at the annual summer conference with both national and international research leaders and members of the student's dissertation committees. The course also includes both pre-and post-conference activities and assessment. **Prerequisite: EDD 9200**

ARO 8666 Applied Dissertation Concept Paper – ITDE (2 Cr)

The content of applied dissertation concept paper focuses on formulating research questions and writing the concept paper. The committee chair and member roles are discussed as well as the roles and responsibilities of the Applied Research Center faculty and staff. This seminar will culminate in the completion of the first corresponding benchmark, the concept paper. Credit for the seminar will be assigned following approval of the concept paper. **Prerequisite/s: None**

ARO 8667 Applied Dissertation Proposal – ITDE (5 Cr)

The content of applied dissertation proposal emphasizes the formulation and writing of the dissertation proposal and the process for Institutional Review Board (IRB) approval. Methodology and content for each of the proposal chapters are defined, including a thorough discussion of the role of the literature review to support or refute the dissertation topic. This seminar focusing on scientific inquiry will culminate in the completion of the second corresponding benchmark, the applied dissertation proposal. Credit for this seminar will be assigned following approval of the proposal. **Prerequisite/s: ITDE 8666**

ARO 8668 Applied Dissertation Report – ITDE (5 Cr)

Applied Dissertation Report involves data collection/implementation, the applied dissertation (final report), and the final approval process. Content and format issues, as well as recommendations for further research, are highlighted. Dissemination of the dissertation and possible outlets for publication are covered. This seminar will culminate in the completion of the third corresponding benchmark, the applied dissertation (final report). Credit for this seminar will be assigned following approval of the applied dissertation (final report). **Prerequisite/s: ITDE 8667**

DSO 8000 Doctoral Studies Orientation (0 Cr)

The doctoral studies orientation seminar conducted online provides students with an overview of four distinct areas related to doctoral studies: applied research, technology, distance library, and student services. Attendance at this non-credit seminar is required for all students entering a doctoral program at FSE, and must be completed within three months of enrollment in the first doctoral course. **Prerequisite/s: None**

EDD 6000 Portfolio in Instructional Technology and Distance Education (3 Cr)

Portfolio of artifacts from ITDE MS program; Reflection and reaction to ITDE MS program learning outcomes; Collection of course materials, Development of a personal philosophy. **Prerequisite/s: None**

EDD 7005 Instructional Media (3 Cr)

An introduction to the effective use of instructional media. Major topics include planning for instructional media use, visual communication, audio and motion media, computers as tools for learning, and evaluating the effectiveness of instructional media. **Prerequisite/s: None**

EDD 7007 Principles of Distance Education (3 Cr)

Historical, theoretical, and philosophical foundations of distance education; an overview of distance education technologies; an exploration of the literature of the field, and an examination of effective techniques for teaching and learning within a distance education system. Because students learn about the field of distance education while learning how to be effective distance educators and distance learners, the course is foundational for the ITDE concentration as well as for graduate study at a distance. **Prerequisite/s: None**

EDD 7040 Clinical Supervision (3 Cr)

The identification and analysis of the process of supervision along the continuum of supervision from support personnel to peer will be examined. Topics will include planning and executing the supervisory conference, data collection procedures, and evaluation. The research in the field of supervision will be examined with an emphasis on practical applications. The impact of cultural diversity on supervision will be addressed. **Prerequisite/s: None**

EDD 7042 Advanced Applications in Technology in Communication Sciences and Disorders (3 Cr)

This course presents technological applications to support scholarship and advanced clinical practice in the field of speech-language pathology. Students will gain experience in utilizing information technology, and will learn a systematic approach for

information synthesis. Software for data organization and analysis will be discussed along with bibliographic referencing tools. Students will gain insight into current thinking on technology for the development of professional presentations and distance education. Technological applications for clinical practice settings will also be explored. **Prerequisite/s: None**

EDD 7043 Regulatory, Legislative, and Educational Trends in Communication Sciences and Disorders (3 Cr)

This course will address the historical, ethical, and legal issues and trends in speech-language pathology. This course will increase student's understanding of current professional issues pertaining to such matters as standards of practice, ethics, scope of practice, legislative mandates affecting the professions, professional service delivery systems, healthcare reimbursement issues, licensure and certification, participation in professional organizations, and professional advocacy. **Prerequisite/s: None**

EDD 7123 Digital Media for Instructional Technology and Distance Education (3 Cr)

Designing digital media for classroom and online instruction will be the first unit of this course, with primary emphasis on planning, designing, producing, and publishing digital media instruction. The second unit will deal with planning, producing, and teaching with digital audio. Unit three will present strategies for planning, producing and teaching with digital photography in a variety of instructional settings, and the final unit will present strategies for planning, producing, and teaching with digital video lessons that incorporate narration, still pictures, and live motion video into a single concept lesson. Topics covered will include basic terminology, file formats, scripting and storyboarding, equipment and software for digital media, and digital media for teaching and learning. **Prerequisite/s: EDD 7005**

EDD 7607 Concepts and Controversies in Aging (3 Cr)

This course will provide a focus on the major concepts and controversies currently being debated in the field of gerontology. Learners will explore concepts of aging, health care, and society; some of the social and economic outlooks for our aging society; and the life course perspective. Some of the controversies will include such topics as health care rationing, elder abuse and neglect, the right to die, changing notions of retirement, creativity and aging, old age and the quest for meaning. **Prerequisite/s: None**

EDD 7608 Humanities and Aging: An Exploration of Human Potential for Late Life Development (3 Cr)

This course will develop a greater sensitivity to and understanding of aging through a sampling of humanities subjects, e.g., literature, history, which pertain to the process of aging. Through literature, poetry, etc., students will gain the special perspective on being human that study of the humanities develops. In addition to readings in the humanities, the course will make use of autobiography and narrative descriptions of famous and ordinary older adults, as well as explore the growing use of reminiscence and life review in research and practice with older adults. The course will also call upon each participant to do some narrative and autobiographical writing. **Prerequisite/s: None**

EDD 7609 The Psychology of Aging: A Study of Humanistic, Transpersonal, and Life-Span Development Theory (3 Cr)

This course will focus on the human development theories that provide the underpinning for a humanistic approach to aging. The humanistic approach is closely associated with the term 'conscious aging', which implies that in addition to the nature of aging as a biological and sociological phenomenon, there is a developmental path that includes the psychological and the spiritual. Students will engage in exploring this holistic perspective that includes learning the theoretical frameworks associated with Abraham Maslow, Carl Rogers, and Ken Wilber, as well as life-span theory. **Prerequisite/s: None**

EDD 7610 Social Gerontology: The Sociology of Aging (3 Cr)

This course will provide a sociological perspective on the aging process. Students will examine the impact of social and cultural conditions on older adults as individuals and as groups (cohorts). The class will focus particularly on social policy through the lens of race, gender, and class. This course will seek to provide the learner with an ability to critically analyze the institutions that provide care and services to older adults, i.e. long term care facilities, hospitals, senior centers, etc. In addition, students will gain insight and analysis of the major social policies affecting older adults, with emphasis on social security. **Prerequisite/s: None**

EDD 7611 Aging and Ethnicity (3 Cr)

While all human beings age, human beings age differently. The focus of this course will be to illuminate the role of cultural diversity in the aging process. Providing services to older adults are significantly affected by providers' cultural competence. Cultural beliefs and values impact how older adults learn and have access to and/or process information. The quality of service may be greatly influenced by understanding or misunderstanding the ethnic beliefs and values of older adults. This course will teach learners how aging and ethnicity affects how we serve older adults. The course will also help learners become better acquainted with their own cultural beliefs and values, as they learn about the cultural beliefs and values of a wide variety of ethnicities. **Prerequisite/s: None**

EDD 7612 Biology of Human Aging (3 Cr)

This course will provide fundamental knowledge about the biology of human aging for those with little or no background in biology. While aging is a fact present in all human lives, there are common misconceptions as to what aging is, how we age, and why we age. There are also controversial and ethical issues associated with scientific explorations into extending our life spans. We will therefore be examining the impact of the science of aging on human life; the use of medical technology and its impact on mitigating aging. We will learn about the many theories of aging; examine healthy aging, and the diseases that most commonly affect us as we grow older. We will also look at the effects of aging on several body systems, and the effect of environment on aging within the context of how purpose and meaning are formed and challenged as human beings grow older. **Prerequisite/s: None**

EDD 7710 Principles and Theories of Adult Education (3 Cr)

This course examines the range of theoretical and practical approaches to the education of adults. Topics include adult motivation for learning; innovative instructional approaches for adults; the practice of andragogy and andragogical roots of the contemporary adult education movement; evolving opportunities in workplace learning, for-credit and non-credit adult learning options in universities and community colleges; and informal learning in adulthood. **Prerequisite/s: None**

EDD 7711 History and Philosophy of Adult Education (3 Cr)

This course provides a broad foundation for the study of adult education based on the historical, philosophical, and theoretical constructs that have influenced the practice of adult education and the adult education movement in the past and continuing into the 21st century. The course examines the historical context of adult education and explores the philosophical perspectives that have influenced and continue to develop current approaches to the education of adults. The course also examines theory building in adult education and the influences of research, reflection, and collaboration on theory construction, revision, and dissemination. **Prerequisite/s: None**

EDD 7712 Contextual Issues Affecting Adult and Continuing Education (3 Cr)

This course presents a comprehensive view of lifelong learning and its critical implications for learners and leaders in the field of adult and continuing education. The course addresses current contexts, emerging challenges, and evolving opportunities in the field of adult and continuing education from a practitioner-oriented perspective. Course participants will examine a variety of adult learning contexts including community-based programs, prison education, and innovative higher education applications. In addition, participants will analyze emerging challenges including demographic, economic, political, ethical, and socio-cultural changes influencing the practice of adult education. **Prerequisite/s: None**

EDD 7713 Adult Development and Learning Styles (3 Cr)

This course will examine the developmental nuances of adult learning, with specific emphasis on the relationship between life stages and challenges and their influence on adult learning. Additional topics include current and evolving theories of adult cognition and learning, including learning styles; learning modalities and multiple intelligences; adult learners with physical and/or mental disabilities; and practical approaches to integrating technology into the instruction of adults. **Prerequisite/s: None**

EDD 7714 Adult and Continuing Education Program Planning (3 Cr)

This course examines adult education program planning, curricular and administrative opportunities and challenges, and innovative instructional techniques designed to promote access to adult learning. Topics include participation research, innovative approaches and techniques to marketing adult educational programs, and distance learning technologies as well as program planning for adults in a variety of settings. **Prerequisite/s: None**

EDD 7810 The Nature of Conflict in Society (3 Cr)

The course focuses on applying mediation in various conflicts that exist in today's society. Students explore the human and emotional aspects of conflict, and include the dynamics of family, intercultural and workplace conflict. **Prerequisite/s: EDD 7811**

EDD 7811 Theories and Principles of Conflict Resolution (3 Cr)

This course presents the major theories and contexts of conflict resolution. It provides an overview of the nature of conflict and problem-solving strategies applied to different conflict scenarios. Using a team approach, students will formulate an action plan based on a theoretical framework of conflict resolution. **Prerequisite/s: None**

EDD 7812 Strategies and Models of Mediation and Negotiation (3 Cr)

This course examines the nature, varieties, causes, and manifestation of organizational conflict. Students apply alternative resolution techniques and theories at the organizational level as facilitative leaders. **Prerequisite/s: EDD 7811**

EDD 7813 Managing Organizational Conflict (3 Cr)

This course proves the students with an opportunity to apply antecedent conflict resolution knowledge and skills focusing on a specific interpersonal, group, or systemic conflict situation. Using a research-based approach, the student analyzes the dynamics, the nature, and the strategies of transformation or resolution of the conflict. **Prerequisite/s: EDD 7811**

EDD 7814 Special Topics in Conflict Resolution (3 Cr)

This course proves the students with an opportunity to study in depth an area of conflict or violence. Included in the range of study topics are violence in the schools, family violence, violence in the work place, divorce and custody conflicts, cultural terrorism, victim-offender conflicts, etc. Violence intervention and prevention strategies developed for interpersonal, group and societal levels will be examined. **Prerequisite/s: EDD 7810, EDD 7811, EDD 7812, and EDD 7813**

EDD 7912 Curriculum Articulation (3 Cr)

This course will introduce students to collaboratively and systematically weigh key factors, such as: the mandates of national, state and local educational standards, professional licensing requirements, educational benchmarks, grade-level expectations, and course content when making decisions about curriculum and instruction across grade-level progression in both, the K-12 and higher education systems. The relationships between these factors will be discussed in order to demonstrate the significance of a well-designed articulation process that educational institutions must implement in order to assure the successful progression of students across their academic coursework. The course will focus on developing a practical approach to policy development in curriculum and instruction based on an integrated system that aligns curriculum, instruction, standards, assessment, content, and accountability across time. Topics such as grade-level content specifications, promotion requirements, and interdisciplinary approaches will be discussed. **Prerequisite/s: None**

EDD 7913 Curriculum Renewal (3 Cr)

This course will provide the foundation for decisions regarding curriculum renewal and student achievement. Various sources of input will be stressed as the basis for curricular decision making, the need to renew various aspects of curriculum based upon student achievement of the goals and objectives of the curriculum, the articulation of the curriculum, and the instruction strategies employed, and the stakeholders in the curriculum development process. A practical approach will emphasize drawing accurate inferences about what students know and are able to do as the basis for curriculum renewal and the scope and sequence of the curriculum in an educational program. **Prerequisite/s: None**

EDD 7914 Curriculum Teaching and Technology (3 Cr)

This course will focus on the integration of curriculum, teaching, and instructional technology. The topics will include teaching with emerging technologies; development of media, integration of technology into the curriculum; evaluating the use of technology using rubrics; distance education; course design and online teaching; diffusion of innovations; and production of media for teaching. **Prerequisite/s: None**

EDD 8000 Foundations of Graduate Studies in Education (3 Cr)

This course is a first-term, academic writing and preparatory experience for EDD students entering the Abraham S. Fischler School of Education. The course focus is on academic writing and the creation of academic works commonly found in Fischler doctoral programs; managing time effectively when adding a doctoral program to the student's existing schedule; developing a peer doctoral support network; accessing critical NSU resources; and mastering APA and Nova citation and reference style. **Prerequisite/s: None**

EDD 8001 Instructional Design (3 Cr)

This course is a practical experience in the systematic design of instruction. Major topics include the assessment and analysis of needs, performance improvement, the systematic design of instructional materials and events, and the formative and summative evaluation of instructional materials. Students will produce and formatively evaluate an instructional unit. **Prerequisite/s: None**

EDD 8002 Surviving Change: Politics, Power, Money, and the Law (3 Cr)

This course investigates the relationship between leadership roles and decision-making in the current and emerging contexts of politics, position power, legal, and economic factors, and the results of creating change through effective policy development in educational institutions. The student will learn to apply techniques and theories of policy development and will engage in educational policy analysis. Local, state, and federal political systems are examined to determine the influence these systems have on current and future policies in education. **Prerequisite/s: None**

EDD 8006 System Analysis and Design (3 Cr)

An advanced course providing skills for the analysis and design of educational and instructional systems. Major topics include critical elements in the structure of a distance education delivery system; analysis of educational systems and instructional systems; relationship of subsystems within an educational system; design of an educational system; design of instructional systems; and evaluation and continuous improvement of a system. **Prerequisite/s: None**

EDD 8007 Governance and Management in Higher Education (3 Cr)

Governing institutions of higher education presents a multiplicity of challenges for administrators and educational leaders. Each discipline or guild within an institution of higher education responds to its own professional demands, rules and guidelines and is also protected by those rules and guidelines. Encompassing all guilds into one working unit requires acute problem solving skills in the areas of policy, financial management, and distribution as well as fair evaluation. This course explores governance and management theories, research, and practices for effective leaders and managers. Practical experience is afforded through the development of a management style for a particular institution of higher education. Mission, vision and values for governance as well as planning, quality, assessment & evaluation for institutional effectiveness, innovation, accountability and methods of organizational change are explored. **Prerequisite/s: None**

EDD 8008 Principles of Instructional Technology (3 Cr)

An exploration of the historical, theoretical, and philosophical foundations of instructional technology and an examination of the literature and status of the field. **Prerequisite/s: None**

EDD 8010 Curriculum and Program Development (3 Cr)

This course will provide an understanding of how curriculum is developed and implemented based on the research of learned bodies, issues in our society, and work place needs. The course will review what knowledge is and who decides what knowledge is important within each curricula area. The students will analyze various conceptions of curriculum standards, reform movements in education, principles of curriculum planning, past and present curriculum trends, and the interaction of curriculum with instruction generalized across settings. Foundations of curriculum and the steps for developing curriculum will be emphasized. **Prerequisite/s: None**

EDD 8012 Managing and Evaluating Instructional Technology and Distance Education (3 Cr)

Theories and methods of planning, operating, and evaluating instructional technology and distance education are studied and applied to case studies. This course explores the process for managing ITDE programs in educational and corporate settings, and emphasizes the principles of staff training, proposal development, and legal issues of the ITDE manager. **Prerequisite/s: None**

EDD 8020 Continuing Education for the Health Care Professions (3 Cr)

This course will cover the changing roles of health care educators as facilitators, innovators, leaders, consultants, and instructional designers. Fundamental principles of teaching and learning are covered, so that the health educator can learn to be effective while teaching colleagues in a continuing education setting, students in the classroom, and patients in clinical settings. Besides developing a multiskilled and flexible workforce, lifelong learning and adult education principles form a foundation for consideration of technologically based educational delivery systems and career and professional development patterns. Implications for education and training caused by operational restructuring of health care organizations and patient care delivery are studied. The purpose, benefits, and goals of health care education; the nature of the educational process; and the role of the health care practitioner as educator are examined. Online group interaction is emphasized. **Prerequisite/s: None**

EDD 8021 Contemporary Theories in Health Care Education and Promotion (3 Cr)

This course combines the use of case studies, discussion of seminal publications, and evaluation of recent publications in Instructional Design to allow the student to become a knowledgeable consumer of research and a researcher in the field of instructional design. Discussion of articles will encourage an evaluative view of the field's principles, while analysis of case studies will allow students to apply theory and research to realistic situations. **Prerequisite/s: None**

EDD 8022 Trends in Health Care Policy (3 Cr)

This course explores contemporary issues of health care organizations and institutions. The course will examine current trends and issues in health care policy and health care education. Students will be responsible for researching and presenting contemporary issues affecting today's health care and health care organizations. The course examines major trends in health care education and policy that determine the role and future of health care as well as health care educators. Topics include challenges in provision of health services; health care reform; managed health care systems; mortality trends; public health; political aspects of health care; elderly health care; health care safety; long term health care; disease trends; mental health concerns; health behavior; economics of health care; reproductive health; alternative medical therapies; and complementary medical approaches. Disease trends and determinants of health and illness will also be examined. **Prerequisite/s: None**

EDD 8023 Ethics and Professionalism in Health Care (3 Cr)

This course is designed to provide an understanding of essential ethical considerations in health care occupations and will examine prominent bioethical issues that confront today's health care professionals. The course has an applied focus for health care educators and practitioners and focuses on social and ethical developments in health care. Topics include professional relationships among health professionals and patients, critical thinking and ethical decision making skills, the systematic analysis of bioethics, relevant information on social developments and ethical issues in health care, and developments in standards of care. Included are

analyses of practitioners' responsibilities and duties, professional codes of ethics, moral dilemmas in health care, casuistry, and the fundamental concepts of patient confidentiality, competency, informed consent, refusal of treatment, autonomy, passive and active euthanasia, and the legal and moral implications of patient care and professional practice. **Prerequisite/s: None**

EDD 8024 Health Care Communications (3 Cr)

This course examines major issues in healthcare communication. The course will address topics related to communication with patients/clients, among caregivers of various disciplines, images of healthcare in the media, the major forms of healthcare education including healthcare issues using technology and the Internet. Course participants will then examine best practices in healthcare communication that yield positive outcomes in targeted populations for healthy behaviors, lifestyle changes, and healthcare compliance. **Prerequisite/s: None**

EDD 8025 Legal Aspects of Health Care Education (3 Cr)

This course investigates the legal aspects in health care that may affect the delivery of health care education. This course reviews the extent of the legal implications of working in health care settings, including such aspects as individual and corporate liability, negligence, malpractice, malfeasance, fraud, licensing, accreditation, informed consent, patients' rights, staffing privileges, wrongful discharge from employment, and emergent developments in the health care delivery system. Additionally, legal dimensions of medical information management, health financing, patients and employee rights, conditions of confidentiality and privacy, and ethical conduct are explored. This course provides an emphasis on teaching students and staff about the legal aspects in health care which are fundamental to practice. **Prerequisite/s: None**

EDD 8026 Health and Learning (3 Cr)

This course examines how health issues may affect learning in children in grades pre-K—12. This course reviews the extent that physical and mental health issues including such aspects as emotional/behavioral health, learning disorders, chronic health problems, classroom and community health, family health, and health promotion affect the learning process. This course provides an emphasis on recognizing signs of health related issues and provides suggestions for teachers of students with health related learning issues. Course participants will have the opportunity to examine issues directly related to their individual setting. **Prerequisite/s: None**

EDD 8030 Successful Strategic Action Plans (3 Cr)

This course studies strategic planning models, forecasting methods, trend analysis, systems thinking, and futuring. Participants will learn how to manage growth, change, and organizational innovation. The use of strategic planning tools such as scenarios, systems thinking, and change strategies will be presented through case studies and projects that utilize the principles of problem-based learning. Students will have the opportunity to design a mock strategic plan from inception to evaluation by applying principles learned in this course. **Prerequisite/s: None**

EDD 8031 Financing Institutions of Higher Learning (3 Cr)

Finance in Higher Education Leadership (3 credits) is an introduction to institutional finance for academic administrators, health care professionals, military leaders and college or university faculty members. Students participating in the course are introduced to the budget process as an outcome to their institutions' strategic plans. Budget development at their own institutions plays a primary role in this course. Learners will analyze various income and expense parameters. Additional topics include allocation for services at cost centers within institutions, facility management, marketing, enrollment management and financial reporting systems. **Prerequisite/s: None**

EDD 8034 Foundations, Sponsored Research, and Collaborations in Institutional Development (3 Cr)

This course examines the history, development, and current status of institutional advancement programming in organizations. Current issues, challenges, and practices will be reviewed. Learners will be introduced to the functions contained within institutional advancement. Learners will analyze the status of institutional advancement in their own organization and compare it to several models that they will review in their studies. The linkage of institutional advancement to internal organizational functions will be studied. **Prerequisite/s: None**

EDD 8061 Targeting Our Students: The Dynamics of Student Services (3 Cr)

This course will introduce student affairs components, its theoretical underpinnings, and how it operates within institutions of education. Student affairs can be comprised of the offices of academic advising, admissions, athletics, financial aid, student development, student life and safety, student health, and in certain instances, student centers and bookstore oversight. The course will demonstrate how these offices seek to insure each student's sense of belonging and personal growth. **Prerequisite/s: None**

EDD 8110 Assessment Literacy (3 Cr)

This course is designed to address the need for instructional leaders and professionals to understand the principles, uses, and applications of assessment and evaluation of learning. The course examines traditional and alternative views of assessment and evaluation, with attention given to the creation of assessment plans, documents, and systems as well as to the development of assessment instruments to be used to ascertain levels of student understanding. **Prerequisite/s: None**

EDD 8111 Communities of Practice (3 Cr)

The purpose of this course will be to prepare leaders to design and develop communities of practice. In this setting, candidates will learn the keys to collaborative cultures. They will also experience tools for dialogue, assessment protocols, and open space technology. As a result of the experiences, the candidate will be expected to design a plan to build a community of practice. **Prerequisite/s: None**

EDD 8112 Assessment Centered Curricular Design (3 Cr)

This practical course departs from traditional curricular design by focusing purposeful task analysis: Given a task to be accomplished, how do we get there? Professionals will be challenged to design curriculum only after operationalizing their goals or standards in terms of assessment evidence. It begins with the question: *What would we accept as evidence that students have attained the desired understandings and proficiencies?* – Before proceeding to plan teaching and learning experiences. This course moves very quickly from the theoretical into the preparation of a field study product. **Prerequisite/s: None**

EDD 8113 Instructional Leadership (3 Cr)

The purpose of this course is to prepare students to identify high quality instruction, to diagnose instructional problems, and to

prescribe appropriate strategies to improve instructional performance. Students will be expected to evaluate instructional practices and to give quality feedback. Students will be expected to be a “critical friend” in a community of practice that is designed to build the knowledge base for best instructional practices. **Prerequisite/s: None**

EDD 8114 Professional Development (3 Cr)

The purpose of this course is to prepare leaders to lead professional development. Candidates will experience quality professional development and will utilize the knowledge of adult learning, constructivism, and personalized learning to design and evaluate professional development. Candidates will be expected to demonstrate understanding of ages/stages literature by constructing professional development for entry- level professionals, mid-career professionals, and seasoned veterans as they prepare to exit the profession. Candidates will be expected to also design an assessment plan that assures quality professional development programs. **Prerequisite/s: None**

EDD 8119 Contemporary Topics in Instructional Technology and Distance Education (3 Cr)

Policy issues related to technology implementation and utilization are studied in this course. The role of the distance education and technology leader is examined using video based case studies. Special emphasis is on the practice of ITDE, and how the field is defined in a changing educational and training environment. Research related to barriers to the integration and adoption of instructional technology and distance education is analyzed and applied to the workplace. New content will be added as contemporary topics are identified. **Prerequisite/s: None**

EDD 8120 Perspectives in Instructional Technology and Distance Education (3 Cr)

Instructional Technology and Distance Education are examined and compared to other professions. A special emphasis is made on the impact of media and technology on teaching and learning. In order to understand the dynamic nature of the field, the literature of ITDE is analyzed as a basis for increasing the impact of instructional technology on education and training. National expert's positions on the status of the field are closely examined using videos, audios, and discussions. The impact of instructional technologies on schools and training organizations is studied in this course. Case studies dealing with various perspectives for implementation of distance education initiatives are examined using videos, audios and interviews. **Prerequisite/s: None**

EDD 8121 Advanced Instructional Design (3 Cr)

This course combines the use of case studies, discussion of seminal publications, and evaluation of recent publications in Instructional Design to allow the student to become a knowledgeable consumer of research and a researcher in the field of instructional design. Discussion of articles will encourage an evaluative view of the field's principles, while analysis of case studies will allow students to apply theory and research to realistic situations. **Prerequisites: EDD 8001, EDD 8124.**

EDD 8122 Professional Practice in ITDE (3 Cr)

Students in this course will examine the roles and responsibilities of individuals in the fields of instructional technology and distance education from the perspectives of K-12 education, higher education, business and industry, the military, and consulting. Through readings, discussions, activities, and presentations, students will better understand the scope of the fields while positioning themselves for employment and advancement. **Prerequisite/s: None**

EDD 8123 Advanced Applications in Instructional Technology and Distance Education (3 Cr)

This course deals with the examination of large scale distance education projects, including statewide technology and distance education initiatives. Special attention is directed towards the changed roles of students, teachers and the curriculum. Virtual schools and virtual training are studied. The study of leadership for online learning is included in this course. Technologies for distance education are examined with special emphasis on the use of video for virtual instruction. **Prerequisite/s: None**

EDD 8124 Theories of Learning (3 Cr)

This course provides a theoretical foundation for understanding how human learning occurs. Concepts from the major writers in behaviorism, cognitivism, humanism, constructivism, and social and adult learning will be presented. Key elements of student development are also included. **Prerequisite/s: None**

EDD 8125 Leadership Development through Theory and Practice (3 Cr)

This course examines theories that provide the conceptual framework for organizational development from the leader's perspective. Strategies and qualities necessary for becoming an effective leader will be examined. The process of creating an organizational vision and implementing visionary leadership will be one of the major course topics. Students will reflect on the particular challenges and responsibilities encountered in shaping and creating successful leaders of the 21st century. Application of theory to practice will be stressed. **Prerequisite/s: None**

EDD 8260 Linking Leadership to Brain Research (3 Cr)

The purpose of this course is to help leaders think and act more effectively. New brain research indicates that there are two primary modes of brain function: one brain area specializes in managing routine tasks, while another area excels at managing novel tasks and situations. While both left and right hemispheres are involved in most processes, each hemisphere has particular strengths in solving different challenges. Six specific domains of more right brain processing that are key for surviving and thriving in the new millennium will be analyzed. Students will assess strategies for putting this research into practice. Students will explore the concept of brain maps; investigate the three major brain barriers to improving institutional performance; and create a symposium to engage other education leaders in a process to design schools that allow the right brain to flourish. **Prerequisite/s: None**

EDD 8261 The Frontal Lobe as CEO of the Brain (3 Cr)

In this course, students will use research on the frontal lobe of the brain to develop critical leadership skills including goal setting, problem solving, decision making, foresight and insight. Students will demonstrate knowledge, comprehension, application, analysis, synthesis, and evaluation through a variety of class activities and will conduct an evaluation and provide recommendations for how their own organizations can increase productivity. Students will be able to develop and utilize strategies for increasing the body-brain system's capacity for sustained focus and follow-through so that plans can be implemented. **Prerequisite/s: None**

EDD 8262 Leading Change and Transforming Performance with Neuroscience (3 Cr)

This course builds upon the knowledge gained in previous classes related to brain research and technology, thus, is designed to encourage each student to integrate prior learning into a new paradigm of leadership. In this course, the concept of “whole brain” thinking, teaching, and learning will be used as a framework to: (a) examine personal leadership styles; and (b) effect institutional

change at the levels of self, teams, and the overall organization. Reference will be made to how people think to improve performance with a brain-based approach. However, through analyses of whole brain technologies, students will be challenged to question common assumptions regarding the role of a leader in schools, as well as the roles of all stakeholders (e.g., faculty, staff, and others) within the learning organization. Students will apply whole brain thinking to examine leadership in the contexts of both first-order change (i.e., fine tuning what exists; and second-order change, and transforming ways in which stakeholders think, act and produce results). **Prerequisite/s: None**

EDD 8263 Leading for Engagement (3 Cr)

Students will learn how to apply current research-based understandings of the brain's limbic system to increase levels of motivation and engagement and achieve higher levels of individual and organizational performance. Students will learn and apply key factors to improve engagement including clarity of expectations, necessary resources, recognition, respect, and opportunities to learn. Students will use the skills of authentic and resonant leadership with tools such as mindfulness, hope, compassion, and managing social distance with more skill to increase the level of engagement among those they lead as well as community stakeholders. Using these skills and strategies, leaders will energize staff and stakeholders to develop and implement an initiative that increases student motivation and attention, drawing out the talents of adults and children within the schools they lead. **Prerequisite/s: None**

EDD 8264 Leading for Learning Symposium (3 Cr)

Using cognitive strategies critical for the global knowledge economy, students will design and implement an initiative to help lead schools that teach the cognitive skills necessary for academic success. These include critical thinking and problem solving, leading by influence, cognitive agility, initiative, effective communication, analyzing information, and imagination. Students will apply, teach, and lead others in teaching these skills to complete the culminating project for the Brain-Based Leadership Minor. **Prerequisites: EDD 8260, EDD 8261, EDD 8262, and EDD 8263.**

EDD 8401 Special Education Law and Policy (3 Cr)

This course focuses on laws and policies that apply to the education of students with disabilities. The legal system, constitutional and statutory provisions of federal and state law, and the judicial decisions relating to the education of students with disabilities are reviewed. Students will examine the foundational concepts of equal protection, procedural and substantive due process in general and as they relate to special education specifically. Students will examine IDEA legislation and its six principles, The Rehabilitation Act of 1973 (Section 504) and the Family Education Rights and Privacy Act (FERPA). In addition, students will examine similar principles in state legislation with particular emphasis on school practices in special education. **Prerequisite/s: None**

EDD 8402 Families, the Law, and Exceptionalities (3 Cr)

This course focuses on laws and policies that apply to individuals with disabilities across the lifespan. Various models will be reviewed including those that inform personal perceptions of individuals with disabilities and the relevance of these models on policy and service delivery. Additionally, disability laws, particularly the ADA (Americans with Disabilities Act), and the caselaw interpreting such laws will be examined; how such laws and cases support or fail to support the core principles of disability policy will also be discussed. Further, disability policy and the core principles comprising these policies will be analyzed through the development of guideposts. Finally, the impact of the self-determination and self-advocacy movements on disability policy and the delivery of services to the disabled will be discussed. **Prerequisite/s: None**

EDD 8403 Conferencing with Parents and Families of Individuals with Disabilities (3 Cr)

The purpose of this course is to provide students with the theoretical foundations and applied skills requisite for fostering collaborative partnerships with and among families, individuals with disabilities, professionals, and other stakeholders that will lead to outcomes of individual and mutual empowerment. Students will engage in study, simulations, and actual practice across a variety of conference formats and counseling situations. **Prerequisite/s: None**

EDD 8404 Organization and Administration of Special Education Programs (3 Cr)

The purpose of this course is to contribute to the development of special education leaders who are equipped to think and act more effectively for the benefit of individuals with disabilities, families, and the organizations that serve disability populations. Students will examine the organization, administration, and supervision of special education programs provided by schools, agencies, and other support services, with particular emphasis on the role of the special education leader within such organizations. Students will research the development, implementation, and evaluation of effective program designs, and the analysis of leadership practices and personnel performance as factors in program efficacy. The impact of federal legislation, as well as state and local regulatory policies and procedures, on the development and implementation of effective programs will be addressed. **Prerequisite/s: None**

EDD 8405 Collaboration and Consultation (3 Cr)

This course is designed to equip students with the knowledge and skills required to conduct effective collaboration and consultation activities among professionals from school agencies, parents and families, and individuals with disabilities. General theories, methods and techniques for collaborative problem solving, program planning, and shared decision-making will be examined through course materials and related experiential activities. **Prerequisite/s: None**

EDD 8406 Transition, Career Development, and Independent Living (3 Cr)

The course will focus on the strategies and methodologies professional need to devise and implement intervention plans that assist individuals with disabilities and their families in planning for post-secondary life. Participants will examine the practices and procedures fundamental to successful transition, as well as the challenges, issues, and trends pertaining to the development of independent living, occupational and vocational skills, and interpersonal skills. **Prerequisite/s: None**

EDD 8407 Assessment and Evaluation of Special Needs: Cognitive Domains (3 Cr)

This course will emphasize the acquisition of the skills and knowledge needed to analyze and interpret measures of cognitive and academic development. In addition, the course will cover the skills professionals need in order to make informed decisions regarding special education services and placements for individuals with disabilities. The selection, administration and uses of cognitive and academic assessment instruments will be reviewed, with an emphasis on the use of both quantitative and qualitative data for the purposes of making referral, placement, and programmatic decisions regarding service delivery for individuals with disabilities. Practice in the administration, scoring and interpretation of various cognitive and educational instruments will be provided. **Prerequisite/s: None**

EDD 8408 Assessment and Evaluation of Special Needs: Behavioral and Clinical Domains (3 Cr)

This course will emphasize the acquisition of the skills and knowledge needed to analyze and interpret measures of behavioral/emotional development and the abilities professionals need to make informed decisions regarding special education services and placements for individuals with disabilities. The selection, administration and uses of behavioral and clinical assessment instruments will be discussed, with an emphasis on the use of both quantitative and qualitative data for the purposes of making referral, placements, and programmatic decisions regarding service delivery for individuals with disabilities. Practice in the administration, scoring and interpretation of various clinical and behavioral instruments will be provided. **Prerequisite/s: None**

EDD 8409 Multicultural Issues in Special Education (3 Cr)

In this course students will examine relationships among race, gender, culture, social class, and disability as well as fundamental information on individual, group and societal responses to disability. Anthropological, social and psychological theories about origins of cultural diversity will also be discussed. **Prerequisite/s: None**

EDD 8410 Technological Literacy for Leaders (3 Cr)

In this course, students will explore foundational online skills, resources, and issues to develop and demonstrate technology literacy. Technological literacy is instrumental. The content includes internet skills, resources, and communication strategies within the context of shaping, evaluating, and utilizing appropriate policies related to instructional technology. **Prerequisite/s: None**

EDD 8411 Issues in Special Education Administration (3 Cr)

This course is designed for those who are responsible for planning, developing, and implementing educational programs for students with disabilities. It will provide these educators with the legal and ethical bases for providing services to children with disabilities, and with instructional and organizational methods to help these children succeed in their schools. **Prerequisite/s: None**

EDD 8431 Advance School Finance (3 Cr)

This course is devoted to the many financial aspects of the educational environment. A conceptual framework for understanding key concepts of revenue generation and distribution in school districts will be developed, and district and site-based budgeting will be practiced. Educational leaders must provide leadership in the debate about fiscal policies for education if American schools are to garner the financial support necessary to accomplish their stated missions. To succeed in offering the needed leadership, policymakers must possess sophisticated knowledge of the field and the capabilities to use this knowledge in shaping economic decisions in the public sector. The content in this course will include historical foundations of school finance; changes in policy and practices; major influential court decisions and current legal challenges; federal, state, and local funding practices; site-based budgeting; responsibilities of administrators in the funding and finance arena; budgeting cycles and influences; generation, distribution, and accountability issues, and other areas of current interest. **Prerequisite/s: None**

EDD 8432 Advance School Policy (3 Cr)

This course provides a framework for understanding the political and policy issues involved in socio-cultural changes in American schools and society. Also considered are historical and legal aspects of contemporary educational issues and relationships of school to society. This course is oriented toward educational policy and the political realities of contemporary education. It focuses on implications and challenges in gathering information, integrating various research methodologies (qualitative, quantitative, documentary, and historical), using new technology and learning for the purpose of managing information sources toward a greater understanding of educational policy. The course is designed as a learning environment within which students undertake ongoing projects. To that end, students use a variety of sources, including other students. Through teaching and learning, students move toward a greater understanding of their roles as educational leaders in the American political and policy arenas. **Prerequisite/s: None**

EDD 8434 Advance School Law (3 Cr)

This course will focus on the major areas of school-related litigation (such as First, Fourth, Fifth, Eighth, and Fourteenth Amendment Rights, Title VII, Title IX, IDEA, 504/ADA, NCLB, and related technological issues) and the implications of court rulings for school leaders, teachers, and related changes in policy affecting the school environment. School leaders will examine current federal and state laws as they apply to school districts, school settings, personnel, and other entities. They also will learn to deal in legally defensible ways with school- and community-based situations without fear. This course will provide school leaders with the requisite knowledge, skills and dispositions to remain current with school related law and policy issues and equipped with substantial knowledge to positively and ethically impact the lives of the personnel for whom they are responsible. **Prerequisite/s: None**

EDD 8442 Ethics and Social Responsibility (3 Cr)

Leaders are regularly called upon to make ethical judgments. This course will focus on the role and responsibilities of a leader as an ethical role model, decision-maker, and teacher. Students will review and analyze current ethical issues for professional learning communities. Through the use of case studies and a problem-based approach to learning, students will have an opportunity to analyze and develop their decision-making skills within the context of an ethical and moral framework. **Prerequisite/s: None**

EDD 8443 Leadership Communication (3 Cr)

This course will allow you to gain a deeper understanding of the unique nature of leadership communication. The course will be based on a communications model that suggests that all communication can be broken down into three basic components (i.e., the content of communication, the processes of communication, and the relationships between the sender and receiver of information). You will experience the particular communication processes leaders need to embrace and the special relationship issues that leaders need to consider. A variety of relevant issues will be addressed, including communication and cultural competence, diversity, organizational culture, technology (i.e., virtual leadership and the use of virtual teams), and collaborations and alliances. **Prerequisite/s: None**

EDD 8460 The Principal and School Leaders (3 Cr)

This course will focus on individuals who are planning to enter the field of K-12 school administration. The perspective of school-based administrators will serve as the basis for leaders to develop skills and an understanding of the importance of developing and implementing a vision at the school level; developing a school culture that promotes learning; establishing a safe learning environment; promoting family and community involvement; promoting high ethical standards and integrity; and an understanding of schools in the larger political, social, economic, legal and cultural context of society, promoting the integration of technology into the operation of the school, and diversity as they relate to school leadership. Candidates will also be exposed to learning activities that will specifically focus on the various state standards that are required for licensure. **Prerequisite/s: None**

EDD 8461 The Superintendent and District Leaders (3 Cr)

This course will focus on individuals who are planning to enter the field of K-12 school administration at the central office of a district. The perspective of superintendents and district leaders will serve as the basis for leaders to develop skills and an understanding of the importance of developing and implementing a vision at the district level; developing a culture within the district that promotes learning; establishing a safe learning environment throughout the district; promoting family and community involvement at all levels of the district; promoting high ethical standards and integrity; and an understanding of the district in the larger political, social, economic, legal, and cultural context of society will be explored. Candidates will also be exposed to learning activities that will specifically focus on the various state standards that are required for licensure. **Prerequisite/s: None**

EDD 8462 Reflection and Vision for School Leaders (3 Cr)

This course will focus on the developmental framework for candidates who are seeking to enter the field of K-12 educational leadership at the school-level. Candidates will explore and assess their knowledge, skills, and dispositions regarding the various aspects of developing a school-level vision; a positive school culture; the issues involved in the management of a school building; the collaboration between the school and families and other community members; acting with integrity, fairness, and in an ethical manner; and the larger political, social, economic, legal, and cultural impact on the school. **Prerequisite/s: None**

EDD 8463 Reflection and Vision for District Leaders (3 Cr)

This course will focus on the developmental framework for candidates who are seeking to enter the field of K-12 educational leadership at the district-level. Candidates will explore and assess their knowledge, skills, and dispositions regarding the various aspects of developing a district-level vision; a positive culture for a school district; the issues involved in the management of a school department; the collaboration between the school district and families and other community members; acting with integrity, fairness, and in an ethical manner; and the larger political, social, economic, legal, and cultural impact on the school district. **Prerequisite/s: None**

EDD 8472 Human Resource Development (3 Cr)

This course provides the principles of human resources and administrative supervision techniques for educational institutions, administrative offices, public and private organizations, and associations. Topics include skills needed for planning, organizing, staffing, directing and controlling, communicating, motivating, decision-making, priority setting and time management toward effective objectives and organizational goals. Focused areas include job performance, employee development, management of a diverse work force, employment law, harassment and health issues and disabilities and discrimination in the workplace. **Prerequisite/s: None**

EDD 8490 Culture of Urban Schools (3 Cr)

This course will analyze group relations, acculturation, and educational policy from different theoretical perspectives as they relate to the transmission of culture in educational settings especially in terms of values, roles, and the implication for equality of education opportunities and social status. The impact of globalization on urban social and political life, the changing nature of community and social relations within cities and suburbs and the evolving patterns of intergovernmental cooperation and conflict within metropolitan regions would be analyzed. Students will study the formation of social identities in the history of education, specifically race, class, gender, ethnicity, and religion, and the relationship of identity formation to current issues in education. **Prerequisite/s: None**

EDD 8491 Economics of Urban Education (3 Cr)

This course will focus on the theories and principles of the economics of education; the economy in urban settings; and models, practices, and theories for developing partnerships between schools, universities, community based groups and agencies, and neighborhoods. The focus will be upon the analysis and underpinnings of the community and regional economic structure and development. Students will study administrative policies and planning related to the economics of urban education. **Prerequisite/s: None**

EDD 8492 Educational Policy and the Politics of Urban Education (3 Cr)

This course will focus on theories and empirical research about the social structure and political dynamics of urban areas. Students will study educational policies and politics and subsequent implementation as the intended and unintended consequences of many processes: ideological, social, judicial, scientific, economic, and ethical. Within the context of each issue, potential policy alternatives will be identified and actual policy and implementation decisions studied. **Prerequisite/s: None**

EDD 8493 Historical Context of Contemporary Urban Schools (3 Cr)

This course will utilize the leading thinkers and milestones as the basis for an analysis of urban development and urban life. Students would explore the emergence and transformation of urban educational institutions—public and private, inclusive and selective, fee-paying and free, religious and secular—out of the dynamic interplay of individual, group, and larger scale intellectual, social, political, and economic factors. The history of the impact of federal, state, local government policies, changing economic conditions, and judicial decisions that have shaped urban education in the post-Brown era in America on these relationships will be discussed. **Prerequisite/s: None**

EDD 8494 Teaching, Learning, and Curriculum in Urban Contexts (3 Cr)

This course will examine the relationships through which knowledge is constructed and communicated in urban schools. It would focus on pedagogy as a set of relationships among teachers and students mediated by culture, history, learning theories, assumptions about childhood and adulthood, and assumptions about knowledge and ignorance as they relate to urban education. **Prerequisite/s: None**

EDD 8498A Educational Leadership Internship for School Leaders (2 Cr)

This course will provide candidates with an opportunity to observe, interview, work with, and perform the duties of K-12 administrators and leaders at the school level in an actual work setting. Course requirements include a minimum of 360 contact hours, completion of a leadership portfolio, and structured performance activities related to the role and responsibilities of K-12 educational leader at the school level that are aligned with national standards for educational leaders and individual state standards. **Prerequisite/s: EDD 8010, EDD 8431, EDD 8432, EDD 8434, EDD 8472, and EDD 8462**

EDD 8498B Educational Leadership Internship for School Leaders (2 Cr)

This course will provide candidates with an opportunity to observe, interview, work with, and perform the duties of K-12 administrators and leaders at the school level in an actual work setting. Course requirements include a minimum of 120 contact

hours, completion of a leadership portfolio, and structured performance activities related to the role and responsibilities of K-12 educational leader at the school level that are aligned with national standards for educational leaders and individual state standards. **Prerequisite/s:** EDD 8010, EDD 8431, EDD 8432, EDD 8434, EDD 8472, and EDD 8498A

EDD 8498C Educational Leadership Internship for School Leaders (2 Cr)

This course will provide candidates with an opportunity to observe, interview, work with, and perform the duties of K-12 administrators and leaders at the school level in an actual work setting. Course requirements include a minimum of 120 contact hours, completion of a leadership portfolio, and structured performance activities related to the role and responsibilities of K-12 educational leader at the school level that are aligned with national standards for educational leaders and individual state standards. **Prerequisite/s:** EDD 8010, EDD 8431, EDD 8432, EDD 8434, EDD 8472, and EDD 8498A

EDD 8499A Educational Leadership Internship for District Leaders (2 Cr)

This course will provide candidates with an opportunity to observe, interview, work with, and perform the duties of K-12 administrators and leaders at the school level in an actual work setting. Course requirements include a minimum of 120 contact hours, completion of a leadership portfolio, and structured performance activities related to the role and responsibilities of K-12 educational leader at the school level that are aligned with national standards for educational leaders and individual state standards. **Prerequisite/s:** EDD 8010, EDD 8431, EDD 8432, EDD 8434, EDD 8472, and EDD 8462

EDD 8499B Educational Leadership Internship for District Leaders (2 Cr)

This course will provide candidates with an opportunity to observe, interview, work with, and perform the duties of K-12 administrators and leaders at the district level in an actual work setting. Course requirements include a minimum of 120 contact hours, completion of a leadership portfolio, and structured performance activities related to the role and responsibilities of K-12 educational leader at the district level that are aligned with national standards for educational leaders and individual state standards. **Prerequisite/s:** EDD 8010, EDD 8431, EDD 8432, EDD 8434, EDD 8472, and EDD 8499A

EDD 8499C Educational Leadership Internship for District Leaders (2 Cr)

This course will provide candidates with an opportunity to observe, interview, work with, and perform the duties of K-12 administrators and leaders at the district level in an actual work setting. Course requirements include a minimum of 120 contact hours, completion of a leadership portfolio, and structured performance activities related to the role and responsibilities of K-12 educational leader at the district level that are aligned with national standards for educational leaders and individual state standards. **Prerequisite/s:** EDD 8010, EDD 8431, EDD 8432, EDD 8434, EDD 8472, and EDD 8499A

EDD 8510 Leading in a Learning Organization (3 Cr)

This course explores characteristics of learning organizations and their organizational cultures. Students will learn that learning organizations are very different from other enterprises. They are forward-looking, nurturing, flexible, and safe. Creating a learning organization takes great effort on the part of the leader and all other constituents. It also takes special kind of commitment, much energy and an abundance of resources. Systems thinking, continuous learning, empowerment and teamwork are among the major elements that make learning organizations successful. Organizational culture and the role it plays in the effectiveness and the success of the organization will also be examined. Creating a learning culture takes transformational leadership, tolerance, understanding and support of everyone in the organization. **Prerequisite/s:** None

EDD 8511 Leading for Change (3 Cr)

This course emphasizes the need for leaders to understand that organizations are always changing. Participants will learn that the ability to manage change effectively is critical to the success of any leader. Specific strategies for managing change will include: decision making, organizational design, individual and organizational behavior, group dynamics, interpersonal communication, conflict management and negotiation, empowerment and coaching, use of power and influence, managing diversity, performance appraisal, career development, and work stress. **Prerequisite/s:** None

EDD 8570 Principles and Theories of Organizational Development (3 Cr)

This course examines current and emerging philosophies and practices of organizational development (OD). Course participants will analyze, compare, and contrast specific quantitative, qualitative, and process-based approaches to OD in organizations. Further, participants will examine strategies and practical techniques related to consulting opportunities and challenges. Participants will then create an OD intervention proposal which describes the OD problem or opportunity, approaches to addressing the problem or opportunity, a plan for implementation of the OD intervention, and specific evaluative measures to assess the effectiveness of the OD intervention. **Prerequisite/s:** None

EDD 8571 Principles and Theories of Training and Development (3 Cr)

This course addresses the training theories and models necessary to develop an effective organizational workforce of the 21st century. Participants will examine principles and techniques needed to create effective employee training and development practices. Topics include analysis of performance deficiencies, approaches to employee performance enhancement, and approaches to evaluation of training and development strategies. **Prerequisite/s:** None

EDD 8572 Principles of Organizational Synergy in Human Resource Development (3 Cr)

This course examines the role of organizational leaders in promoting strategic human resource development based on organizational mission, vision, and values. Course participants will examine linkages between organizational mission strategies and organizational practices in employee training and organizational development and recommend strategic improvements to strengthen and enhance organizational synergy. Participants will conduct a leadership audit of Human Resource Development practices in a specific organization and recommend improvements based on current and emerging leadership practices in HRD. **Prerequisite/s:** None

EDD 8574 Strategies and Practices for Organization Outcomes Evaluation (3 Cr)

This course provides an in-depth examination of organizational return on investment in employee training and development. Participants will evaluate organizational training practices and calculate the extent to which Human Resource Development practices used by the organization have been effective in enhancing organizational performance. Participants will also create enhanced training plans based on determination and analysis of objective criteria related to organizational return on the training investment. Participants will design a matrix, formula, spreadsheet, or other method to calculate and evaluate organizational return on investment in employee training and development. **Prerequisite/s:** None

EDD 8601 Human Services Leadership: Administration, Management and Policy Development of Human Services Agencies and Programs (3 Cr)

This course focuses on leadership dynamics of administrators, managers and directors in the human services field. Emphasis is on analyzing and evaluating the wide variety of human service organizations at the community, state, national and international levels with a view to assess just how well they support consumer (i.e. patient) and family participation. Course study will include leadership and theoretical foundations necessary for human service organizations to deliver quality services within integrated community settings and with collaborative community partnerships. Effective administrator/leader strategies, such as policy development and evaluation, influences of cultural and political diversity as well as socioeconomic differences, will be emphasized. **Prerequisite/s: None**

EDD 8602 Developing Human Services in the Context of the Family and the Community (3 Cr)

The character and qualities of each human services organization are unique to the community in which it is placed and to the community members it serves. Policies in one particular environment may not serve well in another community environment. Concepts and processes of organizational systems, assessment and analysis of these systems and their applicability to particular communities and community groups are included. In this course, you will compare and contrast human services practices in diverse community settings. The incorporation of community members as human resources and the dynamics of community partnerships will be analyzed. **Prerequisite/s: None**

EDD 8604 Human Services and the Law (3 Cr)

A review of human resource laws, policies and practices is essential to effective leadership both within the human service organization as well as to those being served. Students will explore such legal topics as equal opportunity, sexual harassment, constitutional rights, fair labor practices, grievance, misrepresentation and violence in the workplace. Developing a positive work environment for employees and volunteers is critical to success. Strategic implications of effectively managing, recruiting, compensation, performance appraisal, training and development, and disciplinary action will be explored. Also discussed will be such topics as the influence of the internet and online services on human services work, diversity in the workplace, and social justice. **Prerequisite/s: EDD 8603**

EDD 8605 Human Services Organizational Theory and Behavior (3 Cr)

All contemporary organizations, including human service organizations operate within a specific organizational culture. As part of exploring the various aspects of organizational culture, this course will examine varying organizational theories as these relate to organizational behaviors within human service systems. The implications for leadership practice will be analyzed within the context of the current literature. **Prerequisite/s: None**

EDD 8606 Special Topics in Human Services (3 Cr)

This course provides an integrating experience for students who are completing their human services administration concentration. It affords the opportunity to research in great detail current and emerging human service administrative issues. Students will have the opportunity to submit research topics and engage in one or more of the following: case studies, changing policies on today's issues, legal and political influences on current trends, ethics, career development, strategic planning, and other 'hot' topics that surround the human services field. Topics can relate to the student's minor concentration. **Prerequisite/s: None**

EDD 8611 Best Practices in Programs for Young Children: Pedagogical Applications (3 Cr)

This course will focus on current policies and practices for children from birth through age eight. Criteria for and issues in early childhood services are examined from the perspective of both local and international programs. The theoretical foundations for program development, curriculum, assessment, and individual interventions are discussed. Participants engage in reviewing program policies and practices, and field experiences are integrated into the course. **Prerequisite/s: None**

EDD 8612 Critical Issues in Early Childhood Education in the Global Village (3 Cr)

This course examines current issues and trends impacting behavior, health and the development of children and youth within the national and global context. Social policies, programs, and support services for children are considered. Topics explored include prenatal services, educational programs, behavior, health, special needs, families and services. Field experiences are integrated into this course. **Prerequisite/s: None**

EDD 8613 Families, Children, and Communities in a Multicultural and Diverse Society (3 Cr)

This course focuses on the role of families on child development from the perspective of multiculturalities. The role of culture and how it shapes families' views on child rearing practices are investigated. Students will examine current situations faced by young children and their families from the prenatal stage through the early childhood years. Field experiences are integrated. **Prerequisite/s: None**

EDD 8614 Current Trends and Issues in Curricular Theory in Early Childhood Education (3 Cr)

This course will examine recent directions in curricular theory and programs for young children. Students engage in the analysis of what constitutes developmentally appropriate curriculum. Selected models and approaches appropriate for children from birth to age eight are investigated. Field experiences are integrated into this course. **Prerequisite/s: None**

EDD 8615 Child Advocacy: Social Concerns in the Global Context (3 Cr)

During this course, doctoral students will examine the role of child advocacy from the perspectives of local, national, and global communities. The rationale for advocacy efforts will be explored through selected case studies. Students will engage in researching specific social issues (violence, poverty, health, diversity, disasters, and others) and in identifying and proposing ways to respond and resolve the problems affecting children. **Prerequisite/s: None**

EDD 8616 Cultural Perspectives and Influences on Child Development (3 Cr)

This course is a study of budgeting and accounting functions necessary for planning and administering school budgets. Course topics include budget calendar, sources of revenue, short-term and long-term projections (revenue, expenditures, enrollment, etc.), salary calculations, and budgeting presentations. Students will develop, analyze and critique their local budgets or data from other school district budgets. **Prerequisite/s: None**

EDD 8750 School Business Management (3 Cr)

This course examines current and emerging philosophies and practices of organizational development (OD). Course participants will analyze, compare, and contrast specific quantitative, qualitative, and process-based approaches to OD in organizations. Further,

participants will examine strategies and practical techniques related to consulting opportunities and challenges. Participants will then create an OD intervention proposal which describes the OD problem or opportunity, approaches to addressing the problem or opportunity, a plan for implementation of the OD intervention, and specific evaluative measures to assess the effectiveness of the OD intervention. **Prerequisite/s: None**

EDD 8751 Operational Planning and Budgeting in Schools (3 Cr)

This course is a study of budgeting and accounting functions necessary for planning and administering school budgets. Course topics include budget calendar, sources of revenue, short-term and long-term projections (revenue, expenditures, enrollment, etc.), salary calculations, and budgeting presentations. Students will develop, analyze and critique their local budgets or data from other school district budgets. **Prerequisite/s: None**

EDD 8752 Accounting, Auditing and Reporting for School Districts (3 Cr)

This course develops the necessary skills for school district accounting, auditing and reporting functions. It is designed to familiarize candidates with the budgeting process—its purposes, utilization measurement, and legal requirements to ensure public trust. Students will become familiar with accounting, auditing, and reporting practices within the educational settings. Specific topics will include school fund accounting, budgeting integration, types of audits (internal, external, and performance audits), procurement of audit services, and, state and federal reporting codes. **Prerequisite/s: None**

EDD 8753 Facility Operations Management (3 Cr)

This course includes topics on physical plant planning, budgeting for capital outlay, accountability for capital resources, maintenance of physical plant, indoor air quality, and safety and crisis management. Effective and efficient facility management contributes to the educational environment in which instructional programs are delivered. Topics include developing facility plans, funding sources related to construction and the bond process, preventive school maintenance, environmental assessment and resource management. Students will obtain knowledge of the critical role of physical environment toward the support of instruction and effective administration within the largest single investment for a school district. **Prerequisite/s: None**

EDD 8754 Maintenance and Operation of Ancillary Services in School Systems (3 Cr)

This course is designed to introduce the student to several support areas of education: technology, risk management, food service, transportation, security and human resources. The scope of responsibilities of these areas will be discussed along with the potential fiscal impact on the educational program. Funding sources, expenditures, and recent trends will be examined and discussed. **Prerequisite/s: None**

EDD 8755 Advanced Budgeting, Planning and Evaluation in Schools (3 Cr)

This course is designed to help students to obtain the competencies required for the Association of School Business Officials' Meritorious Budget Award (MBA) program. Budget developers will learn to apply the MBA criteria to their own school district's budget. Topics include executive summaries, budget organization, financial presentation, related budget information, glossaries, and appropriate appendices. Students will achieve the criteria to become budget review. **Prerequisite/s: None**

EDD 8760: Governance in Charter Schools (3 Cr)

This course is designed to provide educational leaders in charter schools an understanding with the knowledge and skills necessary to work effectively with a charter school board, local school board and other groups that are critical to the success of a school district as well as the legal framework of charter school education at the national, state, and local levels. A study of the impact of, and relationship between, constitutional law, statutory law, administrative law, and judicial law that influence the operation of quality charter schools will be a major focus of the course. **Prerequisite/s: None**

EDD 8761: Charter Schools and Democracy: Parental Choice (3 Cr)

This course is designed to provide educational leaders in charter schools an understanding of the history of public and independent education in the United States: specifically pertaining to parental choice. Charter schools grew out of the demand for better choices for families regardless of income. Quality charter schools have become a lightning rod for school choice proponents and opponents, but these schools have also become a permanent part of the educational landscape relationship between, constitutional law, statutory law, administrative law, and judicial law that influence the operation of quality charter schools will be a major focus of the course. **Prerequisite/s: None**

EDD 8801 Seminar in the Behavior Communication Connection for Students with Autism Spectrum Disorders (3 Cr)

This course will include the use of actual assessment tools to perform a functional analysis of behavior upon which hypotheses regarding the function of challenging behaviors will be made. Intervention techniques which focus on the development of functional communication will be researched and implemented. Applied behavior analysis will form the basis of assessment and intervention strategies for individuals with autism and other developmental disabilities. **Prerequisite/s: None**

EDD 8802 Seminar in the Nature of Students with Autism Spectrum Disorders (3 Cr)

This course will include an in-depth coverage of the multiple etiological factors of autism and the current research in the bio-medical field. Literature, which links theory with research and practice, in the areas of symptomatology, interventions, and outcomes, will be examined. The effects of autism on family systems will be explored through both stories of family members and the research literature. **Prerequisite/s: None**

EDD 8803 Advanced Topics in Assessment of Students with Autism Spectrum Disorders (3 Cr)

This course will focus on diagnostic frameworks, the instruments and tests, which form the basis of diagnosing children with autism spectrum disorders. The diagnostic process in older adolescents and adults will also be covered. The use of assessment in program planning will be covered through both discipline specific and transdisciplinary procedures. The research behind the development of instruments specific to autism will be discussed. **Prerequisite/s: None**

EDD 8804 Advanced Topics in Interventions for Students with Autism Spectrum Disorders (3 Cr)

The number of interventions used with individuals with autism spectrum disorders continues to increase. The theoretical foundation and research base behind the interventions will be covered in depth. The literature that links assessment to intervention will be used to form the base of intervention planning for individuals with autism. Helping families make decisions based upon their child's symptom presentation will be a focus of this course. **Prerequisite/s: None**

EDD 8805 Seminar in Professional Issues in Leading Programs for Students with Autism (3 Cr)

This course is designed to prepare individuals in leadership positions of programs for students with autism. Topical content will include essential elements for educational programs, planning and implementing professional development activities, strategic planning for school districts and agencies, legal issues in the education of student with autism, dealing with resistant staff, and resolving conflicts with parents. **Prerequisite/s: None**

EDD 8806 Special Topics Across the Life Span for Individuals with Autism (3 Cr)

This course will include topics that either affect individuals with autism and their families at particular points in the life span, including diagnosis, early intervention, transition from school to adulthood, and adulthood. Other special topics will include treatment of dually diagnosed individuals with autism and mental health diagnoses, and autism and sensory impairment. Consideration of extremely cognitively impaired and gifted individuals with autism will also be included. **Prerequisite/s: None**

EDD 8999 Advanced Topics (1-6 Cr)

This is an organized class specifically designed to accommodate student needs and program development demands not met by existing course offerings. See the course topic syllabus for list of outcomes, assignments and assessments. **Prerequisite/s: None**

EDD 9001 Advanced Perspectives on Literacy Issues (3 Cr)

Students will critically analyze current perspectives on literacy issues. These include social, cultural, political, economic, scientific and technological developments. Students will demonstrate understanding of ways in which these issues define curriculum, instruction, and assessment. **Prerequisite/s: None**

EDD 9002 Reading Theory: Research and Practice (3 Cr)

This course introduces students to a myriad of literacy practices and teaching ideas that are the hallmarks of effective teachers. The course also emphasizes the latest research, scientifically-based evidence and theory that support the practices. **Prerequisite/s: None**

EDD 9003 Advanced Seminar in Foundations of Reading Education (3 Cr)

Students will comprehensively examine historical and current theories and practices of reading instruction. They will analyze and evaluate perspectives for instruction and policy based on contemporary theory and research. **Prerequisite/s: None**

EDD 9004 Teaching Reading in Multicultural Classrooms (3 Cr)

Students will examine critical issues, problems, and perspectives involved in teaching reading in multicultural and other diverse mainstream classrooms. They will be able to define problems and propose and incorporate solutions when teaching to a heterogeneous audience. **Prerequisite/s: None**

EDD 9005 Literacy Across the Curriculum (3 Cr)

At the conclusion of this course, students will be able to demonstrate understanding of the reading process and culture's effects on learning. They will explore student engagement and motivation and develop literacy strategies for subject-specific instruction to diverse learners. **Prerequisite/s: None**

EDD 9006 Reading Intervention: Research and Practice (3 Cr)

In this course, students will understand the importance of early (birth through eight) learning environments and how they affect later performance. They will be able to identify instructional practices and appropriate assessments that fit within the guidelines of Response to Intervention. This will enable them to catch struggling readers early and address their weaknesses before they enter the upper grades. **Prerequisite/s: None**

EDD 9007 Research and Practice in Literature for K-12 Classrooms (3 Cr)

Students will be engaged in extensive review of current and classic literature and will be able to select and evaluate children's literature. Students will also develop practical activities for the classroom that are aligned to IRA and NCATE standards. They will also explore sensitive and contemporary issues. **Prerequisite/s: None**

EDD 9008 Literacy Assessment in K-Grade 4 (3 Cr)

This course sensitizes students to the need to make assessment a natural part of the instructional cycle. Students will also become knowledgeable about both formal and informal assessment tools and when and how to use them. **Prerequisite/s: None**

EDD 9100 Leadership (3 Cr)

This course focuses on strategic leadership and its influence on organizational effectiveness which occurs in the context of modern society by initiating change and reacting to change. Participants will pursue theory and research focusing on the foundations for decision making and analysis of complex historical, cultural, sociological, philosophical, and theoretical perspectives in the leadership process. **Prerequisite/s: EDD 9200 and EDD 9300**

EDD 9100S Simulation (3 Cr)

This course focuses on strategic leadership and its influence on organizational effectiveness which occurs in the context of modern society by initiating change and reacting to change. Participants will pursue theory and research focusing on the foundations for decision making and analysis of complex historical, cultural, sociological, philosophical, and theoretical perspectives in the leadership process. **Prerequisite/s: EDD 9100 and 9100S must be taken together**

EDD 9200 Trends and Issues: Society, the Individual, and the Professions (6 Cr)

This course focuses on the study of significant, current trends and issues that impact society and the individual on both a national and global level. Emphasis is placed on critical review of trends and issues affecting (a) social process: culture socialization and change; (b) institutions: political, economic, educational and religious; and (c) social structures: social stratification, ethnic, race, and gender relations. Students will examine a variety of issues through reading, research, case study analysis, and problem-based learning. All course activities provide opportunities to learn, to develop informed opinions and formulate logical, coherent arguments. **Prerequisite/s: None**

EDD 9300 Methods of Inquiry (6 Cr)

The purpose of this core course is to train doctoral students in the use of the scientific approach in educational and human service research, to ensure informed decision-making grounded in empirical research. After receiving training on the utilization of library database applications and various research methodologies, students will develop the elements of a research proposal, based on a problem in the workplace or field of interest, a related annotated bibliography, and a description of the methodology appropriate to conduct the study. While in the course, students will be expected to complete the online CITI training modules, a requirement for research submitted for Institutional Review Board (IRB) approval. Upon completion of the course, students should maintain the tools necessary to complete their Concept Paper, the first of three benchmarks in the NSU/FSE dissertation process. **Prerequisite/s: None.**

EDD 9650 Behavioral Principles and Concepts (3 Cr)

This course will focus on the basic concepts underlying the application of applied behavior analysis. History of the development of ABA as a science, its relationship to education and psychology, and an overview of the present applications of ABA provide an introduction to the application of ABA in a variety of settings. The majority of the course will focus on the basic underlying principles of ABA upon which all more advanced assessments and applications are based. **Prerequisite/s: None**

EDD 9655 Functional Behavior Assessment (3 Cr)

This course will build on the course on behavioral principles to introduce methods of assessment grounded in the science of Applied Behavior Analysis (ABA). The primary focus will be on choosing assessment strategies and matching assessment information to intervention strategies. Research on assessment of individuals and organizations will be included. Functional assessment technologies for assessing the purpose of challenging behaviors, methods for assessing effects of intervention, and methods of data collection in a variety of educational and human settings will be discussed. Methods of sharing assessment information with a variety of audiences will be covered. **Prerequisite/S: EDD 9650**

EDD 9660 Applications of Applied Behavior Analysis (ABA) in Education and Human Services (3 Cr)

This course is designed to demonstrate the application of behavioral principles in order to effect behavior change. The primary focus will be on behavioral intervention strategies and change procedures as they are applied to individuals, classrooms, schools, and organizations. Models of evidence-based practice using ABA will be highlighted. Selecting effective interventions based on multiple sources of assessment data will be emphasized. Methods of performance based training and collaboration with systems of support will be emphasized. **Prerequisite/s: EDD 9650**

EDD 9665 Leadership and Ethical Issues in Applied Behavior Analysis (3 Cr)

This course is the summative course of the series and will focus on case studies and applications of the previous knowledge of Applied Behavior Analysis (ABA). Specific focus will be on the role of the behavior analyst in a variety of applied settings including schools, clinics, and human services organizations. Methods for effective development of relationships with clients and other professionals will be highlighted with a focus on potential ethical issues. Students will identify potential ethical pitfalls and problems within their own workplace or in case studies and develop behavior analytic solutions to leading change in their own environments. **Prerequisite/s: None**

EDD 9810 Contemporary Challenges in Higher Education Leadership (3 Cr)

This course examines current issues, challenges, and controversies in higher education leadership. Topics include the changing nature of higher education, evolving organizational structures and models of governance, tenure and faculty roles and responsibilities, institutional entrepreneurship and resource allocation, the challenges of diversity among students and faculty members, and the challenges and opportunities of distance education. **Prerequisite/s: None**

EDD 9991 The American Community College (3 Cr)

This course will introduce the history and development of the community college, the mission and vision of those within the community college setting, and the success and obstacles associated with community college administration within the American system. Students will examine and describe the importance of governance in administration; supervision, and leadership within the community college system. Discussions will include strategies for change and new directions for community colleges in the twenty-first century. **Prerequisite/s: None**

EDD 9992 Community College Leadership and Change (3 Cr)

This course would provide and/or enhance the present knowledge, skills, and abilities of executive leadership within community college education. Students will examine leadership practices and styles of leadership focusing on community colleges and analyze the roles, responsibilities, styles, and differences of the present day leaders and administrators. Topics would include discussion on relationships with the community, governmental administrators, financing, and public policies within the community. **Prerequisite/s: None**

EDD 9993 Improvement of Instructional Strategies within the Community College (3 Cr)

This course focuses on the application of instructional strategies and technology within the community college system. Emphasis will focus on the discussion of curriculum development delivery systems, such as off-campus and online instructional strategies. Other topics include curriculum improvement, course planning and organization, diversity, teaching methods of onsite and on-line students, adult education, and innovative instructional technologies. **Prerequisite/s: None**

EDD 9995 Community College Workforce Education Programs (3 Cr)

This course provides the student with an opportunity to take an in-depth look at the mission and role of workforce education in its various forms within the community college. In addition to the various two-year degree programs, customized training programs, and partnerships of multiple forms, the course will provide an opportunity to explore other proactive measures that some institutions are engaging in to fully participate in job training and economic development within their community. **Prerequisite/s: None**

EDL 7110 School District Management (3 Cr)

This course is divided into two major discipline areas: School plant planning and personnel negotiations. School plan planning offers a comprehensive review of facility plans. The participants will have a clear understanding of each step it takes in planning a school facility. The second area deals with the legislative history of collective bargaining and the responsibilities and regulations of all involved agencies. Acts 195 and Act 88 are ingredients in this particular course. Helpful hints will be shared in preparing the successful negotiations. **Prerequisite/s: None**

EDL 7120 Social and Psychological Foundations of Education (3 Cr)

This course will begin with an integrated presentation of basic social and psychological principles related to education. These will then be discussed in connection with current educational issues: Equity, the development of values, "systemic reform," evaluating student competence, policy alignment, and so forth. Finally, these issues, and their underlying principles will be debated with respect to ongoing arguments and recommendations regarding effective school improvement. **Prerequisite/s: None**

EDRE 8100 Methods of Educational Research (3 Cr)

Provides the basic concepts, principles, and skills to integrate hypothesis testing with the appropriate statistical procedures when designing an experiment. Students will be prepared to conceptualize experiments, select appropriate research designs and methods as they relate to the hypothesis and research questions, and present the application of the research results. Research designs include but are not limited to factorial experiments with two factors, higher order factorial experiments, within subject designs and analyses of covariance. Although classic and generic design methods are covered, course emphasis is on the applicability of the skills learned with focus on the most popular research designs and methods in education. **Prerequisite/s: None**

EDRE 8200 Introduction to Statistical Methods (3 Cr)

An introduction to descriptive and inferential statistics. In particular, students learn descriptive statistics, graphical and numerical representation of information; measures of location, dispersion, position, dependence, and exploratory data analysis. Also, students are introduced to inferential statistics, point and interval estimation, tests of statistical hypotheses, inferences involving one or more populations, as well as ordinary least squares regression and chi-square analyses. Students will also learn to conduct and interpret tests of means, partial and part correlations, multiple regression, analysis of variance with planned and post hoc comparisons, analysis of covariance, repeated measures analysis, elements of experimental design, and power analysis. **Prerequisite/s: None**

EDRE 8300 Experimental Design and Analysis Using ANOVA Models (3 Cr)

This course introduces the underlying logic of experimental and quasi-experimental designs commonly used to conduct educational research and evaluation. Emphasis placed on the correct analyses of data arising from designed experiments. Students will be able to compare and contrast a variety of experimental designs, describe treatment effects, and determine the statistical significance of results. **Prerequisite/s: EDRE 8100 and EDRE 8200**

EDRE 8913 Program Evaluation (3 Cr)

This course is intended to provide students with an in-depth and comprehensive foundation in advanced program evaluation methods. Topics will include the development and use of logic models, as well as the use of experimental and quasi-experimental designs in evaluation research. A wide range of data-collection procedures, including conventional (e.g., systematic surveys) and unconventional (e.g., trained observer ratings) will be reviewed. Multiple qualitative and quantitative data analysis strategies are carefully examined. In addition, this course will provide guidance for the application of cost-effectiveness and cost-benefit techniques in program evaluation. **Prerequisite/s: None**

EDRE 8916 Qualitative Research (3 Cr)

This course outlines the theoretical underpinnings and current trends in qualitative research practices for various fields related to educational inquiry. Students learn to identify the qualitative research practices appropriate for addressing research questions that are based on non-linear, verbal and graphic datasets, and professionally accepted methods for analyzing, discussing, and theorizing utilizing such data. **Prerequisite/s: None**

EDRE 8920 Mixed Methods Research (3 Cr)

Designed to provide students with an understanding of mixed methods approaches to research studies. Appropriate strategies for incorporating both quantitative and qualitative paradigms are explored. Specific issues, challenges, and considerations encountered in using mixed methodologies are detailed. The conflict between positivism and constructivism are investigated along with examples of mixed model designs. **Prerequisite/s: EDRE 8200**

EDRE 9000 Designing Experiments in Educational Research (3 Cr)

An intermediate statistical level course, which deals with general linear models (GLMs) for quantitative responses. This course assumes successful completion of an introductory course in descriptive statistics and the use of t-tests. Specific GLMs covered include simple linear and multiple regression, one-factor analysis of variance (ANOVA), multiple-comparison procedures including two-factor ANOVA and analysis of covariance. Other models covered include random- and mixed-effects ANOVA and hierarchical and randomized block ANOVA. The techniques covered are considered to be special GLM cases, which provides a central unifying statistical framework for the entire course. Specifically, the emphasis is on understanding and applying GLMs. **Prerequisite/s: EDRE 8100 & EDRE 8200**

EDRE 9100 Applied Nonparametric Statistics (3 Cr)

An introduction and survey of distribution-free approaches to statistical inference. Topics include Fisher's method of randomization; distribution-free test procedures for means, variances, correlations, and trends; rank tests; relative efficiency, asymptotic relative efficiency, and normal-score procedures; binomial, hypergeometric distributions, and combinatorial run theory. Also, tests of goodness-of-fit, including the Kolmogorov-Smirnov and chi-square tests, contingency-table analysis, tolerance sets, and Tchebycheff-type inequalities are introduced. Emphasis is on applications. **Prerequisite/s: EDRE 8100**

EDRE 9150 Data-Driven Decision Making in Education (3 Cr)

Provides an overview of appropriate data gathering and analytic techniques for educational leaders. Students learn how data are gathered and used to make critical organizational decisions. The course also provides an in-depth examination of the way in which information technologies both inform and challenge education organizations' capabilities to define, control, and manage the abundance of data available to organizational leaders. Case studies along with the use of current work- world challenges are used to acquire the course outcomes. **Prerequisite/s: None**

EDRE 9300 Multivariate Statistics (3 Cr)

An advanced statistical level course, which deals with multivariate data analysis for quantitative responses. This course assumes the successful completion of a basic statistics course. Specific multivariate models covered include dependence techniques such as multiple regression, multiple discriminant analysis, logistic regression, MANOVA, and conjoint analysis. Interdependent techniques such as cluster and correspondence analysis and multidimensional scaling are covered. Other techniques covered include structural equation modeling (SEM) and confirmatory factor analysis (CFA). The course provides a general understanding of a variety of

multivariate analysis techniques and includes an overview of preparing, examining, and summarizing multivariate data. The emphasis is on conveying a general understanding and the applied aspects of multivariate data analysis. **Prerequisite/s: EDRE 8200**

EDRE 9400 Measurement Theory and Test Construction (3 Cr)

Covers the design of surveys and assessments, including sampling theory, instrument development, and administering surveys, including training survey administrators, quality control, data coding, data reduction, statistical analysis and inference, report writing, and presentation of results. Also covered are practical issues, such as using available sampling frames and minimizing non-response. **Prerequisite/s: EDRE 8200**

EDRE 9500 Large-Scale Assessment: Procedures and Practice (3 Cr)

Examines measurement concepts and data collection procedures in the context of large-scale (e.g., district, state, national, and international) assessment. Technical, operational, and political issues from the perspective of measurement concepts are considered. Using examples from TIMSS, PIRLS, and NCLB, the course covers framework development, test development, questionnaire development, sampling, data collection, analysis, and reporting. **Prerequisite/s: EDRE 8900**

EDRE 9600 Applied Research Practicum (6 Cr)

A capstone experience designed to provide application of research and concentration development experiences and opportunities. It is a unique professional growth benchmark and focuses on skill significance and scholarly research. The focus is on analysis, evaluation, and solution strategies for one or more research questions framed by the sponsoring organization. **Prerequisite/s: EDRE 9300**

FSC 8000 Fischler Summer Conference for Global Leadership, Learning, and Research (0 Cr)

Required research and other classes will be held at the Conference for Global Leadership, Learning & Research for one week during the month of July. All of these events will offer unique opportunities for both individual and collaborative learning with a national and international network of faculty, students, and colleagues. **Prerequisite/s: None**

FSC 8005 Summer Conference – Returning Students (0 Cr)

Designed Specifically for students who have already attended the mandatory FSC 8000 required of all first year doctoral students and who wish to return for additional knowledge regarding the applied dissertation process. Targeted sessions will be held on the dissertation benchmarks, commonly used methodologies, and special interest group round tables. **Prerequisite/s: None**

ITDE 8001 Introduction to Instructional Design (3 Cr)

An introduction to the systematic design of instruction. Major topics include the assessment and analysis of needs, performance improvement, the systematic design of instructional materials and events, and the formative and summative evaluation of instructional materials. **Prerequisite/s: None**

ITDE 8002 Instructional Development and Delivery (3 Cr)

An advanced course in the utilization of technology in instruction. Major topics include the assessment and development of instructional strategies, the integration of instructional technologies, tactics for instructional media selection, and the formative and summative evaluation of instructional technology utilization. **Prerequisite/s: None**

ITDE 8005 Introduction to Instructional Systems (4 Cr)

An advanced course examining the application of learning theories in instructional systems. Major topics include contemporary learning theories in education; research of educational and instructional theories; the application of learning theories in educational practice; and the construction of a personal learning theory. **Prerequisite/s: None**

ITDE 8006 System Analysis and Design (3 Cr)

An introductory course providing skills for the analysis and design of educational and instructional systems. Major topics include critical elements in the structure of distance education delivery system; analysis of educational systems and instructional systems; relationship of subsystems within an educational system; design of an educational system; design of instructional systems; and evaluation and continuous improvement of a system. **Prerequisite/s: None**

LDR 8511 Latin American Education in Today's World (3 Cr)

This course is designed to familiarize students with current issues in education that are affecting Latin American schools. Issues particular to the Dominican Republic and other Caribbean nations will be discussed and explored looking for common answers. Students will be presented with possible solutions being tried in America in order to compare and look for commonalities in their resolution. Each participant will present an issue of concern and a possible resolution based on researched methods or successful program adaptations. **Prerequisite/s: None**

PPO 8000 PHD Program Orientation (0 Cr)

The purpose of the Ph.D. program orientation (PPO 8000) is to provide new students with an overview of critical areas in the program to help ensure doctoral student success. New students must attend the orientation meeting held on campus. This noncredit course is a mandatory requirement for all first-year Ph.D. students at NSU's Fischler School of Education. Students may enroll in the orientation simultaneously with the first doctoral course. **Prerequisite/s: None**

PHDE 8000 Historical Development of American Education (3 Cr)

Examines the historical and philosophical development of education and educational systems in the United States. Students study a variety of themes such as access issues, teacher education, religious influences, educational philosophies, education and social movements, and the impact of technology and media. The course also examines the history of educational research and assessment within the context of American education. Students analyze primary documents to understand social context and historical change in American education. **Prerequisite/s: None**

PHDE 8950 Policy Analysis in Education (3 Cr)

Offers a systematic consideration of the structure and function of educational policies and problems of research in a political context. Also, the course examines methods for evaluating educational policies across the educational continuum. Students design and conduct a policy evaluation drawing on policy evaluation literature. Examination of the uses of policy evaluation information in

shaping organization-decision making is also included. **Prerequisite/s: None**

PHDE 9999 Advanced Topics (3 Cr)

This is an organized class specifically designed to accommodate student needs and program development demands not met by existing course offerings. See the course topic syllabus for list of outcomes, assignments and assessments. **Prerequisite/s: None**

SLPD 7000 Technology and Instrumentation in Communication Sciences (1 Cr)

This course presents advanced applications in the use of computer hardware and software in communication sciences and disorders. Doctoral students will receive hands-on experience in the use, application, and configuration of software for distance learning technologies for management of clients and for business issues. **Prerequisite/s: None**

SLPD 7030 Gerontology (2 Cr)

This course will provide students with an overview of gerontology. The older adult population often present with complex, interacting issues. Thus, a holistic approach to patient care will be considered, encompassing biological, social, psychological, and cultural aspects related to aging. Analysis of day-to-day functioning of the aging patient will be covered. An emphasis will be placed on differentiation between normal aging processes and pathological changes related to speech pathology and communication disorders. Learning will take place via class lectures and discussions, experiential exercises, written case studies, student presentations and panel discussions. Discussion of ethical issues related to aging will augment the learning process. **Prerequisite/s: None**

SLPD 7040 Supervision (3 Cr)

The identification and analysis of the process of supervision along the continuum of supervision from support personnel to peer will be examined. Topics will include planning and executing the supervisory conference, data collection procedures, and evaluation. The research in the field of supervision will be examined with an emphasis on practical applications. The impact of cultural diversity on supervision will be addressed. **Prerequisite/s: None**

SLPD 7060 Genetics (2 Cr)

This course will provide students with an overview of genetics. Doctoral candidates will be exposed to a general overview of genetics and will investigate the spectrum of genetic syndromes common to clients with communication disorders. Doctoral candidates will study the embryologic development with an emphasis on normal and abnormal or interrupted development at various stages and outcomes. **Prerequisite/s: None**

SLPD 7070 Pharmacology (2 Cr)

The goal of this course is to introduce the student to the advanced science and clinical pharmacology that impacts the practice of Speech Language Pathology. The clinical use and understanding of the pharmacodynamics, pharmacokinetics, and the potential positive and negative outcomes of medications will be emphasized. Lectures, videos and hands-on learning activities will be explored during the course. Doctoral candidates will learn the general principles of drug action, particularly as related to communicative functions. The classes of drugs used in clinical practice will be examined with emphasis on activity, mode of action, side effects, toxicity, and drug interactions. Case studies in the fields of speech-language pathology will be presented. **Prerequisite/s: None**

SLPD 7075 Counseling (2 Cr)

Emphasis on counseling approaches for use with clients with communication disorders and/or their families. **Prerequisite/s: None**

SLPD 7080 Business Management and Leadership (2 Cr)

Doctoral candidates will learn basic management and leadership principles as they relate to the conduct of speech-language or audiology practice in a variety of settings. Legal and ethical issues in practice management will be covered. Topics to be addressed include leadership, service delivery, financial management, standards and compliance, quality and performance improvement, technology, personnel management, marketing and advocacy. **Prerequisite/s: None**

SLPD 7200 Neuroscience/Neuropsychology and Communication Disorders (3 Cr)

Neurological foundations of speech-language and cognitive disorders will be presented. The emphasis will be a study of neuropathological conditions and the speech-language disorders that result from these conditions. **Prerequisite/s: None**

SLPD 7210 Advanced Seminar in Pediatric Development (3 Cr)

Theories and applications of cognitive, social, psychological, and cultural development of children and adolescents will be examined. Current thinking will augment classical theory. Application of current thinking, as well as therapeutic, teaching and care giving practices stemming from these ideas will be stressed. **Prerequisite/s: None**

SLPD 7220 Advanced Seminar in Voice and Swallowing (3 Cr)

Advanced Seminars in Voice and Swallowing is a doctoral level course exploring best practices in voice and swallowing disorders. This course is not designed to develop voice and swallowing clinicians nor is it designed to impart the full breadth of information available in the areas of voice and swallowing disorders. Rather, this course is designed to reacquaint students with the specialty areas of voice and swallowing disorders that were taught to them at the master's level, expand their knowledge base of best practices in voice and swallowing disorders, and develop a working sense of the scope of practice in voice and swallowing. **Prerequisite/s: None**

SLPD 7250 Advanced Seminar in Augmentative and Alternative Communication (AAC) (3 Cr)

This study area provides a discussion of the critical issues in augmentative and alternative communication and assistive technology, with a focus on self-determination, family-centered practices, and AAC outcomes. Hands-on experience with non-electronic communication displays, various input devices, and low-tech communication devices, as well as a high technology voice output communication aids will be presented. Current issues in ethics, funding, and the impact of culture on AAC are presented. A discussion of recent trends and future needs as well as strategies for keeping up with new technology and a rapidly expanding knowledge base will be included. **Prerequisite/s: None**

**Abraham S. Fischler
School of Education**

International Programs

In addition to the specific programs listed within this section, students worldwide are eligible to participate in any of our online offerings, as long as they meet the established admission requirements for that specific program of study.

Master of Science in Education

The Graduate Teacher Education program offers international students the opportunity to earn a M.S. in Education in various specialization areas. These M.S. in Education programs are noncertification programs designed to bring the innovative and flexible teaching style of the Fischler School of Education and Human Services to the international community. These programs are offered through the Graduate Teacher Education Program, as such, unless otherwise stated, all GTEP policies apply to students enrolled in these programs.

The Abraham S. Fischler School of Education (FSE) program offers international students the opportunity to earn a M.S. in Education in various specialization areas. These M.S. in Education programs are noncertification programs designed to bring the innovative and flexible teaching style of the FSE to the international community. These programs are offered through the Graduate Teacher Education Program, as such, unless otherwise stated, all GTEP policies apply to students enrolled in these programs.

This program is currently offered to students in the following locations:

Freeport and Nassau—Bahamas (Teaching and Learning Specialization)

Kingston, Mandeville, Montego Bay, and St. Ann—Jamaica (Teaching and Learning Specialization and Exceptional Student Education Specialization)

Additional Admission Requirements

The following are specific admission requirements for entry into the International Programs of the Graduate Teacher Education Program. Please see General Admission Requirements for additional admission information. **International applicants may be exempt from providing GRE scores.**

Programs of Study

Specialization Area: Teaching and Learning (Bahamas and Jamaica)

Noncertification Track (Major Code F750)

Program of Study

EDU 5000:	Orientation to the Graduate Teacher Education Program (0 credit)	ESE 600:	Survey of Exceptionalities of Children and Youth (3 credits)
CUR 526:	Educational Research for Practitioners (3 credits)	ETEC 602:	Technology and School Curriculum (3 credits)
CUR 506:	Curriculum and Instruction (3 credits)	TSOL 510:	Classroom TESOL, Theories and Strategies for Teachers (3 credits)
CUR 591:	Assessment and Evaluation (3 credits)	RED 575:	Contemporary Foundations of Reading: Research Perspective (3 credits)
EDL 510:	School Leadership (3 credits)	INED 691:	Applied Research Practicum (Part 1) (3 credits)
EDU 502:	Psychological Foundations in Education (3 credits)	INED 692:	Applied Research Practicum (Part 2) (3 credits)
EDU 503:	Classroom Management and Organization (3 credits)		
			Total Credits Required for Degree Completion 36

Specialization Area: Exceptional Student Education (Jamaica)

Noncertification Track (Major Code F515)

Program of Study

EDU 5000:	Orientation to the Graduate Teacher Education Program (0 credit)	CUR 526:	Educational Research for Practitioners (3 credits)
ESE 600:	Survey of Exceptionalities of Children and Youth (3 credits)	ETEC 602:	Technology and School Curriculum (3 credits)
ESE 610:	Speech and Language Development and Disabilities (3 credits)	ESE 660:	Curriculum and Instructional Materials for Exceptional Students (3 credits)
ESE 620:	Behavior Management of Exceptional Students (3 credits)	ESE 690:	Consultation and Collaboration in Exceptional Student Education (3 credits)
ESE 630:	Educational and Psychological Assessment of Exceptional Students (3 credits)	INED 691:	Applied Research Practicum (Part 1) (3 credits)
ESE 640:	Transition Skills and Services for Exceptional Students (3 credits)	INED 692:	Applied Research Practicum (Part 2) (3 credits)
ESE 650:	Behavior Management of Exceptional Students (3 credits)		
			Total Credits Required for Degree Completion 36

Doctor of Education

The Doctor of Education Degree Program at the Abraham S. Fischler School of Education of Nova Southeastern University prepares students for leadership and lifelong learning in the fields of education and human services. The doctoral program fosters in-depth application of knowledge and skills, inquiry and research, problem-solving, collaboration and communication, and professional development. The graduates of the doctoral program will be recognized leaders in the areas of educational leadership, health care education, higher education, human services administration, instructional leadership, instructional technology and distance education, organizational leadership, special education, and speech-language pathology.

This program is currently offered to students in the following locations: Malaysia, Singapore, Korea, and Nassau, Bahamas

For program information, please refer to the Doctoral Programs section of the FSE catalog.

Admission Requirements

The following are specific admission requirements for entry into the Doctor of Education program for International students. Please see General Admission Requirements for additional admission information.

- a. Official transcript from a regionally accredited institution indicating a conferred master's degree (minimum 3.0 grade point average is required).
- b. Two professional letters of recommendation by two different individuals who can attest to the applicant's ability to succeed in a doctoral program.
- c. Current employment or relevant work experience in field.
- d. A test score report showing that the applicant received a raw score of 37 (scaled score 391–396) on the Miller Analogies Test (MAT), or GRE scores of 1000 (combined Verbal and Quantitative scales only) **for tests taken prior to August 1, 2011**, or GRE scores of 300 (combined Verbal and Quantitative scales only) **for tests taken on or after August 1, 2011. International applicants may be exempt from providing MAT and GRE scores.**

Note: The test must have been taken within the past 5 years. If the score falls below the minimum requirement, the applicant must submit a rationale, in essay format, providing an explanation of why scores do not reflect the student's academic potential.

- e. Applicants must complete a face to face or phone interview to determine eligibility into the program. **International applicants may be exempt from the interview.**

Latin American Institute for Educational Leadership

(Instituto Latinoamericano de Liderazgo Educativo – ILALE)

The Latin American Institute for Educational Leadership (Instituto Latinoamericano de Liderazgo Educativo – ILALE) is a network of graduate programs for international students in foreign countries and students at selected locations in Florida.

Within the international programs, a special educational network exists known as the Latin American Institute for Educational Leadership also known as Instituto Latinoamericano de Liderazgo Educativo (ILALE). ILALE has both master's and doctoral programs. The network unites the graduate programs in their common mission to create a cadre of educational leaders who can face the challenges of the modern world by becoming agents for change in their communities and/or in their countries. ILALE operates in Belize, Mexico, several countries in Central and South America, and Puerto Rico. ILALE also extends to selected sites in Florida where students are enrolled in the master's degree program, the International Teacher Education Program (ITEP), which is conducted in Spanish. The instructional materials used in the ILALE programs are in Spanish or English, as required by students.

Master of Science

The Graduate Teacher Education program offers international students the opportunity to earn a M.S. in various specialization areas. These M.S. programs are non-certification programs designed to bring the innovative and flexible teaching style of the Abraham S. Fischler School of Education to the international community. These programs are offered through the Graduate Teacher Education Program (GTEP), and as such, unless otherwise stated, all GTEP policies apply to students enrolled in these programs.

The Master of Science program under ILALE is currently offered to students in the following locations:

Belize City - Belize (Curriculum, Instruction, and Technology, Mathematics Education, Science Education, and Teaching English to Speakers of Other Languages)

Santo Domingo and Higüey - Dominican Republic (Curriculum, Instruction, and Technology, Management and Administration of Educational Programs, and Teaching English to Speakers of Other Languages)

Quito, Ecuador (Master of Science in Leadership)

Miami-Dade, Broward, West Palm Beach, and Tampa - Florida – International Teacher Education Program (ITEP) (Mathematics Education, Science Education, Exceptional Student Education, Spanish Language Education [Secondary] and Elementary Spanish Language Education Specialization)

Admission Requirements

The following are specific admission requirements for entry into the ILALE program. Please see General Student Information for additional admission information.

- a. Official transcript from an accredited institution indicating a conferred bachelor's degree.
- b. Official English translation of the transcript if such is not in English.
- c. Official evaluation of the transcript from an agency accredited by the National Association of Credential Evaluation Services (NACES) or equivalent documentation from country where studies were completed.
- d. Evidence of a cumulative GPA of a 2.5.
- e. Two professional letters of recommendation in English by two different individuals who can attest to the applicant's ability to succeed in a master's program.
- f. Current employment or relevant work experience in field - resumé or curriculum vitae.

Doctor of Education

The Doctor of Education (Ed.D.) is designed to support the mission of the Abraham S. Fischler School of Education. The program is designed to prepare adult learners to fulfill their professional and personal academic goals. It provides opportunities to enhance the core knowledge, skills and values essential to competent and ethical practitioners and leaders of organizations in the fields of education, human services and related areas. The learning outcomes of the program are focused on facilitating the transfer of theory into practice in order to produce a new generation of local, national and global leaders who will effect positive changes in a diverse and multicultural society.

For program information, please refer to the Doctoral Programs section of the FSE catalog.

Admission Requirements

The following are specific admission requirements for entry into the Doctor of Education program for international students. Please see General Admission Requirements for additional admission information.

- a. Official transcript from an accredited institution indicating a conferred master's degree.
- b. Official English translation of the transcript if such is not in English.
- c. Official evaluation of the transcript from an agency accredited by the National Association of Credential Evaluation Services (NACES) or equivalent documentation from country where studies were completed.
- d. Evidence of a cumulative GPA of a 3.0.
- e. Two professional letters of recommendation in English by two different individuals who can attest to the applicant's ability to succeed in a master's program.
- f. Current employment or relevant work experience in field - resumé or curriculum vitae.

Summer Conference

In their first year, students from Puerto Rico are required to attend a one-week, Abraham S. Fischler School of Education (FSE) Summer Conference on Global Leadership, Learning and Research. Students from foreign countries may attend the conference on a voluntary basis. For additional information, please visit the Summer Conference Web site at <http://www.schoolofed.nova.edu/summer>.

Doctoral Seminars

The doctoral seminars take place at the last session of each study area. The seminars provide a forum for participants to discuss and interchange ideas between themselves, with scholars, and their professors. The seminars will afford an opportunity for participants to expand the knowledge gained in the classroom and their understanding of selected topics; by interacting with the lessons, texts, experiences, and colleagues on an equal footing rather than in the more traditional didactic and hierarchical style.

The practical application of theoretical concepts as well as critical discussions and scholarly writing will make up the essence of these sessions. There will be nine Doctoral Seminars linking the end of each study area with the beginning of the next study area; therefore, providing a continuum between the last session of a study area and the next study area. Each seminar may or may not have a writing component associated with it but all are 0 credit.

Topics to be discussed among others are: APA form and style, the advising process, the concept paper, the formal proposal, the IRB process, and the final report.

Concentrations

The Doctor of Education program offers ten different concentrations. Depending on the expressed needs of the community of learners where the program is offered, students will be offered a limited choice of concentrations from which they will select the one(s) that best meets their professional goals.

Applied Dissertation

Ed.D. students are required to complete an applied dissertation as their culminating project. Students should visit the Applied Research Center (ARC) Web site <http://www.fischlerschool.nova.edu/applied-research/arc> for more information about procedures, resources, and guidelines offered by the Applied Research Center.

ILALE Doctoral Programs of Study

Belize

The doctoral program in Belize is offered with three concentrations. Students must select **two** of the concentration areas listed below.

Program of Study and Concentration Areas

General Program Requirements

DSO 8000:	Doctoral Studies Orientation (0 credit)	EDD 9100:	Leadership (3 credits)

International Course Descriptions

APR 681-685 Practicum Seminar (0.5 Cr)

The seminar takes place during crucial places in the program. It provides a forum for students to discuss and interact among themselves, other scholars, and professors. The seminar affords an opportunity for students to expand the knowledge gained in the classroom as well as their understanding of selected topics. Practical applications of theoretical concepts as well as critical discussions and scholarly writing form the essence of these sessions. The seminars are used to assist students in the development and implementation of the various products researched during the program. **Prerequisite/s: None**

INED 500 Comparative International Education (3 Cr)

This course provides teachers with an opportunity to examine some of the dilemmas facing language educators in an international context from both a policy point of view and an educator's perspective. Using both critical studies and personal memoirs, students will examine literacy and TEFL educational issues in the context of different countries and discuss how educational systems are organized to meet political, social, and economic agendas. Students will reflect on the role of the individual language teacher in a changing multilingual environment. Both online data research and two memoirs related to language education policy set in different countries are used as source materials for this course. **Prerequisite/s: None**

INED 691 Action Research in Practice (Part 1) (3 Cr)

This course is intended to engage the student in a problem-solving experience designed to improve or enhance an educational situation. This process is systematic and involves the identification of a need or problem and the creation of a viable solution, based on educational research. A project proposal that is approved by the student's Advisor and the Reader will be the culminating product. **Prerequisite/s: CUR 526 and at least one additional course.**

INED 692 Action Research in Practice (Part 2) (3 Cr)

The students will actively engage in problem-solving in an educational setting. Each student will implement his/her approved INED 691 proposal for a minimum of 12 weeks, monitor progress toward the objectives, using formative and summative assessment strategies, analyze the resulting data, and write a final report. **Prerequisite/s: INED 691.**

EDD 9100L Leadership (6 Cr)

This course focuses on strategic leadership and its influence for organizational effectiveness which occurs in the context of modern society by initiating change and reacting to change. Participants will pursue theory and research focusing on the foundations for decision making and analysis of complex historical, cultural, sociological, philosophical, and theoretical perspectives in the leadership process. This results in the creation of action plans for restructuring organizations. **This course is taught only in Spanish. Prerequisite/s: none**

ITEP 510 - 540 Education Content and Language Learning for ESL Educators I (0.5 Cr)

This course introduces the non-native intermediate speaker of English to the skills necessary to improve their skills in the writing, reading and analysis of academic text. Additionally, this course prepares students for classroom instruction through the development of speaking and listening skills needed for educational classroom success. Students develop the skills necessary for success in the classroom, progressing from writing of paragraphs to essays. Reading, speaking and listening language skills will be developed through the inclusion of interactive educational scenarios. The terminology, concepts and content of the Psychological Foundation of Education course will be the basis of the language development activities of the course. This will enable students to learn about the educational field in a content based approach to language learning. **Prerequisite/s: None**

LDR 8501-8509 Doctoral Seminar (0.5 Cr)

The doctoral seminar will take place at the last session of each study areas and will provide a forum for participants to discuss and interchange ideas between themselves, with scholars and their professors. The seminar will afford an opportunity for participants to expand the knowledge gained in the classroom and their understanding of selected topics; by interacting with the lessons, texts, experiences and colleagues on an equal footing rather than in the more traditional didactic and hierarchical style. The practical application of theoretical concepts as well as critical discussions and scholarly writing will make up the essence of these sessions. There will be nine Doctoral Seminars linking the end of each study area with the beginning of the next study area; and therefore providing a continuum between the last session of a study areas and the next study area.

MSL 9100L Leadership Seminar (6 Cr)

This course focuses on strategic leadership and its influence on organizational effectiveness; which occurs in the context of modern society by leading change. Participants will pursue theory and research focusing on the foundations for decision-making and analysis of complex historical, cultural, sociological, philosophical, and theoretical perspectives in the leadership process. **This course is taught only in Spanish. Prerequisite/s: Admission to the International Program**

Certificate Programs

Certificate Programs

Certificate of Educational Diversity Leadership

(Major Code F562)

The certificate of Educational Diversity Leadership offers the learning tools and techniques that will equip educational leadership professionals to effectively work with faculty, staff, and students in identifying strategies to build a team that values individuals and empowers them to achieve at their highest capabilities. Through this cutting edge, and highly innovative program, leaders will better understand what is required for a learner-centered community that values and supports the achievement of all students. Subsequently, theoretical and practical strategies will be provided with the intent of increasing cultural competency in this world of change and in this age of information and knowledge economy.

Who Should Apply

- Educational leaders who wish to obtain a certificate and/or increase their levels of expertise in their current field.

Diversity Certificate Courses (15 credits)

IDDE 630:	Diversity: Cross Cultural Awareness (3 credits)	IDDE 625:	Program Assessment, Evaluation, and Professional Growth (3 credits)
IDDE 640:	Diversity and Social Justice (3 credits)	IDDE 699:	Applied Professional Experience in Diversity Education (3 credits)
IDDE 650:	Global Awareness and Classroom Culture (3 credits)		

Total Credits Required for Certificate Completion 15

Certificate of Educational Leadership Modified Core

(Major Code A542)

About the Certificate

The Certificate of Educational Leadership Modified Core program is a state-approved program in Florida for add-on certification for teachers. It focuses on preparing prekindergarten through 12th-grade teachers for administrative positions in public and nonpublic schools and school systems. This certificate program provides educators with leadership skills through practical application and provides broad knowledge of social, political, and economic forces at work in society that affect education. Course content is research-based and infuses best practices in education, while aligning directly with the Florida Department of Education's program certification requirements. Subject to certain restrictions, credits earned in this program may be accepted as meeting requirements for the Master of Science in Educational Leadership degree.

Additional Admission Requirements

A Master's degree from a regionally accredited institution with a 3.0 Cumulative GPA for Graduate Studies required.

Educational Leadership Modified Core Certificate Courses

EDU 5000:	Orientation to the Graduate Teacher Education Program (0 credit)	EDL 505:	Educational Budgeting and Finance (3 credits)
EDL 506:	Standards-Based Curriculum and Assessment (3 credits)	EDL 520:	School Law for Administrators (3 credits)
EDL 550:	Electronic Tools for Educational Leaders (3 credits)	EDL 525:	Human Resources: Process and Staff Development (3 credits)
EDL 510:	Ethical School Leadership (3 credits)	EL 600:	Seminar in the Knowledge Base of Educational Leadership (3 credits)
EDL 500:	Problem Solving and Visionary Leadership (3 credits)	EL 698:	Educational Leadership Internship (3 credits)
EDL 530:	Management of Schools (3 credits)		

Total Credits Required for Certificate Completion 30

Additional Certificate Completion Requirements

Florida Educational Leadership Examination (FELE) – Passing scores on all sections are required.

Certificate of Leadership

(Major Code F987)

The Certificate of Leadership is designed to foster the development of leadership skills to organize, motivate, and lead others to achieve organizational and team goals. Focus is on the development of practitioners who can translate leadership perspectives and applications into the fields of education and human services. The certificate is for degree and non-degree-seeking students. Subject to certain restrictions, credits earned in this program may be accepted as meeting requirements for the Master of Science in Leadership degree.

Who Should Apply

- Advisors, coordinators, trainers, supervisors, administrators, directors, and other professionals in private schools, colleges and universities, human services and nonprofit organizations, hospitals, religious organizations, and the military who wish to obtain a certificate and/or increase their level of expertise in leadership.
- Individuals with bachelor's degrees who wish to obtain master's degrees and/or increase their levels of expertise in leadership in the fields of education and human services.

Choose five courses for the Certificate of Leadership (16 credits)

MSL 680:	Leadership Theory and Practice (3 credits)	MSL 686:	Strategic Leadership in Education and Human Services (3 credits)
MSL 681:	Leading Change (3 credits)	MSL 687:	Current Organizational Issues and Trends in Education and Human Services Organizations (3 credits)
MSL 682:	Ethical Leadership (3 credits)	MSL 688:	Leadership in the Information Age (3 credits)
MSL 683:	Research for Leaders in Education and Human Services (3 credits)	MSL 690:	International Leadership Perspectives for Educators (3 credits)
MSL 684:	Organizational Systems (3 credits)		
MSL 685:	Leading Learning Communities (3 credits)		
MSL 689:	The Business of Leadership (4 credits)		Total Credits Required for Certificate Completion 16

Certificate of School Safety and Violence Prevention

(Major Code F602)

The Certificate Program of School Safety and Violence Prevention provides school administrators, school teachers and staff, and educators in the field of education practical skills and knowledge to meet the current challenges associated with school safety. The training provides educators with the skills to develop safety plans with the training and response skills to provide the leadership during and post crisis. This certificate program utilizes Crime Prevention through Environmental Design (CPTED) ordinances to review and design the environment for violence prevention and will demonstrate an understanding of the National Incident Management System (NIMS) in compliance for mitigation and prevention, emergency preparedness, and response and recovery.

School Safety and Violence Prevention Certificate Courses

SSV 500:	Mitigation and Prevention (3 credits)	SSV 502:	Response and Recovery (3 credits)
SSV 501:	Emergency Preparedness (3 credits)		Total Credits Required for Certificate Completion 9

**2012 – 2013
Student Handbook
Policies, Regulations,
Procedures, and
General Student Information**

The FSE Catalog and FSE Student Handbook have been combined into one document. Policies and programs set forth in this handbook are effective through the academic year 2012-2013. Changes in the content of the *NSU Student Handbook* may be made, at anytime, by the university, division, or college administration. Adequate notice of anticipated changes will be given to the student, whenever possible. This student handbook supersedes all previous handbooks, documents, and directives where they may be in conflict. The student handbook is the governing document for all program-related information. Please become familiar with the policies and procedures listed within. Failure to read this handbook does not excuse students from the rules, policies, and procedures contained within.

General Student Information

NSU Student Handbook

The *NSU Student Handbook* addresses general university policies for NSU students, including student life, student rights and responsibilities, university policies and procedures, and NSU resources. The *NSU Student Handbook* is available at the Office of Student Affairs Web site, <http://www.nova.edu/cwis/studentaffairs>. Students should refer to the *NSU Student Handbook* for information regarding university policies, procedures, and resources that are not listed in this publication including, but not limited to, the following:

University Policies and Procedures

Acceptable Use of Computing Resources	Hurricane Procedures
Abuse/Physical Assault	Identification Cards
Acceptance of Professional Fees	Interference with University Investigations and Disciplinary Proceedings
Appeal Procedure	Jurisdiction of University Policies and Procedures
Arson	Off-Campus Violations
Bomb Threats	Parking and Traffic Policies
Breaking and Entering	Privacy of Records
Campus Security Report	Procedure to Inspect Records
Cellular Phone Policy	HIPAA Statement
Closing Hours	Public Laws
Code of Student Conduct and Academic Responsibility	Sexual Misconduct and Harassment
Consensual Relations Between Faculty Members and Students	Sexual Misconduct Policy
Contracting on Behalf of the University	Harassment Statement
Disabilities	Sexual Harassment Policy
Discriminatory Conduct	Smoking Policy
Drug Policy—Zero Tolerance	Solicitation and Posting Policy
Emergency Situations	Stalking
Failure to Comply	Student Publications
False Information	Theft or Unauthorized Possession
Falsification of Records	Title IX Compliance Policy
Fire Safety	Travel
Fraud	Trespass Policy
Gambling	Unauthorized Entry
Grievance Procedures for Nonacademic Disputes	Unauthorized Possession of University Property
Health Policies	Vandalism
	Weapons

NSU Resources and Student Life

Alumni Association	Residential Life and Housing
Campus Traditions	Student Affairs
Community Service	Student Employment
Computing Facilities	Student Financial Services and Registration
Newspaper	Student Medical Centers
Nova Singers	Student Organizations
NSU Athletics	Student Union
NSU Student Counseling	University Registrar
Off-Campus Housing	University Bursar
Office of International Students	Veterans Benefits
One-Stop Shop	Veterans Affairs
Pay for Print	Wireless Networking—NSU WINGS
Public Safety	Women's Resource Institute
Radio Station	
Recreation and Wellness	

Reservation of Power

The *Nova Southeastern University Student Handbook* is not intended to be a contract or part of a contractual agreement between NSU and the student. Changes in the content of the *Student Handbook* may be made at any time, by the university, division, or college administration. Whenever possible, adequate notice of anticipated changes will be given to the student. This *Student Handbook* supersedes all previous handbooks, documents, and directives where they may be in conflict. The *Student Handbook* is the governing document for all program-related information. Please become familiar with the policies, regulations, and procedures listed within. Failure to read this handbook does not excuse students from the policies, regulation, and procedures contained herein. Students are expected to be familiar and comply with all the policies, regulations, and procedures contained within the *Student Handbook*, including any revisions or modifications.

Nova Southeastern University reserves the right to amend, modify, add to, or delete its rules, policies, and procedures without notice, affecting its institutional relationship with students as deemed necessary by the administration. Any such amendment, modification, addition, or deletion shall not be considered a violation of the relationship between the university and the student. Such rights include modification to academic requirements, curriculum, tuition, and/or fees when in the judgment of the administration such changes are required in the exercise of its educational responsibility.

Policies, Regulations and Procedures

Academic Honesty, Responsibility and the Code of Student Conduct

Nova Southeastern University is a community of scholars in which the ideals of freedom of inquiry, freedom of thought, freedom of expression, and freedom of the individual are sustained. However, the exercise and preservation of these freedoms and rights require a respect for the rights of all in the community to enjoy them to the same extent. It is clear that in a learning community, willful disruption of the educational process, destruction of property, and interference with the orderly process of the university or with the rights of other members of the university community will not be tolerated. Students assume an obligation to conduct themselves in a manner compatible with the university's function as an educational institution. To fulfill its functions of imparting and gaining knowledge, the university reserves the authority to maintain order and to exclude those who are disruptive to the educational process.

Any violations of the *Code of Student Conduct and Academic Responsibility* and/or university policies, regulations and procedures may result in disciplinary action and/or criminal prosecution. Violations of academic and/or supplementary standards will be handled through the student's academic college, center, or school. Violations of conduct standards; supplementary standards; Nova Southeastern University or the Abraham S. Fischler School of Education policies, academic regulations or procedures will be handled by the Office of the Dean of Student Affairs, or by another individual, committee, academic unit or center as deemed appropriate.

Changes to the *Code of Student Conduct and Academic Responsibility* will be posted on the student affairs Web site. Students are required to be familiar with university rules and policies, as well as the *Code of Student Conduct and Academic Responsibility*. Students should refer to the *NSU Student Handbook* for a complete list of student conduct standards. The *NSU Student Handbook* is available at the Office of Student Affairs Web site, <http://www.nova.edu/cwis/studentaffairs>.

Academic Misconduct

The University, as a community of scholars, embraces the free expression of ideas in furthering the acquisition of knowledge, while upholding the principles of trust, responsibility, honor, integrity, and ethical behavior in meeting program and degree requirements. As such, students are expected to adhere to a standard of academic honesty in all work submitted. Violations of academic honesty standards constitute academic misconduct, and violate the NSU

Code of Student Conduct and Academic Responsibility, available online <http://www.nova.edu/cwis/studentaffairs/forms/ustudenthandbook.pdf>.

The following acts violate the academic honesty standards and will result in a finding of academic misconduct:

1. **Cheating in any form:** intentionally using or attempting to use unauthorized materials, information, or study aids in any academic exercise, or having others complete work or exams and representing it as one's own.
2. **Fabrication:** intentional and unauthorized falsification or invention of any information or citation in an academic exercise.
3. **Facilitating academic dishonesty:** intentionally or knowingly helping or attempting to help another to violate any provision of this code.
4. **Plagiarism:** the adoption or reproduction of ideas, words, or statements of another person as one's own without proper acknowledgment. (See Academic Honesty Standards.)
5. **Conspiracy to commit academic dishonesty:** assisting others to commit acts of academic misconduct
6. **Misrepresentation:** intentionally making false statements or omissions of facts in a contract. Examples include, but are not limited to portfolios, cover sheets, and clinic, training station, and practicum agreements.
7. **Bribery:** offering of goods, services, property or money in an attempt to gain an academic advantage.
8. **Forging or altering documents or credentials:** examples include, but are not limited to signatures, dates and other information on portfolios, cover sheets, and clinic, training station, and practicum agreements.
9. **Knowingly furnishing false information to the institution.**

Penalties for academic misconduct can range from reduced grades on assignments or in courses, to failing grades on assignments or in courses, as determined by the course professor. Academic misconduct may also result in dismissal from the Abraham S. Fischler School of Education without the possibility of re-enrolling at any time. Students may not withdraw from a course in progress to avoid a failing grade upon receiving notice that academic misconduct may have occurred.

Note: If a charge of academic misconduct is determined in a course, any student initiated withdrawal for that course will be administratively reversed and a grade of F will be entered on the student's transcript for that course.

Academic Progress

Academic progress is defined as progression from one academic term/semester to the next. To make satisfactory academic progress and progress to the next academic term/semester, a student must satisfactorily complete all courses and/or benchmarks required in the preceding academic term/semester.

Academic Standing

Students are in good academic standing if they have successfully completed all courses attempted, no courses with incomplete grades are outstanding, maintained a cumulative GPA of 3.0 or better, and the student is not currently on academic or behavioral probation, or has been dismissed.

Academic Probation and Dismissal—M.A., M.S., Ed.S. Students

- Students who fail to maintain a cumulative 3.0 GPA will be placed on academic probation.
- Students who are placed on academic probation are required to raise their cumulative GPA to 3.0 or better within the defined probation period.
- Students have one term (defined as one [1] sixteen [16] week term, or two [2] eight [8] week sessions) in which to clear probation.
- Students who fail to clear probation are subject to dismissal.
- Students previously placed on probation will be subject to dismissal should their GPA fall below a 3.0 a second time (students are limited to one [1] probationary period only).
- Students who are conditionally admitted and do not earn a grade of B or above in all courses completed during their first term of enrollment will be subject to dismissal.

Notification of probation or dismissal may occur during the succeeding term of registration, whereby students may be administratively withdrawn from courses in progress (if applicable). Students who are dismissed have the option to appeal (see Student Appeal Process).

Academic Probation—M.S. in Speech-Language and Communication Disorders Students

Students will be placed on academic probation for any one of the following:

- Cumulative GPA falling below a 3.0.
- Grade of F in any academic course.
- Grade of C or below in any two academic courses.
- Grade of C or below in a clinical course.

Any course in which a grade of C or below is earned must be repeated through the program in Speech-Language and Communication Disorders. Students must repay for the course. Students must successfully repeat the class before moving on to courses that have the repeated course as a prerequisite.

Students will be placed on professional probation for the following:

- A second unprofessional or unethical conduct violation notice, as defined by the NSU Code of Student Conduct and Academic Responsibility, the Code of Ethics of the American Speech-Language-Hearing Association (<http://www.asha.org>), and/or the manual for internship and clinical policies and procedures.

Students will be subject to dismissal from the program for the following:

- Students previously placed on academic probation, should they be placed on probation a second time (i.e., academic or professional).
- Students previously placed on professional probation, should they be placed on probation a second time (i.e., academic or professional).
- Students who earn a third grade of C or below in any course, regardless of successfully repeated courses.
- Students who earn a second grade of C or below in any repeated academic or clinical course (i.e., second attempt), regardless of successfully repeated courses.
- Students admitted on a “conditional” basis who earn less than a B in any course during their first term of enrollment (i.e., first six [6] semester hours of course work).

Academic Warning, Suspension, and Dismissal—Ed.D., Ph.D., and SLP.D. Students

- In the term a student earns a failing grade in any course, the student will be placed on Academic Warning.
- Students who have been placed on Academic Warning and earn a failing grade in any other course will be placed on Academic Suspension pending review of their academic record.
- Students may not make progress and cannot receive services in their NSU degree program beyond the term of enrollment during which notification of Academic Suspension is received.
- Students placed on Academic Suspension may be dismissed.
- Students may be placed on Academic Suspension pending review of their academic record under a second finding of plagiarism, or plagiarism on a practicum or an applied dissertation (See Academic Honesty Standards).

Notification of academic suspension or dismissal may occur during the succeeding term of registration, whereby future term registrations may be cancelled and/or students may be administratively withdrawn from courses in progress (if applicable). Students who are dismissed have the option to appeal (see Student Appeal Process).

Address and Name Changes

NSU maintains student contact information through the Student Information System (<http://webstar.nova.edu>), including current mailing address and telephone number. Students should update their records in WebSTAR and notify their academic division if there is a change in their name and/or contact information.

Advisement Services

Academic advisors in the Abraham S. Fischler School of Education provide students with support services to assist them in successfully completing their educational goals. These services include confidential academic, social, and developmental advising to ensure students receive the individual attention they need to succeed. Advisors assist students with:

- Obtaining access to the administrative and student support systems at Nova Southeastern University (NSU) as well as their unique NSU identification number (NSU ID);
- Selecting the most appropriate education major to fulfill their professional goals in the field of education;
- Reviewing, selecting, and registering for appropriate courses in a timely manner to ensure successful progress and completion of all degree requirements;
- Determining potential paths of career advancement;
- Ensuring preparation for appropriate certification examinations in various states; and
- Securing assistance from financial aid, student affairs, and other services provided by the University from initial inquiry through graduation.

Americans with Disabilities Act (ADA)

Nova Southeastern University complies with Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act (ADA) of 1990. No qualified individual with a disability shall be excluded from participation in, be denied the benefits of, or be subjected to discrimination in any activity, service, or program of the university solely by reason of his or her disability. Each qualified individual with a disability who meets the academic and technical standards required to enroll in and participate in Nova Southeastern University's programs shall be provided with equal access to educational programs in the most integrated setting appropriate to that person's needs through reasonable accommodation.

At the postsecondary level, it is the student's responsibility to initiate the process for disability services. The process for obtaining a reasonable accommodation is an interactive one that begins with the student's disclosure of disability and a request for a reasonable accommodation. The student has the responsibility to provide Nova Southeastern University with proper documentation of disability from a qualified physician or clinician who diagnoses disabilities and sets forth the recommended accommodations.

The Abraham S. Fischler School of Education's ADA Policies and Procedures, and the necessary forms for requesting disability-related accommodations, can be obtained by contacting the FSE Office of Student Judicial Affairs at (954) 262-8617 or 800-986-3223, ext. 28617, or via e-mail at seldines@nsu.nova.edu. Undergraduate students should contact the Director of Student Disability Services at (954) 262-7189 or 800-986-3223, ext. 27189, or visit the Web site at <http://www.nova.edu/disabilityservices>.

To ensure that reasonable accommodations can be provided in a timely manner, all forms and documentation must be completed and on file in the FSE Office of Student Judicial Affairs a minimum of four (4) weeks prior to the commencement of classes for any given semester.

Attendance

Each course professor/instructor will advise students as to the repercussions that may be incurred as a result of absence from class. Missed assignments/tests can be made up solely at the discretion of the course professor/instructor. The university reserves the right to administratively withdraw any student from a course if that student fails to appear on the first scheduled day of class.

Cancellation of Courses

The University reserves the right to cancel any course or section. If a course section is canceled and a replacement is not offered, students will receive a full refund of tuition paid for the canceled course. If the student registered for only one course, the registration fee and student services fee will also be refunded.

Cheating [See Academic Misconduct]

Form and Style Guidelines for Student Writing

The current edition of *The Publication Manual of the American Psychological Association* (APA) is the official style guide used for all written works at the Abraham S. Fischler School of Education. All students must adhere to the form and style requirements outlined by the APA style guide and the Fischler Standard Format document (available online at http://www.schoolofed.nova.edu/sso/PDF/fsehs_standard_format.pdf) for all written assignments.

Students should be aware that there has been an update to the APA. This update can be accessed free at <http://nova.campusguides.com/content.php?pid=114919&sid=>.

Grades and Grading Grading Scale

Letter Grade	Percentage Points	GPA Equivalent
Doctoral Courses		
A	91–100	4.0
B+	86–90	3.5
B	80–85	3.0
F	Below 80	0.0
Master's and Ed.S. Courses		
A	91–100	4.0
B+	86–90	3.5
B	80–85	3.0
C	70–79	2.0
F	Below 70	0.0

Additional Grading Codes

AU	Audit (limited availability)
CL	CLEP (Undergraduate Only)
EQ	Credit awarded based on prior experience (limited availability)
I	Incomplete
NPR	No Progress
P	Pass
PR	Progress
W	Withdrawn without Penalty

All applied dissertation benchmarks (concept paper, proposal and final report) will be graded Pass (P)/No Progress (NPR). Some courses will be graded Pass/Fail (P/F) and are identified accordingly in course syllabi.

Incomplete Grades

A grade of incomplete (I) may be granted at the discretion of the instructor to students who are in good academic standing, but who may have experienced an unexpected personal or professional emergency. A grade of "I" may not be granted to a student whose work has been unsatisfactory or who has failed to submit a majority of the assignments (i.e., postings, responses, written assignments, references, etc.) by the end of the course. Incomplete grades are **not** automatically awarded. Students must contact the instructor to initiate their request for an incomplete grade. If the instructor approves the request, the student is required to submit the incomplete grade agreement form. The form is located on the FSE website http://apps.fischlerschool.nova.edu/graft/student_incomplete_grade_form.aspx

Students may be asked to provide documentation if requested by the instructor. All incomplete coursework must be submitted within one term/semester of the final class meeting of the course, or as stipulated by the instructor. Assignments will not be accepted after the date indicated on the Incomplete Grade Agreement Form (IGA). If the incomplete (I) is not resolved within the timeframe established by the instructor, the following may occur:

- The instructor will submit a change of grade form to issue a final course grade based on the coursework submitted, or
- The incomplete (I) grade may be administratively changed to a grade of F.

Note: Students may not withdraw from a course once they have been issued a grade of Incomplete.

Repeated Course/Grade Replacement

Repeated course/grade replacement allows students who have done poorly in a course to repeat the course and remove the weight of the earlier grade from the student's cumulative grade point average (GPA). The following applies to all repeated course and all students who are pursuing a degree.

- If a student repeats a course once, then the highest grade will be applied to the cumulative GPA calculation.
- If a student repeats a course twice, then the lowest grade will be excluded from the cumulative GPA calculation.
- If a student repeats a course three or more times, then the two lowest grades will be excluded from the cumulative GPA calculation.

Only courses taken at NSU qualify for grade replacement. Students must gain prior approval of the equivalency of the course before enrollment. In cases where students believe courses to be identical, although the course number or title may differ, it will be necessary to obtain validation from the department offering the course. If a student is receiving financial aid, please be aware that the Standards of Academic Progress is separate from the Grading Policy. Replacement of a grade does not change the satisfactory academic progress calculation. All work attempted is part of this calculation and repeating courses could negatively affect the student's eligibility for financial aid. Questions regarding academic progress should be directed to the Office of Student Financial Assistance.

The Veterans Administration will not pay for repeated courses if the previous grade met academic standards. Students should direct questions to the Office of Veterans Affairs.

Graduation Requirements

M.A., M.S. and Ed.S. Students

Students enrolled in any FSE M.A., M.S. or Ed.S. program must fulfill the following graduation requirements (refer to

Graduation in the General Student Information, M.A., M.S., and Ed.S sections of the catalog):

- Students must successfully complete all academic and program requirements,
- Students must have a minimum 3.0 cumulative GPA,
- complete a degree application (refer to the General Student Information section of the catalog for the degree conferral procedure), and
- fulfill all financial obligations to the university.

Graduate Teacher Education Program (GTEP) approved program specializations, Educational Leadership, Initial Certification Plan, and New Preparation Certification Approved Programs additional graduation requirements:

- Students must submit passing scores on exams related to the M.S. degree and any state requirements (refer to *Graduation Requirements* for the M.S. or Ed.S. degree program of the catalog and the specific Approved Program of Study).

Master of Arts in Teaching and Learning (MATL) Program additional graduation requirements:

- All students must complete an Action Research Project (ARP) and submit a verification form.

Master of Science in Speech-Language and Communication Disorders additional graduation requirements (refer to *M.S. in Speech-Language and Communication Disorders* program section of the catalog):

Ed.D., Ph.D., and SLP.D. Students

Students enrolled in any FSE doctoral program must fulfill the following graduation requirements (refer to *Graduation Requirements* for the Ed.D. in the Doctoral Programs section of the catalog):

- Successfully complete DSO 8000: Doctoral Studies Orientation, or PPO 8000 for Ph.D. students,
- attend the mandatory summer conference,
- complete all required coursework
- attain an overall 3.0 GPA,
- complete an applied dissertation,
- complete all state testing requirements as specified for your program concentration, if any (contact a Doctoral Enrollment Counselor),
- submit a degree application form and payment of diploma fee, and
- fulfill all financial obligations to the University.

International Students

Nova Southeastern University is authorized to accept international students for admission to all degree programs. An international student is an individual who has a residence in a country other than the United States to which he or she plans to return, and who has come to the United States temporarily and solely for the purpose of attending an academic institution.

All prospective international students must follow these steps in order to receive an I-20 AB Form Certificate of Eligibility:

- You must apply and be fully accepted to an academic program (see eligibility criteria for your specific program).
- You must provide proof of English language competency (please see language requirements at <http://www.nova.edu/internationalstudents/prospective/i20.html>).
- You must provide a statement of financial capability (a bank statement with funds available to cover the cost of one year's tuition and living expenses).
- If you attended a U.S academic institution and had a previous F-1 visa, you must download and have your current institution's international office complete a *Transfer of Authorization* form.
- In order to be considered an international student in good standing and maintain your status, you must pursue a full course of study at one of NSU's campus locations in Florida.

For more information on international student admissions and program requirements, please visit the website at <http://www.nova.edu/internationalstudents/index.html>

Plagiarism

Work that is submitted for credit must be the original work of the student. Any assignment that is not the original work of the student is considered plagiarized and in violation of the Code of Student Conduct and Academic Responsibility. Plagiarism occurs when another person's work, words, or ideas are represented as one's own without the use of a school-recognized method of citation (e.g., copied from another source such as an author or another student without properly acknowledging the actual writer/author) or when another person's work is copied or otherwise duplicated for academic credit. Plagiarism also occurs when knowingly giving or allowing one's own work to be copied or otherwise duplicated by another for academic credit, or when resubmitting one's own work for academic credit (i.e., work that has previously been submitted for academic credit). Cutting and pasting from online sources on the Internet without proper acknowledgment and citation of primary and secondary sources (e.g., writers/authors/organizations) also constitutes plagiarism.

Penalties for plagiarism may range from reduced grades on assignments or in courses, to failing grades on assignments or in courses, as determined by the course professor. A subsequent determination of plagiarism in a future course (i.e., a

second violation) may result in dismissal from the Abraham S. Fischler School of Education without the possibility of re-enrolling at any time.

Any determination of plagiarism on a practicum or an applied dissertation (concept paper, proposal, final report), also may result in dismissal from the Abraham S. Fischler School of Education without the possibility of re-enrolling at any time.

Course assignments, practicums, and applied dissertations submitted in partial fulfillment of degree requirements may be checked for plagiarism. *Students may not withdraw from a course in progress to avoid a failing grade or other consequence upon receiving notice that plagiarism may have occurred.* If a charge of plagiarism is determined in a course, any student initiated course withdrawal for that course will be administratively reversed and a grade of F will be entered on the student's transcript for that course [see Academic Misconduct]. Student access to online courses, and attendance at site-based courses, will be discontinued following a determination of plagiarism that results in an "F" for the course. All students are entitled to due process pursuant to Fischler School of Education policies and procedures.

Program Completion Timelines

Doctoral Program Completion Timeline (FSE Policy 1.02)

Doctoral students are allotted seven (7) years from the initial term of enrollment in which to complete all program/degree requirements (excludes DSO 8000). Students unable to complete all program/degree requirements within this seven (7) year timeframe will be subject to dismissal.

Students who experience unexpected extenuating circumstances that inhibit their ability to complete all program/degree requirements within seven (7) years may request an extension of time of up to one (1) year (maximum). Requests must be received during the last term prior to the expiration of the seven (7) year timeframe for program/degree completion, for consideration. Students must be in good academic and financial standing to be eligible for an extension.

An additional and final extension of time of up to one (1) year maximum may be requested beyond an initial one (1) year extension for students who have achieved an approved applied dissertation proposal (required for additional time beyond an initial extension). Requests must be received prior to the expiration of the initial extension for consideration. Students must also be in good academic and financial standing to be eligible for an additional extension. No additional time beyond a second extension is available.

M.A., M.S., and Ed.S. Program Completion Timeline (FSE Policy 1.04)

Master's and Educational Specialist students are allotted six (6) years from the initial term of enrollment in which to complete all program/degree requirements. Students unable to complete all program/degree requirements within this six (6) year timeframe will be subject to dismissal.

Students who experience unexpected extenuating circumstances that inhibit their ability to complete all program/degree requirements within six (6) years may request a one-time extension of time up to one (1) year (maximum). Requests must be received during the last term prior to the expiration of the six (6) year timeframe for program/degree completion, for consideration. Students must be in good academic and financial standing to be eligible for an extension. No other extensions beyond one (1) year are available.

Readmission (FSE Policy 1.06)

A student who meets the criteria for readmission (see below) may apply for readmission by following the Readmission Procedure 1.06P.

I. Readmission Following Academic Dismissal (Master's and Educational Specialist Students)

A student who is dismissed for academic reasons, such as failure to clear probation, may reapply to the program under the following conditions:

- A student must wait one calendar year from the date of dismissal before requesting readmission to the program.
- After being dismissed, a student may reapply to the program one time only.
- A readmitted student will be subject to the terms and conditions in effect at the time of readmission, as set forth in the catalog (e.g., admission, degree requirements, **additional required credits**, tuition and fees, etc.).
- Nine semester hours of previously earned credits may be applied under the following conditions:
 - Credits earned within the past five years.
 - An earned grade of B or better.
 - Credits are consistent with specialization and degree requirements as stated in the current catalog.

II. Readmission Following Academic Dismissal (Doctoral Students)

A doctoral student who is dismissed for academic reasons is ineligible for readmission to a FSE doctoral program.

III. Readmission Following Expiration of Completion Timeline (Master's, Educational Specialist, and Doctoral Students)

A student who is dismissed for exceeding his/her time limit for degree completion may reapply to the program under the following conditions:

- A student may reapply to the program one time only.
- A readmitted student will be subject to the terms and conditions in effect at the time of readmission, as set forth in the current catalog (e.g., admission, additional required credits, tuition and fees, etc.).
- Nine semester hours of previously earned credits may be applied under the following conditions:
 - Credits **were** earned within the past five years.
 - Student earned a **grade of B, Pass, or better (in the courses to be applied)**.
 - Credits are consistent with major, concentration, specialization, and degree requirements as stated in the current catalog.
- A student requesting readmission must follow the steps outlined in the Readmission Procedure.

IV. **Readmission following a Temporary Academic Withdrawal**

A student who encounters a temporary personal or professional situation prohibiting his/her continued enrollment is eligible to reenroll in his/her program of study during a subsequent term that is *less than* one year from the date of withdrawal under the following conditions:

- The student has satisfied his/her financial obligations with the university.
- A student who was previously placed on academic notice has not been suspended or dismissed.
- An admission application is not required.

V. **Readmission Following Administrative Withdrawal**

A student who is administratively withdrawn or fails to enroll for one year or more (i.e., does not register) (See Policy 1.03), may reapply to his/her program of study under the following conditions:

- A student is required to complete an admission application (Applicable fees apply).
- A student who reapplies is subject to the terms and conditions in effect at the time of readmission, as set forth in the current catalog (e.g., admission criteria, required additional credits, tuition and fees, etc.).
- Credits previously earned at NSU will apply as long as they are consistent with the curricular requirements in place at the time of readmission.
- Unless a time extension was granted due to absence and readmission under Policy 1.05, a student must reenroll in the program at a point that will allow for completion of all degree requirements within the program's established time frame, based on his/her initial term of enrollment.

Readmission Procedure (FSE Policy 1.06P)

Students who meet the criteria for readmission may reapply to the program by submitting a completed admissions application, \$50.00 non-refundable application fee, and related documents based on the program's admission criteria. Documents are to be sent to the following address:

Nova Southeastern University
 Abraham S. Fischler School of Education
 Enrollment Processing Services (EPS)
 3301 College Avenue
 P.O. Box 299000
 Fort Lauderdale-Davie, FL 33329

Upon receipt of the admissions application, the application will be reviewed by an Academic Advisor to determine student eligibility.

Applicants who have been accepted will be notified of their admissions status via U.S. Mail.

Students who have been dismissed for academic reasons must reapply and include a letter of intent to re-enroll with their application. The letter of intent should specify what circumstances have changed to enable the student to be academically successful in the program.

Registration

All students must have at least provisional admission status, be officially registered, and pay tuition and fees in order to attend class and receive a grade. Students should register at the beginning of the fall, winter, and summer terms for all courses they plan to take during a given term. Students should not register for part of a term. Registering for the entire term allows the NSU Office of Student Financial Assistance to properly process and disperse the student's financial aid.

Web registration is available through the Student Information System at <http://webstar.nova.edu/>. In order to access your information and register for classes, you will need your NSU ID and a PIN. You should have received your PIN via regular mail after you were officially admitted to the university. If you need to receive a PIN, or if you have misplaced your PIN, you can contact the PIN Specialist by calling (954) 262-4850 or 800-541-6682, ext. 24850, on weekdays between 8:30 a.m. and 5:00 p.m. (Eastern Time) or via email at pinhelp@nsu.nova.edu. An official grade will not be recorded and credit will not be given for anyone who attends class as an unregistered student (refer to NSU Payment Policy).

Student Reinstatement (FSE Policy 1.07)

Undergraduate Students:

Undergraduate students who have not been enrolled for *less than one year* may re-enroll/reactivate their application within a period 12 months after the intended semester of enrollment. Reenrollment may occur at any time within a 12 month period under the following conditions:

- Student's record is considered in good academic standing
- Student's account is free of any outstanding financial obligations to the university

Undergraduate students who have not been enrolled for *more than one year* must reapply to the university. Students must submit a completed admission application and include a \$50.00 non-refundable application fee. Students should refer to the Delayed Enrollment and Reapplication for Admission policy outlined in the current Undergraduate Student Catalog available at <http://www.fcas.nova.edu/services/catalog/>

Graduate Students:

Graduate students who have not been enrolled for *less than one year* may reenroll/reactivate their application within a period of 12 months after the intended semester of enrollment. Students who stop out (i.e., do not enroll) after one or two semesters are eligible to reenroll under the following conditions:

- Student's record is considered in good academic standing
- Student's account is free of any outstanding financial obligations to the university

Note: A student who was placed on academic probation, suspension or warning is subject to the terms and conditions of continuous enrollment following a period of inactivity.

Graduate students who have not been enrolled for *more than one year* must reapply to the university. Students must submit a completed admission application and include a \$50.00 non-refundable application fee. (**See Readmission Policy 1.06 previous listed in this section.**)

Teaching Internship/Externship

Students enrolled in the Undergraduate or Graduate Teaching Internship/Seminar (EDUC 4570/EDU 688/EDU 689) may be removed from their internship under the following circumstances:

- The preservice teacher behaves in an unprofessional manner, as defined by NSU or the Code of Ethics and the Principles of Professional Conduct of the Education Profession.
- The preservice teacher engages in dishonest or illegal activities while engaged in the internship.
- The preservice teacher fails to demonstrate the necessary communication skills – written or oral.
- The preservice teacher violates the trust of his/her students or professional colleagues.
- The preservice teacher is unreliable in punctuality and attendance.
- The preservice teacher does not meet standards in demonstrating required competencies in planning, lesson delivery, and assessment.
- The preservice teacher does not maintain student files or records.
- The preservice teacher fails to meet the dress code for interns.

Transcript Issuance

You may request an official transcript through WebSTAR. After entering your NSU ID and PIN, click on: **Student and Financial Aid**, then **Student Records**, and finally, **Request Printed/Official Transcript**. This process allows you to request and pay for the transcript on-line. Generally, transcripts will be generated within one (1) business day of receiving your request. After you have made your request, you can also check on the status of its processing through the online system. If you do not have a PIN, one can be obtained by completing the PIN Request Form.

If you are unable to request the transcript through the online process, you may submit a [Transcript Request Form](#) (PDF) either by fax to (954) 262-4862 or by mail to:

Office of Student Financial Assistance
Attention: Registration Department
3301 College Ave.
Fort Lauderdale-Davie, FL 33314-7796

If you encounter any complications with a requested transcript you may email NSU Registrar or call (954) 262-7255 for assistance.

Withdrawal

Student Withdrawal from a Course and Cancellation of Registration

In accordance with the Tuition Refund Policy (See Policy 1.1.1), a student who cancels his/her registration before the start of the term/semester, or first class meeting/session is entitled to a full tuition refund; student fees are also refundable. A student who drops a course after the first class meeting will receive a prorated tuition refund. The refund for courses,

which includes applied dissertation services, capstones, internships, etc., is based on the date of receipt of the [Student Transaction Form](#) (STF) following the official start date of the term/semester. Student fees are non-refundable. The prorated tuition refund will be based on the number of class meeting/sessions held during the term as of the date of receipt of a completed STF.

A student may not withdraw one week before the end of the term/semester. Students are considered active participants in all classes for which a registration has been accepted and processed. Active participation (i.e., educational activity) includes attendance, logging onto an online course, the submission of assignments, or examinations, etc. A student who stops attending class will receive a final grade based on course requirements and work completed. An official drop request must be submitted and received by the Office of Student Services in order to drop/withdraw a student from class.

Note: Unless withdrawal procedures have been completed within the stated deadline, students are considered active participants in all classes for which a registration has been accepted and processed unless the Office of Student Services has received written notification of the drop/withdrawal STF.

Students may receive a full refund of tuition payments:

- For not meeting minimum admission requirements.
- For a cancelled course or workshop.
- For an involuntary call to active military duty.
- For documented death of the student or a member of his or her immediate family (parent, spouse, child, sibling).
- For severe illness of the student (as approved by the institution and confirmed in writing by a physician) that precludes completion of the term.
- For exceptional circumstances approved by the president or his designee.

Student Withdrawal from a Program

Students who wish to withdraw from their program of study must follow the procedure outlined below:

Students must submit a request for program withdrawal. Students must notify the Office of Student Services, in writing, of their intent to withdraw from their program. All students must send their request via their NSU email account or via U.S. mail (see contact information below). Students must include their full name, NSU ID number, program and specialization information, effective date for program withdrawal, and cluster number (if applicable).

1. Upon receipt of written notification from the student, the Admissions Department in the Office of Student Services will process the program withdrawal. A comment will be posted in the NSU Banner system as a confirmation of the transaction.
2. The Admissions Department in the Office of Student Services will send official program withdrawal notification to the student via U.S. mail and NSU email.
3. A copy of the program withdrawal letter will be sent to the Enrollment Processing Services (EPS), and noted on the student's academic record.

Students who are enrolled in courses during a term/session coinciding with the dates of program withdrawal must drop those courses by following the course withdrawal procedure. Contact Information:

Nova Southeastern University
Abraham S. Fischler School of Education
Office of Student Services
Attention: Admissions Department
1750 NE 167th Street
North Miami Beach, FL 33162
Email: admitteam@nova.edu

Administrative Withdrawal (FSE Policy 1.03)

FSE will initiate the administrative withdrawal of a student from their program of study if any of the following situations occur:

- Students who fail to enroll (i.e., do not register) for one year or more will be administratively withdrawn from the program.
- Students who fail to honor NSU financial obligations will be administratively withdrawn after 90 days of nonpayment.
- Students who fail to demonstrate academic progress for one year or more will be administratively withdrawn from the program.

Please note: Students who are administratively withdrawn are not eligible to receive a tuition refund.

Temporary Academic Withdrawal (FSE Policy 1.05)

Any student who encounters a temporary personal or professional situation of one year or less prohibiting his/her continued enrollment may withdraw from his/her program of study by following the Temporary Academic Withdrawal (TAW) procedure 1.05P. Students are not eligible to receive dissertation services/support or other academic services from

faculty or staff during the period of temporary academic withdrawal. Temporary academic withdrawals will suspend the time limit for degree completion. Other than students who are in or who have been called to active duty through military orders, students are eligible for only one TAW during their program of study. Students who have been granted an extension for time with a fixed expiration date are not eligible for a TAW during that extension. Students who wish to withdraw temporarily from his/her program of study must follow the procedure outlined below:

- A. All FSE students must notify the Academic Advising department in the Office of Student Services, in writing, of their intent to temporarily withdraw from their program of study. All students must send their request via their NSU email account or via U.S. mail (see contact information below). Students must include their full name, NSU ID number, program name, effective date for temporary academic withdrawal, and cluster/cohort number (if applicable).

Nova Southeastern University
Fischler School of Education
Office of Student Services
Attention: Academic Advising Department
1750 NE 167th Street
North Miami Beach, FL 33162
Email: admitteam@nsu.nova.edu

- i. Upon receipt of written notification from the student, an academic advisor will process the withdrawal. A comment will be posted in the NSU Banner system as a confirmation of the student's request to withdraw.
- ii. An email notification will be issued to the student's NSU email account to confirm his/her request to withdraw.
- iii. A copy of the program withdrawal letter will be sent to Enrollment Processing Services (EPS), a comment will be entered in Banner, and filed in the student's academic advising file.
- B. Students who are enrolled in courses during a semester/term coinciding with the dates of temporary withdrawal must drop the courses by following the course withdrawal procedure.

Note: A refund for a course is based on the date of the request following the official start date of the term. Refunds are prorated based on the date of receipt of the request. (See Tuition Refund Policy 1.1.1.)

- C. Undergraduate students who wish to return after an absence of more than one year may be required to submit an application to be readmitted to NSU. (See Readmission Policy 1.06.)
- D. Graduate students who wish to return after an absence of more than one year are required to **reapply and submit** a letter of petition to the Associate Dean for Academic Affairs to resume his/her studies without loss of time for degree completion. (See Student Reinstatement Policy 1.07.)

Technology Requirements

All applicants, students, employees and alumni are assigned an NSU ID that uniquely identifies them and provides them access to our administrative system (WebSTAR). In addition, students, employees and alumni are assigned a SharkLink ID which is also their NSU email name.

Your NSU Email Name is created automatically when you become a new student, faculty, or staff member of NSU.

Your NSU Email Name will also be your SharkLink ID.

Your NSU Email Name & Password is used for:

- Your SharkLink Login
- Your Blackboard Login
- Your NSU WebMail Account
- Security access to various NSU Web Applications

SharkLink

SharkLink is NSU's online portal. With a single username and password, students, employees, and alumni can easily access many online university applications including NSU email, Web calendars, online groups, WebSTAR, and WebCT. Access SharkLink at <http://sharklink.nova.edu>

WebSTAR

WebSTAR is available to all student, faculty and staff members. Students can use WebSTAR to register for classes online, view grades and transcripts and also pay tuition and fees. Faculty members can view their courses, contact students, and enter midterm and final grades. Employees are able to sign up for benefits, view pay stub information and tax forms.

Access WebSTAR at <http://webstar.nova.edu>
You will need your NSU ID and PIN to enter the system.

Need Help?

The Office of Information Technologies Computing Help Desk provides assistance to all NSU students. Contact the [Help Desk](#) at 800-541-6682 x 24357 or (954) 262-4357.

Minimum Computing Requirements

PC	Mac
CPU Intel i3 or AMD Athlon II Processor	CPU Intel i3
Windows Vista or Windows 7	Mac OS X v10.6
RAM 2GB	RAM 2GB
Hard Drive – 100GB	Hard Drive – 100GB
Browser: Internet Explorer v7.0, Firefox v3.0	Browser: Safari v5.0 , Firefox v9.0

Appeal and Grievance Procedures

Student Appeal Process

Forms for initiating the Student Appeal Process may be obtained through the FSE Office of Student Judicial Affairs by email at osja@nova.edu or the website, at <http://www.fischlerschool.nova.edu/judicial-affairs/OSJA>.

Speech-Language and Communication Disorders and Speech-Language Pathology Students (M.S.)

Students who have been dismissed from the program have the right to petition for reinstatement. An appeal to overturn the dismissal must be submitted in writing within 15 days of receipt of the certified mail advising the student of dismissal. The appeal should be addressed to the chair of the Student Professional and Academic Review Committee (SPARC) and should include the student's rationale for reinstatement. The SPARC, which is composed of departmental faculty, will review the appeal and render a decision. The student will be notified by the chair of SPARC by certified and regular mail.

Should the student wish to further pursue the appeal for reinstatement, the student may address a second written appeal to the Executive Director of the Programs in Speech-Language and Communication Disorders (SLCD). This letter must be received within 15 days of receipt of the SPARC's decision. The Executive Director will render a decision and the student will be notified of the decision by certified and regular mail.

Should the student wish to further pursue the appeal for reinstatement, a third and final appeal process may be initiated through the Office of Student Judicial Affairs. The student may file a grievance within 15 days of receipt of the Executive Director's decision. The grievance will undergo a review by committee and the student will receive written notification of the decision.

The responsibility for course examinations, assignments, and grades resides with the expertise of faculty members who are uniquely qualified by their training and experience. Such evaluations and grades are the prerogative of the instructor and are not subject to formal appeal unless there is compelling evidence of discrimination, arbitrary or capricious action, and/or procedural irregularities.

FSE Policy 3.05 – Doctoral Students

The doctoral studies appeal process for the Abraham S. Fischler School of Education (FSE) serves to provide a formal means of resolving disputes between students and the administration or faculty. The proper protocol for resolving disputes involves first utilizing the following informal measures:

- For any *administrative action* (e.g., dismissal, violations of behavioral standards), first consult the appropriate administrator (i.e., director, dean or designee). A written account of any perceived discrepancies may be requested by the administrator prior to his/her review. The administrator may, at his/her discretion, either intercede or suggest a formal review by the Appeals Committee.
- For disputes over a *final course grade* or *other academic matter*, first consult the course professor. If the dispute persists after consulting the course professor, then consult the program professor or lead faculty for the course or study area. A written account of any perceived discrepancies may be requested by the program professor or lead faculty prior to his/her review. The program professor or lead faculty may, at his/her discretion, either intercede or suggest a formal review by the Appeals Committee.

If no resolution is achieved after utilizing the above informal measures, a formal appeal may then be filed with the Office of Student Judicial Affairs by completing a *Student Appeal Form* and *Informal Resolution Verification Form*. All forms must be completed and on file in Student Judicial Affairs within forty-five (45) days from the date of the administrative action, or from the end date of the course if appealing a grade, for consideration by the committee.

- A. A three-member committee consisting of a doctoral enrollment counselor, program professor, and an administrator or designee, presided over by a chairperson in a non-voting capacity, shall meet on a monthly basis on or about the middle of each month, or as needed, to review appeals. Neither students, nor administration or faculty, against whom an appeal is filed, attend the committee's review. All parties involved are represented by written statements to include relevant facts and rationale pertaining to the appeal, and any applicable supporting documentation. The appeal is decided by a majority vote of the committee.
 1. When appealing a *final course grade*, written statements and accompanying documentation submitted with the *Student Appeal Form* are forwarded to the course professor within a reasonable time frame for their written response to the issues raised by the appellant. Upon receipt of the course professor's written response, the matter is then taken under review by the Appeals Committee at its next meeting.
 - a. Because the assignment of grades resides with the expertise and academic/professional discretion of the professor, the committee does not evaluate coursework for the purpose of assigning or changing grades (i.e., faculty assessment of students' work is not reviewable). The committee does, however, seek to determine whether the professor issued grades in accordance with the policies and guidelines of the program and FSE. Any allegation that a grade was awarded capriciously or arbitrarily, or that there were procedural irregularities, must be supported by compelling evidence; not merely a statement to this effect.

- b. Should the committee's decision favor the student, one of the following measures will ensue:
 - The Appeals Coordinator will consult the course professor to resolve the matter consistent with the committee's determination.
 - If the Appeals Coordinator is unable to resolve the matter, a three-member faculty panel will be convened to review the appeal for a final determination by majority vote, which shall be binding upon either party. Faculty serving on the panel will not have had any prior knowledge of the appeal under review.
2. When appealing *other academic matters* (e.g., violations of academic standards), written statements and accompanying documentation submitted with the *Student Appeal Form* are forwarded to the course professor within a reasonable time frame for their written response to the issues raised by the appellant. Upon receipt of the course professor's written response, the matter is then taken under review by the Appeals Committee at its next meeting.
 - a. Should the committee's decision favor the student, one of the following measures will ensue:
 - The Appeals Coordinator will consult the course professor to resolve the matter consistent with the committee's determination.
 - If the Appeals Coordinator is unable to resolve the matter, a three-member faculty panel will be convened to review the appeal for a final determination by majority vote, which shall be binding upon either party. Faculty serving on the panel will not have had any prior knowledge of the appeal under review.
 3. When appealing an *administrative action* (e.g., dismissal; violations of behavioral standards), written statements and accompanying documentation submitted with the *Student Appeal Form* may be forwarded to the appropriate administrator (i.e., director, dean or designee) within a reasonable time frame for a written response to the issues raised by the appellant. Upon receipt of the administrator's written response, the matter is then taken under review by the Appeals Committee at its next meeting. The decision of the committee shall be binding upon either party.
- B. In the event all necessary statements and documentation to be reviewed are not received within ten (10) working days of the committee's scheduled meeting, the appeal is carried forward to its next meeting.
- C. Written notification of the committee's decision is provided within a reasonable time frame of its review via first-class U.S. mail.
 1. The committee may request additional information from the appellant, and/or the administration or faculty, if it determines that a decision cannot be reached based on the information provided.
 - When additional information from the appellant, and/or the administration or faculty is necessary, the appeal, to include any additional information, is carried forward to the committee's next meeting.
 2. Administrative actions, final course grades, and other academic matters may be appealed one (1) time only.
- D. If the appellant is not satisfied with the decision of the committee and wishes to pursue his/her complaint, a formal grievance may be filed with the FSE Office of Student Judicial Affairs.
 1. A formal grievance may be pursued when a satisfactory resolution has not been achieved through utilizing the process outlined above.
 - Grievance forms must be requested within fifteen (15) days from the date of written notification of the appeal committee's decision.
 2. Students who wish to file a formal grievance may discuss the matter with the Director of Student Judicial Affairs.

FSE Policy 3.04 – Educational Specialist, Master of Science, and Master of Arts Students

The appeal process for Educational Specialist, Master of Science, and Master of Arts students of the Abraham S. Fischler School of Education (FSE) serves to provide a formal means of resolving disputes between students and the administration or faculty. The proper protocol for resolving disputes involves first utilizing the following informal measures:

- For any *administrative action* (e.g., dismissal, violations of behavioral standards), first consult the appropriate administrator (i.e., director, dean or designee). A written account of any perceived discrepancies may be requested by the administrator prior to his/her review. The administrator may, at his/her discretion, either intercede or suggest a formal review by the Appeals Committee.
- For disputes over a *final course grade* or *other academic matter*, first consult the course professor. If the dispute persists after consulting the course professor, then consult the program professor or lead faculty for the course

or study area. A written account of any perceived discrepancies may be requested by the program professor or lead faculty prior to his/her review. The program professor or lead faculty may, at his/her discretion, either intercede or suggest a formal review by the Appeals Committee.

If no resolution is achieved after utilizing the above informal measures, a formal appeal may then be filed with the Office of Student Judicial Affairs by completing a *Student Appeal Form* and *Informal Resolution Verification Form*. All forms must be completed and on file in Student Judicial Affairs within forty-five (45) days from the date of the administrative action, or from the end date of the course if appealing a grade, for consideration.

- A. A three-member committee consisting of a student services representative, program professor, and an administrator or designee, presided over by a chairperson in a non-voting capacity, shall meet on a monthly basis on or about the beginning/end of each month, or as needed, to review appeals. Neither students, nor administration or faculty, against whom an appeal is filed, attend the committee's review. All parties involved are represented by written statements to include relevant facts and rationale pertaining to the appeal, and any applicable supporting documentation. The appeal is decided by a majority vote of the committee.
1. When appealing a *final course grade*, written statements and accompanying documentation submitted with the *Student Appeal Form* are forwarded to the course professor within a reasonable time frame for their written response to the issues raised by the appellant. Upon receipt of the course professor's written response, the matter is then taken under review by the Appeals Committee at its next meeting.
 - a. Because the assignment of grades resides with the expertise and academic/professional discretion of the professor, the committee does not evaluate coursework for the purpose of assigning or changing grades (i.e., faculty assessment of students' work is not reviewable). The committee does, however, seek to determine whether the professor issued grades in accordance with the policies and guidelines of the program and FSE. Any allegation that a grade was awarded capriciously or arbitrarily, or that there were procedural irregularities, must be supported by compelling evidence; not merely a statement to this effect.
 - b. Should the committee's decision favor the student, one of the following measures will ensue:
 - The Appeals Coordinator will consult the course professor to resolve the matter consistent with the committee's determination.
 - If the Appeals Coordinator is unable to resolve the matter, a three-member faculty panel will be convened to review the appeal for a final determination by majority vote, which shall be binding upon either party. Faculty serving on the panel will not have had any prior knowledge of the appeal under review.
 2. When appealing *other academic matters* (e.g., violations of academic standards), written statements and accompanying documentation submitted with the *Student Appeal Form* are forwarded to the course professor within a reasonable time frame for their written response to the issues raised by the appellant. Upon receipt of the course professor's written response, the matter is then taken under review by the Appeals Committee at its next meeting.
 - a. Should the committee's decision favor the student, one of the following measures will ensue:
 - The Appeals Coordinator will consult the course professor to resolve the matter consistent with the committee's determination.
 - If the Appeals Coordinator is unable to resolve the matter, a three-member faculty panel will be convened to review the appeal for a final determination by majority vote, which shall be binding upon either party. Faculty serving on the panel will not have had any prior knowledge of the appeal under review.
 3. When appealing an *administrative action* (e.g., dismissal; violations of behavioral standards), written statements and accompanying documentation submitted with the *Student Appeal Form* may be forwarded to the appropriate administrator (i.e., director, dean or designee) within a reasonable time frame for the program's written response to the issues raised by the appellant. Upon receipt of the administrator's written response, the matter is then taken under review by the Appeals Committee at its next meeting. The decision of the committee shall be binding upon either party.
- B. In the event all necessary statements and documentation to be reviewed are not received within ten (10) working days of the committee's scheduled meeting, the appeal is carried forward to its next meeting.
- C. Written notification of the committee's decision is provided within a reasonable time frame of its review via first-class U.S. mail.
1. The committee may request additional information from the appellant, and/or the administration or faculty, if it determines that a decision cannot be reached based on the information provided.

- a. When additional information from the appellant, and/or the administration or faculty is necessary, the appeal, to include any additional information, is carried forward to the committee's next meeting.
2. Administrative actions, final course grades, and other academic matters may be appealed one (1) time only.
- D. If the appellant is not satisfied with the decision of the committee and wishes to pursue his/her complaint, a formal grievance may be filed with the FSE Office of Student Judicial Affairs.
 1. A formal grievance may be pursued when a satisfactory resolution has not been achieved through utilizing the process outlined above.
 - a. Grievance forms must be requested within fifteen (15) days from the date of written notification of the appeal committee's decision.
 2. Students who wish to file a formal grievance may discuss the matter with the Director of Student Judicial Affairs.

Grievance Procedure

Forms for initiating a formal grievance may be obtained through the FSE Office of Student Judicial Affairs via email at osja@nova.edu or the website, at <http://www.fischlerschool.nova.edu/judicial-affairs/OSJA>.

FSE Policy 3.06 – Doctoral, Educational Specialist, and Master's Students

The purpose of this procedure is to promote the orderly resolution of problems arising out of a student complaint concerning a policy, procedure, or administrative action of Nova Southeastern University. Students and faculty are encouraged to informally resolve disputes prior to instituting a formal grievance.

- A. Any student who has a grievance concerning an administrative action or a member of the faculty or staff shall file such a grievance in writing with the Director of Student Judicial Affairs within fifteen (15) days from the date of the action taken against him/her. The written grievance shall contain a short and concise statement of all relevant facts and the relief sought on forms available from the Judicial Affairs Office.
- B. Upon receipt of a written grievance, the Director of Student Judicial Affairs shall request proof supporting the grievance and request a response with supporting evidence from the party against whom the complaint has been filed. An Administrative Review Panel will review the grievance and evidence to determine whether the grievance presents a complaint upon which action should be taken. If the grievance is found to have no basis, to be insubstantial, or wholly a question of academic discretion, the grievance shall be dismissed without further action. The student will be advised in writing as to whether the grievance was dismissed, or whether additional action will be taken.

The student may be present for the grievance review via a telephone conference call for a limited time to address the Administrative Review Panel and answer questions from panel members; no other person may participate or listen-in on the conference call. Neither students, nor the party against whom the complaint has been filed, may attend the review in person.

1. If the Administrative Review Panel decides that further inquiry should be made, the Director of Student Judicial Affairs may then invoke one of the following procedures:
 - a. Informal Resolution Procedure: The Director of Student Judicial Affairs may informally meet with all parties and try to resolve the issues raised.
 - b. Formal Resolution Procedure: If the Director of Student Judicial Affairs is unable to informally resolve the issue, then a Grievance Committee will be convened to make a final determination of the issue.
2. The Grievance Committee shall consist of three members. Two members shall be taken from a center alumni list and will be chosen by rotation sequence and availability from a resource panel of alumni who have consented to serve as impartial arbitrators. The third member will be a faculty member or center administrator of Nova Southeastern University. The third member will have no immediate knowledge of the facts of the dispute.
3. The parties will attend the Grievance Hearing before the panel at which time both parties shall submit their evidence and arguments concerning the matter. The parties shall be notified of the time, date, and place of the hearing. All hearings shall be conducted on the main campus during normal working hours. There will be no meeting of the committee unless an active appeal has been filed in accordance with this procedure.

The Grievance Committee hearing shall be subject to the following procedures:

- a. The committee shall have no right to modify, add to, or subtract from this grievance procedure.

- b. A majority vote of the committee shall be determinative.
 - c. The committee may not substitute its judgment for the qualitative academic decision of the faculty member rendering the grade or assessing the student's work. The committee may only recommend to uphold or reverse the program's decision. In the event the committee reverses the Program's decision, the administrator (i.e., director, dean or designee) shall fashion a remedy consistent with sound academic principles which shall be final. The committee may not address sanctions, which are wholly within the administrator's discretion.
 - d. The committee shall render its decision in writing on forms provided.
 - e. The committee shall be obliged to render a decision within (14) fourteen calendar days following the close of the hearing.
- 4. The decision of the committee shall be final and binding. Any student filing a grievance shall be notified of the committee's decision by certified mail to their last official address.
 - 5. Venue shall lie in Broward County, State of Florida, for any and all Abraham S. Fischler School of Education student disputes, grievances or appeals.

Note for Residents of Arizona: If the complaint cannot be resolved after exhausting the institution's grievance procedure, the student may file a complaint with the Arizona State Board for Private Postsecondary Education. The student must contact the State Board for further details. The State Board's address is 1400 W. Washington Street, Room 260, Phoenix, AZ 85007, (602) 542-5709, Web site address: <http://azppse.state.az.us>.

Notes for Residents of Georgia: Students have the right of appeal of the final institutional decision regarding a grievance to the Georgia Nonpublic Postsecondary Education Commission (2082 East Exchange Place, Suite 220, Tucker, GA 30084-5305; (770) 414-3300; www.gnpec.org).

Note for Residents of South Carolina: If the complaint cannot be resolved after exhausting the institution's grievance procedure, the student may file a complaint with the South Carolina Commission on Higher Education. The student must contact the commission for further details. The commission's address is 1333 Main Street, Suite 200, Columbia, SC 29201; telephone (803) 737-2260.

Note to Virginia Residents: If the complaint cannot be resolved after exhausting the institution's grievance procedure, the student may file a complaint with the State Council of Higher Education for Virginia, 101 N. 14th Street, James Monroe Building, Richmond Virginia, 23219; (804) 225-2600.

Note: If the complaint cannot be resolved after exhausting the institution's grievance procedure, the student may file a complaint with their respective state licensing authority. Additional information is available through the following webpage: <http://nova.edu/distanced/student-complaint-process.html>

Financial Aid

Financial aid policies and information in this section are provided by Enrollment and Student Services. Policies listed in this section apply to all FSE students and programs, unless otherwise stated within this text.

Enrollment and Student Services

Enrollment and Student Services (ESS) is comprised of the Office of Student Financial Assistance (OSFA), the University Registrar's Office, the University Bursar's Office, the One-Stop Shop, the University Call Center, Enrollment Processing Services, Transfer Evaluation Services, the Office of International Affairs, and Health Professions Division (HPD) Admissions. Collectively, the ultimate goal of ESS is to effectively meet the information and service needs of all NSU students.

The Office of Student Financial Assistance (OSFA)

The Office of Student Financial Assistance is dedicated to helping you make smart financial choices while you are in college. There are four types of financial aid available to assist you in meeting the cost of attending college: grants, scholarships, student employment, and loans. Grants and scholarships are considered "gift" aid and generally do not have to be repaid. However, if a student drops or withdraws from any classes for which financial aid has been received, the student may have to return any "unearned" funds. Loans are considered "self-help" aid and always need to be repaid. Student employment requires you to work in exchange for a pay check. Please remember: Students interested in financial aid from federal or state sources **must** complete the Free Application for Federal Student Aid (FAFSA) and meet general eligibility criteria. **For detailed information on the financial aid process and sources of aid, visit the financial aid Web site at <http://www.nova.edu/financialaid>.**

Financial Aid Checklist

- ☑ **1. Complete the FAFSA & NSU State Aid Application.**
Complete the Free Application for Federal Student Aid (FAFSA) at www.fafsa.gov annually which becomes available each January 1. The earlier you apply, the better chance you have of being considered for maximum available funds. To apply for Florida grants and scholarships, undergraduate students should also complete the NSU State Aid Application available on the financial aid Website at http://www.nova.edu/financialaid/forms/1112/state_aid_application.pdf
- ☑ **2. Plan for Housing and Meal Expenses.**
Your budget includes a housing and meal component. Please ensure that your budget covers these expenses, if you intend to live on campus.
- ☑ **3. Check Your Financial Aid Account Frequently.**
Regularly check your financial aid status via SharkLink to ensure that you have no outstanding requirements. The link to **My Financial Aid** is located in the center of your SharkLink **Student** tab. Now is a good time to confirm your admissions status. You will have to be fully admitted in order for your financial aid funds to disburse.
- ☑ **4. Submit Additional Documents and Complete a Master Promissory Note.**
Some students may be required to submit additional documents prior to being awarded. You will be notified of outstanding requirements via NSU (SharkLink) email. Your requirements (outstanding and completed) can also be viewed in WebSTAR (access via SharkLink). If you are interested in receiving Federal Direct Loans, you will be required to complete a Direct Loan Master Promissory Note (MPN) and entrance interview at <http://www.studentloans.gov>.
- ☑ **5. Accept, Reduce, or Decline Your Loan and Federal Work-study Award(s).**
Your financial aid award notice will provide you with detailed instructions on how to accept, reduce, or decline your financial aid award. Your award will not be disbursed until this step has been completed.
- ☑ **6. Don't Forget to Continuously Apply for and Identify Scholarships.**
Schedule time regularly to search for scholarships. The best place to start is the scholarship Web page at <http://www.nova.edu/financialaid/scholarships/>.
- ☑ **7. Check your NSU (SharkLink) email daily.**
Keep up-to-date by checking your NSU email daily and to ensure you have no outstanding requirements.
- ☑ **8. Register for Classes (early).**
Students awarded Federal Direct Loans must be enrolled at least half-time. Half-time enrollment is defined as 6 credits per semester for all undergraduate students. For graduate and first professional students, your program of study defines half-time status. Enrollment requirements for federal and state grants vary. Familiarize yourself with the enrollment requirements defined by your program office as well as by the financial aid programs through which you are receiving aid. Be sure to register as early as possible to ensure timely disbursement of your financial aid funds.

Student Employment

There are three main student employment programs: Federal Work-Study (FWS), Nova Student Employment (NSE), and Job Location and Development (JLD). The NSE and JLD programs provide jobs to students regardless of financial need. The FWS program is need-based and requires the completion of the FAFSA. Students awarded FWS may participate in the America Reads/America Counts Programs through which students serve as reading or math tutors to elementary school children. For more information on NSU part-time and full-time student employment, visit <http://www.nova.edu/financialaid/employment/>

Scholarships

There are scholarships available to help students fund the cost of attending NSU. Generally, scholarships are awarded to students who meet particular criteria for qualification, such as academic achievement, financial need, field of study, talent, or athletic ability. The NSU scholarship Web page at <http://www.nova.edu/financialaid/scholarships/> provides resources to help you locate and apply for scholarships. New scholarships are regularly added to the Web site, so check now, and check often.

Scholarships and grants are available to students from various sources within the university, as well as from external public and private organizations. All college and university scholarships and grants are combined with other federal and state financial aid programs, to help meet students' financial needs. Eligibility requirements vary. Students should note that changes in enrollment during a semester may affect eligibility for awards.

Loans

A student loan, unlike a grant and work-study, is borrowed money that must be repaid, with interest. Student loan repayment is a legal obligation, so before you decide to take out a student loan, determine the amount you will have to repay on the loan.

Federal Direct Loans

There are four types of federal direct loans: direct subsidized (need-based) and direct unsubsidized (not need-based) loans, Parent PLUS Loans (credit-based), and Graduate PLUS Loans (credit-based).

- **Direct Subsidized Loan**

The U.S. Department of Education pays the interest while students are in school at least half-time. Interest rates: 3.4 percent for undergraduate and 6.8 percent for graduate students.

- **Direct Unsubsidized Loan**

Students are responsible for paying the interest that accrues on the loan from the time it is disbursed until it is paid in full. Students make interest payments while in school, or during periods of deferment or forbearance. Fixed interest rate of 6.8 percent for both undergraduate and graduate students.

- **Parent Loan for Undergraduate Students (PLUS)**

PLUS Loans are federally-sponsored loans parents can obtain to help pay the cost of education for their dependent undergraduate children. The PLUS has a fixed interest rate of 7.9 percent. The maximum PLUS amount that a parent can borrow is the student's cost of attendance minus any other financial aid the student receives. As with other federal loans, students are required to be enrolled at least half-time per semester. In addition, students must not have adverse credit history and must meet citizenship criteria.

- **Federal Grad PLUS Loan**

The federal Grad PLUS (fixed interest rate of 7.9 percent) is a loan available to graduate or professional students who have applied for their annual maximum loan eligibility under the Federal Direct Subsidized and Unsubsidized Direct Loan Programs. The maximum Grad PLUS amount that a student can borrow is the student's cost of attendance minus any other financial aid the student receives. In addition, students must not have adverse credit history and must meet citizenship criteria.

Please note: Annual and lifetime (aggregate) loan limits apply. Origination fees may vary. A student who has reached his or her aggregate limit may no longer borrow under the Direct Federal Loan Program.

Federal Perkins Loan

The Federal Perkins Loan Program is a campus-based program funded through the repayment of previous Perkins loans. The interest rate is fixed at 5 percent. The following loan limits apply:
Maximum annual loan limits at NSU: \$2,000 for undergraduate and \$4,000 for graduate students.
Maximum aggregate (life-time) loan limit: \$27,500 for undergraduate and \$60,000 for graduate students.

Alternative or Private Loans

If your grants, scholarships, and/or federal loans do not cover your full cost of attending NSU, you may apply for a private or alternative loan through lending institutions and nonprofit organizations. Private education loans tend to cost more than the education loans offered by the federal government but may be less expensive than credit card debt. Alternative loans are considered part of a student's financial aid package and cannot exceed the cost of attendance.

Satisfactory Academic Progress Determination

Satisfactory academic progress will be evaluated for all students on an annual basis. For the three-semester programs, the year will end with the summer semester; evaluations will begin after the end of the semester. For the four-term programs, the year ends with the spring term; evaluations will begin after the end of the term. For the two-semester programs, the year will end with the winter semester; evaluations will begin after the end of the semester. The disbursement of financial aid funds will not occur until all grades are entered and a final determination is made as to whether the student has passed SAP measurements.

Institutional Designations

The graduation requirements for each academic program conform to the standards of the accrediting agency. Academic programs have a designation of good academic standing or good standing. This designation pertains to a student completing all course-related requirements as defined in the academic units' catalogs in order for the student to obtain his or her degree.

Joint Initiative

The Office of Student Financial Assistance (OSFA) and the academic units have established a written policy for measuring satisfactory academic progress on an annual basis for all students. A student must continually meet the following four criteria in order to maintain SAP for financial aid eligibility:

Satisfactory Academic Progress (SAP) Requirements for Students

Qualitative Measure (Grade Point Average)

Students must maintain a minimum cumulative grade point average (GPA) in order to receive financial aid during their course of study.

Quantitative Measure (Annual Credits Completed)

Students must successfully complete a minimum of 66.7 percent* of all attempted credits each academic year. Please note that repeat and incomplete courses are counted toward the quantitative measurement.

Quantitative formula:
$$\frac{\text{Successfully completed credits}}{\text{Attempted credits}}$$

Maximum Timeframe Measurement (Total Allowable Credits)

Students must complete their degree requirements within 150 percent of the published length of their program (number of credits needed to complete degree requirements). For example, a program requiring 120 credits to graduate will be limited to 180 credits of financial aid eligibility. All coursework is counted including, but not limited to, repeat and incomplete coursework and transfer credit.

Pace (Overall Credits Completed)

Students must successfully complete a minimum of 66.7 percent* of all courses attempted within their academic degree level (undergraduate, graduate, first professional, etc). Students who do not meet pace are not eligible to receive financial aid. Pace is calculated annually to determine if the student is making the necessary progression to complete the degree program within the maximum timeframe.

Pace formula:
$$\frac{\text{Cumulative completed credits}}{\text{Cumulative attempted credits}}$$

*represents successful completion of two-thirds of attempted credits.

Important: All credits are part of the calculation, including, but not limited to, repeat and incomplete coursework, transfer credits, and coursework completed for a prior degree or major for which a degree was not conferred. The only time a student may start over is after he or she graduates.

Please note: Students interested in receiving state aid (e.g., Florida Resident Access Grant, Florida Student Assistance Grant, Florida Bright Futures Scholarship) must also meet the state SAP standards (published at <http://www.nova.edu/financialaid/receiving/sap-standards.html>) established for each aid program.

Undergraduate Programs

- **Qualitative Measure:** Min. GPA 2.00
- **Quantitative Measure:** at least 66.7 percent of all credits attempted annually at NSU
- **Maximum Timeframe:** financial aid limited to 150 percent of the published length of your program
- **Pace:** successful completion of at least 66.7 percent of all attempted credits for your program

Master's and Specialist Programs

- **Qualitative Measure:** Min. GPA 3.00 or 80 percent (for programs with a numeric grading system) Exception: Occupational Therapy and Physician Assistant Minimum GPA: 2.00 or 75 percent **Dental** – minimum GPA 70 percent or passing grade in all pass/ fail coursework (Students with a combination of grade types must meet both criteria.)
- **Quantitative Measure:** successful completion of at least 66.7 percent of all credits attempted annually at NSU Exception: Biomedical Science students must successfully complete 100 percent of all credits attempted annually
- **Maximum Timeframe:** financial aid limited to 150 percent of the published length of your program
- **Pace:** successful completion of at least 66.7 percent of all attempted credits for your program

Doctoral Programs

- **Qualitative Measure**
 - Qualitative Measure: Min. GPA 3.00 for all programs
 - Exception: Computer and Information Sciences Min. GPA of 3.25
- **Quantitative Measure:** successful completion of at least 66.7 percent of all credits attempted annually at NSU.
- **Maximum Timeframe:** financial aid limited to 150 percent of the published length of your program
- **Pace:** successful completion of at least 66.7 percent of all attempted credits for your program

Transfer Credits

NSU will count transfer credit hours and advance placement hours that are accepted toward a student's educational program as both attempted and successfully completed hours. These hours will be included in pace and maximum time frame calculations; however, not in the annual quantitative measure calculation.

SAP Appeal

A student with extenuating circumstances may appeal the denial of student financial assistance by submitting a SAP Appeal form within 30 days from the day the failure notice was sent. The appeal must be made in writing, addressed to the Satisfactory Academic Progress Committee in care of the Office of Student Financial Assistance, and include the following documentation:

- Completed Satisfactory Academic Progress (SAP) Appeal Form (available at http://www.nova.edu/financialaid/forms/1213/sap_appeal.pdf)
- A letter written by the student describing why the student has failed SAP and what has changed that will allow the student to successfully meet SAP in the future
- A physician's note and/or records if the appeal is based on medical circumstances
- Additional supporting documents, if appropriate

A student's appeal may be approved on a probationary basis for one semester, as long as it is feasible for the student to meet all SAP requirements within one semester.

SAP Academic Plan

If a student is unable to feasibly meet all SAP requirements within one semester, an academic plan must be developed with the student's academic advisor. The academic plan will outline grade and course requirements that will allow the student to successfully meet SAP. If necessary, the academic plan may extend beyond the current academic year.

Under an academic plan, a student's progress will be monitored at the end of each semester in order to ensure that the student is progressing according to the requirements of the plan. As long as the student is progressing accordingly, the student will remain eligible for financial aid. If the student is not meeting the requirements of the plan, the student will not be eligible to receive financial aid until all components of SAP have been met.

Veterans Education Benefits

Department of Veterans Affairs educational benefits are designed to provide eligible individuals with an opportunity for educational and career growth. Eligible veterans and their dependents should contact the Veterans Benefits Office at (954) 262-7236; toll free 800-541-6682 ext. 27236, Monday through Friday, between the hours of 8:30 a.m. and 5:00 p.m., or visit the office in the Horvitz Administration Building on the main campus. Detailed information is also available on the veterans benefits Web page at <http://www.nova.edu/financialaid/veterans/>. If you have any questions concerning eligibility, you may also contact the U. S. Department of Veterans Affairs (DVA) at 888-442-4551 or visit their Web site at <http://www.gibill.va.gov>.

Standards of Academic Progress for Veteran Students

A student receiving veteran education benefits must maintain Satisfactory Academic Progress (SAP). Standards for SAP are published at www.nova.edu/sap. A student who, at the end of the SAP evaluation period, has not met SAP, may file an appeal based on extenuating circumstances. With an approved appeal, a veteran student may be certified veteran education benefits on a probationary basis. If the student does not meet SAP by the end of the probationary period (one evaluation period), the student's veteran education benefits will be terminated.

For VA payment of benefits purposes, an "I" (Incomplete) designation for a course must be converted to a credit grade counting toward graduation, or a failing grade, by the end of one calendar year unless permission for a delay is granted by the academic dean for that program.

Grade/Progress Reports for Students Receiving Veterans Benefits

Nova Southeastern University furnishes each student with a Notification of Posting of Grade with instructions on how to view an unofficial transcript that shows current status of grades and earned semester hours for all courses completed and/or attempted, and grades for courses in which the student is currently enrolled. At the end of every evaluation period (e.g., term, semester) each veteran can request an official transcript which shows the current status of grades and earned

semester hours for all courses completed and/or attempted. This transcript can be obtained from the One-Stop Shops at the Horvitz or Terry Administration Buildings or online at <https://sharklink.nova.edu/cp/home/displaylogin>.

Conduct Policy for Students Receiving Veterans Benefits

All VA students are expected to comply with the legal and ethical standards of this institution.

Academic dishonesty and/or nonacademic misconduct will result in disciplinary action. Specific instances of misconduct include, but are not limited to, cheating, plagiarism, knowingly furnishing false information to the institution, and forging or altering institution documents and/or academic credentials.

The institution reserves the right to require a student to withdraw at any time for misconduct as described above. It also reserves the right to impose probation or suspension on a student whose conduct is determined to be unsatisfactory.

Students who feel their rights have been denied are entitled to due process. Students should refer to the Appeal and Grievance Procedures listed in the *FSE Catalog and Student Handbook*.

Financial Aid Debt Management

Have you prepared a budget for your expenses? If not, now is the time to start. The financial decisions you make now will affect your ability to achieve your long-term financial goals. As an undergraduate student, you are able to receive Federal Direct Loans, in addition to grants and scholarships. As a dependent undergraduate student, you can borrow an aggregate (life-time) limit of up to \$31,000. It is important to remember, however, that every dollar you borrow will need to be paid back with interest. For instance, if you were to borrow the entire \$31,000, your monthly student loan repayment would be approximately \$356 per month.

Studies show that in order to comfortably pay back your student loans, the monthly payment should be less than 10 percent of your monthly income. That means in order to pay back \$356 per month; you will need a salary of at least \$42,810. Before you take out any student loans, you should get an idea of how much you will be making in your particular field upon graduation. You can check this information by visiting <http://www.collegegrad.com>, and looking up the entry level salary for your future profession.

Be Credit Card Smart!

- Credit cards are not free money; they are actually high interest loans in disguise. Familiarize yourself with the various fees associated with credit cards.
- Only take out one or two credit cards. The fewer you have the easier they are to manage.
- Shop around for the lowest interest rates.
- Make sure interest rates are fixed.
- You can save a lot of time and money by paying more than your minimum monthly credit card payment.
- If you have a balance of \$1,000 with a 16% interest rate, and you only make the minimum \$25 per month payment, it will take you 11 years and \$1,861 to pay off that \$1,000. However, by simply doubling your payment to \$50 per month, you can pay that same balance off in 2 years for only \$1,192.

Your college education should be as financially stress-free as possible. By preparing early, borrowing wisely, and taking the time to research options to finance your college education, you can avoid the financial pressures and focus on the wonderful and valuable experience offered at NSU.

The Office of the University Registrar

The University Registrar's Office offers a variety of diverse services to the university community. These services include, but are not limited to, course registration, transcript processing, name and address change, loan deferment, enrollment and degree verification, grade processing, commencement, degree conferral, and transfer of credit services. Additional information is available at <http://www.nova.edu/registrar/instructions.html>.

Curriculum, Advising, and Program Planning

The Curriculum, Advising, and Program Planning (CAPP) degree evaluation system allows students to compare their completed coursework against the degree requirements published in the college catalog. This useful reference tool helps you track your progress towards degree completion and is available through WebSTAR, the university's interactive online portal. Please note that CAPP does not replace your academic advisor or college catalog information. CAPP degree evaluations are not official. You should consult with your academic advisor/program office for detailed program requirements and course options. Final approval for the completion of graduation requirements is granted by your program office. For further information about CAPP degree evaluation, please visit the Registrar's Web site <http://www.nova.edu/capp>.

The University Bursar's Office

The Office of the University Bursar is responsible for billing students, collecting and depositing their payments, issuing refunds from excess financial aid funds, and verifying students' eligibility for a student loan. Please be aware of the following policies:

- Payment is due in full at the time of registration.
- Registration will be processed unless there is a hold on the student's account.
- Electronic bills are sent the middle of each month via email to the student's NSU email address. No paper bills are sent. Students can authorize additional users to receive an NSU eBill notification by signing the person on as an authorized user.
- If a student owes a balance 30 days after the start of the semester, a hold and a \$100.00 late fee will be placed on the account. This hold prevents future registrations, the viewing of grades, and access to the RecPlex at the University Center.
- If a balance exists after 90 days, the account will be placed in collections.

Late Payment Fee

All tuition and fees must be paid within 30 days after the start of the semester. A delay in excess of 30 days will result in the assessment of a nonrefundable \$100 late payment fee, and a hold will be placed on the student account. The hold will prevent the student from viewing grades, registering for future classes, ordering transcripts or diplomas, and accessing the Don Taft University Center RecPlex until the financial obligation is reconciled.

Method of Payment

NSU accepts Visa, MasterCard, and American Express as well as payments made by traveler's checks, cashier's checks, personal checks, and money orders and wire transfers. Electronic checks can be used through NSU eBill. International checks must be in U.S. funds only and drawn on a U.S. bank.

Credit card authorization forms can be downloaded from the Bursar's Web site at http://www.nova.edu/bursar/forms/cc_authorization.pdf and faxed to (954) 262-2473.

Payment Plans

Some graduate program offices offer payment plan options. Please check your program's Web site for details. In addition, NSU offers the following plans:

3-Month and 10-Month Payment Plans

NSU students (with the exception of international students) who wish to defer payment of their tuition, fees, and other institutional charges due at the time of registration may sign up for a 3-month or a 10-month payment plan. The 10-Month Payment Plan is available for the fall and winter semesters combined only. For details, visit http://www.nova.edu/bursar/payment/payment_plans.html.

Failure to make an installment payment, when due, may render this contract null and void, and will require immediate and full payment of all remaining charges. NSU will withhold all services from the student, including grades, diplomas, transcripts, and future registrations, until the outstanding balance has been paid in full.

Employer Tuition Assistance Plans

Undergraduate students participating in employer tuition assistance programs who wish to defer tuition payment need to submit a letter of eligibility, a purchase order from their employer, or details of the program from the employer's human resources office or the company Web site. They must also provide postdated payments (checks or credit card authorizations) for the amount of tuition. Payment, of tuition only (not fees), may then be deferred for five weeks after course completion. A \$75 deferment fee is charged for this service and must be paid at registration, along with all other fees. Students must notify the Office of Student Financial Assistance if they are participating in the Employer Tuition Assistance Plan. Graduate students should inquire with their program office regarding any employer tuition assistance deferment plans.

Florida Prepaid College Plan

NSU accepts and bills the Florida Prepaid College Plan for tuition, fees, and on campus housing. However, the plans are based on the tuition rates of the tax-assisted Florida public colleges and universities. The difference between NSU tuition, fees, and on campus housing costs and the allocations through the Florida Prepaid College Plan is the sole responsibility of the student. If a student is on the unrestricted plan, the student must designate a dollar amount for up to the cost of tuition and fees. Students new to NSU must contact Florida Prepaid at 800-552-GRAD to authorize NSU for payment. Additionally, each semester, the student must submit a copy of the front and back of the ID card with a signed statement indicating the number of credits or the amount to be invoiced. To learn more about the Florida Prepaid College Plan, click [Florida Prepaid College Plan](#).

Office of International Affairs

The Office of International Affairs (OIA) within Enrollment and Student Services (ESS) is committed to providing essential services to assist international students and visiting scholars at NSU achieve their academic goals. OIA serves as a resource to the university community and provides services and counseling expertise regarding U.S. government visa regulations and university life in the USA. The OIA acts as a liaison with federal agencies such as the USCIS, USIA, U.S. Department of State, and foreign governmental agencies. More than 1,100 international students and scholars from more than 124 countries have selected NSU as their academic destination. The OIA provides a wide variety of support services in the following areas:

- F-1 and J-1 visa counseling
- transfer assistance
- reinstatement
- travel documentation
- on- and off-campus employment
- assistance with CPT/OPT
- extension of stay
- Social Security
- Taxes
- health insurance
- cross-cultural activities
- international student orientation

The OIA is committed to welcoming international students, scholars, and their families while facilitating their transition to life at Nova Southeastern University. For further information, contact OISS at (954) 262-7240 or visit the Web site at <http://www.nova.edu/internationalstudents>.

Technical Help

The Help Desk provides telephone and email support to NSU students, faculty, and staff. Support services include assistance with connecting to NSU's online computing systems; navigating through the secure course management platform; resolving Personal Identification Number (PIN) issues; supporting wireless computing on campus; and configuring various software programs such as Microsoft Outlook, Netscape Navigator, and Internet Explorer. Contact the Help Desk at (954) 262-4357 (800-541-6682, ext. 24357) or help@nsu.nova.edu.

Enrollment and Student Services Contact Information

University Call Center

The University Call Center is available seven days a week to answer financial aid, bursar, registrar, and technical support questions.

University Bursar:	(954) 262-5200 or 800-806-3680
Office of Student Financial Assistance:	(954) 262-3380 or 800-806-3680
University Registrar:	(954) 262-7200 or 800-806-3680
Help Desk:	(954) 262-HELP (4357) or 800-541-6682, ext. 24357

The One-Stop Shop (Horvitz and Terry Administration Buildings)

The One-Stop Shop is the central point of information and service for walk-in prospective, new, and continuing students. The staff is cross-trained in financial aid, registration, bursar and student accounts functions, as well as to provide other types of status information and services that students may require. Stop by anytime during the hours of operation listed below: The One-Stop Shop is located in the Horvitz Building on the main campus as well as on the first floor of the Terry Administration Building.

Hours of operation: **Monday - Thursday 8:30 a.m. to 7:00 p.m.**
 Friday 8:30 a.m. to 6:00 p.m.
 Saturday 9:00 a.m. to 12 noon.

The University Call Center and the One-Stop Shop are closed on holidays observed by NSU.

Financial Policies and Information

Books—Estimated Cost for Books

Following is a list of estimated per year cost for books and supplies for each program. These figures represent an estimate and are not guaranteed.

Brain-Based Teaching (Master of Science and Educational Specialist)	\$674
Certificate of Advanced Graduate Studies (CAGS)	\$700
Doctor of Education (Including CYS, DEDL, DHEL, DOL, ITDE)	\$1392
Doctor of Philosophy	\$1200
Doctorate in Speech-Language Pathology	\$2150
Educational Specialist (GTEP & NGTE)	\$674
Master of Arts in Teaching & Learning (MATL)	\$827
Master of Science in Education (GTEP & NGTE)	\$674
Master of Science in Instructional Design and Diversity Education (IDDE)	\$740
Master of Science in Instructional Technology and Distance Education (ITDE)	\$882
Master of Science in Leadership	\$833
Master of Science in Speech-Language and Communication Disorders	\$1832

Continuing Dissertation Services Fees (FSE Policy 1.1.2)

- A. The Continuing Dissertation Services Fee is assessed to doctoral students for work on the applied dissertation upon the first occurrence of either:
1. Completion of all coursework, **or**
 2. 37th month since taking the first course in the doctoral program

Each semester, doctoral students must register for ADS 8091 via WebSTAR or a Student Transaction Form (STF). Registration every semester in ADS 8091 is required until the Dissertation Final-Approval Process has been completed. Students enrolled in ADS 8091 will be assessed the tuition and fees in effect for that course (see General Student Information: Tuition and Fees).

Students who are not enrolled in ADS 8091 or registered for one of the Applied Dissertation Benchmarks (i.e., Concept Paper, Proposal, and/or Final Report) are ineligible to receive dissertation services from their chair. Students who have earned a Progress (PR) grade for the Concept Paper, Proposal, and/or Final Report in their initial semester of enrolling in any one of these dissertation benchmarks, must register for ADS 8091.

- B. Students can only receive financial aid for up to 150 percent of the published length of the program (the number of credits required for completion of the program). In order to ensure consistency at NSU's Fischler School of Education, the 150 percent maximum timeframe is applied to all students, regardless of academic level until completion of a degree or certificate program. For example, students are entitled to financial aid for 104 credits for a program requiring 69 credits to graduate. All credits are part of the calculation including, but not limited to, repeat and incomplete coursework.
- C. All Students will receive an academic progress designation for all benchmarks and continuing dissertation courses, on a per semester basis.
- D. Each term, students will receive an academic designation showing a grade of Progress (PR), or No Progress (NPR) for ADS 8091.
- E. ADS 8091 bears one (1) credit which does not count as elective credit, or as credit toward required coursework
- F. Regardless of original program credit requirements, the total number of credits for the doctoral program may exceed the original minimum number of credits required for degree completion.
- G. Each term, all students enrolled in Applied Dissertation Services or Dissertation Benchmark are required to work with their dissertation services committee to demonstrate academic progress.
- H. Each term, students are expected to report their progress to their dissertation services committee via a standard Progress Report. A grade of Progress (PR) will be issued each term.

All dissertation services committee chairs are required to report their students' progress to the Applied Research Center by completing the *NSU—FSE Dissertation Progress Report*.

Fees

Application Fee

Application for Admission to the university must be accompanied by a \$50 non-refundable application fee.

Graduation Fee

An [Application for Degree](#) form should be submitted no later than the last term in which the student will complete his/her program. The application must be submitted with a \$75 application for degree fee (non-refundable). Please visit the Office of the Registrar's Web site at <http://www.nova.edu/registrar/instructions.html> for degree application and instructions. Graduation regalia can be purchased through the NSU Bookstore (<http://nsubooks.bncollege.com>) at an additional charge.

Late Payment Fee

If a student has a balance at 30 days after the official start of the term, a hold and a \$100 late payment fee will be placed on the account. If a balance exists after 90 days, the account will be placed in collections. Any further registrations received for an account with a hold will not be processed.

Late Registration Fee

Continuing students who register for classes after the registration deadline will be required to pay a \$100 late registration fee. Students should refer to the program schedule, posted on the respective Web site, regarding registration dates and deadlines.

Registration Fee

Students will pay a \$30 registration fee per term. This fee is non-refundable if a student withdraws on or after the first day of the term.

Speech-Language Program Fees

Students in the master's program in Speech-Language and Communication Disorders will be charged a \$200 lab fee for the following clinical courses: SLP 6005, SLP 6015, SLP 6101, SLP 6102, SLP 6110, SLP 6120 and SLP 6130. This fee is non-refundable if a student withdraws on or after the first day of the term.

Students participating in clinical experiences outside of Dade, Broward, and Palm Beach counties will be charged an additional fee for a faculty member's visit to the site. For students within the state of Florida, a \$400 fee will be charged for SLP 6101, SLP 6110, SLP 6120 (or SLP 6130), and a \$750 fee will be charged for students participating in SLP 6101, SLP 6110, SLP 6120 (or SLP 6130) outside the state of Florida. This fee is non-refundable if a student withdraws on or after the first day of the term.

University Student Services Fee

A \$150 fee will be charged for students registering for three credits or less in a given term. A \$300 fee will be charged for students registering for more than three credits per term. This fee is non-refundable if a student withdraws on or after the first day of the term.

Payment Options

Check Payments

The NSU Bursar's Office mails billing statements on the 15th of each month. If you choose to mail your tuition and fees prior to receiving your statement, check the NSU Web site at <http://www.nova.edu/financialaid/> or call (954) 262-5200 or 800-522-3243 to inquire about your balance. Otherwise, when you receive your statement, mail your payment, along with the remittance stub, directly to:

Nova Southeastern University
Bursar's Office
3301 College Avenue
Fort Lauderdale-Davie, FL 33314-7796

Credit Card Payments

Tuition and fees may also be paid by credit card (American Express, MasterCard, or Visa). Download the NSU Credit Card Form at: http://www.nova.edu/bursar/payment/pay_my_bill.html. Mail the completed form to the NSU Bursar's Office at the above address, or fax it to the Bursar's Office at (954) 262-5203.

Students may also use their credit cards to make payments online by following the steps outlined below.

1. Log on to WebSTAR's homepage at <http://webstar.nova.edu/> or use the links provided on NSU's Web site.
2. Select the "Enter Secure Area" option and use your NSU student ID and PIN number to log on.
3. Select the "Student Services & Financial Aid" option.
4. Select the "Student Records" option.
5. Select the "Account Summary by Term" or "Account Summary" option.
6. Select the "Credit Card Payment" option located at the bottom of the screen and follow the prompts as directed.

Note: Whether you use a personal check or credit card, be sure to include your full name and NSU student ID number so that your payment can be correctly credited to your student account.

Revoked Payments

A processing fee will be assessed for any check returned to the NSU Bursar's Office for nonpayment. When checks are returned for nonpayment or credit card payments are declined, the corresponding fees/dues will be charged against the student's account.

Tuition Refund Policy (FSE Policy 1.1.1)

A student who cancels his /her registration before the first class meeting/session is entitled to a full tuition refund; student fees are also refundable.

A student who drops a course after the first class meeting will receive a partial tuition refund. The partial tuition refund will be based on the number of class meetings/sessions held during the term as of the date of receipt of a completed [Student Transaction Form](#) (STF).

A student who drops a course after the first class meeting must:

1. Notify the Office of Student Services Registration Department of the intent to drop a course.
2. Complete a STF to drop or withdraw and return the completed form to a Student Educational Center or mail or fax the completed form to:

Nova Southeastern University
Abraham S. Fischler School of Education
Office of Student Services
ATTN: Registration Department
1750 NE 167th Street
North Miami Beach, FL 33162
Fax (954) 262-2336

A student may not withdraw one week before the end of the term/semester. Students are considered active participants in all classes for which a registration has been accepted and processed. Active participation (i.e., educational activity) includes attendance, logging onto an online course, the submission of assignments, or examinations, etc. A student who stops attending class will receive a final grade based on course requirements and work completed. An official drop request must be submitted and received by the Office of Student Services in order to drop/withdraw a student from class.

FSE Refund Amounts based on a 14 week to 16-week schedule

100% Tuition and Student Fees	Written notice of drop/withdrawal before the official start date of the term.
50% Tuition	Written notice of drop/withdrawal before the end of the 6th week of class following the official start date of the term.
25% Tuition	Written notice of drop/withdrawal by the end of the 8th week of class following the official start date of the term.
No Refund	No refunds will be granted after the end of the 9th week of the class meeting.

FSE Refund Amounts based on an 8-week schedule

100% Tuition and Student Fees	Written notice of drop/withdrawal before the official start date of the term.
50% Tuition	Written notice of drop/withdrawal before the end of the 3rd week of class following the official start date of the term.
25% Tuition	Written notice of drop/withdrawal by the end of the 4th week of class following the official start date of the term.
No Refund	No Refund will be granted after the end of the 4th week of class.

This policy is designed to meet refund requirements in all of the states where the Abraham S. Fischler School of Education offers its programs.

Individual State Refund Policies

If a student attends a class in one of these states, the specific state refund policy will be applied in addition to the Abraham S. Fischler School of Education Tuition Refund Policy. These policies are outlined below.

Arizona

Students residing in the state of Arizona will have full tuition refunded within three (3) days, excluding Saturday, Sunday, and state and federal holidays, of signing the Enrollment Agreement. During the first 70 percent of a course, term, or seminar, a withdrawing student will receive a prorated refund for the percentage of time not attended. The minimum refund is 40 percent. Thereafter, a refund is not available.

Indiana

Students residing in the state of Indiana will have full tuition refunded within six (6) business days if the student cancels their enrollment agreement or enrollment application. The institution must make the proper refund no later than thirty-one (31) days of the student's request for cancellation or withdrawal.

Missouri

Students residing in the state of Missouri will have full tuition refunded within three (3) days, excluding Saturday, Sunday, and state and federal holidays, of signing the Enrollment Agreement. The percentage of clock hours attempted is determined by dividing the total number of clock hours attended from the official start date of the term to the student's last date of attendance, by the total number of clock hours enrolled in the program.

Individual State Refund Procedures

Arizona

Example 1: Student attended 3 class meetings (12 clock hours) of an eight-class (32 clock hours) course, for which the charge was \$1,935.

% Refund	Attendance
62%	Based on the number of classes: 8 – 3 = 5 classes not attended
62% x \$1,935 = \$1,199.70	$5 \div 8 = 62\%$ of the session not completed
Total Refund \$1,199.70	

Example 2: Student attended five weeks (40 clock hours) of a 16 week term (128 clock hours), for which the charge was \$2,535.

% Refund	Attendance
69%	Based on the number of classes: 16 – 5 = 11 weeks not attended
69% x \$2,535 = \$1,742.81	$11 \div 16 = 69\%$ clock hours not completed
Total Refund \$1,742.81	

California

The institution provides a pro rata refund of unearned institutional charges to students who complete 75 percent or less of the period of attendance.

The institution provides to all students the right to cancel the enrollment agreement and obtain a refund of charges paid through attendance at the second class session, or the 14th day after enrollment, whichever is later.

Indiana

A student withdrawing from an instructional program, after attending one (1) week or less, is entitled to a refund of ninety percent (90%) of the cost of the financial obligation, less an application/enrollment fee of ten percent (10%) of the total tuition, not to exceed one hundred dollars (\$100).

A student withdrawing from an instructional program, after attending more than one (1) week but equal to or less than twenty-five percent (25%) of the duration of the instructional program, is entitled to a refund of seventy-five percent (75%) of the cost of the financial obligation, less an application/enrollment fee of ten percent (10%) of the total tuition, not to exceed one hundred dollars (\$100).

A student withdrawing from an instructional program, after attending more than twenty-five percent (25%) but equal to or less than fifty percent (50%) of the duration of the instructional program, is entitled to a refund of fifty percent (50%) of the cost of the financial obligation, less an application/enrollment fee of ten percent (10%) of the total tuition, not to exceed one hundred dollars (\$100).

A student withdrawing from an instructional program, after attending more than fifty percent (50%) but equal to or less than sixty percent (60%) of the duration of the instructional program, is entitled to a refund of forty percent (40%) of the cost of the financial obligation, less an application/enrollment fee of ten percent (10%) of the total tuition, not to exceed one hundred dollars (\$100).

A student withdrawing from an institutional program, after attending more than sixty percent (60%) of the duration of the instructional program, is not entitled to a refund.

Missouri

% of the Clock Hours Attempted	Tuition Refund Amount
10% or less	90%
More than 10% and less than or equal to 20%	80%
More than 20% and less than or equal to 30%	70%
More than 30% and less than or equal to 40%	60%
More than 40% and less than or equal to 50%	50%
More than 50% and less than or equal to 60%	No Refund

Refunds will be issued within 30 days of the date of student notification, or date of school determination (withdrawn due to absences or other criteria as specified in the FSE catalog), or in the case of a student not returning from an authorized Leave of Absence, within 30 days of the date the student was scheduled to return from the Leave of Absence and did not return.
